Approximate date of commencement of proposed sale to the public: As soon as practicable after the effective date of this registration statement.

If any of the securities being registered on this Form are to be offered on a delayed or continuous basis pursuant to Rule 415 under the Securities Act of 1933 check the following box.

If this Form is filed to register additional securities for an offering pursuant to Rule 462(b) under the Securities Act, please check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If this Form is a post-effective amendment filed pursuant to Rule 462(c) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

If this Form is a post-effective amendment filed pursuant to Rule 462(d) under the Securities Act, check the following box and list the Securities Act registration statement number of the earlier effective registration statement for the same offering.

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, a smaller reporting company or an emerging growth company. See the definitions of "large accelerated filer," "accelerated filer," "smaller reporting company" and "emerging growth company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer
Non-accelerated filer Smaller reporting company
Emerging growth company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 7(a)(2)(B) of the Securities Act.

CALCULATION OF REGISTRATION FEE

Title of Each Class of Security Being Registered	Amount Being Registered	Proposed Maximum Offering Price per Security⁽¹⁾	Proposed Maximum Aggregate Offering Price⁽¹⁾	Amount of Registration Fee
Units, each consisting of one share of Class A common stock, \$0.0001 par value per share, and one-third of one redeemable warrant ⁽²⁾	31,625,000 Units	\$ 10.00	\$ 316,250,000	\$ 34,502.88
Shares of Class A common stock included as part of the units ⁽³⁾ ⁽⁴⁾	31,625,000 Shares	—	—	— ⁽⁵⁾
Redeemable warrants included as part of the units ⁽³⁾ ⁽⁴⁾	10,541,667 Warrants	—	—	— ⁽⁵⁾
Total			<u>\$ 316,250,000</u>	<u>\$ 34,502.88⁽⁶⁾</u>

- (1) Estimated solely for the purpose of calculating the registration fee pursuant to Rule 457(a) under the Securities Act of 1933, as amended, or the Securities Act.
- (2) Includes 4,125,000 units which may be issued upon exercise of a 45-day over-allotment option granted to the underwriters.
- (3) Pursuant to Rule 416 under the Securities Act, there are also being registered an indeterminable number of additional securities as may be issued to prevent dilution resulting from stock splits, stock dividends or similar transactions.
- (4) Maximum number of shares of Class A common stock and redeemable warrants, as applicable, included in the units described above, including those that may be issued upon exercise of a 45-day option granted to the underwriters described above.
- (5) No fee pursuant to Rule 457(g) under the Securities Act.
- (6) Previously paid.

The Registrant hereby amends this Registration Statement on such date or dates as may be necessary to delay its effective date until the Registrant shall file a further amendment which specifically states that this Registration Statement shall thereafter become effective in accordance with Section 8(a) of the Securities Act of 1933, as amended, or until the Registration Statement shall become effective on such date as the Securities and Exchange Commission, acting pursuant to said Section 8(a), may determine.

Table of Contents

The information in this preliminary prospectus is not complete and may be changed. We may not sell these securities until the registration statement filed with the Securities and Exchange Commission is effective. This preliminary prospectus is not an offer to sell these securities and it is not soliciting an offer to buy these securities in any jurisdiction where the offer or sale is not permitted.

SUBJECT TO COMPLETION, DATED FEBRUARY 5, 2021

PRELIMINARY PROSPECTUS

\$275,000,000
Foresight Acquisition Corp.
27,500,000 Units

Foresight Acquisition Corp. is a newly incorporated blank check company formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses. We have not selected any business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any business combination target.

This is an initial public offering of our securities. Each unit has an offering price of \$10.00 and consists of one share of our Class A common stock and one-third of one redeemable warrant. Each whole warrant entitles the holder thereof to purchase one share of our Class A common stock at a price of \$11.50 per share, subject to adjustment as described in this prospectus, and only whole warrants are exercisable. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. The warrants will become exercisable on the later of 30 days after the completion of our initial business combination and 12 months from the closing of this offering, and will expire five years after the completion of our initial business combination or earlier upon redemption or liquidation, as described in this prospectus. Subject to the terms and conditions described in this prospectus, we may redeem the warrants once the warrants become exercisable. We have also granted the underwriters a 45-day option to purchase up to an additional 4,125,000 units to cover over-allotments, if any.

We will provide our public stockholders with the opportunity to redeem all or a portion of their shares of our Class A common stock upon the completion of our initial business combination at a per-share price described herein, payable in cash, subject to the limitations described herein. If we have not completed our initial business combination within 24 months from the closing of this offering, we will redeem 100% of the public shares at a per-share price described herein, payable in cash, subject to applicable law and as further described herein.

Our sponsor, Foresight Sponsor Group, LLC, and FA Co-Investment LLC (an affiliate of one of the underwriters of this offering) have committed to purchase an aggregate of 750,000 units (or 832,500 units if the underwriters' over-allotment option is exercised in full) at a price of \$10.00 per unit (\$7,500,000 in the aggregate, or \$8,325,000 in the aggregate if the underwriters' over-allotment option is exercised in full) in a private placement that will close simultaneously with the closing of this offering. We refer to our sponsor and FA Co-Investment collectively as our "sponsors" throughout this prospectus. Each private placement unit consists of one share of our Class A common stock and one-third of one warrant.

As of the date of this prospectus, our initial stockholders hold 7,906,250 shares of our Class B common stock (up to 1,031,250 of which are subject to forfeiture depending on the extent to which the underwriters' over-allotment option is exercised). The shares of our Class B common stock will automatically convert into shares of Class A common stock at the time of our initial business combination, or earlier at the option of the holder, on a one-for-one basis, subject to adjustment as provided herein. Prior to our initial business combination, holders of our Class B common stock will have the right to elect all of our directors and may remove members of our board of directors for any reason. On any other matter submitted to a vote of our stockholders, holders of our Class B common stock and holders of our Class A common stock will vote together as a single class, except as required by applicable law or stock exchange rule.

Prior to this offering, there has been no public market for our units, Class A common stock or warrants. We have applied to list our units on the Nasdaq Capital Market, or Nasdaq, under the symbol "FOREU" on or promptly after the date of this prospectus. We cannot guarantee that our securities will be approved for listing on Nasdaq. The Class A common stock and warrants constituting the units will begin separate trading on the 52nd day following the date of this prospectus (or, if such date is not a business day, the following business day), unless Cowen and Company, LLC informs us of its decision to allow earlier separate trading, subject to certain conditions. Once the securities constituting the units begin separate trading, we expect that the Class A common stock and warrants will be listed on Nasdaq under the symbols "FORE" and "FOREWS," respectively.

We are an "emerging growth company" and "smaller reporting company" under applicable federal securities laws and will be subject to reduced public company reporting requirements. Investing in our securities involves risks. Please see "Risk Factors" on page 43. Investors will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings.

Per Share	Price to Public	Underwriting Discounts and Commissions⁽¹⁾	Proceeds, before expenses, to us
Total	\$ 10.00	\$ 0.20	\$ 9.80
	\$ 275,000,000	\$ 5,500,000	\$ 269,500,000

(1) Needham & Company, LLC will receive a fee of \$100,000 from the total underwriting discount in consideration for its services and expenses incurred as a "qualified independent underwriter." See also "Underwriting (Conflicts of Interest)" for a description of compensation and other items of value payable to the underwriters.

Of the proceeds we receive from this offering and the sale of the private placement units described in this prospectus, \$275.0 million, or \$316.25 million if the underwriters' over-allotment option is exercised in full (\$10.00 per unit in either case), will be deposited into a U.S.-based trust account at J.P. Morgan Chase Bank, N.A., with Continental Stock Transfer & Trust Company acting as trustee.

The underwriters are offering the units for sale on a firm commitment basis. Delivery of the units will be made on or about _____, 2021.

Neither the SEC nor any state securities commission has approved or disapproved of these securities or determined if this prospectus is truthful or complete. Any representation to the contrary is a criminal offense.

SUMMARY

This summary only highlights the more detailed information appearing elsewhere in this prospectus. As this is a summary, it does not contain all of the information that you should consider in making an investment decision. You should read this entire prospectus carefully, including the information under "Risk Factors" and our financial statements and the related notes included elsewhere in this prospectus, before investing.

Unless otherwise stated in this prospectus or the context otherwise requires, references to:

- *"amended and restated certificate of incorporation" are to our certificate of incorporation to be in effect upon the completion of this offering;*
- *"common stock" are to our Class A common stock and our Class B common stock;*
- *"directors" are to our current directors and our director nominees named in this prospectus;*
- *"equity-linked securities" are to any debt or equity securities that are convertible, exercisable or exchangeable for shares of our Class A common stock issued in a financing transaction in connection with our initial business combination, including but not limited to a private placement of equity or debt;*
- *"founder shares" are to shares of our Class B common stock and the shares of our Class A common stock issued upon the conversion thereof;*
- *"FA Co-Investment" are to FA Co-Investment LLC, an affiliate of one of the underwriters of this offering;*
- *"Foresight," "we," "us," "our" or the "company" are to Foresight Acquisition Corp., a Delaware corporation;*
- *"initial stockholders" are to our sponsor, FA Co-Investment and the other holders of our founder shares prior to this offering;*
- *"management" or our "management team" are to our officers and directors;*
- *"private placement shares" are to the shares of Class A common stock sold as part of the private placement units;*
- *"private placement units" are to the units issued to our sponsors in a private placement simultaneously with the closing of this offering;*
- *"private placement warrants" are to the warrants sold as part of the private placement units;*
- *"public shares" are to shares of our Class A common stock sold as part of the units in this offering (whether they are purchased in this offering or thereafter in the open market);*
- *"public stockholders" are to the holders of our public shares, including our sponsors, officers and directors to the extent our sponsors, officers or directors purchase public shares, provided that each of their status as a "public stockholder" shall only exist with respect to such public shares;*
- *"public warrants" are to (1) our redeemable warrants sold as part of the units in this offering (whether they are purchased in this offering or thereafter in the open market) and (2) any warrants included in the private placement units or units issued upon conversion of working capital loans that are sold to third parties that are not the sponsors or their respective permitted transferees;*
- *"sponsor" are to Foresight Sponsor Group, LLC, a Delaware limited liability company; and*
- *"sponsors" are to our sponsor and FA Co-Investment, collectively.*

Unless we tell you otherwise, the information in this prospectus assumes that the underwriters will not exercise their over-allotment option and the forfeiture by our sponsors of 1,031,250 founder shares.

General

We are a newly organized, blank check company incorporated as a Delaware corporation and formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses or entities. We have not selected any specific target business and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any target business regarding a business combination with our company.

While we may pursue an initial business combination with a business in any industry, sector or stage of its corporate evolution, we initially intend to capitalize on the track record and experience of our management team and sponsor and focus our search in the technology-enabled consumer and consumer healthcare industries. We believe our team is uniquely positioned and will have proprietary deal flow in these sectors given our collective successful track record as operators, investors and entrepreneurs, and our principals' track record of success initiating transformative mergers and acquisitions, operational acumen and strong network in these sectors.

We intend to identify and acquire a business that could benefit from a hands-on owner with extensive operational experience and the public company expertise our management team possesses, and/or that relies on the target's executive and operational expertise but presents potential for an attractive risk-adjusted return profile under our stewardship.

Our team is led by Greg Wasson, former CEO and President of Walgreens Boots Alliance (NASDAQ: "WBA"), the first global pharmacy-led, health, well-being, and beauty enterprise. Mr. Wasson is recognized throughout the drugstore and healthcare industry for transformational leadership, innovation, bold business decisions and executing on strategic long-term visions. Since retirement from WBA, Mr. Wasson formed his own family office, Wasson Enterprise. In this capacity, Mr. Wasson has invested in and nurtured a portfolio of investments in which he actively adds value through his ability to catalyze relationships for businesses, primarily in the capacity of customers, channel partners, key hires and strategic investors. The ability to create enterprise value has been demonstrated through co-founding, recapitalizing and making growth investments into numerous high-growth entrepreneurial businesses.

We believe that our management team is well positioned to identify attractive risk-adjusted returns in the marketplace and will leverage our collective network and transaction sources, including industry executives, private owners, private equity funds, and investment bankers, to execute our initial business combination where we drive long-term value as partners.

Our Sponsor

Foresight was formed as a partnership among and will be led by Greg Wasson, our Chairman and former CEO and President of Walgreens Boots Alliance, and two former Co-Portfolio Managers of William Blair's Small Cap Growth Investment Funds, Mike Balkin, our Chief Executive Officer, and Karl Brewer. Foresight will leverage Mr. Wasson's family office, Wasson Enterprise, through the process of identifying and evaluating targets. Over the course of the last five years, Mr. Wasson has built a strong infrastructure consisting of resources dedicated to investment identification and diligence, finance, human resources, marketing and operations. With this support, Mr. Wasson has helped to co-found high-growth businesses, catalyze mature businesses and deploy capital as a strategic investor in other private companies in the retail, consumer and healthcare sectors.

In addition to the founders, Messrs. Wasson, Balkin and Brewer, we've built a world-class founding sponsor team, consisting of successful former public company C-suite executives and private equity

industry leaders. Our sponsor team will provide us with valuable strategic, operational, product management, analytical, financial, transactional, communications, legal, and other expertise and networks that we will leverage to identify and execute a business combination and drive future value for the combined business. We believe our team's high level of operating experience and business building; far, wide and deep networks; and ability to tap into that experience and network will provide valuable access to the highest quality consumer growth companies. Once our team has identified a potential opportunity for an initial business combination, we believe we will have the operational expertise to drive efficiencies across the target business while also helping to make strategic customer and partner introductions to drive revenues. Our team will look to identify companies built on sustainable business models, customer-obsessed company cultures, strong unit economics, and differentiated product offerings. Through our management team's network and operational expertise, we expect to increase the value of the enterprise, improve the company's financial positioning and ultimately generate strong stockholder returns.

Our Team

We are led by an experienced team of C-level operators, managers and investors. Our team's vast network and synergistic experience in large company leadership roles, industry-changing mergers & acquisitions and institutional public markets investing provide us with unique positioning as it relates to finding a target and adding value post-close. Our board will also consist of key individuals who have served in roles at the most senior levels of public corporations and private equity firms. We believe our decades of partnership and experience, together with our collective network, will uniquely position us to identify and successfully merge with an attractive target company.

Greg Wasson serves as Chairman of the Board. Mr. Wasson currently serves as President and Founder of his own family office, Wasson Enterprise. Wasson Enterprise's focus is to partner with entrepreneurs and operators to build sustainable, high-growth businesses that do well by doing good. As the former CEO and President of Walgreens, Mr. Wasson has extensive global operational and management experience, as well as extensive knowledge of the retail and healthcare industries. Mr. Wasson attended Purdue University's School of Pharmacy, receiving his pharmacy degree in 1981. Before his senior year, he was invited to become one of the first pharmacy services interns in Walgreens' corporate offices—an opportunity that led to his being hired by Walgreens upon graduation and that changed the course of his future career. Mentored by many company leaders through the years, together with his outstanding performance in positions of increasing responsibility, Mr. Wasson served Walgreens for 34 years. As Walgreens CEO, Mr. Wasson led the Fortune 35 company to record fiscal 2014 sales of \$76.4 billion. He is credited with creating significant financial and shareholder value, initiating and completing transformative mergers and investments, leading complex organizational and structural change, assembling a diverse and high-performance senior leadership team, and establishing Walgreens' position as an industry leader. Before retiring from Walgreens, Mr. Wasson had transformed an iconic 114-year-old domestic company into the first global pharmacy-led, health, well-being and beauty enterprise via the successful merger with European-based Alliance Boots to create Walgreens Boots Alliance. Mr. Wasson currently serves on the Board of Directors of OptimizeRx Corp. (NASDAQ: OPRX).

Michael Balkin serves as our Chief Executive Officer and Director. Mr. Balkin has over 30 years of experience in working with public companies in the small cap space. Mr. Balkin was a partner and formerly the co-Manager of the William Blair Small Institutional portfolio and the William Blair Small Cap Growth Fund, which he and his partners, Karl Brewer and Mark Fuller, started in 1999. He and his team managed nearly \$1.8 billion dollars in total assets and have been named among the top small cap funds multiple times by publications such as Barrons, Morningstar, Lipper and Institutional Investor Magazine. From 2005 to 2008, Mr. Balkin was a partner at Magnetar Capital, LLC, a multi-strategy hedge fund located in Evanston, Illinois. While at Magnetar, Mr. Balkin was the Portfolio Manager in

charge of the small cap long-short strategy and was also the Chief Investment Officer of Magnetar Investment Management, a wholly owned asset management subsidiary of Magnetar Capital. He rejoined William Blair & Company in 2008. He originally joined William Blair in 1990, working in the sell-side institutional research sales group, specializing in small cap growth companies. Prior to joining William Blair, he was the co-founder of Cityview Associates, Inc., a real estate firm specializing in “value-added” real estate transactions. Prior to starting Cityview Associates, Mr. Balkin had various roles at First Chicago and Bankers Trust. In addition to his work with William Blair, Mr. Balkin has helped dozens of small companies grow as an angel investor, mentor and board member. He is currently the Chairman of the Board of Performance Health Systems, LLC and is a member of the board of managers of the Innventure Fund, an Intellectual Property-based development fund started by Greg Wasson. Mr. Balkin is also active in many charities and is on the board of the Friends of the Israeli Defense Forces, Good Sports and is a major advocate and fund raiser for Cystic Fibrosis and the Illinois Holocaust Museum. Mr. Balkin graduated with a Bachelor's degree in Economics from Northwestern University, where he was also a two year Captain of the tennis team.

Gerald Muizelaar serves as our Chief Financial Officer. Mr. Muizelaar brings over 15 years of financial leadership in private equity, manufacturing, retail and customer service. Mr. Muizelaar has served as Vice President of Finance for Wasson Enterprise, the family office of Greg Wasson, since 2017. Mr. Muizelaar's strong focus implementing robust financial processes and systems, ensuring regulatory compliance, and bolstered financial visibility have been a key factor in Wasson Enterprise's success. As a former North American Finance Manager for Amazon, Mr. Muizelaar led all U.S., Canadian and Latin American customer service finance teams. He and his team provided financial insights and analysis for a customer service network that encompassed over 10,000 employees and an annual P&L in excess of \$250 million. Mr. Muizelaar's leadership and deep understanding of operations were influential in optimizing costs for Amazon's North American Customer Service team, while simultaneously growing its operations by 30% annually and consistently driving quality improvements to keep Amazon ranked #1 in the World for Customer Service. Mr. Muizelaar holds a Bachelor of Business Administration from Acadia University and a MBA from Dalhousie University.

Karl Brewer is one of our founders and advisors. Mr. Brewer is a private investor focused on small public and private growth companies. Until December 2017, he was Portfolio Manager of the Small Cap Growth and Small-Mid Cap Growth Funds at William Blair, having joined the Small Cap Growth team in 1999 and the Small-Mid Cap Growth team in 2002. He joined William Blair in 1996, serving as a research analyst for three years. Before that, he was in the mergers & acquisitions and corporate finance departments at Lehman Brothers Inc. for six years. Mr. Brewer graduated from Washington and Lee University with a BA in Economics and earned an MBA from Northwestern University's Kellogg Graduate School of Management.

Brian Gamache has agreed to serve on the Board of Directors. Mr. Gamache was the former Chairman and CEO of WMS Industries Inc., a designer, manufacturer and marketer of games for the casino and on-line gaming industries. Prior to rejoining WMS, he served as President of Wyndham International's Luxury and Resort Division. Before Wyndham, he served as President and Chief Operating Officer of WHG Resorts and Casinos, Inc., a subsidiary of WMS Industries. He previously held various executive positions with Marriott Hotel Corporation and Hyatt Hotels Corporation. Mr. Gamache is on the Board of Directors at Welbilt, Inc. (NYSE: WBT) and currently serves as an advisor to several private equity firms and corporations. He is a guest lecturer at Northwestern University's Kellogg School of Management. Mr. Gamache graduated from the University of Florida with a degree in Business Administration, where he currently serves as a member of the Dean's Council to the Warrington School of Business.

Robert Zimmerman has agreed to serve on the Board of Directors. Mr. Zimmerman is an independent consultant since retiring from Walgreens in 2014, focusing on healthcare, specifically retail pharmacy services and pharmacy benefit management. His primary consulting work has been with knowledge transfer companies (GLG and Guidepoint) with significant short-term assignments with end business clients as well as hedge funds and consulting firms. He has also consulted directly with private equity and hedge funds. Until April 2014, Mr. Zimmerman served as Chief Strategy Officer and SVP of Corporate Development at Walgreens. In these roles, he worked directly with the CEO and Executive Committee on strategic plans helping transform Walgreens from a drug store chain to an international integrated health care provider. He also led the development and execution of Walgreens M&A strategy, including the largest transaction in Walgreens' history, the acquisition of Alliance Boots. Prior to his tenure as CSO, he served as CFO and EVP of WHP Health Initiatives, Walgreens' managed care division. He held responsibility for the division's finance, strategy, new business and product development initiatives, acquisitions, pharmaceutical trade relations, and Customer Care Center operations. Mr. Zimmerman currently also serves as a Board Member on the State of Illinois Board of Pharmacy (–since 2016), where he was appointed by the Governor of Illinois. Mr. Zimmerman graduated from Eastern Illinois University in 1973 with a Bachelor of Finance, and from Northern Illinois University in 1984 with an MBA.

John Svoboda has agreed to serve on the Board of Directors. Mr. Svoboda co-founded Svoboda Capital Partners ("SC") in January 1998 with Michelle Collins. Mr. Svoboda serves on the boards of SC portfolio companies BPI/Incite, One North Interactive, Sonoma Creamery and SWC Technology Partners. Prior to co-founding SC, Mr. Svoboda worked in the Corporate Finance Department of William Blair & Company LLC (1983 to 1997), where he managed Business Development and became a Partner in 1988. Mr. Svoboda serves as a trustee of the University of Chicago Medical Center. Mr. Svoboda also serves as a trustee for the Otho S. A. Sprague Memorial Institute, the Auditorium Theatre where he was Chairman of the Board, as an honorary trustee of Marwen and as a life trustee of the Francis W. Parker School. He served on the Advisory Council of Stanford's Graduate School of Business and served on the Steering Committee for the Stanford Campaign. Mr. Svoboda has also served on several alumni and fundraising committees for both Williams College and the Stanford Business School, as well as capital campaigns for the Greater Chicago Food Depository and the University of Chicago Comer Children's Hospital. Mr. Svoboda is also active as a mentor and selection committee member for the Pat Tillman Foundation and is a member of the Commercial Club of Chicago. Mr. Svoboda graduated from Williams College with a BA in 1979 and received his MBA from the Stanford Graduate School of Business in 1983.

We will be further supported by a team of advisors which is comprised of current and former executives with significant investment and operating experience across a wide range of sub-sectors. These advisors and executives will provide us with access to their expertise and extensive networks from which we intend to source and evaluate potential targets as well as assist in the future value creation plans of any business that we acquire. Our team of advisors are described below.

Mark Thierer is one of the most successful executives in the healthcare services industry. A lifelong leader in the healthcare space, he is known for his ability to bring companies to new levels of financial and operational success. In what has been called a "rags-to-riches" business tale, Mr. Thierer transformed a small pharmacy benefit management company (PBM) called SXC Health Solutions into one of America's biggest and fastest growing players — and then facilitated a \$12.8 billion sale to Optum. In the five-year period after Mr. Thierer joined the company he achieved a 3,400% increase in revenues and a 10-fold jump in profits. Following a merger with Catalyst Health Solutions, SXC moved its headquarters to Chicago. Under a new name, Catamaran (NASDAQ: CTRX), the company continued its ascent to the top of the pharmacy benefits technology space. When UnitedHealth Group,

Inc. acquired Catamaran in 2015 to create OptumRx, Mr. Thierer stayed with OptumRx to continue to lead the business as CEO. After OptumRx, Mr. Thierer served as interim CEO at dental equipment giant Dentsply Sirona (NYSE: XRAY). He also formed the local investment firm, Assetblue Investment Group, where he serves as Managing Partner. Mr. Thierer serves on multiple public company boards and is active in private equity investing. Mr. Thierer holds a BS in Finance with distinction from the University of Minnesota, and an MBA from Nova Southeastern. He also holds a Certified Employee Benefit Specialist (CEBS) designation from the Wharton School.

Kermit Crawford is a pharmacy, health and wellness expert who has led transformational change and cost-saving programs in highly competitive consumer-focused businesses. He most recently served as President and Chief Operating Officer for Rite Aid Pharmacy (NYSE: RAD), a Fortune 500 company with more than 2500 retail locations. He began his over 30-year corporate career at Walgreens (NASDAQ: WBA), the world's largest drug store chain, where he rose from pharmacist/store manager to Executive Vice President and President of Pharmacy, Health & Wellness, the corporation's largest business unit. Mr. Crawford's private equity experience includes serving as operating partner, adviser, and consultant for Sycamore Partners, a New York-based firm specializing in retail and consumer investments. Mr. Crawford is an Independent Director and Chair of the Audit Committee for Allstate Corporation (NYSE: ALL) and he also serves as a Director and member of the Audit and Compliance and Technology, Privacy, & Cybersecurity Committee for TransUnion (NYSE: TRU). Mr. Crawford has received many notable honors for his expertise and contributions. Chain Drug Review honored him with the "Lifetime Achievement Award" in 2014 and Drug Store News presented him with its 2014 "Pharmacy Innovator Award." Savoy Magazine named Crawford one of the "Top 100 Most Influential Blacks in Corporate America" in 2018, and Black Enterprise Magazine named Crawford to its prestigious list of "America's Most Powerful Black Directors" in 2018. Mr. Crawford received his BS in Pharmacy from The College of Pharmacy and Health Sciences at Texas Southern University.

Matt Shattock served as non-executive chairman of the board of Beam Suntory Inc., the world's third-largest premium spirits company, from April 2019 until December 2020. He previously served as chairman and CEO of Beam Suntory for ten years, having joined Beam in March 2009 as president and CEO. He led the company's successful growth strategy transformation and subsequent transition to become a standalone public company in 2011. Subsequently, he led the integration of the Beam and Suntory spirits businesses following Suntory's \$16 billion acquisition of Beam in 2014. Prior to joining Beam, he spent six years at Cadbury plc, an international confectionery manufacturer, where he led its businesses first in the Americas and then in the Europe, Middle East and Africa region. Prior to Cadbury, he spent 16 years at Unilever, an international manufacturer of food, home care and personal care products, in various leadership positions, culminating in his role as chief operating officer of Unilever Best Foods North America. Mr. Shattock brings significant experience in the consumer-packaged goods industry. He has a strong track record of driving organic growth through innovation, brand communication and operational excellence, together with significant M&A and integration experience. Mr. Shattock's public company experience also includes his membership of the VF Corporation and Clorox boards in the US and Domino's Pizza Group PLC in the UK, where he chairs the board.

Theodore Koenig is the President, CEO and Founder of Monroe Capital and has over 30 years of experience in structuring and investing in debt and equity transactions. Mr. Koenig also serves as the Chairman, President and CEO of Monroe Capital Corporation (NASDAQ: MRCC), a publicly traded business development company (BDC). Prior to founding Monroe Capital in 2004, Mr. Koenig was President and CEO of Hilco Capital LP, a junior secured/mezzanine debt fund established in 2000. Prior to that, Mr. Koenig spent 13 years at the Chicago-based law firm of Holleb & Coff as partner and

co-chair of the firm's Corporate Law, Mergers & Acquisitions and Business Finance groups, where he supervised and was responsible for structuring, negotiating and documenting acquisitions and sales of middle-market companies as well as representing the firm's bank, financial institution and commercial finance clients in financing transactions for buyout, growth, recapitalization and restructuring transactions. Mr. Koenig is a graduate of the Kelley School of Business at Indiana University, with a BS in accounting with high honors and Chicago-Kent College of Law with a JD with honors.

Craig Zummer, founder and Managing Director of Insight Advisory Partners, a merchant banking and strategy consulting firm. Prior to co-founding the firm, Mr. Zummer spent 15 years as a strategy and business development professional in the food and consumer products industries, most recently as Vice President of Corporate Strategy with the McDonald's Corporation. Mr. Zummer has deep expertise in helping companies improve their core business strategy, launch new ventures, develop partnerships, facilitate acquisitions and divestitures, and raise capital. In addition to his experience at McDonald's, he previously advised numerous consumer products companies while with the Boston Consulting Group and as an independent consultant. He also worked in both the Risk and New Venture groups at Capital One Financial. After college, Mr. Zummer served as a Marine Corps officer including service in Operation Desert Storm. He holds an MBA from the University of Chicago and a BA in Economics from Northwestern University.

Past performance by our management team and their respective affiliates is not a guarantee either (i) that we will be able to locate a suitable candidate for our initial business combination or (ii) of success with respect to any business combination we may consummate. Our officers and directors have not had management experience with special purpose acquisition corporations in the past. You should not rely on the historical performance of our management team and their respective affiliates as an indication of the future performance of an investment in our company or the returns we will, or are likely to, generate going forward.

Our Core Operating Principles

Foresight has a unique and differentiated set of capabilities that we believe position us well to find an attractive company where we will be able drive stockholder value upon effectuating a business combination. These core operating principles, collectively, have helped craft our approach to partnering with founders and management teams where we can specifically add value.

- **Long Term Approach.** Partner with management teams to help cultivate long-term, sustainable stockholder value by leveraging our experience as operators and investors to companies of all stages across a variety of industries.
- **Hands-on Mentality.** The Management and Sponsor teams have long track records of being superior operators at the highest levels of public corporations. All these experiences touched the end consumer, including retail, healthcare, food & beverage, and hospitality.
- **Investing Experience.** Our team has decades of experience in both public and private investing across all stages and have created significant stockholder value.
- **Strategic Vision.** Through our collective networks, we plan to drive additional value by pursuing inorganic growth opportunities with our partners. Our management has significant experience in acquiring target businesses which is demonstrated by completing successful large transactions over the last 30 years
- **Financial Acumen.** Our team's deep experience in both private and public markets, across the entirety of the capital structure of a company will help to guide the management team to balance sheet stability and sustainability.
- **Deep Network.** Our team has deep relationships that span across the Fortune 1000, financial institutions, asset managers, private equity, venture capital, debt capital, and governments globally.

Our Industry Focus

Our business strategy is to identify and complete an initial business combination with a target business within the technology-enabled consumer or consumer healthcare industries. Changes in purchasing behavior and the evolution of health continue to create significant disruption – as a result, these industries are poised for strong, sustained, long-term growth. We will seek target businesses in these industries that are positioned to unlock these disruptive forces. We believe our team brings unparalleled experience and capabilities across the consumer and consumer health industries and that we are uniquely suited to identify and capture the potential of target businesses within these industries. We expect the target business to have an enterprise valuation greater than \$1 billion. We may look to deploy additional capital through strategic M&A in order for any target business to expand its offerings and become a platform business.

We will seek to effectively employ our management team's investment acumen, operational skills and experience, as well as their extensive networks to add value to a target business. We believe that the experience of our management team can guide a target business through a number of growth and efficiency initiatives, including attracting and retaining customers, strategically spending capital on research and development, focusing sales and marketing initiatives, and inorganically rounding out product suites, among others. We will seek to generate capital appreciation for our stockholders by focusing on sustainable growth while ensuring healthy profitability.

Investment Criteria

We will employ the below criteria and guidelines that we believe are important in evaluating prospective target businesses. We will use these criteria and guidelines in evaluating initial business combination opportunities, but we may decide to enter into our initial business combination with a target business that does not meet these criteria and guidelines.

- **Opportunity Size.** We intend to focus on target businesses with an enterprise value greater than \$1 billion;
- **Financial Profile.** We will seek to partner with a business that has a long-term growth outlook, sustainable profit margin or path to profitability, with potential to further enhance margin and an ability to generate strong returns over time;
- **Healthy Balance Sheet.** We intend to partner with a business where financial leverage is used conservatively and strategically, with leverage used to help drive equity returns;
- **Defensive Competitive Positioning.** We will focus on businesses that have a defensible market position, customers who love the product offering and where there exists opportunity to increase market share or build entirely new markets with no existing incumbents;
- **Strong Management Team.** We will want to partner with a proven, humble and eager management team who look forward to creating value together;
- **Our Ability to Add Value.** We will seek to partner with a business where the collective capabilities of our sponsor team can drastically improve business fundamentals, drive top line growth and ultimately increase stockholder value.

Sources of Target Businesses

Our sponsor team's significant operating and transaction experience and relationships will provide us with a substantial number of potential business combination targets. Over the course of their careers, our team has developed a broad network of contacts and corporate relationships around the world and across multiple industries. We believe this network provides our management team with a robust and consistent flow of acquisition opportunities which we believe are proprietary. In addition, we

anticipate that target business candidates will be brought to our attention from various sources, including private equity and venture capital fund managers, family office principals and corporations seeking to divest non-core assets or operating segments.

We are not prohibited from pursuing an initial business combination with a company that is affiliated with our sponsor, directors or officers, or making the acquisition through a joint venture or other form of shared ownership with our sponsor, directors or officers. In the event we seek to complete an initial business combination with a target that is affiliated with our sponsor, directors or officers, we, or a committee of independent and disinterested directors, would obtain an opinion from an independent investment banking firm or another valuation or appraisal firm that regularly renders fairness opinions on the type of target business we are seeking to acquire that such an initial business combination is fair to our company from a financial point of view. We are not required to obtain such an opinion in any other context.

Our Acquisition Process

We believe that conducting comprehensive due diligence on a prospective business combination is particularly important. We expect to utilize the diligence, rigor, and expertise of our management team to evaluate potential targets' strengths, weaknesses, and opportunities to identify the relative risk and return profile of any potential target for our initial business combination.

In evaluating a prospective target business, we expect to conduct a due diligence review which may encompass, among other things: meetings with incumbent management and employees, document reviews, interviews of customers and suppliers, inspections of facilities, as well as reviewing financial and other information which will be made available to us. We may also seek to utilize consultants or experts once we identify a particular target of interest.

We are not prohibited from pursuing an initial business combination with a business that is affiliated with our initial stockholders, officers, directors, or any of their respective affiliates. In the event we seek to complete our initial business combination with a business that is affiliated with our initial stockholders, officers or directors, or any of their affiliates, we, or a committee of independent directors, will obtain an opinion from an independent investment banking firm or another independent entity that commonly renders valuation opinions that our initial business combination is fair to us from a financial point of view.

Each of our officers and directors presently has, and any of them in the future may have additional fiduciary or contractual obligations to other entities pursuant to which such officer or director is or will be required to present a business combination opportunity to such entities. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity which is suitable for an entity to which he or she has then-current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such opportunity to such entity. In addition, we may, at our option, pursue an affiliated joint acquisition with an entity to which an officer or director has a fiduciary or contractual obligation. Any such parties may co-invest with us in the target business at the time of our initial business combination, or we could raise additional proceeds to complete the acquisition by undertaking a specified future issuance to such parties. We do not believe, however, that the fiduciary duties or contractual obligations of our officers or directors will materially affect our ability to complete our business combination. Our certificate of incorporation will provide that we renounce our interest in any corporate opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of our company and such opportunity is one we are legally and contractually permitted to undertake and would otherwise be reasonable for us to pursue.

Initial Business Combination

Pursuant to Nasdaq listing rules, our initial business combination must occur with one or more target businesses that together have an aggregate fair market value of at least 80% of the assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the income earned on the trust account) at the time of the agreement to enter into the initial business combination. If our board is not able to independently determine the fair market value of the target business or businesses, we will obtain an opinion from an independent investment banking firm or another independent entity that commonly renders valuation opinions with respect to the satisfaction of such criteria. Additionally, pursuant to Nasdaq rules, any initial business combination must be approved by a majority of our independent directors. Notwithstanding the foregoing, if we are not then listed on Nasdaq, these rules will not be applicable to us.

We anticipate structuring our initial business combination so that the post-transaction company in which our public stockholders own or acquire shares will own or acquire 100% of the equity interests or assets of the target business or businesses. We may, however, structure our initial business combination such that the post-transaction company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the target management team or stockholders or for other reasons, including an affiliated joint acquisition as described above. However, we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target business sufficient for the post-transaction company not to be required to register as an investment company under the Investment Company Act of 1940, as amended, or the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target, our stockholders prior to the business combination may collectively own a minority interest in the post-business combination company, depending on valuations ascribed to the target and us in the business combination transaction. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock of a target. In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our stockholders immediately prior to our initial business combination could own less than a majority of our outstanding shares subsequent to our initial business combination. If less than 100% of the outstanding equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired by us is what will be valued for purposes of the 80% fair market value test. If the business combination involves more than one target business, the 80% fair market value test will be based on the aggregate value of all of the target businesses and we will treat the target businesses together as the initial business combination for purposes of a tender offer or for seeking stockholder approval, as applicable.

We may, at our option, pursue an affiliated joint acquisition. Any members of our management team or their affiliates may co-invest with us in the target business at the time of our initial business combination, or we could raise additional proceeds to complete the acquisition by undertaking a specified future issuance to such parties.

Members of our management team will directly or indirectly own founder shares and/or private placement warrants following this offering and, accordingly, may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination. Further, each of our officers and directors may have a conflict of interest with respect to evaluating a particular business combination if the retention or resignation of any such officers and directors is included by a target business as a condition to our initial business combination.

Emerging Growth Company Status and Other Information

We are an “emerging growth company,” as defined in Section 2(a) of the Securities Act of 1933, as amended, or the Securities Act, as modified by the Jumpstart Our Business Startups Act of 2012, or the JOBS Act. As such, we are eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not “emerging growth companies” including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act of 2002, or the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. If some investors find our securities less attractive as a result, there may be a less active trading market for our securities and the prices of our securities may be more volatile.

In addition, Section 107 of the JOBS Act also provides that an “emerging growth company” can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an “emerging growth company” can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We intend to take advantage of the benefits of this extended transition period.

We will remain an emerging growth company until the earlier of: (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which we have total annual gross revenue of at least \$1.07 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our common stock that is held by non-affiliates exceeds \$700 million as of the end of that year’s second fiscal quarter; and (2) the date on which we have issued more than \$1.00 billion in non-convertible debt securities during the prior three-year period. References herein to “emerging growth company” shall have the meaning associated with it in the JOBS Act.

Additionally, we are a “smaller reporting company” as defined in Item 10(f)(1) of Regulation S-K. Smaller reporting companies may take advantage of certain reduced disclosure obligations, including, among other things, providing only two years of audited financial statements. We will remain a smaller reporting company until the last day of the fiscal year in which (1) the market value of our common stock held by non-affiliates exceeds \$250 million as of the end of that year’s second fiscal quarter, or (2) our annual revenues exceeded \$100 million during such completed fiscal year and the market value of our common stock held by non-affiliates exceeds \$700 million as of the end of that year’s second fiscal quarter.

Corporate Information

Our executive offices are located at 233 N. Michigan Avenue, Suite 1410, Chicago, Illinois 60601 and our telephone number is (312) 882-8897. Upon completion of this offering, our corporate website address will be www.foresightacq.com. Our website and the information contained on, or that can be accessed through, the website is not deemed to be incorporated by reference in, and is not considered part of, this prospectus or the registration statement of which this prospectus forms a part. You should not rely on any such information in making your decision whether to invest in our securities.

The Offering

In making your decision whether to invest in our securities, you should take into account not only the backgrounds of the members of our management team, but also the special risks we face as a blank check company and the fact that this offering is not being conducted in compliance with Rule 419 promulgated under the Securities Act. You will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings. You should carefully consider these and the other risks set forth in the section below entitled "Risk Factors."

Securities offered 27,500,000 units (or 31,625,000 units if the underwriters' over-allotment option is exercised in full), at \$10.00 per unit, each unit consisting of:

- one share of Class A common stock; and
- one-third of one redeemable warrant to purchase one share of Class A common stock.

Proposed Nasdaq symbols Units: "FOREU"

Class A Common Stock: "FORE"

Warrants: "FOREWS"

Trading commencement and separation of Class A common stock and warrants

The units will begin trading on or promptly after the date of this prospectus. The Class A common stock and warrants constituting the units will begin separate trading on the 52nd day following the date of this prospectus (or, if such date is not a business day, the following business day) unless Cowen and Company, LLC informs us of its decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. Once the shares of Class A common stock and warrants commence separate trading, holders will have the option to continue to hold units or separate their units into the component securities. Holders will need to have their brokers contact our transfer agent in order to separate the units into shares of Class A common stock and warrants. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least three units, you will not be able to receive or trade a whole warrant.

Additionally, the units will automatically separate into their component parts and will not be traded after completion of our initial business combination.

[Table of Contents](#)

Separate trading of the Class A common stock and warrants is prohibited until we have filed a Current Report on Form 8-K

In no event will the Class A common stock and warrants be traded separately until we have filed with the SEC a Current Report on Form 8-K which includes an audited balance sheet of our company reflecting our receipt of the gross proceeds at the closing of this offering. We will file the Current Report on Form 8-K promptly after the closing of this offering. If the underwriters' over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, a second or amended Current Report on Form 8-K will be filed to provide updated financial information to reflect the exercise of the underwriters' over-allotment option.

Common stock:

Number outstanding before this offering	7,906,250 ⁽²⁾⁽³⁾
Number outstanding after this offering and the sale of private placement units	35,125,000 ⁽¹⁾⁽³⁾

Warrants:

Number of warrants to be outstanding before this offering	0
Number of warrants to be outstanding after this offering	9,416,667 ⁽¹⁾

- (1) Assumes no exercise of the underwriters' over-allotment option and includes, accordingly, an aggregate of 750,000 private placement units sold concurrently with closing of this offering, with each private placement unit consisting of one share of Class A common stock and one-third of one warrant.
- (2) Consists solely of founder shares and includes up to 1,031,250 shares that are subject to forfeiture by our sponsors depending on the extent to which the underwriters' over-allotment option is exercised.
- (3) Founder shares are classified as shares of Class B common stock, which shares will automatically convert into shares of Class A common stock at the time of our initial business combination, or earlier at the option of the holder, on a one-for-one basis, subject to adjustment as described below adjacent to the caption "Founder shares conversion and anti-dilution rights."

[Table of Contents](#)

Exercisability	<p>Each whole warrant is exercisable to purchase one share of our Class A common stock, subject to adjustment as provided herein, and only whole warrants are exercisable. No fractional warrants will be issued upon separation of the units and only whole warrants will trade.</p>
Exercise price	<p>We structured each unit offered in this offering to contain one-third of one redeemable warrant, with each whole warrant exercisable for one share of Class A common stock, as compared to units issued by some other similar blank check companies which contain whole warrants exercisable for one whole share, in order to reduce the dilutive effect of the warrants upon completion of our initial business combination as compared to units that each contain a whole warrant to purchase one whole share, thus making us, we believe, a more attractive business combination partner for target businesses.</p> <p>\$11.50 per share of Class A common stock, subject to adjustment as described herein.</p> <p>In addition, if (x) we issue additional shares of Class A common stock or equity-linked securities for capital raising purposes in connection with the closing of our initial business combination at an issue price or effective issue price of less than \$9.20 per share of Class A common stock (with such issue price or effective issue price to be determined in good faith by our board of directors and, in the case of any such issuance to our sponsor or its affiliates, without taking into account any founder shares held by our sponsor or its affiliates, as applicable, prior to such issuance) (the "newly issued price"), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of our initial business combination on the date of the completion of our initial business combination (net of redemptions), and (z) the volume weighted average trading price of our Class A common stock during the 20 trading day period starting on the trading day prior to the day on which we complete our initial business combination (such price, the "Market Value") is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the newly issued price, and the \$18.00 per share redemption trigger</p>

Exercise period	<p>price described below under “Redemption of warrants when the price per share of Class A common stock equals or exceeds \$18.00” will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the newly issued price.</p> <p>The warrants will become exercisable on the later of:</p> <ul style="list-style-type: none">▪ 30 days after the completion of our initial business combination; and▪ 12 months from the closing of this offering; <p>provided in each case that we have an effective registration statement under the Securities Act covering the issuance of the shares of common stock issuable upon exercise of the warrants and a current prospectus relating to them is available and such shares are registered, qualified or exempt from registration under the securities, or blue sky, laws of the state of residence of the holder (or we permit holders to exercise their warrants on a cashless basis under the circumstances specified in the warrant agreement).</p> <p>We are not registering the shares of Class A common stock issuable upon exercise of the warrants at this time. However, we have agreed that as soon as practicable, but in no event later than 20 business days after the closing of our initial business combination, we will use our commercially reasonable efforts to file with the SEC, and within 60 business days following our initial business combination to have declared effective, a registration statement covering the issuance of the shares of Class A common stock issuable upon exercise of the warrants and to maintain a current prospectus relating to those shares of Class A common stock until the warrants expire or are redeemed; provided that, if our Class A common stock is at the time of any exercise of a warrant not listed on a national securities exchange such that it satisfies the definition of a “covered security” under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of public warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event we so elect, we will not be required to file or maintain in effect a registration statement, but we will use our</p>
-----------------	---

Redemption of warrants when the price per share of Class A common stock equals or exceeds \$18.00	<p>commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.</p> <p>The warrants will expire at 5:00 p.m., New York City time, five years after the completion of our initial business combination or earlier upon redemption or liquidation; provided, however, that the warrants included in the private placement units issued to FA Co-Investment will not be exercisable more than five years after the commencement of sales in this offering in accordance with FINRA Rule 5110(g)(8). On the exercise of any warrant, the warrant exercise price will be paid directly to us and not placed in the trust account.</p> <p>Once the warrants become exercisable, we may redeem the outstanding public warrants:</p> <ul style="list-style-type: none">▪ in whole and not in part;▪ at a price of \$0.01 per warrant;▪ upon a minimum of 30 days' prior written notice of redemption, which we refer to as the 30-day redemption period; and▪ if, and only if, the last reported sale price of our Class A common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which we send the notice of redemption to the warrant holders. <p>We will not redeem the warrants for cash unless a registration statement under the Securities Act covering the issuance of the shares of Class A common stock issuable upon exercise of the warrants is then effective and a current prospectus relating to those shares of common stock is available throughout the 30-day redemption period, except if the warrants may be exercised on a cashless basis and such cashless exercise is exempt from registration under the Securities Act. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws.</p>
---	---

Redemption of warrants when the price per share of Class A common stock equals or exceeds \$10.00	<p>If we call the warrants for redemption as described above, our management will have the option to require all holders that wish to exercise warrants to do so on a “cashless basis.” In determining whether to require all holders to exercise their warrants on a “cashless basis,” our management will consider, among other factors, our cash position, the number of warrants that are outstanding and the dilutive effect on our stockholders of issuing the maximum number of shares of Class A common stock issuable upon the exercise of our warrants. In such event, each holder would pay the exercise price by surrendering the warrants for that number of shares of Class A common stock equal to the lesser of (A) the quotient obtained by dividing (x) the product of the number of shares of Class A common stock underlying the warrants, multiplied by the excess of the “fair market value” of our Class A common stock (defined above) over the exercise price of the warrants by (y) the fair market value and (B) 0.361. Please see “Description of Securities—Warrants—Public Stockholders’ Warrants” for additional information.</p> <p>Commencing ninety days after the warrants become exercisable, we may redeem the outstanding public warrants:</p> <ul style="list-style-type: none">▪ in whole and not in part;▪ at a price of \$0.10 per warrant provided that holders will be able to exercise their warrants on a cashless basis prior to redemption and receive that number of shares of Class A common stock determined by reference to the table set forth under “Description of Securities—Warrants—Public Stockholders’ Warrants” based on the redemption date and the “fair market value” of our Class A common stock (as defined below) except as otherwise described in “Description of Securities—Warrants—Public Stockholders’ Warrants”;▪ upon a minimum of 30 days’ prior written notice of redemption;▪ if, and only if, the last reported sale price of our Class A common stock equals or exceeds \$10.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) on the trading day prior to the date on which we send the notice of redemption to the warrant holders; and
---	---

- if, and only if, there is an effective registration statement covering the issuance of the shares of Class A common stock issuable upon exercise of the warrants and a current prospectus relating thereto available throughout the 30-day period after written notice of redemption is given.

The “fair market value” of our Class A common stock shall mean the average last reported sale price of our Class A common stock for the 10 trading days ending on the third trading day prior to the date on which the notice of redemption is sent to the holders of warrants. This redemption feature differs from the typical warrant redemption features used in many other blank check offerings. In no event will the warrants be exercisable in connection with this redemption feature for more than 0.361 shares of Class A common stock per warrant (subject to adjustment).

No fractional shares of Class A common stock will be issued upon redemption. If, upon redemption, a holder would be entitled to receive a fractional interest in a share, we will round down to the nearest whole number of the number of shares of Class A common stock to be issued to the holder. Please see “Description of Securities—Warrants—Public Stockholders’ Warrants” for additional information.

Pursuant to the warrant agreement, references above to Class A common stock shall include a security other than Class A common stock into which the Class A common stock has been converted or exchanged for in the event we are not the surviving company in our initial business combination.

Election and removal of directors; voting rights

Prior to our initial business combination, only holders of our Class B common stock will have the right to vote on the election of directors. Holders of the Class A common stock will not be entitled to vote on the election of directors during such time. In addition, prior to our initial business combination, holders of a majority of the outstanding shares of our Class B common stock may remove a member of our board of directors for any reason. These provisions of our amended and restated certificate of incorporation may only be amended if approved by holders of a majority of at least 90% of the outstanding shares of our common stock voting at a

Founder shares

stockholder meeting. With respect to any other matter submitted to a vote of our stockholders, including any vote in connection with our initial business combination, except as required by applicable law or stock exchange rule, holders of our Class A common stock and holders of our Class B common stock will vote together as a single class, with each share entitling the holder to one vote.

In October 2020, our sponsors purchased an aggregate of 7,906,250 founder shares for a capital contribution of \$25,000. Our sponsor and FA Co-Investment purchased 6,918,525 and 987,725 of the founder shares, respectively. In January 2021, our sponsor transferred 25,000 founder shares to each of our initial director nominees. Prior to the initial investment in the company of \$25,000 by our sponsors, we had no assets, tangible or intangible. The per-share purchase price of the founder shares was determined by dividing the amount of cash contributed to us by the number of founder shares issued. If we increase or decrease the size of this offering, we will effect a stock dividend or share contribution back to capital or other appropriate mechanism, as applicable, with respect to our Class B common stock immediately prior to the consummation of this offering in such amount as to maintain the number of founder shares at 20% of the outstanding shares of our common stock upon the consummation of this offering (not including the shares of Class A common stock underlying the private placement units). Up to 1,031,250 founder shares are subject to forfeiture by our sponsors depending on the extent to which the underwriters' over-allotment option is exercised. If the over-allotment option is not fully exercised, our sponsor may forfeit up to 901,183 founder shares and FA Co-Investment may forfeit up to 130,067 founder shares.

The founder shares are identical to the shares of Class A common stock included in the units being sold in this offering, except that:

- prior to our initial business combination, only holders of the Class B common stock have the right to vote on the election of directors and holders of a majority of the outstanding shares of our Class B common stock may remove members of our board of directors for any reason;

- our initial stockholders, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to waive: (1) their redemption rights with respect to any founder shares, private placement shares and public shares held by them, as applicable, in connection with the completion of our initial business combination; (2) their redemption rights with respect to any founder shares, private placement shares and public shares held by them in connection with a stockholder vote to approve an amendment to our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to allow redemptions in connection with our initial business combination or to redeem 100% of our public shares if we have not consummated our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity; and (3) their rights to liquidating distributions from the trust account with respect to any founder shares and private placement shares they hold if we fail to complete our initial business combination within 24 months from the closing of this offering or during any extended time that we have to consummate a business combination beyond 24 months as a result of a stockholder vote to amend our amended and restated certificate of incorporation (an "Extension Period") (although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our initial business combination within the prescribed time frame). If we submit our initial business combination to our public stockholders for a vote, our initial stockholders, officers and directors have agreed to vote any founder shares, private placement shares and any public shares held by them in favor of our initial business combination. As a result, in addition to our initial stockholders' founder shares and private placement shares, we would need 9,937,501, or 36.1% (assuming all issued and outstanding shares are voted and the over-allotment option is not exercised), or an additional 1,156,251, or 4.2% (assuming only the minimum number of shares representing a

quorum are voted and the over-allotment option is not exercised), of the 27,500,000 public shares sold in this offering to be voted in favor of a transaction, in order to have such initial business combination approved;

- the founder shares are subject to certain transfer restrictions, as described in more detail below;
- the founder shares are automatically convertible into shares of our Class A common stock at the time of our initial business combination, or earlier at the option of the holder, on a one-for-one basis, subject to adjustment pursuant to certain anti-dilution rights, as described in more detail below; and
- the holders of the founder shares are entitled to registration rights.

The founder shares purchased by FA Co-Investment are deemed underwriters' compensation by FINRA pursuant to Rule 5110 of the FINRA Manual.

Private placement units

Our sponsors have committed to purchase an aggregate of 750,000 (or 832,500 if the underwriters' over-allotment option is exercised in full) private placement units at a price of \$10.00 per unit (\$7,500,000 in the aggregate or \$8,325,000 in the aggregate if the underwriters' over-allotment option is exercised in full) in a private placement that will occur simultaneously with the closing of this offering. Among the private placement units, 614,865 units (or 682,500 units if the over-allotment option is exercised in full) will be purchased by our sponsor and/or its designees and 135,135 units (or 150,000 units if the over-allotment option is exercised in full) will be purchased by FA Co-Investment and/or its designees. A portion of the purchase price of the private placement units will be added to the proceeds from this offering to be held in the trust account. If we do not complete our initial business combination within 24 months from the closing of this offering or following any Extension Period, the proceeds of the sale of the private placement units held in the trust account will be used to fund the redemption of our public shares (subject to the requirements of applicable law) and the warrants included in the private placement units will expire worthless. The private placement units are identical to the public units, except that the private placement units (including the underlying securities) are subject to certain transfer restrictions and the holders

	<p>thereof are entitled to certain registration rights, as described herein, and the underlying warrants: (1) will not be redeemable by us; (2) may be exercised by the holders on a cashless basis; and (3) with respect to private placement warrants held by FA Co-Investment, will not be exercisable more than five years from the commencement of sales in this offering in accordance with FINRA Rule 5110(g)(8). If the warrants included in the private placement units are held by holders other than the sponsors or their respective permitted transferees, then the warrants included in the private placement units will be redeemable by us in all redemption scenarios and exercisable by the holders on the same basis as the warrants included in the public units.</p> <p>The private placement units purchased by FACo-Investment or its affiliates are deemed underwriters' compensation by FINRA pursuant to Rule 5110 of the FINRA Manual.</p>
Transfer restrictions on private placement units and underlying securities	<p>The private placement units (including the underlying private placement warrants, the private placement shares and the shares of Class A common stock issuable upon exercise of the private placement warrants) will not be transferable, assignable or salable until 30 days after the completion of our initial business combination (except as described herein under "Principal Stockholders—Transfers of Founder Shares and Private Placement Units"). Any permitted transferees would be subject to the same restrictions and other agreements of our initial stockholders with respect to such securities.</p>
Transfer restrictions on founder shares	<p>Our initial stockholders, officers and directors have agreed not to transfer, assign or sell any founder shares held by them until the earlier to occur of: (1) one year after the completion of our initial business combination; and (2) subsequent to our initial business combination, (x) the date on which we complete a liquidation, merger, stock exchange, reorganization or other similar transaction that results in all of our public stockholders having the right to exchange their shares of common stock for cash, securities or other property or (y) if the last reported sale price of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations,</p>

Conflicts of interest	recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination (except as described herein under “Principal Stockholders — Transfers of Founder Shares and Private Placement Units”). Any permitted transferees would be subject to the same restrictions and other agreements of our initial stockholders with respect to any founder shares.
Founder shares conversion and anti-dilution rights	FA Co-Investment, which beneficially owns more than 10% of our outstanding common stock prior to the consummation of this offering, is an affiliate of Cowen and Company, LLC, an underwriter in this offering. As a result, Cowen and Company, LLC is deemed to have a “conflict of interest” within the meaning of Rule 5121 of the Financial Industry Regulatory Authority (“Rule 5121”). Accordingly, this offering is being made in compliance with the applicable provisions of FINRA Rule 5121. FINRA Rule 5121 prohibits Cowen and Company, LLC from making sales to discretionary accounts without the prior written approval of the account holder and requires that a “qualified independent underwriter,” as defined in FINRA Rule 5121, participate in the preparation of the registration statement and exercise its usual standards of due diligence with respect thereto. Needham & Company, LLC is acting as a “qualified independent underwriter” for this offering. Needham & Company, LLC will receive a fee of \$100,000 from the total underwriting discount in consideration for its services and expenses incurred as a “qualified independent underwriter.” We have agreed to indemnify Needham & Company, LLC against certain liabilities incurred in connection with acting as a “qualified independent underwriter,” including liabilities under the Securities Act. Please see “Underwriting (Conflicts of Interest)” for more information.
	The shares of Class B common stock will automatically convert into shares of Class A common stock at the time of our initial business combination, or earlier at the option of the holder, on a one-for-one basis, subject to adjustment as provided herein. In the case that additional shares of Class A common stock, or equity-linked securities, are issued or deemed issued in excess of the amounts issued in this offering and related to the

closing of our initial business combination, the ratio at which shares of Class B common stock shall convert into shares of Class A common stock will be adjusted (unless the holders of a majority of the outstanding shares of our Class B common stock agree to waive such anti-dilution adjustment with respect to any such issuance or deemed issuance) so that the number of shares of Class A common stock issuable upon conversion of all shares of Class B common stock will equal, in the aggregate, on an as-converted basis, 20% of the total number of all shares of common stock outstanding upon completion of this offering (not including the shares of Class A common stock underlying the private placement units) plus all shares of Class A common stock and equity-linked securities issued or deemed issued in connection with our initial business combination (net of the number of shares of Class A common stock redeemed in connection with our initial business combination), excluding any shares or equity-linked securities issued, or to be issued, to any seller in our initial business combination.

Proceeds to be held in trust account

The rules of Nasdaq provide that at least 90% of the gross proceeds from this offering and the sale of the private placement units be deposited in a trust account. Of the net proceeds we will receive from this offering and the sale of the private placement units described in this prospectus, \$275.0 million (\$10.00 per unit), or \$316.25 million (\$10.00 per unit) if the underwriters' over-allotment option is exercised in full, will be deposited into a segregated U.S.-based trust account at J.P. Morgan Chase Bank, N.A., with Continental Stock Transfer & Trust Company acting as trustee, and \$2.0 million will be used to pay expenses in connection with the closing of this offering and for working capital following this offering. The funds in the trust account will be invested only in U.S. government treasury bills with a maturity of 185 days or less or in money market funds investing solely in U.S. Treasuries.

Except with respect to interest earned on the funds held in the trust account that may be released to us to pay our taxes, if any, the funds held in the trust account will not be released from the trust account until the earliest of: (1) the completion of our initial business combination; (2) the redemption of any public shares properly submitted in connection with a stockholder vote to amend our amended and

Anticipated expenses and funding sources

restated certificate of incorporation (A) to modify the substance or timing of our obligation to allow redemptions in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity; and (3) the redemption of all of our public shares if we have not completed our initial business combination within 24 months from the closing of this offering, subject to applicable law. The proceeds deposited in the trust account could become subject to the claims of our creditors, if any, which could have priority over the claims of our public stockholders.

Unless and until we complete our initial business combination, no proceeds held in the trust account will be available for our use, except the withdrawal of interest to pay taxes or to redeem our public shares in connection with an amendment to our amended and restated certificate of incorporation, as described above. The funds in the trust account will be invested only in U.S. government treasury bills with a maturity of 185 days or less or in money market funds investing solely in U.S. Treasuries and meeting certain conditions under Rule 2a-7 under the Investment Company Act. Based upon current interest rates, we expect the trust account to generate approximately \$825,000 of interest annually (assuming an interest rate of 0.3% per year). Unless and until we complete our initial business combination, we may pay our expenses only from:

- the net proceeds of this offering and the sale of the private placement units not held in the trust account, which will be approximately \$900,000 in working capital after the payment of approximately \$1,100,000 in expenses relating to this offering; and any loans or additional investments from our sponsor, members of our management team or any of their respective affiliates or other third parties, although they are under no obligation or other duty to loan funds to, or invest in, us, and provided that any such loans will not have any claim on the proceeds held in the trust account unless such proceeds are released to us upon completion of our initial

Conditions to completing our initial business combination	<p>business combination. If we complete our initial business combination, we expect to repay such loaned amounts out of the proceeds of the trust account released to us. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used to repay such loaned amounts. Up to \$1,500,000 of such loans may be convertible into units at a price of \$10.00 per unit at the option of the lender at the time of the business combination. The units would be identical to the private placement units issued to our sponsors.</p>
	<p>There is no limitation on our ability to raise funds privately or through loans in connection with our initial business combination. Nasdaq rules require that an initial business combination must be with one or more operating businesses or assets with a fair market value equal to at least 80% of the net assets held in the trust account (net of amounts disbursed to management for working capital purposes, if permitted, and excluding the amount of any deferred underwriting discount). We do not currently intend to purchase multiple businesses in unrelated industries in conjunction with our initial business combination, although there is no assurance that will be the case.</p>
	<p>If our board of directors is not able to independently determine the fair market value of the target business or businesses, we will obtain an opinion from an independent investment banking firm or another independent entity that commonly renders valuation opinions. We will complete our initial business combination only if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target business sufficient for it not to be required to register as an investment company under the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target, our stockholders prior to our initial business combination may collectively own a minority interest in the post-transaction company, depending on valuations ascribed to the target and us in our initial business combination</p>

Permitted purchases and other transactions
with respect to our securities

transaction. If less than 100% of the outstanding equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired by us is what will be valued for purposes of the 80% of net assets test, provided that in the event that our initial business combination involves more than one target business, the 80% of net assets test will be based on the aggregate value of all of the target businesses.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our sponsors, directors, officers, advisors or any of their respective affiliates may purchase public shares or public warrants or a combination thereof in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination, although they are under no obligation or other duty to do so. There is no limit on the number of securities such persons may purchase, or any restriction on the price that they may pay. Any such price per share may be different than the amount per share a public stockholder would receive if it elected to redeem its shares in connection with our initial business combination.

Additionally, at any time at or prior to our initial business combination, subject to applicable securities laws (including with respect to material nonpublic information), our sponsors, directors, officers, advisors or any of their affiliates may enter into transactions with investors and others to provide them with incentives to acquire public shares, vote their public shares in favor of our initial business combination or not redeem their public shares. However, such persons have no current commitments, plans or intentions to engage in such purchases or other transactions and have not formulated any terms or conditions for any such purchases or other transactions.

None of the funds in the trust account will be used to purchase public shares or public warrants in such transactions. Such persons will be subject to restrictions in making any such purchases when they are in possession of any material non-public information or if such purchases are prohibited by Regulation M under the Exchange Act. Please see "Proposed Business — Permitted

purchases and other transactions with respect to our securities” for a description of how such persons will determine from which stockholders to enter into transactions with.

We will adopt an insider trading policy which will require insiders to: (1) refrain from purchasing securities during certain blackout periods and when they are in possession of any material non-public information; and (2) clear all trades with our legal counsel prior to execution. We cannot currently determine whether our insiders will make such purchases pursuant to a Rule 10b5-1 plan, as it will be dependent upon several factors, including but not limited to, the timing and size of such purchases. Depending on such circumstances, our insiders may either make such purchases pursuant to a Rule 10b5-1 plan or determine that such a plan is not necessary.

We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will be required to comply with such rules. Our sponsors, directors, officers, advisors or any of their respective affiliates will be restricted from making purchases if such purchases would violate Section 9(a)(2) or Rule 10b-5 of the Exchange Act.

We expect that any such purchases will be reported pursuant to Section 13 and Section 16 of the Exchange Act to the extent such purchasers are subject to such reporting requirements.

The purpose of any such transaction could be to (1) vote such shares in favor of the initial business combination and thereby increase the likelihood of obtaining stockholder approval of the initial business combination, (2) reduce the number of public warrants outstanding or to vote such warrants on any matters submitted to the warrant holders for approval in connection with our initial business combination or (3) satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our initial business combination, where

	<p>it appears that such requirement would otherwise not be met. Any such transactions may result in the completion of our initial business combination that may not otherwise have been possible. In addition, if such purchases are made, the public “float” of our shares of Class A common stock or warrants may be reduced and the number of beneficial holders of our securities may be reduced, which may make it difficult to maintain or obtain the quotation, listing or trading of our securities on a national securities exchange.</p>
<p>Redemption rights for public stockholders upon completion of our initial business combination</p>	<p>We will provide our public stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, calculated as of two business days prior to the consummation of our initial business combination, including interest (which interest shall be net of taxes payable), divided by the number of then outstanding public shares, subject to the limitations described herein. The amount in the trust account is initially anticipated to be \$10.00 per public share. The redemption rights will include the requirement that a beneficial holder must identify itself in order to validly redeem its shares. There will be no redemption rights upon the completion of our initial business combination with respect to our warrants. Our initial stockholders, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to any founder shares, private placement shares and any public shares held by them in connection with the completion of our initial business combination.</p>
<p>Manner of conducting redemptions</p>	<p>We will provide our public stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination either: (1) in connection with a stockholder meeting called to approve the business combination; or (2) by means of a tender offer. Except as required by applicable law or stock exchange rules, the decision as to whether we will seek stockholder approval of a proposed business combination or conduct a tender offer will be made by us, solely in our discretion, and will be based on a</p>

variety of factors such as the timing of the transaction. Asset acquisitions and stock purchases would not typically require stockholder approval while direct mergers with our company where we do not survive and any transactions where we issue more than 20% of our outstanding common stock or seek to amend our amended and restated certificate of incorporation would typically require stockholder approval. We intend to conduct redemptions without a stockholder vote pursuant to the tender offer rules of the SEC unless stockholder approval is required by applicable law or stock exchange listing requirement or we choose to seek stockholder approval for business or other reasons.

If a stockholder vote is not required and we do not decide to hold a stockholder vote for business or other reasons, we will, pursuant to our amended and restated certificate of incorporation:

- conduct the redemptions pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, which regulate issuer tender offers; and
- file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act, which regulates the solicitation of proxies.

Upon the public announcement of our initial business combination, if we elect to conduct redemptions pursuant to the tender offer rules, we and our sponsor will terminate any plan established in accordance with Rule 10b5-1 to purchase shares of our Class A common stock in the open market, in order to comply with Rule 14e-5 under the Exchange Act.

In the event we conduct redemptions pursuant to the tender offer rules, our offer to redeem will remain open for at least 20 business days, in accordance with Rule 14e-1(a) under the Exchange Act, and we will not be permitted to complete our initial business combination until the expiration of the tender offer period. In addition, the tender offer will be conditioned on public stockholders not tendering more than a specified number of public shares, which number will be based on the requirement that we may not redeem public shares in an amount that

would cause our net tangible assets to be less than \$5,000,001 following such redemptions, or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. If public stockholders tender more shares than we have offered to purchase, we will withdraw the tender offer and not complete such initial business combination, and we instead may search for an alternate business combination (including, potentially, with the same target).

If, however, stockholder approval of the transaction is required by applicable law or stock exchange listing requirement, or we decide to obtain stockholder approval for business or other reasons, we will:

- conduct the redemptions in conjunction with a proxy solicitation pursuant to Regulation 14A of the Exchange Act, which regulates the solicitation of proxies, and not pursuant to the tender offer rules; and
- file proxy materials with the SEC.

We expect that a final proxy statement would be mailed to public stockholders at least 10 days prior to the stockholder vote. However, we expect that a draft proxy statement would be made available to such stockholders well in advance of such time, providing additional notice of redemption if we conduct redemptions in conjunction with a proxy solicitation. Although we are not required to do so, we currently intend to comply with the substantive and procedural requirements of Regulation 14A in connection with any stockholder vote even if we are not able to maintain our Nasdaq listing or Exchange Act registration.

If we seek stockholder approval, we will complete our initial business combination only if a majority of the outstanding shares of our common stock voted are voted in favor of the business combination. A quorum for such meeting will consist of the holders present in person or by proxy of shares of outstanding capital stock of the company representing a majority of the voting power of all outstanding shares of capital stock of the company entitled to vote at such meeting. Our initial stockholders, officers and directors will count

towards this quorum and have agreed to vote any founder shares, private placement shares and any public shares held by them in favor of our initial business combination. We expect that at the time of any stockholder vote relating to our initial business combination, our initial stockholders and their permitted transferees will own at least 21.7% of our outstanding shares of common stock entitled to vote thereon. As a result, in addition to our initial stockholders' founder shares and private placement shares, we would need 9,937,501, or 36.1% (assuming all issued and outstanding shares are voted and the over-allotment option is not exercised), or an additional 1,156,251, or 4.2% (assuming only the minimum number of shares representing a quorum are voted and the over-allotment option is not exercised), of the 27,500,000 public shares sold in this offering to be voted in favor of a transaction, in order to have such initial business combination approved. These quorum and voting thresholds and agreements may make it more likely that we will consummate our initial business combination. Each public stockholder may elect to redeem its public shares without voting, and if they do vote, irrespective of whether they vote for or against the proposed transaction.

Our amended and restated certificate of incorporation will provide that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 following such redemptions. Redemptions of our public shares may also be subject to a higher net tangible asset test or cash requirement pursuant to an agreement relating to our initial business combination. For example, the proposed business combination may require: (1) cash consideration to be paid to the target or its owners; (2) cash to be transferred to the target for working capital or other general corporate purposes; or (3) the retention of cash to satisfy other conditions in accordance with the terms of the proposed business combination. In the event the aggregate cash consideration we would be required to pay for all shares of common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination on such

Tendering share certificates in connection with a tender offer or redemption rights	terms or redeem any shares, all shares of common stock submitted for redemption will be returned to the holders thereof, and we instead may search for an alternate business combination (including, potentially, with the same target). We may require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in “street name,” to either tender their certificates to our transfer agent prior to the date set forth in the tender offer documents or proxy materials mailed to such holders, or up to two business days prior to the scheduled vote on the proposal to approve our initial business combination in the event we distribute proxy materials, or to deliver their shares to the transfer agent electronically using The Depository Trust Company’s DWAC (Deposit/Withdrawal At Custodian) System, at the holder’s option, rather than simply voting against the initial business combination. The tender offer or proxy materials, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will indicate whether we are requiring public stockholders to satisfy such delivery requirements, which will include the requirement that a beneficial holder must identify itself in order to validly redeem its shares.
Limitation on redemption rights of stockholders holding more than 15% of the shares sold in this offering if we hold stockholder vote	Notwithstanding the foregoing redemption rights, if we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation will provide that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the shares sold in this offering, without our prior consent. We believe the restriction described above will discourage stockholders from accumulating large blocks of shares and subsequent attempts by such holders to use their ability to redeem their shares as a means to force us or our sponsors or their affiliates to

purchase their shares at a significant premium to the then-current market price or on other undesirable terms. Absent this provision, a public stockholder holding more than an aggregate of 15% of the shares sold in this offering could threaten to exercise its redemption rights against a business combination if such holder's shares are not purchased by us or our sponsors or their affiliates at a premium to the then-current market price or on other undesirable terms. By limiting our stockholders' ability to redeem to no more than 15% of the shares sold in this offering, we believe we will limit the ability of a small group of stockholders to unreasonably attempt to block our ability to complete our initial business combination, particularly in connection with a business combination with a target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. However, we would not be restricting our stockholders' ability to vote all of their shares (including all shares held by those stockholders that hold more than 15% of the shares sold in this offering) for or against our initial business combination.

Redemption rights in connection with proposed amendments to our amended and restated certificate of incorporation

Some other blank check companies have a provision in their charter which prohibits the amendment of certain charter provisions. Our amended and restated certificate of incorporation will provide that any of its provisions (other than amendments relating to the appointment or removal of directors prior to our initial business combination, which require the approval of holders of a majority of at least 90% of the outstanding shares of our common stock voting at a stockholder meeting) related to pre-business combination activity (including the requirement to deposit proceeds of this offering and the sale of the private placement units into the trust account and not release such amounts except in specified circumstances and to provide redemption rights to public stockholders as described herein) may be amended if approved by holders of at least a majority of our outstanding common stock, and corresponding provisions of the trust agreement governing the release of funds from our trust account may be amended if approved by holders of at least a majority of our outstanding common stock. Unless specified in our amended and restated certificate of incorporation or bylaws, or as required

by applicable law or stock exchange rules, the affirmative vote of a majority of the outstanding shares of our common stock that are voted is required to approve any such matter voted on by our stockholders, and, prior to our initial business combination, the affirmative vote of holders of a majority of the outstanding shares of our Class B common stock is required to approve the election or removal of directors. Prior to an initial business combination, we may not issue additional securities that can vote pursuant to our amended and restated certificate of incorporation on any initial business combination or any amendments to our amended and restated certificate of incorporation. Our initial stockholders, who will beneficially own approximately 21.7% of our common stock upon the closing of this offering (assuming they do not purchase any units in this offering), may participate in any vote to amend our amended and restated certificate of incorporation and/or trust agreement and will have the discretion to vote in any manner they may choose. Our sponsors, officers and directors have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to allow redemptions in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity, unless we provide our public stockholders with the opportunity to redeem their shares of common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable), divided by the number of then outstanding public shares. Our initial stockholders, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to any founder shares, private placement shares and public shares held by them in connection with a stockholder vote to approve an amendment to our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to allow redemptions in

Release of funds in trust account on closing of our initial business combination	connection with our initial business combination or to redeem 100% of our public shares if we have not consummated our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity. Any permitted transferees would be subject to the same restrictions and other agreements of our initial stockholders with respect to any founder shares and private placement shares.
Redemption of public shares and distribution and liquidation if no initial business combination	On the completion of our initial business combination, all amounts held in the trust account will be disbursed directly by the trustee or released to us to pay amounts due to any public stockholders who properly exercise their redemption rights as described above under "Redemption rights for public stockholders upon completion of our initial business combination," to pay all or a portion of the consideration payable to the target or owners of the target of our initial business combination and to pay other expenses associated with our initial business combination, including the fee payable to Cowen and Company, LLC and William Blair & Company, L.L.C. pursuant to the Business Combination Marketing Agreement described under "Underwriting (Conflicts of Interest)—Business Combination Marketing Agreement," which fee we refer to throughout this prospectus as the "Marketing Fee." If our initial business combination is paid for using equity or debt or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial business combination or used for redemption of our public shares, we may apply the balance of the cash released to us from the trust account for general corporate purposes, including for maintenance or expansion of operations of post-transaction businesses, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other businesses or for working capital.
	Our sponsors, officers and directors have agreed that we will have only 24 months from the closing of this offering to complete our initial business combination. If we have not completed our initial business combination within such 24-month period

or during any Extension Period, we will: (1) cease all operations except for the purpose of winding up; (2) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable, and less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any); and (3) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to our warrants, which will expire worthless if we fail to complete our initial business combination within such period.

Our initial stockholders, officers and directors have entered into a letter agreement with us, pursuant to which they have waived their rights to liquidating distributions from the trust account with respect to any founder shares and private placement shares held by them if we fail to complete our initial business combination within 24 months from the closing of this offering or during any Extension Period. However, if our sponsors or any of our officers, directors or any of their respective affiliates then hold any public shares, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the allotted time frame to complete our initial business combination.

Our sponsors, officers and directors have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to allow redemptions in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business

combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity, unless we provide our public stockholders with the opportunity to redeem their shares of common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable), divided by the number of then outstanding public shares. However, we may not redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 following such redemptions.

Limited payments to insiders

There will be no finder's fees, reimbursements or cash payments made by us to our sponsors, officers or directors or our or any of their respective affiliates, for services rendered to us prior to or in connection with the completion of our initial business combination, other than the following payments, none of which will be made from the proceeds of this offering and the sale of the private placement units held in the trust account prior to the completion of our initial business combination:

- repayment of an aggregate of up to \$300,000 in loans made to us by our sponsors to cover offering-related and organizational expenses;
- payment to our sponsor of a total of \$10,000 per month, for up to 24 months, for office space, administrative and support services;
- reimbursement for any out-of-pocket expenses related to identifying, investigating and completing an initial business combination;
- payment to Cowen and Company, LLC of its underwriting discount, Marketing Fee, fees for any financial advisory, placement agency or other similar investment banking services Cowen and Company, LLC may provide to our company in the future, and reimbursement of Cowen and Company, LLC for any out-of-pocket expenses incurred by it in connection with the performance of such services; and
- repayment of loans which may be made by our sponsors, an affiliate of our sponsors or our officers and directors to finance transaction costs in connection with an intended initial

business combination, the terms of which have not been determined nor have any written agreements been executed with respect thereto. Up to \$1,500,000 of such loans may be convertible into units at a price of \$10.00 per unit at the option of the lender.

These payments may be funded using the net proceeds of this offering and the sale of the private placement units not held in the trust account or, upon completion of the initial business combination, from any amounts remaining from the proceeds of the trust account released to us in connection therewith.

Our audit committee will review on a quarterly basis all payments that were made by us to our sponsor, officers or directors or our or any of their respective affiliates.

Audit Committee

Prior to the effectiveness of this registration statement, we will have established and will maintain an audit committee to, among other things, monitor compliance with the terms described above and the other terms relating to this offering. If any noncompliance is identified, then the audit committee will be charged with the responsibility to promptly take all action necessary to rectify such noncompliance or otherwise to cause compliance with the terms of this offering. Please see “Management—Committees of the Board of Directors—Audit Committee” for additional information.

Conflicts of Interest

Each of our officers and directors presently has, and any of them in the future may have additional, fiduciary, contractual or other obligations or duties to one or more other entities pursuant to which such officer or director is or will be required to present a business combination opportunity to such entities. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity which is suitable for one or more entities to which he or she has fiduciary, contractual or other obligations or duties, he or she will honor these obligations and duties to present such business combination opportunity to such entities first, and only present it to us if such entities reject the opportunity and he or she determines to present the opportunity to us. For more information, see the

Indemnity	<p>section entitled "Management—Conflicts of Interest." We do not believe, however, that the fiduciary, contractual or other obligations or duties of our officers or directors will materially affect our ability to complete our initial business combination. Our amended and restated certificate of incorporation will provide that we renounce our interest in any corporate opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of our company and such opportunity is one we are legally and contractually permitted to undertake and would otherwise be reasonable for us to pursue.</p>
	<p>Our sponsor has agreed that it will be liable to us if and to the extent any claims by a third party for services rendered or products sold to us, or a prospective target business with which we have discussed entering into a transaction agreement, reduce the amount of funds in the trust account to below: (1) \$10.00 per public share; or (2) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account due to reductions in the value of the trust assets, in each case net of the amount of interest which may be withdrawn to pay taxes, except as to any claims by a third party who executed a waiver of any and all rights to seek access to the trust account and except as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, our sponsor will not be responsible to the extent of any liability for such third-party claims. We have not independently verified whether our sponsor, which is a newly formed entity, has sufficient funds to satisfy its indemnity obligations and believe that our sponsor's only assets are securities of our company and, therefore, our sponsor may not be able to satisfy those obligations. We have not asked our sponsor to reserve for such obligations.</p>

Risk Factors Summary

In making your decision on whether to invest in our securities, you should take into account the special risks we face as a blank check company, as well as the fact that this offering is not being conducted in compliance with Rule 419 promulgated under the Securities Act, and, therefore, you will not be entitled to protections normally afforded to investors in Rule 419 blank check offerings. For additional information concerning how Rule 419 blank check offerings differ from this offering, please see "Proposed Business—Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419." In addition, our business is subject to numerous risks and uncertainties, including those highlighted in the section titled "Risk Factors," that represent challenges that we face in connection with the successful implementation of our strategy. The occurrence of one or more of the events or circumstances described in the section titled "Risk Factors," alone or in combination with other events or circumstances, may adversely affect our ability to effect a business combination, and may have an adverse effect on our business, cash flows, financial condition and results of operations. Such risks include, but are not limited to:

- we are a newly formed company with no operating history;
- our ability to continue as a "going concern";
- delay in receiving distributions from the trust account;
- lack of opportunity to vote on our proposed business combination;
- lack of protections normally afforded to investors of blank check companies;
- deviation from acquisition criteria;
- issuance of additional equity and/or debt securities to complete a business combination, which would dilute the interest of our stockholders;
- third-party claims reducing the per-share redemption price;
- negative rate of interest for securities in which we invest the funds held in the trust account, which could reduce the value of the assets held in trust such that the per-share redemption amount received by public stockholders may be reduced;
- failure to enforce our sponsor's indemnification obligations;
- holders of warrants could be limited to exercising warrants only on a "cashless basis" if we do not file and maintain a current and effective prospectus relating to the common stock issuable upon exercise of the warrants;
- the ability of warrant holders to obtain a favorable judicial forum for disputes with our company;
- ability to successfully effect a business combination and to be successful thereafter, which will be totally dependent upon the efforts of our key personnel;
- conflicts of interest of our officers and directors in determining whether a particular target business is appropriate for a business combination;
- the delisting of our securities by Nasdaq;
- ability of our stockholders to conduct conversions in connection with our initial business combination pursuant to the tender offer rules;
- non-comparable performance against other public companies;
- ability to only complete one business combination, causing dependence on a single business which may have a limited number of products or services;
- our competitors may have advantages over us in seeking business combinations due to our structure;
- ability to obtain additional financing, if required, to complete a business combination or to fund the operations and growth of the target business;

[Table of Contents](#)

- our initial stockholders controlling a substantial interest in us and may influence certain actions requiring a stockholder vote;
- immediate and substantial dilution from the purchase of our shares of common stock;
- outstanding warrants could have an adverse effect on the market price of our common stock;
- disadvantageous timing for redeeming unexpired warrants;
- the exercise of registration rights by our security holders may have an adverse effect on the market price of our shares of common stock;
- the requirement to complete an initial business combination within 24 months may give potential target businesses leverage over us in negotiating a business combination;
- the impact of the coronavirus (COVID-19) pandemic and the status of debt and equity markets;
- resources spent researching acquisitions that are not consummated;
- there is currently no market for our securities and a market for our securities may not develop;
- changes in laws or regulations, or our failure to comply with any laws and regulations;
- cyber incidents or attacks directed at us, resulting in information theft, data corruption, operational disruption and/or financial loss; and
- uncertain or adverse U.S. federal income tax consequences.

You should carefully consider these and the other risks set forth in the section entitled "Risk Factors" beginning on page 43 of this prospectus.

RISK FACTORS

An investment in our securities involves a high degree of risk. You should consider carefully all of the risks described below, together with the other information contained in this prospectus, before making a decision to invest in our units. If any of the following events occur, our business, financial condition and operating results may be materially adversely affected. In that event, the trading price of our securities could decline, and you could lose all or part of your investment.

Risks Related to Our Business

We are a newly incorporated company with no operating history and no revenues, and you have no basis on which to evaluate our ability to achieve our business objective.

We are a newly incorporated company with no operating results, and we will not commence operations until obtaining funding through this offering. Because we lack an operating history, you have no basis upon which to evaluate our ability to achieve our business objective of completing our initial business combination with one or more target businesses. We have no plans, arrangements or understandings with any prospective target business concerning a business combination and may be unable to complete our initial business combination. If we fail to complete our initial business combination, we will never generate any operating revenues.

Past performance by members of our management team and their respective affiliates may not be indicative of future performance of an investment in us.

Information regarding performance by, or businesses associated with, members of our management team and their respective affiliates is presented for informational purposes only. Any past experience and performance, including related to acquisitions, of members of our management team and their respective affiliates is not a guarantee either: (1) that we will be able to successfully identify a suitable candidate for our initial business combination; or (2) of any results with respect to any initial business combination we may consummate. You should not rely on the historical record of our management team's or their affiliates' performance as indicative of the future performance of an investment in us or the returns we will, or are likely to, generate going forward. Our management has no experience in operating special purpose acquisition companies.

Our independent registered public accounting firm's report contains an explanatory paragraph that expresses substantial doubt about our ability to continue as a "going concern."

As of October 31, 2020, we had \$295,000 in cash and a working capital deficiency of \$5,479. Further, we expect to incur significant costs in pursuit of our acquisition plans. Management's plans to address this need for capital through this offering are discussed in the section of this prospectus titled "Management's Discussion and Analysis of Financial Condition and Results of Operations." Our plans to raise capital and to consummate our initial business combination may not be successful. These factors, among others, raise substantial doubt about our ability to continue as a going concern. The financial statements contained elsewhere in this prospectus do not include any adjustments that might result from our inability to consummate this offering or our inability to continue as a going concern.

Our public stockholders may not be afforded an opportunity to vote on our proposed initial business combination, which means we may complete our initial business combination even though a majority of our public stockholders do not support such a combination.

We may not hold a stockholder vote to approve our initial business combination unless the business combination would require stockholder approval under applicable law or stock exchange listing requirements or if we decide to hold a stockholder vote for business or other reasons. For instance, Nasdaq rules currently allow us to engage in a tender offer in lieu of a stockholder meeting

but would still require us to obtain stockholder approval if we were seeking to issue more than 20% of our outstanding shares to a target business as consideration in any business combination. Therefore, if we were structuring a business combination that required us to issue more than 20% of our outstanding shares, we would seek stockholder approval of such business combination. However, except as required by applicable law or stock exchange rules, the decision as to whether we will seek stockholder approval of a proposed business combination or will allow stockholders to sell their shares to us in a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors, such as the timing of the transaction. Accordingly, we may consummate our initial business combination even if holders of a majority of our outstanding public shares do not approve of the business combination we consummate. Please see "Proposed Business—Stockholders May Not Have the Ability to Approve Our Initial Business Combination" for additional information.

If we seek stockholder approval of our initial business combination, our sponsors, officers and directors have agreed to vote in favor of such initial business combination, regardless of how our public stockholders vote.

Our initial stockholders, officers and directors have agreed (and their permitted transferees will agree) to vote any founder shares, private placement shares and any public shares held by them in favor of our initial business combination. As a result, in addition to our initial stockholders' founder shares and private placement shares, we would need 9,937,501, or 36.1% (assuming all issued and outstanding shares are voted and the over-allotment option is not exercised), or an additional 1,156,251, or 4.2% (assuming only the minimum number of shares representing a quorum are voted and the over-allotment option is not exercised), of the 27,500,000 public shares sold in this offering to be voted in favor of a transaction, in order to have such initial business combination approved. We expect that our initial stockholders and their permitted transferees will own at least 21.7% of our outstanding shares of common stock at the time of any such stockholder vote. Accordingly, if we seek stockholder approval of our initial business combination, it is more likely that the necessary stockholder approval will be received than would be the case if our initial stockholders and their permitted transferees agreed to vote their founder shares and private placement shares in accordance with the majority of the votes cast by our public stockholders.

Your only opportunity to affect the investment decision regarding a potential business combination will be limited to the exercise of your right to redeem your shares from us for cash, unless we seek stockholder approval of such business combination.

At the time of your investment in us, you will not be provided with an opportunity to evaluate the specific merits or risks of any target businesses. Additionally, since our board of directors may complete a business combination without seeking stockholder approval, public stockholders may not have the right or opportunity to vote on the business combination. Accordingly, if we do not seek stockholder approval, your only opportunity to affect the investment decision regarding a potential business combination may be limited to exercising your redemption rights within the period of time (which will be at least 20 business days) set forth in our tender offer documents mailed to our public stockholders in which we describe our initial business combination.

The ability of our public stockholders to redeem their shares for cash may make our financial condition unattractive to potential business combination targets, which may make it difficult for us to enter into a business combination with a target.

We may seek to enter into a business combination transaction agreement with a prospective target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. If too many public stockholders exercise their redemption rights, we would not be able to meet such closing condition and, as a result, would not be able to proceed with the business combination. In no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 following such redemptions, or any greater net tangible asset or cash.

requirement which may be contained in the agreement relating to our initial business combination. Consequently, if accepting all properly submitted redemption requests would cause our net tangible assets to be less than \$5,000,001 or such greater amount necessary to satisfy a closing condition as described above, we would not proceed with such redemption and the related business combination and may instead search for an alternate business combination (including, potentially, with the same target). Prospective targets will be aware of these risks and, thus, may be reluctant to enter into a business combination transaction with us.

The ability of our public stockholders to exercise redemption rights with respect to a large number of our shares may not allow us to complete the most desirable business combination or optimize our capital structure.

At the time we enter into an agreement for our initial business combination, we will not know how many stockholders may exercise their redemption rights and, therefore, we will need to structure the transaction based on our expectations as to the number of shares that will be submitted for redemption. If our initial business combination agreement requires us to use a portion of the cash in the trust account to pay the purchase price or requires us to have a minimum amount of cash at closing, we will need to reserve a portion of the cash in the trust account to meet such requirements or arrange for third-party financing. In addition, if a larger number of shares is submitted for redemption than we initially expected, we may need to restructure the transaction to reserve a greater portion of the cash in the trust account or arrange for third-party financing. Raising additional third-party financing may involve dilutive equity issuances or the incurrence of indebtedness at higher than desirable levels. The above considerations may limit our ability to complete the most desirable business combination available to us or optimize our capital structure.

The ability of our public stockholders to exercise redemption rights with respect to a large number of our shares could increase the probability that our initial business combination would be unsuccessful and that you would have to wait for liquidation in order to redeem your stock.

If our initial business combination agreement requires us to use a portion of the cash in the trust account to pay the purchase price, or requires us to have a minimum amount of cash at closing, the probability that our initial business combination would be unsuccessful increases. If our initial business combination is unsuccessful, you would not receive your pro rata portion of the trust account until we liquidate the trust account. If you are in need of immediate liquidity, you could attempt to sell your stock in the open market; however, at such time our stock may trade at a discount to the pro rata amount per share in the trust account. In either situation, you may suffer a material loss on your investment or lose the benefit of funds expected in connection with our redemption until we liquidate or you are able to sell your stock in the open market.

The requirement that we complete our initial business combination within the prescribed time frame may give potential target businesses leverage over us in negotiating a business combination and may limit the time we have in which to conduct due diligence on potential business combination targets, in particular as we approach our dissolution deadline, which could undermine our ability to complete our initial business combination on terms that would produce value for our stockholders.

Any potential target business with which we enter into negotiations concerning a business combination will be aware that we must complete our initial business combination within 24 months from the closing of this offering. Consequently, such target business may obtain leverage over us in negotiating a business combination, knowing that if we do not complete our initial business combination with that particular target business, we may be unable to complete our initial business combination with any target business. This risk will increase as we get closer to the end of the timeframe described above. In addition, we may have limited time to conduct due diligence and may

enter into our initial business combination on terms that we would have rejected upon a more comprehensive investigation.

We may not be able to complete our initial business combination within the prescribed time frame, in which case we would cease all operations except for the purpose of winding up and we would redeem our public shares and liquidate, in which case our public stockholders may receive only \$10.00 per share, or less than such amount in certain circumstances, and our warrants will expire worthless.

Our sponsors, officers and directors have agreed that we must complete our initial business combination within 24 months from the closing of this offering. We may not be able to find a suitable target business and complete our initial business combination within such time period. Our ability to complete our initial business combination may be negatively impacted by general market conditions, volatility in the capital and debt markets and the other risks described herein. For example, the outbreak of COVID-19 continues to grow both in the U.S. and globally and, while the extent of the impact of the outbreak on us will depend on future developments, it could limit our ability to complete our initial business combination, including as a result of increased market volatility, decreased market liquidity and third-party financing being unavailable on terms acceptable to us or at all. Furthermore, we may be unable to complete a business combination if continued concerns relating to COVID-19 restrict travel, limit the ability to have meetings with potential investors or the target company's personnel, vendors and services providers are unavailable to negotiate and consummate a transaction in a timely manner. Additionally, the outbreak of COVID-19 may negatively impact businesses we may seek to acquire. It may also have the effect of heightening many of the other risks described in this "Risk Factors" section, such as those related to the market for our securities and cross-border transactions.

If we have not completed our initial business combination within such time period or during any Extension Period, we will: (1) cease all operations except for the purpose of winding up; (2) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable, and less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any); and (3) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. In such case, our public stockholders may receive only \$10.00 per share, or less than \$10.00 per share, on the redemption of their shares, and our warrants will expire worthless. Please see "—If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share" and other risk factors herein.

If we seek stockholder approval of our initial business combination, our sponsors, directors, officers, advisors or any of their respective affiliates may enter into certain transactions, including purchasing shares or warrants from the public, which may influence the outcome of our proposed business combination and reduce the public "float" of our securities.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our sponsors, directors, officers, advisors or any of their respective affiliates may purchase public shares or public warrants or a combination thereof in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination, although they are under no obligation or other duty to do so. Such a purchase may include a contractual acknowledgement that such public stockholder, although still the record holder of our shares is no longer the beneficial owner

thereof and therefore agrees not to exercise its redemption rights. In the event that our sponsors, directors, officers, advisors or any of their respective affiliates purchase public shares in privately negotiated transactions from public stockholders who have already elected to exercise their redemption rights, such selling public stockholders would be required to revoke their prior elections to redeem their shares. The price per share paid in any such transaction may be different than the amount per share a public stockholder would receive if it elected to redeem its shares in connection with our initial business combination. Additionally, at any time at or prior to our initial business combination, subject to applicable securities laws (including with respect to material nonpublic information), our sponsors, directors, officers, advisors or any of their affiliates may enter into transactions with investors and others to provide them with incentives to acquire public shares, vote their public shares in favor of our initial business combination or not redeem their public shares. However, such persons have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. Please see “Proposed Business—Permitted purchases and other transactions with respect to our securities” for a description of how such persons will determine from which stockholders to enter into transactions with. The purpose of any such transaction could be to (1) vote such shares in favor of the initial business combination and thereby increase the likelihood of obtaining stockholder approval of the initial business combination, (2) reduce the number of public warrants outstanding or to vote such warrants on any matters submitted to the warrant holders for approval in connection with our initial business combination or (3) satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our initial business combination, where it appears that such requirement would otherwise not be met. Any such transactions may result in the completion of our initial business combination that may not otherwise have been possible.

In addition, if such purchases are made, the public “float” of our Class A common stock or warrants and the number of beneficial holders of our securities may be reduced, possibly making it difficult to maintain or obtain the quotation, listing or trading of our securities on a national securities exchange.

If a stockholder fails to receive notice of our offer to redeem our public shares in connection with our initial business combination, or fails to comply with the procedures for tendering its shares, such shares may not be redeemed.

We will comply with the tender offer rules or proxy rules, as applicable, when conducting redemptions in connection with our initial business combination. Despite our compliance with these rules, if a stockholder fails to receive our tender offer or proxy materials, as applicable, such stockholder may not become aware of the opportunity to redeem its shares. In addition, the tender offer documents or proxy materials, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will describe the various procedures that must be complied with in order to validly tender or redeem public shares. For example, we may require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in “street name,” to either tender their certificates to our transfer agent prior to the date set forth in the tender offer or proxy materials documents mailed to such holders, or up to two business days prior to the scheduled vote on the proposal to approve the initial business combination in the event we distribute proxy materials, or to deliver their shares to the transfer agent electronically. In the event that a stockholder fails to comply with these procedures, its shares may not be redeemed. Please see “Proposed Business—Tendering stock certificates in connection with a tender offer or redemption rights.”

You will not have any rights or interests in funds from the trust account, except under certain limited circumstances. To liquidate your investment, therefore, you may be forced to sell your public shares or warrants, potentially at a loss.

Our public stockholders will be entitled to receive funds from the trust account only upon the earliest to occur of: (1) the completion of our initial business combination, and then only in connection

with those shares of Class A common stock that such stockholder properly elected to redeem, subject to the limitations described herein; (2) the redemption of any public shares properly submitted in connection with a stockholder vote to amend our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to allow redemptions in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity; and (3) the redemption of all of our public shares if we have not completed our initial business combination within 24 months from the closing of this offering, subject to applicable law and as further described herein. In addition, if we have not completed an initial business combination within the required time period for any reason, compliance with Delaware law may require that we submit a plan of dissolution to our then-existing stockholders for approval prior to the distribution of the proceeds held in our trust account. In that case, public stockholders may be forced to wait beyond the end of such period before they receive funds from our trust account. In no other circumstances will a public stockholder have any right or interest of any kind in or to the trust account. Holders of warrants will not have any right to the proceeds held in the trust account with respect to the warrants. Accordingly, to liquidate your investment, you may be forced to sell your public shares or warrants, potentially at a loss.

Risks Related to Our Securities

Nasdaq may delist our securities from trading on its exchange, which could limit investors' ability to make transactions in our securities and subject us to additional trading restrictions.

We have applied to have our units listed on Nasdaq on or promptly after the date of this prospectus and our Class A common stock and warrants on or promptly after their date of separation. Although, after giving effect to this offering, we meet the minimum initial listing standards of Nasdaq on a pro forma basis, which generally only requires that we meet certain requirements relating to shareholders' equity, market capitalization, aggregate market value of publicly held shares and distribution, our securities may not continue to be listed on Nasdaq in the future prior to an initial business combination. Generally, we must maintain a minimum amount in shareholders' equity (generally \$2,500,000) and a minimum number of holders of our securities (generally 300 round-lot holders). Additionally, in connection with our initial business combination, we will be required to demonstrate compliance with Nasdaq's initial listing requirements, which are more rigorous than Nasdaq's continued listing requirements, in order to continue to maintain the listing of our securities on Nasdaq. We may not be able to meet those initial listing requirements at that time.

If Nasdaq delists any of our securities from trading on its exchange and we are not able to list such securities on another national securities exchange, we expect such securities could be quoted on an over-the-counter market. If this were to occur, we could face significant material adverse consequences, including:

- a limited availability of market quotations for our securities;
- reduced liquidity for our securities;
- a determination that our Class A common stock is a "penny stock" which will require brokers trading in our Class A common stock to adhere to more stringent rules and possibly result in a reduced level of trading activity in the secondary trading market for our securities;
- a limited amount of news and analyst coverage; and
- a decreased ability to issue additional securities or obtain additional financing in the future.

The National Securities Markets Improvement Act of 1996, which is a federal statute, prevents or preempts the states from regulating the sale of certain securities, which are referred to as "covered securities." Because we expect that our units and eventually our Class A common stock and warrants

will be listed on Nasdaq, our units, Class A common stock and warrants will qualify as covered securities under such statute. Although the states are preempted from regulating the sale of covered securities, the federal statute does allow the states to investigate companies if there is a suspicion of fraud, and, if there is a finding of fraudulent activity, then the states can regulate or bar the sale of covered securities in a particular case. While we are not aware of a state having used these powers to prohibit or restrict the sale of securities issued by blank check companies, other than the State of Idaho, certain state securities regulators view blank check companies unfavorably and might use these powers, or threaten to use these powers, to hinder the sale of securities of blank check companies in their states. Further, if we were no longer listed on Nasdaq, our securities would not qualify as covered securities under such statute and we would be subject to regulation in each state in which we offer our securities.

You will not be entitled to protections normally afforded to investors of many other blank check companies.

Since the net proceeds of this offering and the sale of the private placement units are intended to be used to complete an initial business combination with a target business that has not been selected, we may be deemed to be a “blank check” company under the U.S. securities laws. However, because we will have net tangible assets in excess of \$5,500,000 upon the successful completion of this offering and the sale of the private placement units and will file a Current Report on Form 8-K, including an audited balance sheet of our company demonstrating this fact, we are exempt from rules promulgated by the SEC to protect investors in blank check companies, such as Rule 419. Accordingly, investors will not be afforded the benefits or protections of those rules. Among other things, this means our units will be immediately tradable and we will have a longer period of time to complete our initial business combination than do companies subject to Rule 419. Moreover, if this offering were subject to Rule 419, that rule would prohibit the release of any interest earned on funds held in the trust account to us unless and until the funds in the trust account were released to us in connection with our completion of our initial business combination. Please see “Proposed Business—Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419” for a more detailed comparison of our offering to offerings that comply with Rule 419.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions pursuant to the tender offer rules, and if you or a “group” of stockholders are deemed to hold in excess of 15% of our Class A common stock, you will lose the ability to redeem all such shares in excess of 15% of our Class A common stock.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation will provide that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the shares sold in this offering, which we refer to as the “Excess Shares,” without our prior consent. However, our amended and restated certificate of incorporation does not restrict our stockholders’ ability to vote all of their shares (including Excess Shares) for or against our initial business combination. Your inability to redeem the Excess Shares will reduce your influence over our ability to complete our initial business combination and you could suffer a material loss on your investment in us if you sell Excess Shares in open market transactions. Additionally, you will not receive redemption distributions with respect to the Excess Shares if we complete our initial business combination. And as a result, you will continue to hold that number of shares exceeding 15% and, in order to dispose of such shares, would be required to sell your stock in open market transactions, potentially at a loss.

Because of our limited resources and the significant competition for business combination opportunities, it may be more difficult for us to complete our initial business combination. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share, or less in certain circumstances, on our redemption of their stock, and our warrants will expire worthless.

We expect to encounter intense competition from other entities having a business objective similar to ours, including private investors (which may be individuals or investment partnerships), other blank check companies and other entities, domestic and international, competing for the types of businesses we intend to acquire. Many of these individuals and entities are well-established and have extensive experience in identifying and effecting, directly or indirectly, acquisitions of companies operating in or providing services to various industries. Many of these competitors possess greater technical, human and other resources or more local industry knowledge than we do and our financial resources will be relatively limited when contrasted with those of many of these competitors. While we believe there will be numerous target businesses we could potentially acquire with the net proceeds of this offering and the sale of the private placement units, our ability to compete with respect to the acquisition of certain target businesses that are sizable will be limited by our available financial resources. Our sponsors or any of its affiliates may make additional investments in us, although our sponsors and its affiliates have no obligation or other duty to do so. This inherent competitive limitation gives others an advantage in pursuing the acquisition of certain target businesses. Furthermore, our obligation to pay cash in connection with our public stockholders who exercise their redemption rights may reduce the resources available to us for our initial business combination and our outstanding warrants, and the future dilution they potentially represent, may not be viewed favorably by target businesses. Any of these factors may place us at a competitive disadvantage in successfully negotiating and completing an initial business combination. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share, or less in certain circumstances, on the liquidation of our trust account and our warrants will expire worthless. Please see “—If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share” and other risk factors herein.

If the funds not being held in the trust account are insufficient to allow us to operate for at least the 24 months following the closing of this offering, we may be unable to complete our initial business combination.

The funds available to us outside of the trust account may not be sufficient to allow us to operate for at least the 24 months following the closing of this offering, assuming that our initial business combination is not completed during that time. We expect to incur significant costs in pursuit of our acquisition plans. Management’s plans to address this need for capital through this offering and potential loans from certain of our affiliates are discussed in the section of this prospectus titled “Management’s Discussion and Analysis of Financial Condition and Results of Operations.” However, our affiliates are not obligated to make loans to us in the future, and we may not be able to raise additional financing from unaffiliated parties necessary to fund our expenses. Any such event in the future may negatively impact the analysis regarding our ability to continue as a going concern at such time.

We believe that, upon the closing of this offering, the funds available to us outside of the trust account will be sufficient to allow us to operate for at least the 24 months following the closing of this offering; however, we cannot assure you that our estimate is accurate. Of the funds available to us, we could use a portion of the funds available to us to pay commitment fees for financing, fees to consultants to assist us with our search for a target business or as a down payment or to fund a “no-shop” provision (a provision in letters of intent or merger agreements designed to keep target businesses from “shopping” around for transactions with other companies or investors on terms more favorable to such target businesses) with respect to a particular proposed business combination,

although we do not have any current intention to do so. If we entered into an agreement where we paid for the right to receive exclusivity from a target business and were subsequently required to forfeit such funds (whether as a result of our breach or otherwise), we might not have sufficient funds to continue searching for, or conduct due diligence with respect to, a prospective target business. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share, or less in certain circumstances, on the liquidation of our trust account and our warrants will expire worthless. Please see “—If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share” and other risk factors herein.

If the net proceeds of this offering and the sale of the private placement units not being held in the trust account are insufficient, it could limit the amount available to fund our search for a target business or businesses and complete our initial business combination and we will depend on loans from our sponsor or management team to fund our search, to pay our taxes and to complete our initial business combination. If we are unable to obtain such loans, we may be unable to complete our initial business combination.

Of the net proceeds of this offering and the sale of the private placement units, only approximately \$900,000 will be available to us initially outside the trust account to fund our working capital requirements. In the event that our offering expenses exceed our estimate of \$1,100,000, we may fund such excess with funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses are less than our estimate of \$1,100,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount. If we are required to seek additional capital, we would need to borrow funds from our sponsor, management team or other third parties to operate or may be forced to liquidate. Neither our sponsor, members of our management team nor any of their respective affiliates is under any obligation or other duty to loan funds to, or invest in, us in such circumstances. Any such loans may be repaid only from funds held outside the trust account or from funds released to us upon completion of our initial business combination. If we are unable to complete our initial business combination because we do not have sufficient funds available to us, we will be forced to cease operations and liquidate the trust account. In such case, our public stockholders may receive only \$10.00 per share, or less in certain circumstances, and our warrants will expire worthless. Please see “—If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share” and other risk factors herein.

Subsequent to our completion of our initial business combination, we may be required to subsequently take write-downs or write-offs, restructuring and impairment or other charges that could have a significant negative effect on our financial condition, results of operations and the price of our securities, which could cause you to lose some or all of your investment.

Even if we conduct extensive due diligence on a target business with which we combine, we cannot assure you that this diligence will identify all material issues that may be present with a particular target business, that it would be possible to uncover all material issues through a customary amount of due diligence, or that factors outside of the target business and outside of our control will not later arise. As a result of these factors, we may be forced to later write-down or write-off assets, restructure our operations, or incur impairment or other charges that could result in our reporting losses. Even if our due diligence successfully identifies certain risks, unexpected risks may arise and previously known risks may materialize in a manner not consistent with our preliminary risk analysis. Even though these charges may be non-cash items and not have an immediate impact on our liquidity, the fact that we report charges of this nature could contribute to negative market perceptions about us or our securities. In addition, charges of this nature may cause us to violate net worth or other covenants to which we may be subject as a result of assuming pre-existing debt held by a target

business or by virtue of our obtaining post-combination debt financing. Accordingly, any stockholders or warrant holders who choose to remain a stockholder or warrant holder following our initial business combination could suffer a reduction in the value of their securities. Such stockholders or warrant holders are unlikely to have a remedy for such reduction in value.

If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share.

Our placing of funds in the trust account may not protect those funds from third-party claims against us. Although we will seek to have all vendors, service providers (other than our independent registered public accounting firm), prospective target businesses and other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of our public stockholders, such parties may not execute such agreements, or even if they execute such agreements they may not be prevented from bringing claims against the trust account, including, but not limited to, fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain an advantage with respect to a claim against our assets, including the funds held in the trust account. If any third party refuses to execute an agreement waiving such claims to the monies held in the trust account, our management will perform an analysis of the alternatives available to it and will only enter into an agreement with a third party that has not executed a waiver if management believes that such third party's engagement would be significantly more beneficial to us than any alternative. Making such a request of potential target businesses may make our acquisition proposal less attractive to them and, to the extent prospective target businesses refuse to execute such a waiver, it may limit the field of potential target businesses that we might pursue. Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third-party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver or in cases where we are unable to find a service provider willing to execute a waiver. In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the trust account for any reason. Upon redemption of our public shares, if we have not completed our initial business combination within the prescribed timeframe, or upon the exercise of a redemption right in connection with our initial business combination, we will be required to provide for payment of claims of creditors that were not waived that may be brought against us within the 10 years following redemption. Accordingly, the per-share redemption amount received by public stockholders could be less than the \$10.00 per share initially held in the trust account, due to claims of such creditors.

Our sponsor has agreed that it will be liable to us if and to the extent any claims by a third party for services rendered or products sold to us, or a prospective target business with which we have discussed entering into a transaction agreement, reduce the amount of funds in the trust account to below: (1) \$10.00 per public share; or (2) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account due to reductions in the value of the trust assets, in each case net of the amount of interest which may be withdrawn to pay taxes, except as to any claims by a third party who executed a waiver of any and all rights to seek access to the trust account and except as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, our sponsor will not be responsible to the extent of any liability for such third-party claims. We have not independently verified whether our sponsor, which is a newly formed entity, has sufficient funds to satisfy its indemnity obligations and believe that our sponsor's only assets are securities of our company. Our sponsor may not have sufficient funds available to satisfy those obligations. We have not asked our sponsor to reserve for such obligations,

and therefore, no funds are currently set aside to cover any such obligations. As a result, if any such claims were successfully made against the trust account, the funds available for our initial business combination and redemptions could be reduced to less than \$10.00 per public share. In such event, we may not be able to complete our initial business combination, and you would receive such lesser amount per share in connection with any redemption of your public shares. None of our officers or directors will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

Our independent directors may decide not to enforce the indemnification obligations of our sponsor, resulting in a reduction in the amount of funds in the trust account available for distribution to our public stockholders.

In the event that the proceeds in the trust account are reduced below the lesser of: (1) \$10.00 per public share; or (2) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account due to reductions in the value of the trust assets, in each case net of the amount of interest which may be withdrawn to pay taxes, and our sponsor asserts that it is unable to satisfy its obligations or that it has no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against our sponsor to enforce its indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against our sponsor to enforce its indemnification obligations to us, it is possible that our independent directors in exercising their business judgment may choose not to do so in certain instances. For example, the cost of such legal action may be deemed by the independent directors to be too high relative to the amount recoverable or the independent directors may determine that a favorable outcome is not likely. If our independent directors choose not to enforce these indemnification obligations, the amount of funds in the trust account available for distribution to our public stockholders may be reduced below \$10.00 per share.

If, after we distribute the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, a bankruptcy court may seek to recover such proceeds, and the members of our board of directors may be viewed as having breached their fiduciary duties to our creditors, thereby exposing the members of our board of directors and us to claims of punitive damages.

If, after we distribute the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, any distributions received by stockholders could be viewed under applicable debtor/creditor and/or bankruptcy laws as either a “preferential transfer” or a “fraudulent conveyance.” As a result, a bankruptcy court could seek to recover some or all amounts received by our stockholders. In addition, our board of directors may be viewed as having breached its fiduciary duty to our creditors and/or having acted in bad faith by paying public stockholders from the trust account prior to addressing the claims of creditors, thereby exposing itself and us to claims of punitive damages.

If, before distributing the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, the claims of creditors in such proceeding may have priority over the claims of our stockholders and the per-share amount that would otherwise be received by our stockholders in connection with our liquidation may be reduced.

If, before distributing the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, the proceeds held in the trust account could be subject to applicable bankruptcy law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our stockholders. To the extent any bankruptcy claims deplete the trust account, the per-share amount that would otherwise be received by our public stockholders in connection with our liquidation would be reduced.

Risks Related to Our Operations

If we are deemed to be an investment company under the Investment Company Act, we may be required to institute burdensome compliance requirements and our activities may be restricted, which may make it difficult for us to complete our initial business combination.

If we are deemed to be an investment company under the Investment Company Act, our activities may be restricted, including:

- restrictions on the nature of our investments; and
- restrictions on the issuance of securities;
- each of which may make it difficult for us to complete our initial business combination.

In addition, we may have imposed upon us burdensome requirements, including:

- registration as an investment company with the SEC;
- adoption of a specific form of corporate structure; and
- reporting, record keeping, voting, proxy and disclosure requirements and compliance with other rules and regulations that we are currently not subject to.

In order not to be regulated as an investment company under the Investment Company Act, unless we can qualify for an exclusion, we must ensure that we are engaged primarily in a business other than investing, reinvesting or trading of securities and that our activities do not include investing, reinvesting, owning, holding or trading "investment securities" constituting more than 40% of our total assets (exclusive of U.S. government securities and cash items) on an unconsolidated basis. Our business will be to identify and complete a business combination and thereafter to operate the post-transaction business or assets for the long term. We do not plan to buy businesses or assets with a view to resale or profit from their resale. We do not plan to buy unrelated businesses or assets or to be a passive investor.

We do not believe that our anticipated principal activities will subject us to the Investment Company Act. To this end, the proceeds held in the trust account may only be invested in United States "government securities" within the meaning of Section 2(a)(16) of the Investment Company Act having a maturity of 185 days or less or in money market funds meeting certain conditions under Rule 2a-7 promulgated under the Investment Company Act which invest only in direct U.S. government treasury obligations. Pursuant to the trust agreement, the trustee is not permitted to invest in other securities or assets. By restricting the investment of the proceeds to these instruments, and by having a business plan targeted at acquiring and growing businesses for the long term (rather than on buying and selling businesses in the manner of a merchant bank or private equity fund), we intend to avoid being deemed an "investment company" within the meaning of the Investment Company Act. This offering is not intended for persons who are seeking a return on investments in government securities or investment securities. The trust account is intended as a holding place for funds pending the earliest to occur of: (i) the completion of our primary business objective, which is a business combination; (ii) the redemption of any public shares properly submitted in connection with a stockholder vote to amend our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to allow redemptions in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity; and (iii) absent a business combination, our return of the funds held in the trust account to our public stockholders as part of our redemption of the public shares. If we do not invest the proceeds as discussed above, we may be deemed to be subject to the Investment Company Act. If we were deemed to be subject to the Investment Company Act, compliance with these additional regulatory burdens would require additional expenses for which we have not allotted funds and may hinder our ability to consummate our initial business combination. If we are unable to

complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share on the liquidation of our trust account and our warrants will expire worthless. In certain circumstances, our public stockholders may receive less than \$10.00 per share on the redemption of their shares. Please see “—If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share” and other risk factors herein.

Changes in laws or regulations, or a failure to comply with any laws and regulations, may adversely affect our business, including our ability to negotiate and complete our initial business combination, and results of operations.

We are subject to laws and regulations enacted by national, regional and local governments. In particular, we will be required to comply with certain SEC and other legal requirements. Compliance with, and monitoring of, applicable laws and regulations may be difficult, time consuming and costly. Those laws and regulations and their interpretation and application may also change from time to time and those changes could have a material adverse effect on our business, investments and results of operations. In addition, a failure to comply with applicable laws or regulations, as interpreted and applied, could have a material adverse effect on our business, including our ability to negotiate and complete our initial business combination, and results of operations.

Our stockholders may be held liable for claims by third parties against us to the extent of distributions received by them upon redemption of their shares.

Under the Delaware General Corporation Law, or the DGCL, stockholders may be held liable for claims by third parties against a corporation to the extent of distributions received by them in a dissolution. The pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our initial business combination within the required time period may be considered a liquidating distribution under Delaware law. If a corporation complies with certain procedures set forth in Section 280 of the DGCL intended to ensure that it makes reasonable provision for all claims against it, including a 60-day notice period during which any third-party claims can be brought against the corporation, a 90-day period during which the corporation may reject any claims brought, and an additional 150-day waiting period before any liquidating distributions are made to stockholders, any liability of stockholders with respect to a liquidating distribution is limited to the lesser of such stockholder’s pro rata share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would be barred after the third anniversary of the dissolution. However, it is our intention to redeem our public shares as soon as reasonably possible following the 24th month from the closing of this offering (or the end of any Extension Period) in the event we do not complete our initial business combination and, therefore, we do not intend to comply with the foregoing procedures.

Because we do not intend to comply with Section 280, Section 281(b) of the DGCL requires us to adopt a plan, based on facts known to us at such time that will provide for our payment of all existing and pending claims or claims that may be potentially brought against us within the 10 years following our dissolution. However, because we are a blank check company, rather than an operating company, and our operations will be limited to searching for prospective target businesses to acquire, the only likely claims to arise would be from our vendors (such as lawyers, investment bankers, consultants, etc.) or prospective target businesses. If our plan of distribution complies with Section 281(b) of the DGCL, any liability of stockholders with respect to a liquidating distribution is limited to the lesser of such stockholder’s pro rata share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would likely be barred after the third anniversary of the dissolution. We cannot assure you that we will properly assess all claims that may be potentially brought against us. As such, our stockholders could potentially be liable for any claims to the extent of distributions received by them (but no more) and any liability of our stockholders may extend beyond the third anniversary of

such date. Furthermore, if the pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our initial business combination within the required time period is not considered a liquidating distribution under Delaware law and such redemption distribution is deemed to be unlawful, then pursuant to Section 174 of the DGCL, the statute of limitations for claims of creditors could then be six years after the unlawful redemption distribution, instead of three years, as in the case of a liquidating distribution.

Risks Related to Our Corporate Structure

We may not hold an annual meeting of stockholders until after we consummate our initial business combination and you will not be entitled to any of the corporate protections provided by such a meeting.

We may not hold an annual meeting of stockholders until after we consummate our initial business combination (unless required by Nasdaq) and thus may not be in compliance with Section 211(b) of the DGCL, which requires an annual meeting of stockholders be held for the purposes of electing directors in accordance with a company's bylaws unless such election is made by written consent in lieu of such a meeting. Therefore, if our stockholders want us to hold an annual meeting prior to our consummation of our initial business combination, they may attempt to force us to hold one by submitting an application to the Delaware Court of Chancery in accordance with Section 211(c) of the DGCL. Until we hold an annual meeting of stockholders, public stockholders may not be afforded the opportunity to discuss company affairs with management. In addition, prior to our business combination (a) as holders of our Class A common stock, our public stockholders will not have the right to vote on the appointment of our directors and (b) holders of a majority of the outstanding shares of our Class B common stock may remove a member of our board of directors for any reason.

We are not registering the shares of Class A common stock issuable upon exercise of the warrants under the Securities Act or any state securities laws at this time, and such registration may not be in place when an investor desires to exercise warrants, thus precluding such investor from being able to exercise its warrants except on a "cashless basis" and potentially causing such warrants to expire worthless.

We are not registering the shares of Class A common stock issuable upon exercise of the warrants under the Securities Act or any state securities laws at this time. However, under the terms of the warrant agreement, we have agreed that as soon as practicable, but in no event later than 20 business days after the closing of our initial business combination, we will use our commercially reasonable efforts to file with the SEC, and within 60 business days following our initial business combination to have declared effective, a registration statement covering the issuance of the shares of Class A common stock issuable upon exercise of the warrants and to maintain a current prospectus relating to those shares of Class A common stock until the warrants expire or are redeemed. We cannot assure you that we will be able to do so if, for example, any facts or events arise which represent a fundamental change in the information set forth in the registration statement or prospectus, the financial statements contained or incorporated by reference therein are not current, complete or correct or the SEC issues a stop order. If the shares issuable upon exercise of the warrants are not registered under the Securities Act, we will be required to permit holders to exercise their warrants on a cashless basis, in which case, the number of Class A ordinary shares that you will receive upon cashless exercise will be based on a formula subject to a maximum amount of shares equal to 0.361 shares of Class A common stock per warrant (subject to adjustment). However, no warrant will be exercisable for cash or on a cashless basis, and we will not be obligated to issue any shares to holders seeking to exercise their warrants, unless the issuance of the shares upon such exercise is registered or qualified under the securities laws of the state of the exercising holder or an exemption from registration is available. Notwithstanding the above, if our Class A common stock is at the time of any exercise of a warrant not listed on a national securities exchange such that it satisfies the definition of a "covered

Table of Contents

security” under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of public warrants who exercise their warrants to do so on a “cashless basis” in accordance with Section 3(a)(9) of the Securities Act and, in the event we so elect, we will not be required to file or maintain in effect a registration statement, but we will use our commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available. In no event will we be required to net cash settle any warrant, or issue securities or other compensation in exchange for the warrants in the event that we are unable to register or qualify the shares underlying the warrants under applicable state securities laws and no exemption is available. If the issuance of the shares upon exercise of the warrants is not so registered or qualified or exempt from registration or qualification, the holder of such warrant shall not be entitled to exercise such warrant and such warrant may have no value and expire worthless. In such event, holders who acquired their warrants as part of a purchase of units will have paid the full unit purchase price solely for the shares of Class A common stock included in the units. There may be a circumstance where an exemption from registration exists for holders of our private placement warrants to exercise their warrants while a corresponding exemption does not exist for holders of the public warrants included as part of units sold in this offering. In such an instance, our sponsors and their permitted transferees (which may include our directors and officers) would be able to exercise their warrants and sell the shares of Class A common stock underlying their warrants while holders of our public warrants would not be able to exercise their warrants and sell the underlying shares of Class A common stock. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying shares of Class A common stock for sale under all applicable state securities laws. As a result, we may redeem warrants even if the holders are otherwise unable to exercise their warrants.

The grant of registration rights to our initial stockholders and their permitted transferees may make it more difficult to complete our initial business combination, and the future exercise of such rights may adversely affect the market price of our Class A common stock.

Pursuant to an agreement to be entered into on or prior to the closing of this offering, at or after the time of our initial business combination, our initial stockholders and their permitted transferees can demand that we register the resale of their founder shares after those shares convert to shares of our Class A common stock. In addition, our sponsors and their permitted transferees can demand that we register the resale of the private placement units, the private placement shares, the private placement warrants and the shares of Class A common stock issuable upon exercise of the private placement warrants, and holders of units that may be issued upon conversion of working capital loans may demand that we register the resale of such units, the shares of Class A common stock and warrants included in such units and the Class A common stock issuable upon exercise of the warrants included in such units. We will bear the cost of registering these securities. The registration and availability of such a significant number of securities for trading in the public market may have an adverse effect on the market price of our Class A common stock. In addition, the existence of the registration rights may make our initial business combination more costly or difficult to complete. This is because the stockholders of the target business may increase the equity stake they seek in the combined entity or ask for more cash consideration to offset the negative impact on the market price of our Class A common stock that is expected when the securities described above are registered for resale.

Risks Related to Our Search for a Business Combination

Because we are neither limited to evaluating target businesses in a particular industry, sector or geographic area nor have we selected any specific target businesses with which to pursue our initial business combination, you will be unable to ascertain the merits or risks of any particular target business's operations.

We may seek to complete a business combination with an operating company in any industry, sector or geographic area. However, we will not, under our amended and restated certificate of

incorporation, be permitted to effectuate our initial business combination solely with another blank check company or similar company with nominal operations. Because we have not yet selected or approached any specific target business with respect to a business combination, there is no basis to evaluate the possible merits or risks of any particular target business's operations, results of operations, cash flows, liquidity, financial condition or prospects. To the extent we complete our initial business combination, we may be affected by numerous risks inherent in the business operations with which we combine. For example, if we combine with a financially unstable business or an entity lacking an established record of sales or earnings, we may be affected by the risks inherent in the business and operations of a financially unstable or a development stage entity. Although our officers and directors will endeavor to evaluate the risks inherent in a particular target business, we cannot assure you that we will properly ascertain or assess all of the significant risk factors or that we will have adequate time to complete due diligence. Furthermore, some of these risks may be outside of our control and leave us with no ability to control or reduce the chances that those risks will adversely impact a target business. We also cannot assure you that an investment in our units will ultimately prove to be more favorable to investors than a direct investment, if such opportunity were available, in a business combination target. Accordingly, any stockholders or warrant holders who choose to remain a stockholder or warrant holder following our initial business combination could suffer a reduction in the value of their securities. Such stockholders or warrant holders are unlikely to have a remedy for such reduction in value.

We may seek acquisition opportunities in acquisition targets that may be outside of our management's areas of expertise.

Although we expect to focus our search for a target business in the financial services and financial technology industries, we will consider a business combination outside of our management's areas of expertise if such business combination candidate is presented to us and we determine that such candidate offers an attractive acquisition opportunity for our company. In the event we elect to pursue an acquisition outside of the areas of our management's expertise, our management's expertise may not be directly applicable to its evaluation or operation, and the information contained in this prospectus regarding the areas of our management's expertise would not be relevant to an understanding of the business that we elect to acquire. As a result, our management may not be able to adequately ascertain or assess all of the significant risk factors relevant to such acquisition. Accordingly, any stockholders or warrant holders who choose to remain a stockholder or warrant holder following our initial business combination could suffer a reduction in the value of their securities. Such stockholders or warrant holders are unlikely to have a remedy for such reduction in value.

Although we have identified general criteria and guidelines that we believe are important in evaluating prospective target businesses, we may enter into our initial business combination with a target that does not meet such criteria and guidelines, and as a result, the target business with which we enter into our initial business combination may not have attributes entirely consistent with our general criteria and guidelines.

Although we have identified general criteria and guidelines for evaluating prospective target businesses, it is possible that a target business with which we enter into our initial business combination will not have all of these positive attributes. If we complete our initial business combination with a target that does not meet some or all of these criteria and guidelines, such combination may not be as successful as a combination with a business that does meet all of our general criteria and guidelines. In addition, if we announce a prospective business combination with a target that does not meet our general criteria and guidelines, a greater number of stockholders may exercise their redemption rights, which may make it difficult for us to meet any closing condition with a target business that requires us to have a minimum net worth or a certain amount of cash. In addition, if stockholder approval of the transaction is required by applicable law or stock exchange rules, or we decide to obtain stockholder approval for business or other reasons, it may be more difficult for us to

attain stockholder approval of our initial business combination if the target business does not meet our general criteria and guidelines. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share, or less in certain circumstances, on the liquidation of our trust account and our warrants will expire worthless.

We may seek acquisition opportunities with an early stage company, a financially unstable business or an entity lacking an established record of revenue or earnings, which could subject us to volatile revenues or earnings, intense competition and difficulties in obtaining and retaining key personnel.

To the extent we complete our initial business combination with an early stage company, a financially unstable business or an entity lacking an established record of sales or earnings, we may be affected by numerous risks inherent in the operations of the business with which we combine. These risks include investing in a business without a proven business model and with limited historical financial data, volatile revenues or earnings, intense competition and difficulties in obtaining and retaining key personnel. Although our officers and directors will endeavor to evaluate the risks inherent in a particular target business, we may not be able to properly ascertain or assess all of the significant risk factors. Furthermore, some of these risks may be outside of our control and leave us with no ability to control or reduce the chances that those risks will adversely impact a target business.

We are not required to obtain an opinion from an independent investment banking firm or from an independent accounting firm regarding fairness. Consequently, you may have no assurance from an independent source that the price we are paying for the business is fair to our company from a financial point of view.

Unless we complete our initial business combination with a business that is affiliated with our sponsor, officers or directors, we are not required to obtain an opinion from an independent investment banking firm that is a member of FINRA or from an independent accounting firm that the price we are paying is fair to our company from a financial point of view. If no opinion is obtained, our stockholders will be relying on the judgment of our board of directors, who will determine fair market value based on standards generally accepted by the financial community. Such standards used will be disclosed in our tender offer documents or proxy solicitation materials, as applicable, related to our initial business combination.

We may issue additional shares of Class A common stock or preferred stock to complete our initial business combination or under an employee incentive plan after completion of our initial business combination. We may also issue shares of Class A common stock upon the conversion of the Class B common stock at a ratio greater than one-to-one at the time of our initial business combination as a result of the anti-dilution provisions described herein. Any such issuances would dilute the interest of our stockholders and likely present other risks.

Our amended and restated certificate of incorporation will authorize the issuance of up to 200,000,000 shares of Class A common stock, par value \$0.0001 per share, and 20,000,000 shares of Class B common stock, par value \$0.0001 per share and 1,000,000 shares of undesignated preferred stock, par value \$0.0001 per share. Immediately after this offering, there will be 162,333,334 and 13,125,000 (assuming in each case, that the underwriters have not exercised their over-allotment option) authorized but unissued shares of Class A and Class B common stock available, respectively, for issuance, which amount takes into account shares reserved for issuance upon exercise of outstanding warrants but not upon the conversion of the Class B common stock. Shares of Class B common stock are automatically convertible into shares of our Class A common stock at the time of our initial business combination, or earlier at the option of the holder, initially at a one-for-one ratio but subject to adjustment as set forth herein. Immediately after this offering, there will be no shares of preferred stock issued and outstanding.

Table of Contents

We may issue a substantial number of additional shares of Class A common stock, and may issue shares of preferred stock, in order to complete our initial business combination or under an employee incentive plan after completion of our initial business combination. We may also issue shares of Class A common stock to redeem the warrants as described in “Description of Securities—Warrants—Public Stockholders’ Warrants—Redemption of warrants when the price per share of Class A common stock equals or exceeds \$10.00” or upon conversion of the Class B common stock at a ratio greater than one-to-one at the time of our initial business combination as a result of the anti-dilution provisions described herein. However, our amended and restated certificate of incorporation will provide, among other things, that prior to our initial business combination, we may not issue additional shares of capital stock that would entitle the holders thereof to (1) receive funds from the trust account or (2) vote pursuant to our amended and restated certificate of incorporation on any initial business combination or any amendments to our amended and restated certificate of incorporation. The issuance of additional shares of common or preferred stock:

- may significantly dilute the equity interest of investors in this offering, which dilution would increase if the anti-dilution provisions in the Class B common stock resulted in the issuance of Class A shares on a greater than one-to-one basis upon conversion of the Class B common stock;
- may subordinate the rights of holders of common stock if preferred stock is issued with rights senior to those afforded our common stock;
- could cause a change of control if a substantial number of shares of our common stock is issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors;
- may have the effect of delaying or preventing a change of control of us by diluting the stock ownership or voting rights of a person seeking to obtain control of us;
- may adversely affect prevailing market prices for our units, Class A common stock and/or warrants; and
- may not result in adjustment to the exercise price of our warrants.

Resources could be wasted in researching acquisitions that are not completed, which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share, or less than such amount in certain circumstances, on the liquidation of our trust account and our warrants will expire worthless.

We anticipate that the investigation of each specific target business and the negotiation, drafting and execution of relevant agreements, disclosure documents and other instruments will require substantial management time and attention and substantial costs for accountants, attorneys and others. If we decide not to complete a specific initial business combination, the costs incurred up to that point for the proposed transaction likely would not be recoverable. Furthermore, if we reach an agreement relating to a specific target business, we may fail to complete our initial business combination for any number of reasons including those beyond our control. Any such event will result in a loss to us of the related costs incurred which could materially adversely affect subsequent attempts to locate and acquire or merge with another business. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share, or less in certain circumstances, on the liquidation of our trust account and our warrants will expire worthless. Please see “—If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share” and other risk factors herein.

Our officers and directors will allocate their time to other businesses thereby causing conflicts of interest in their determination as to how much time to devote to our affairs. This conflict of interest could have a negative impact on our ability to complete our initial business combination.

Our officers and directors are not required to, and will not, commit their full time to our affairs, which may result in a conflict of interest in allocating their time between our operations and our search for a business combination and their other responsibilities. We do not intend to have any full-time employees prior to the completion of our business combination. Each of our officers and directors is engaged in several other business endeavors for which he or she may be entitled to substantial compensation and our officers and directors are not obligated to contribute any specific number of hours per week to our affairs. Our independent directors also serve as officers and/or board members for other entities. If our officers' and directors' other business affairs require them to devote substantial amounts of time to such affairs in excess of their current commitment levels, it could limit their ability to devote time to our affairs which may have a negative impact on our ability to complete our initial business combination. Please see "Management—Directors, Director Nominees and Executive Officers" for a discussion of our officers' and directors' other business affairs.

We are dependent upon our officers and directors and their departure could adversely affect our ability to operate.

Our operations are dependent upon a relatively small group of individuals. We believe that our success depends on the continued service of our officers and directors, at least until we have completed our initial business combination. We do not have an employment agreement with, or key-man insurance on the life of, any of our directors or officers. The unexpected loss of the services of one or more of our directors or officers could have a detrimental effect on us.

Our ability to successfully effect our initial business combination and to be successful thereafter will be dependent upon the efforts of our key personnel, some of whom may join us following our initial business combination. The loss of key personnel could negatively impact the operations and profitability of our post-combination business.

Our ability to successfully effect our initial business combination is dependent upon the efforts of our key personnel. The role of our key personnel in the target business, however, cannot presently be ascertained. Although some of our key personnel may remain with the target business in senior management or advisory positions following our initial business combination, we do not currently expect that any of them will do so. While we intend to closely scrutinize any individuals we engage after our initial business combination, we cannot assure you that our assessment of these individuals will prove to be correct. These individuals may be unfamiliar with the requirements of operating a company regulated by the SEC, which could cause us to have to expend time and resources helping them become familiar with such requirements.

In addition, the officers and directors of an acquisition candidate may resign upon completion of our initial business combination. The departure of a business combination target's key personnel could negatively impact the operations and profitability of our post-combination business. The role of an acquisition candidate's key personnel upon the completion of our initial business combination cannot be ascertained at this time. Although we contemplate that certain members of an acquisition candidate's management team will remain associated with the acquisition candidate following our initial business combination, it is possible that members of the management of an acquisition candidate will not wish to remain in place. The loss of key personnel could negatively impact the operations and profitability of our post-combination business.

Our key personnel may negotiate employment or consulting agreements with a target business in connection with a particular business combination, and a particular business combination may be conditioned on the retention or resignation of such key personnel. These agreements may cause our key personnel to have conflicts of interest in determining whether to proceed with a particular business combination. However, we do not expect that any of our key personnel will remain with us after the completion of our initial business combination.

Our key personnel may be able to remain with our company after the completion of our initial business combination only if they are able to negotiate employment or consulting agreements in connection with the business combination. Such negotiations would take place simultaneously with the negotiation of the business combination and could provide for such individuals to receive compensation in the form of cash payments and/or our securities for services they would render to us after the completion of the business combination. Such negotiations also could make such key personnel's retention or resignation a condition to any such agreement. The personal and financial interests of such individuals may influence their motivation in identifying and selecting a target business. However, we believe the ability of such individuals to remain with us after the completion of our initial business combination will not be the determining factor in our decision as to whether or not we will proceed with any potential business combination, as we do not expect that any of our key personnel will remain with us after the completion of our initial business combination. The determination as to whether any of our key personnel will remain with us will be made at the time of our initial business combination.

We may have a limited ability to assess the management of a prospective target business and, as a result, may effect our initial business combination with a target business whose management may not have the skills, qualifications or abilities to manage a public company.

When evaluating the desirability of effecting our initial business combination with a prospective target business, our ability to assess the target business's management may be limited due to a lack of time, resources or information. Our assessment of the capabilities of the target's management, therefore, may prove to be incorrect and such management may lack the skills, qualifications or abilities we suspected. Should the target's management not possess the skills, qualifications or abilities necessary to manage a public company, the operations and profitability of the post-combination business may be negatively impacted. Accordingly, any stockholders or warrant holders who choose to remain a stockholder or warrant holder following our initial business combination could suffer a reduction in the value of their securities. Such stockholders or warrant holders are unlikely to have a remedy for such reduction in value.

The officers and directors of an acquisition candidate may resign upon completion of our initial business combination. The departure of a business combination target's key personnel could negatively impact the operations and profitability of our post-combination business. The role of an acquisition candidate's key personnel upon the completion of our initial business combination cannot be ascertained at this time. Although we contemplate that certain members of an acquisition candidate's management team will remain associated with the acquisition candidate following our initial business combination, it is possible that members of the management of an acquisition candidate will not wish to remain in place. As a result, we may need to reconstitute the management team of the post-transaction company in connection with our initial business combination, which may adversely impact our ability to complete an acquisition in a timely manner or at all.

Certain of our officers and directors are now, and all of them may in the future become, affiliated with entities engaged in business activities similar to those intended to be conducted by us and, accordingly, may have conflicts of interest in determining to which entity a particular business opportunity or other transaction should be presented.

Following the completion of this offering and until we consummate our initial business combination, we intend to engage in the business of identifying and combining with one or more businesses. Our

Table of Contents

sponsor and officers and directors are, or may in the future become, affiliated with entities (such as operating companies or investment vehicles) that are engaged in a similar business. We do not have employment contracts with our officers and directors that will limit their ability to work at other businesses.

As described in “Management—Conflicts of Interest,” each of our officers and directors presently has, and any of them in the future may have additional, fiduciary, contractual or other obligations or duties to one or more other entities pursuant to which such officer or director is or will be required to present a business combination opportunity to such entities. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity which is suitable for one or more entities to which he or she has fiduciary, contractual or other obligations or duties, he or she will honor these obligations and duties to present such business combination opportunity to such entities first, and only present it to us if such entities reject the opportunity and he or she determines to present the opportunity to us. These conflicts may not be resolved in our favor and a potential target business may be presented to another entity prior to its presentation to us. Our amended and restated certificate of incorporation will provide that we renounce our interest in any corporate opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of our company and such opportunity is one we are legally and contractually permitted to undertake and would otherwise be reasonable for us to pursue.

Please see “Management—Directors, Director Nominees and Executive Officers,” “Management—Conflicts of Interest” and “Certain Relationships and Related Party Transactions” for a discussion of our officers’ and directors’ business affiliations and potential conflicts of interest.

Our officers, directors, security holders and their respective affiliates may have competitive pecuniary interests that conflict with our interests.

We have not adopted a policy that expressly prohibits our directors, officers, security holders or affiliates from having a direct or indirect pecuniary or financial interest in any investment to be acquired or disposed of by us or in any transaction to which we are a party or have an interest. In fact, we may enter into a business combination with a target business that is affiliated with our sponsors, directors or officers. We do not have a policy that expressly prohibits any such persons from engaging for their own account in business activities of the types conducted by us. Accordingly, such persons or entities may have a conflict between their interests and ours.

We may engage in a business combination with one or more target businesses that have relationships with entities that may be affiliated with our sponsors, officers or directors which may raise potential conflicts of interest.

In light of the involvement of our sponsors, officers and directors with other businesses, we may decide to acquire one or more businesses affiliated with or competitive with our sponsors, officers and directors, and their respective affiliates. Our directors also serve as officers and/or board members for other entities, including, without limitation, those described under “Management—Conflicts of Interest.” Such entities may compete with us for business combination opportunities. Our sponsors, officers and directors are not currently aware of any specific opportunities for us to complete our initial business combination with any entities with which they are affiliated, and there have been no substantive discussions concerning a business combination with any such entity or entities. Although we will not be specifically focusing on, or targeting, any transaction with any affiliated entities, we would pursue such a transaction if we determined that such affiliated entity met our criteria for a business combination as set forth in “Proposed Business—Selection of a target business and structuring of our initial business combination” and such transaction was approved by a majority of our independent and disinterested directors. Despite our agreement to obtain an opinion from an independent investment banking firm that is a member of FINRA or from an independent accounting firm, regarding the fairness to our company from a financial point of view of a business combination with one or more domestic or

international businesses affiliated with our sponsor, officers or directors, potential conflicts of interest still may exist and, as a result, the terms of the business combination may not be as advantageous to our public stockholders as they would be absent any conflicts of interest.

Moreover, we may, at our option, pursue an affiliated joint acquisition opportunity with our sponsors or their respective affiliates or with other entities to which an officer or director has a fiduciary, contractual or other obligation or duty. Any such parties may co-invest with us in the target business at the time of our initial business combination, or we could raise additional proceeds to complete the acquisition by making a future issuance of securities to any such parties, which may give rise to certain conflicts of interest.

Since our initial stockholders will lose their entire investment in us if our initial business combination is not completed (other than with respect to any public shares they may hold), a conflict of interest may arise in determining whether a particular business combination target is appropriate for our initial business combination.

In October 2020, our sponsors purchased an aggregate of 7,906,250 founder shares for a capital contribution of \$25,000. In January 2021, our sponsor transferred 25,000 founder shares to each of our initial director nominees. The number of founder shares issued was determined based on the expectation that the founder shares would represent 20% of the outstanding shares of common stock upon the completion of this offering (not including the shares of Class A common stock underlying the private placement units). If we increase or decrease the size of this offering, we will effect a stock dividend or share contribution back to capital or other appropriate mechanism, as applicable, with respect to our Class B common stock immediately prior to the consummation of this offering in such amount as to maintain the number of founder shares at 20% of the outstanding shares of our common stock upon the consummation of this offering (not including the shares of Class A common stock underlying the private placement units). The founder shares will be worthless if we do not complete an initial business combination.

In addition, our sponsors have committed to purchase an aggregate of 750,000 (or 832,500 if the underwriters' over-allotment option is exercised in full) private placement units for a purchase price of \$7,500,000 (or \$8,325,000 if the underwriters' over-allotment option is exercised in full), or \$10.00 per unit, that will also be worthless if we do not complete our initial business combination.

The personal and financial interests of our officers and directors may influence their motivation in identifying and selecting a target business combination, completing an initial business combination and influencing the operation of the business following the initial business combination. This risk may become more acute as the deadline for completing our initial business combination nears.

We may issue notes or other debt securities, or otherwise incur substantial debt, to complete a business combination, which may adversely affect our leverage and financial condition and thus negatively impact the value of our stockholders' investment in us.

Although we have no commitments as of the date of this prospectus to issue any notes or other debt securities, or to otherwise incur outstanding debt following this offering, we may choose to incur substantial debt to complete our initial business combination. We have agreed that we will not incur any indebtedness unless we have obtained from the lender a waiver of any right, title, interest or claim of any kind in or to the monies held in the trust account. As such, no issuance of debt will affect the per-share amount available for redemption from the trust account. Nevertheless, the incurrence of debt could have a variety of negative effects, including:

- default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of

Table of Contents

- certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt is payable on demand;
- our inability to obtain necessary additional financing if the debt contains covenants restricting our ability to obtain such financing while the debt is outstanding;
- our inability to pay dividends on our common stock;
- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our common stock if declared, expenses, capital expenditures, acquisitions and other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation; and
- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, execution of our strategy and other purposes and other disadvantages compared to our competitors who have less debt.

We may only be able to complete one business combination with the proceeds of this offering and the sale of the private placement units, which will cause us to be solely dependent on a single business which may have a limited number of products or services. This lack of diversification may materially negatively impact our operations and profitability.

The net proceeds from this offering and the sale of the private placement units will provide us with \$265,375,000 assuming no redemptions (or \$305,181,250 assuming no redemptions if the underwriters' over-allotment option is exercised in full), after payment of the Marketing Fee of \$9,625,000 (or \$11,068,750 if the underwriters' over-allotment option is exercised in full), that we may use to complete our initial business combination, after estimated offering expenses of \$1,100,000 (and prior to any post-IPO working capital expenses).

We may effectuate our initial business combination with a single target business or multiple target businesses simultaneously or within a short period of time. However, we may not be able to effectuate our initial business combination with more than one target business because of various factors, including the existence of complex accounting issues and the requirement that we prepare and file pro forma financial statements with the SEC that present operating results and the financial condition of several target businesses as if they had been operated on a combined basis. By completing our initial business combination with only a single entity our lack of diversification may subject us to numerous economic, competitive and regulatory risks. Further, we would not be able to diversify our operations or benefit from the possible spreading of risks or offsetting of losses, unlike other entities which may have the resources to complete several business combinations in different industries or different areas of a single industry. Accordingly, the prospects for our success may be:

- solely dependent upon the performance of a single business, property or asset; or
- dependent upon the development or market acceptance of a single or limited number of products, processes or services.

This lack of diversification may subject us to numerous economic, competitive and regulatory risks, any or all of which may have a substantial adverse impact upon the particular industry in which we may operate subsequent to our initial business combination.

We may attempt to simultaneously complete business combinations with multiple prospective targets, which may hinder our ability to complete our initial business combination and give rise to increased costs and risks that could negatively impact our operations and profitability.

If we determine to simultaneously acquire several businesses that are owned by different sellers, we will need for each of such sellers to agree that our purchase of its business is contingent on the simultaneous closings of the other business combinations, which may make it more difficult for us, and delay our ability, to complete our initial business combination. With multiple business combinations, we could also face additional risks, including additional burdens and costs with respect to possible multiple negotiations and due diligence investigations (if there are multiple sellers) and the additional risks associated with the subsequent assimilation of the operations and services or products of the acquired companies in a single operating business. If we are unable to adequately address these risks, it could negatively impact our profitability and results of operations.

We may attempt to complete our initial business combination with a private company about which little information is available, which may result in a business combination with a company that is not as profitable as we suspected, if at all.

In pursuing our acquisition strategy, we may seek to effectuate our initial business combination with a privately held company. Very little public information generally exists about private companies, and we could be required to make our decision on whether to pursue a potential initial business combination on the basis of limited information, which may result in a business combination with a company that is not as profitable as we suspected, if at all.

Our management may not be able to maintain control of a target business after our initial business combination. We cannot provide assurance that, upon loss of control of a target business, new management will possess the skills, qualifications or abilities necessary to profitably operate such business.

We may structure our initial business combination so that the post-transaction company in which our public stockholders own or acquire shares will own less than 100% of the outstanding equity interests or assets of a target business, but we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target business sufficient for us not to be required to register as an investment company under the Investment Company Act. We will not consider any transaction that does not meet such criteria. Even if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target, our stockholders prior to our initial business combination may collectively own a minority interest in the post business combination company, depending on valuations ascribed to the target and us in our initial business combination. For example, we could pursue a transaction in which we issue a substantial number of new shares of common stock in exchange for all of the outstanding capital stock of a target, or issue a substantial number of new shares to third-parties in connection with financing our initial business combination. In such cases, we would acquire a 100% interest in the target. However, as a result of the issuance of a substantial number of new shares of common stock, our stockholders immediately prior to such transaction could own less than a majority of our outstanding shares of common stock subsequent to such transaction. In addition, other minority stockholders may subsequently combine their holdings resulting in a single person or group obtaining a larger share of the company's stock than we initially acquired. Accordingly, this may make it more likely that our management will not be able to maintain our control of the target business.

We do not have a specified maximum redemption threshold. The absence of such a redemption threshold may make it possible for us to complete our initial business combination with which a substantial majority of our stockholders do not agree.

Our amended and restated certificate of incorporation will not provide a specified maximum redemption threshold, except that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 following such redemptions, or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. As a result, we may be able to complete our initial business combination even though a substantial majority of our public stockholders do not agree with the transaction and have redeemed their shares or, if we seek stockholder approval of our initial business combination and do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, have entered into privately negotiated agreements to sell their shares to our sponsors, officers, directors, advisors or any of their respective affiliates. In the event the aggregate cash consideration we would be required to pay for all shares of common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares, all shares of common stock submitted for redemption will be returned to the holders thereof, and we instead may search for an alternate business combination (including, potentially, with the same target).

Risks Related to Our Organizational Documents and Structure

In order to effectuate an initial business combination, blank check companies have, in the recent past, amended various provisions of their charters and modified governing instruments, including their warrant agreements. We cannot assure you that we will not seek to amend our amended and restated certificate of incorporation or governing instruments, including our warrant agreement, in a manner that will make it easier for us to complete our initial business combination that some of our stockholders or warrant holders may not support.

In order to effectuate an initial business combination, blank check companies have, in the recent past, amended various provisions of their charters and modified governing instruments, including their warrant agreements. For example, blank check companies have amended the definition of business combination, increased redemption thresholds, extended the time to consummate an initial business combination and, with respect to their warrants, amended their warrant agreements to require the warrants to be exchanged for cash and/or other securities. We cannot assure you that we will not seek to amend our charter or governing instruments or extend the time to consummate an initial business combination in order to effectuate our initial business combination. To the extent any such amendment would be deemed to fundamentally change the nature of any of the securities offered through the registration statement of which this prospectus forms a part, we would register, or seek an exemption from registration for, the affected securities.

Certain provisions of our amended and restated certificate of incorporation that relate to our pre-business combination activity (and corresponding provisions of the agreement governing the release of funds from our trust account) may be amended with the approval of holders of at least a majority of our outstanding common stock, which is a lower amendment threshold than that of some other blank check companies. It may be easier for us, therefore, to amend our amended and restated certificate of incorporation and the trust agreement to facilitate the completion of an initial business combination that some of our stockholders may not support.

Some other blank check companies have a provision in their charter which prohibits the amendment of certain of its provisions, including those which relate to a company's pre-business combination activity, without approval by holders of a certain percentage of the company's stockholders. In those companies, amendment of these provisions typically requires approval by

holders holding between 90% and 100% of the company's public shares. Our amended and restated certificate of incorporation will provide that any of its provisions (other than amendments relating to the appointment or removal of directors prior to our initial business combination, which require the approval by holders of a majority of at least 90% of the outstanding shares of our common stock voting at a stockholder meeting) related to pre-business combination activity (including the requirement to deposit proceeds of this offering and the sale of the private placement units into the trust account and not release such amounts except in specified circumstances and to provide redemption rights to public stockholders as described herein) may be amended if approved by holders of at least a majority of our outstanding common stock, and corresponding provisions of the trust agreement governing the release of funds from our trust account may be amended if approved by holders of at least a majority of our outstanding common stock. Unless specified in our amended and restated certificate of incorporation or bylaws, or as required by applicable law or stock exchange rules, the affirmative vote of a majority of the outstanding shares of our common stock that are voted is required to approve any such matter voted on by our stockholders, and, prior to our initial business combination, the affirmative vote of holders of a majority of the outstanding shares of our Class B common stock is required to approve the election or removal of directors. We may not issue additional securities that can vote pursuant to our amended and restated certificate of incorporation on any initial business combination or any amendments to our amended and restated certificate of incorporation. Our initial stockholders, who will beneficially own 21.7% of our common stock upon the closing of this offering (assuming they do not purchase any units in this offering), may participate in any vote to amend our amended and restated certificate of incorporation and/or trust agreement and will have the discretion to vote in any manner they choose. As a result, we may be able to amend the provisions of our amended and restated certificate of incorporation which will govern our pre-business combination behavior more easily than some other blank check companies, and this may increase our ability to complete our initial business combination with which you do not agree.

Our sponsors, officers and directors have agreed, pursuant to a written agreement, that they will not propose any amendment to our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to allow redemptions in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity, unless we provide our public stockholders with the opportunity to redeem their shares of Class A common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable), divided by the number of then outstanding public shares. These agreements are contained in a letter agreement that we have entered into with our sponsors, officers and directors. Our public stockholders are not parties to, or third-party beneficiaries of, these agreements and, as a result, will not have the ability to pursue remedies against our sponsors, officers or directors for any breach of these agreements. As a result, in the event of a breach, our public stockholders would need to pursue a stockholder derivative action, subject to applicable law.

Certain agreements related to this offering may be amended without stockholder approval.

Certain agreements, including the letter agreement among us and our sponsors, officers and directors, and the registration rights agreement among us and our initial stockholders, may be amended without stockholder approval. These agreements contain various provisions, including transfer restrictions on our founder shares and private placement units and the securities included therein, that our public stockholders might deem to be material. While we do not expect our board of directors to approve any amendment to any of these agreements prior to our initial business combination, it may be possible that our board of directors, in exercising its business judgment and subject to its fiduciary duties, chooses to approve one or more amendments to any such agreement in connection with the consummation of our initial business combination. Any such amendments would

not require approval from our stockholders, may result in the completion of our initial business combination that may not otherwise have been possible, and may have an adverse effect on the value of an investment in our securities.

We may be unable to obtain additional financing to complete our initial business combination or to fund the operations and growth of a target business, which could compel us to restructure or abandon a particular business combination.

Although we believe that the net proceeds of this offering and the sale of the private placement units will be sufficient to allow us to complete our initial business combination, because we have not yet selected any target business we cannot ascertain the capital requirements for any particular transaction. If the net proceeds of this offering and the sale of the private placement units prove to be insufficient, either because of the size of our initial business combination, the depletion of the available net proceeds in search of a target business, the obligation to redeem for cash a significant number of shares from stockholders who elect redemption in connection with our initial business combination or the terms of negotiated transactions to purchase shares in connection with our initial business combination, we may be required to seek additional financing or to abandon the proposed business combination. We cannot assure you that such financing will be available on acceptable terms, if at all. None of our sponsors or their affiliates are obligated to provide, or seek, any such financing or, except as expressly set forth herein, to provide any other services to us. To the extent that additional financing proves to be unavailable when needed to complete our initial business combination, we would be compelled to either restructure the transaction or abandon that particular business combination and seek an alternative target business candidate. In addition, even if we do not need additional financing to complete our initial business combination, we may require such financing to fund the operations or growth of the target business. The failure to secure additional financing could have a material adverse effect on the continued development or growth of the target business. None of our officers, directors or stockholders is required to provide any financing to us in connection with or after our initial business combination. If we are unable to complete our initial business combination, our public stockholders may receive only approximately \$10.00 per share, or less in certain circumstances, on the liquidation of our trust account, and our warrants will expire worthless.

Our initial stockholders will control the election of our board of directors until consummation of our initial business combination and will hold a substantial interest in us. As a result, they will elect all of our directors prior to our initial business combination and may exert a substantial influence on actions requiring a stockholder vote, potentially in a manner that you do not support.

Upon the closing of this offering, our initial stockholders will own 21.7% of our outstanding common stock (assuming they do not purchase any units in this offering). In addition, prior to our initial business combination, holders of our Class B common stock will have the right to appoint all of our directors and may remove members of our board of directors for any reason. Holders of our public shares will have no right to vote on the election of directors during such time. These provisions of our amended and restated certificate of incorporation may only be amended by holders of a majority of at least 90% of the outstanding shares of our common stock voting at a stockholder meeting. As a result, you will not have any influence over the election of directors prior to our initial business combination.

Neither our initial stockholders nor, to our knowledge, any of our officers or directors, have any current intention to purchase additional securities, other than as disclosed in this prospectus. Factors that would be considered in making such additional purchases would include consideration of the current trading price of our Class A common stock. In addition, as a result of their substantial ownership in our company, our initial stockholders may exert a substantial influence on other actions requiring a stockholder vote, potentially in a manner that you do not support, including amendments to our amended and restated certificate of incorporation and approval of major corporate transactions. If

our initial stockholders purchase any additional shares of common stock in the aftermarket or in privately negotiated transactions, this would increase their influence over these actions. Accordingly, our initial stockholders will exert significant influence over actions requiring a stockholder vote. Please see “Proposed Business—Permitted purchases and other transactions with respect to our securities.”

Our sponsors made a capital contribution of \$25,000, or approximately \$0.003 per founder share, and, accordingly, you will experience immediate and substantial dilution from the purchase of our Class A common stock.

The difference between the public offering price per share (allocating all of the unit purchase price to the common stock and none to the warrant included in the unit) and the pro forma net tangible book value per share of our Class A common stock after this offering constitutes the dilution to you and the other investors in this offering. Our sponsors acquired the founder shares at a nominal price, significantly contributing to this dilution. Upon the closing of this offering, and assuming no value is ascribed to the warrants included in the units, you and the other public stockholders will incur an immediate and substantial dilution of approximately 93.8% (or \$9.38 per share, assuming no exercise of the underwriters’ over-allotment option), the difference between the pro forma net tangible book value per share of \$0.62 and the initial offering price of \$10.00 per unit. This dilution would increase to the extent that the anti-dilution provisions of the Class B common stock result in the issuance of Class A shares on a greater than one-to-one basis upon conversion of the Class B common stock at the time of our initial business combination and would become exacerbated to the extent that public stockholders seek redemptions from the trust. In addition, because of the anti-dilution protection in the founder shares, any equity or equity-linked securities issued in connection with our initial business combination would be disproportionately dilutive to our Class A common stock.

We may amend the terms of the warrants in a manner that may be adverse to holders of public warrants with the approval by the holders of at least 50% of the then outstanding public warrants. As a result, the exercise price of your warrants could be increased, the warrants could be converted into cash or stock, the exercise period could be shortened and the number of shares of our Class A common stock purchasable upon exercise of a warrant could be decreased, all without your approval.

Our warrants will be issued in registered form under a warrant agreement between Continental Stock Transfer & Trust Company, as warrant agent, and us. The warrant agreement provides that the terms of the warrants may be amended without the consent of any holder to cure any ambiguity or correct any defective provision, but requires the approval by the holders of at least 50% of the then outstanding public warrants to make any change that adversely affects the interests of the registered holders of public warrants. Accordingly, we may amend the terms of the public warrants in a manner adverse to a holder if holders of at least 50% of the then outstanding public warrants approve of such amendment. Although our ability to amend the terms of the public warrants with the consent of at least 50% of the then outstanding public warrants is unlimited, examples of such amendments could be amendments to, among other things, increase the exercise price of the warrants, convert the warrants into cash or stock (at a ratio different than initially provided), shorten the exercise period or decrease the number of shares of our common stock purchasable upon exercise of a warrant.

Our warrant agreement will designate the courts of the State of New York or the United States District Court for the Southern District of New York as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by holders of our warrants, which could limit the ability of warrant holders to obtain a favorable judicial forum for disputes with our company.

Our warrant agreement will provide that, subject to applicable law, (i) any action, proceeding or claim against us arising out of or relating in any way to the warrant agreement will be brought and enforced in the courts of the State of New York or the United States District Court for the Southern

District of New York, and (ii) that we irrevocably submit to such jurisdiction, which jurisdiction shall be the exclusive forum for any such action, proceeding or claim. We will waive any objection to such exclusive jurisdiction and that such courts represent an inconvenient forum.

Notwithstanding the foregoing, these provisions of the warrant agreement will not apply to suits brought to enforce any liability or duty created by the Exchange Act, any other claim for which the federal district courts of the United States of America have exclusive jurisdiction or any complaint asserting a cause of action arising under the Securities Act against us or any of our directors, officers, other employees or agents. Any person or entity purchasing or otherwise acquiring any interest in any of our warrants shall be deemed to have notice of and to have consented to the forum provisions in our warrant agreement. If any action, the subject matter of which is within the scope the forum provisions of the warrant agreement, is filed in a court other than a court of the State of New York or the United States District Court for the Southern District of New York (a "foreign action") in the name of any holder of our warrants, such holder shall be deemed to have consented to: (x) the personal jurisdiction of the state and federal courts located in the State of New York in connection with any action brought in any such court to enforce the forum provisions (an "enforcement action"), and (y) having service of process made upon such warrant holder in any such enforcement action by service upon such warrant holder's counsel in the foreign action as agent for such warrant holder.

This choice-of-forum provision may limit a warrant holder's ability to bring a claim in a judicial forum that it finds favorable for disputes with our company, which may discourage such lawsuits. Alternatively, if a court were to find this provision of our warrant agreement inapplicable or unenforceable with respect to one or more of the specified types of actions or proceedings, we may incur additional costs associated with resolving such matters in other jurisdictions, which could materially and adversely affect our business, financial condition and results of operations and result in a diversion of the time and resources of our management and board of directors.

We may redeem your unexpired warrants prior to their exercise at a time that is disadvantageous to you, thereby making your warrants worthless.

We have the ability to redeem outstanding warrants at any time after they become exercisable and prior to their expiration, at a price of \$0.01 per warrant if, among other things, the last reported sales price of our Class A common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within a 30 trading-day period ending on the third trading day prior to the date we send the notice of redemption to the warrant holders. If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws. As a result, we may redeem the public warrants as set forth above even if the holders are otherwise unable to exercise the warrants. Redemption of the outstanding warrants could force you to: (1) exercise your warrants and pay the exercise price therefor at a time when it may be disadvantageous for you to do so; (2) sell your warrants at the then-current market price when you might otherwise wish to hold your warrants; or (3) accept the nominal redemption price which, at the time the outstanding warrants are called for redemption, we expect would be substantially less than the market value of your warrants.

In addition, we have the ability to redeem outstanding warrants commencing ninety days after they become exercisable and prior to their expiration, at a price of \$0.10 per warrant if, among other things, the last reported sale price of our Class A common stock equals or exceeds \$10.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) on the trading day prior to the date on which we send the notice of redemption to the warrant holders. In such a case, the holders will be able to exercise their warrants for cash or on a cashless basis prior to redemption and receive that number of shares of Class A common stock determined by reference to the table set forth under "Description of Securities—Warrants—Public Stockholders' Warrants" based on the

Table of Contents

redemption date and the “fair market value” of our Class A common stock (as defined below) except as otherwise described in “Description of Securities—Warrants—Public Stockholders’ Warrants.” The value received upon exercise of the warrants (1) may be less than the value the holders would have received if they had exercised their warrants at a later time where the underlying share price is higher and (2) may not compensate the holders for the value of the warrants, including because the number of ordinary shares received is capped at 0.361 shares of Class A common stock per warrant (subject to adjustment) irrespective of the remaining life of the warrants.

None of the warrants underlying the private placement units will be redeemable by us so long as they are held by our sponsors or their permitted transferees.

Our public warrants, founder shares and private placement units (including the securities contained therein) may have an adverse effect on the market price of our Class A common stock and make it more difficult to effectuate our initial business combination.

We will be issuing warrants to purchase 9,166,667 shares of our Class A common stock (or up to 10,541,667 shares of our Class A common stock if the underwriters’ over-allotment option is exercised in full), at a price of \$11.50 per whole share (subject to adjustment as provided herein), as part of the units offered by this prospectus and, simultaneously with the closing of this offering, we will be issuing in a private placement, as part of the private placement units, (1) an aggregate of 375,000 (or 416,250 if the underwriters’ over-allotment option is exercised in full) private placement warrants, each exercisable to purchase one share of Class A common stock at a price of \$11.50 per share, subject to adjustment as provided herein, and (2) an aggregate of 750,000 (or 832,500 if the underwriters’ over-allotment option is exercised in full) private placement shares. Our initial stockholders currently hold 7,906,250 founder shares (up to 1,031,250 of which are subject to forfeiture by our sponsors depending on the extent to which the underwriters’ over-allotment option is exercised). The founder shares are convertible into shares of Class A common stock on a one-for-one basis, subject to adjustment as set forth herein. In addition, if our sponsors, an affiliate of our sponsors or certain of our officers and directors make any working capital loans, up to \$1,500,000 of such loans may be converted into units, at the price of \$10.00 per unit at the option of the lender. Such units would be identical to the private placement units.

To the extent we issue shares of Class A common stock to effectuate our initial business combination, the potential for the issuance of a substantial number of additional shares of Class A common stock upon exercise of these warrants or conversion rights could make us a less attractive acquisition vehicle to a target business. Any such issuance will increase the number of outstanding shares of our Class A common stock and reduce the value of the Class A common stock issued to complete the business combination. Therefore, our public warrants, founder shares and private placement units (including the securities included therein) may make it more difficult to effectuate a business combination or increase the cost of acquiring the target business.

Because each unit offered in this offering contains one-third of one redeemable warrant and only a whole warrant may be exercised, the units may be worth less than units of other blank check companies.

Each unit offered in this offering contains one-third of one redeemable warrant. Pursuant to the warrant agreement, no fractional warrants will be issued upon separation of the units, and only whole units will trade. This is different from other offerings similar to ours whose units include one share of Class A common stock and one whole warrant to purchase one whole share. We have established the components of the units in this way in order to reduce the dilutive effect of the warrants upon completion of a business combination since the warrants will be exercisable in the aggregate for one third of the number of shares compared to units that each contain a whole warrant to purchase one whole share, thus making us, we believe, a more attractive business combination partner for target

businesses. Nevertheless, this unit structure may cause our units to be worth less than if they included a warrant to purchase one whole share.

A provision of our warrant agreement may make it more difficult for us to consummate an initial business combination.

If (x) we issue additional shares of Class A common stock or equity-linked securities for capital raising purposes in connection with the closing of our initial business combination at a newly issued price of less than \$9.20 per share of Class A common stock, (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of our initial business combination on the date of the completion of our initial business combination (net of redemptions), and (z) the Market Value of our Class A common stock is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the higher of the Market Value and the newly issued price, and the \$18.00 per share redemption trigger price will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the newly issued price. This may make it more difficult for us to consummate an initial business combination with a target business.

Risks Related to Our Units

The determination of the offering price of our units and the size of this offering is more arbitrary than the pricing of securities and size of an offering of an operating company in a particular industry. You may have less assurance, therefore, that the offering price of our units properly reflects the value of such units than you would have in a typical offering of an operating company.

Prior to this offering there has been no public market for any of our securities. The public offering price of the units and the terms of the warrants were negotiated between us and the underwriters. In determining the size of this offering, management held customary organizational meetings with representatives of the underwriters with respect to the state of capital markets, generally, and the amount the underwriters believed they reasonably could raise on our behalf. Factors considered in determining the size of this offering, prices and terms of the units, including the Class A common stock and warrants underlying the units, include:

- the history and prospects of companies whose principal business is the acquisition of other companies;
- prior offerings of those companies;
- our prospects for acquiring an operating business at attractive values;
- a review of debt to equity ratios in leveraged transactions;
- our capital structure;
- an assessment of our management and their experience in identifying suitable business combination opportunities;
- general conditions of the securities markets at the time of this offering; and
- other factors as were deemed relevant.

Although these factors were considered, the determination of our offering price is more arbitrary than the pricing of securities of an operating company in a particular industry since we have no historical operations or financial results.

There is currently no market for our securities and a market for our securities may not develop, which would adversely affect the liquidity and price of our securities.

There is currently no market for our securities. Stockholders therefore have no access to information about prior market history on which to base their investment decision. Following this

offering, the price of our securities may vary significantly due to one or more potential business combinations and general market or economic conditions, including as a result of the COVID-19 outbreak. Furthermore, an active trading market for our securities may never develop or, if developed, it may not be sustained. You may be unable to sell your securities unless a market can be established and sustained.

Because we must furnish our stockholders with target business financial statements, we may lose the ability to complete an otherwise advantageous initial business combination with some prospective target businesses.

The federal proxy rules require that a proxy statement with respect to a vote on a business combination meeting certain financial significance tests include historical and/or pro forma financial statement disclosure in periodic reports. We will include the same financial statement disclosure in connection with our tender offer documents, whether or not they are required under the tender offer rules. These financial statements may be required to be prepared in accordance with, or be reconciled to, accounting principles generally accepted in the United States of America, or GAAP, or international financial reporting standards as issued by the International Accounting Standards Board, or IFRS, depending on the circumstances and the historical financial statements may be required to be audited in accordance with the standards of the Public Company Accounting Oversight Board (United States), or PCAOB. These financial statement requirements may limit the pool of potential target businesses we may acquire because some targets may be unable to provide such financial statements in time for us to disclose such financial statements in accordance with federal proxy rules and complete our initial business combination within the prescribed time frame.

General Risks

We are an emerging growth company and a smaller reporting company within the meaning of the Securities Act, and if we take advantage of certain exemptions from disclosure requirements available to emerging growth companies or smaller reporting companies, this could make our securities less attractive to investors and may make it more difficult to compare our performance with other public companies.

We are an "emerging growth company" within the meaning of the Securities Act, as modified by the JOBS Act, and we may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. As a result, our stockholders may not have access to certain information they may deem important. We could be an emerging growth company for up to five years, although circumstances could cause us to lose that status earlier, including if the market value of our common stock held by non-affiliates exceeds \$700 million as of the end of any second quarter of a fiscal year, in which case we would no longer be an emerging growth company as of the end of such fiscal year. We cannot predict whether investors will find our securities less attractive because we will rely on these exemptions. If some investors find our securities less attractive as a result of our reliance on these exemptions, the trading prices of our securities may be lower than they otherwise would be, there may be a less active trading market for our securities and the trading prices of our securities may be more volatile.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a

class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. We have elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, we, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of our financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Additionally, we are a "smaller reporting company" as defined in Item 10(f)(1) of Regulation S-K. Smaller reporting companies may take advantage of certain reduced disclosure obligations, including, among other things, providing only two years of audited financial statements. We will remain a smaller reporting company until the last day of the fiscal year in which (1) the market value of our common stock held by non-affiliates exceeds \$250 million as of the end of that year's second fiscal quarter, or (2) our annual revenues exceeded \$100 million during such completed fiscal year and the market value of our common stock held by non-affiliates exceeds \$700 million as of the end of that year's second fiscal quarter. To the extent we take advantage of such reduced disclosure obligations, it may also make comparison of our financial statements with other public companies difficult or impossible.

Compliance obligations under the Sarbanes-Oxley Act may make it more difficult for us to effectuate our initial business combination, require substantial financial and management resources, and increase the time and costs of completing an acquisition.

Section 404 of the Sarbanes-Oxley Act requires that we evaluate and report on our system of internal controls beginning with our Annual Report on Form 10-K for the year ending December 31, 2021. Only in the event we are deemed to be a large accelerated filer or an accelerated filer, and no longer qualify as an emerging growth company, will we be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. The fact that we are a blank check company makes compliance with the requirements of the Sarbanes-Oxley Act particularly burdensome on us as compared to other public companies because a target business with which we seek to complete our initial business combination may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of its internal controls.

The development of the internal control of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such acquisition.

Provisions in our amended and restated certificate of incorporation and Delaware law may inhibit a takeover of us, which could limit the price investors might be willing to pay in the future for our Class A common stock and could entrench management.

Our amended and restated certificate of incorporation will contain provisions that may discourage unsolicited takeover proposals that stockholders may consider to be in their best interests. These provisions include staggered board of directors, the ability of the board of directors to designate the terms of and issue new series of preferred shares, and the fact that prior to the completion of our initial business combination only holders of our shares of Class B common stock, which are held by our initial stockholders, are entitled to vote on the election of directors, which may make more difficult the removal of management and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities.

We are also subject to anti-takeover provisions under Delaware law, which could delay or prevent a change of control. Together these provisions may make more difficult the removal of management

and may discourage transactions that otherwise could involve payment of a premium over prevailing market prices for our securities.

Our amended and restated certificate of incorporation will designate the Court of Chancery of the State of Delaware as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by our stockholders, which could limit our stockholders' ability to obtain a favorable judicial forum for disputes with our company or our company's directors, officers or other employees.

Our amended and restated certificate of incorporation will provide that, unless we consent in writing to the selection of an alternative forum, the Court of Chancery of the State of Delaware shall, to the fullest extent permitted by law, be the sole and exclusive forum for any (1) derivative action or proceeding brought on behalf of our company, (2) action asserting a claim of breach of a fiduciary duty owed by any director, officer, employee or agent of our company to our company or our stockholders, or any claim for aiding and abetting any such alleged breach, (3) action asserting a claim against our company or any director or officer of our company arising pursuant to any provision of the DGCL or our amended and restated certificate of incorporation or our bylaws, or (4) action asserting a claim against us or any director or officer of our company governed by the internal affairs doctrine except for, as to each of (1) through (4) above, any claim (a) as to which the Court of Chancery determines that there is an indispensable party not subject to the jurisdiction of the Court of Chancery (and the indispensable party does not consent to the personal jurisdiction of the Court of Chancery within ten days following such determination) or (b) which is vested in the exclusive jurisdiction of a court or forum other than the Court of Chancery. Notwithstanding the foregoing, the provisions of this paragraph will not apply to suits brought to enforce any liability or duty created by the Securities Act, the Exchange Act, or any claim for which the federal district courts of the United States of America have exclusive jurisdiction. Any person or entity purchasing or otherwise acquiring any interest in any shares of our capital stock shall be deemed to have notice of and to have consented to the forum provisions in our amended and restated certificate of incorporation. If any action the subject matter of which is within the scope of the forum provisions is filed in a court other than a court located within the State of Delaware (a "foreign action") in the name of any stockholder, such stockholder shall be deemed to have consented to: (x) the personal jurisdiction of the state and federal courts located within the State of Delaware in connection with any action brought in any such court to enforce the forum provisions (an "enforcement action"), and (y) having service of process made upon such stockholder in any such enforcement action by service upon such stockholder's counsel in the foreign action as agent for such stockholder.

This forum selection clause may discourage claims or limit stockholders' ability to submit claims in a judicial forum that they find favorable and may result in additional costs for a stockholder seeking to bring a claim. While we believe the risk of a court declining to enforce this forum selection clause is low, if a court were to determine the forum selection clause to be inapplicable or unenforceable in an action, we may incur additional costs in conjunction with our efforts to resolve the dispute in an alternative jurisdiction, which could have a negative impact on our results of operations and financial condition and result in a diversion of the time and resources of our management and board of directors.

If our management team pursues a company with operations or opportunities outside of the United States for our initial business combination, we may face additional burdens in connection with investigating, agreeing to and completing such combination, and if we effect such initial business combination, we would be subject to a variety of additional risks that may negatively impact our operations.

If our management team pursues a company with operations or opportunities outside of the United States for our initial business combination, we would be subject to risks associated with cross-border business combinations, including in connection with investigating, agreeing to and completing our initial

Table of Contents

business combination, conducting due diligence in a foreign market, having such transaction approved by any local governments, regulators or agencies and changes in the purchase price based on fluctuations in foreign exchange rates.

If we effect our initial business combination with such a company, we would be subject to any special considerations or risks associated with companies operating in an international setting, including any of the following:

- costs and difficulties inherent in managing cross-border business operations and complying with commercial and legal requirements of overseas markets;
- rules and regulations regarding currency redemption;
- complex corporate withholding taxes on individuals;
- laws governing the manner in which future business combinations may be effected;
- tariffs and trade barriers;
- regulations related to customs and import/export matters;
- longer payment cycles;
- changes in local regulations as part of a response to the COVID-19 coronavirus outbreak;
- tax consequences;
- currency fluctuations and exchange controls;
- rates of inflation;
- challenges in collecting accounts receivable;
- cultural and language differences;
- employment regulations;
- crime, strikes, riots, civil disturbances, terrorist attacks, natural disasters and wars;
- deterioration of political relations with the United States;
- obligatory military service by personnel; and
- government appropriation of assets.

We may not be able to adequately address these additional risks. If we were unable to do so, we may be unable to complete such combination or, if we complete such combination, our operations might suffer, either of which may adversely impact our results of operations and financial condition.

If our management following our initial business combination is unfamiliar with U.S. securities laws, they may have to expend time and resources becoming familiar with such laws, which could lead to various regulatory issues.

Following our initial business combination, any or all of our management could resign from their positions as officers of the post-business combination company, and the management of the target business at the time of the business combination could remain in place. Management of the target business may not be familiar with U.S. securities laws. If new management is unfamiliar with U.S. securities laws, they may have to expend time and resources becoming familiar with such laws. This could be expensive and time-consuming and could lead to various regulatory issues which may adversely affect our operations.

An investment in this offering may result in uncertain or adverse U.S. federal income tax consequences.

An investment in this offering may result in uncertain U.S. federal income tax consequences. For instance, because there are no authorities that directly address instruments similar to the units we are issuing in this offering, the allocation an investor makes with respect to the purchase price of a unit

[Table of Contents](#)

between the share of Class A common stock and the one-third of one redeemable warrant to purchase one share of our Class A common stock included in each unit could be challenged by the U.S. Internal Revenue Service, or "IRS," or the courts. Furthermore, the U.S. federal income tax consequences of a cashless exercise of the warrants included in the units we are issuing in this offering are unclear under current law, and the adjustment to the exercise price and/or redemption price of the warrants could give rise to dividend income to investors without a corresponding payment of cash. Finally, it is unclear whether the redemption rights with respect to our shares of common stock suspend the running of a U.S. holder's holding period for purposes of determining whether any gain or loss realized by such holder on the sale or exchange of common stock is long-term capital gain or loss and for determining whether any dividend we pay would be considered "qualified dividends" for U.S. federal income tax purposes. See the section titled "United States Federal Income Tax Considerations" for a summary of the material U.S. federal income tax considerations applicable to an investment in our securities. Prospective investors are urged to consult their tax advisors with respect to these and other tax consequences applicable to their specific circumstances when purchasing, holding or disposing of our securities.

We may be subject to an increased rate of tax on our income if we are treated as a personal holding company.

Depending on the date and size of our initial business combination, it is possible that we could be treated as a "personal holding company" for U.S. federal income tax purposes. A U.S. corporation generally will be classified as a personal holding company for U.S. federal income tax purposes in a given taxable year if more than 50% of its ownership (by value) is concentrated, within a certain period of time, in five or fewer individuals (without regard to their citizenship or residency and including as individuals for this purpose certain entities such as certain tax-exempt organizations, pension funds, and charitable trusts), and at least 60% of its income is comprised of certain passive items. See the section titled "United States Federal Income Tax Considerations — Personal Holding Company Status" for more detailed information.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

Some statements contained in this prospectus are forward-looking in nature. Our forward-looking statements include, but are not limited to, statements regarding our or our management team's expectations, hopes, beliefs, intentions or strategies regarding the future. In addition, any statements that refer to projections, forecasts or other characterizations of future events or circumstances, including any underlying assumptions, are forward-looking statements. The words "anticipate," "believe," "continue," "could," "estimate," "expect," "intends," "may," "might," "plan," "possible," "potential," "predict," "project," "should," "would" and similar expressions may identify forward-looking statements, but the absence of these words does not mean that a statement is not forward-looking. Forward-looking statements in this prospectus may include, for example, statements about:

- our ability to select an appropriate target business or businesses;
- our ability to complete our initial business combination;
- our expectations around the performance of a prospective target business or businesses;
- our success in retaining or recruiting, or changes required in, our officers, key employees or directors following our initial business combination;
- our officers and directors allocating their time to other businesses and potentially having conflicts of interest with our business or in approving our initial business combination;
- our potential ability to obtain additional financing to complete our initial business combination;
- our pool of prospective target businesses and the financial services and financial technology industries;
- our ability to consummate an initial business combination due to the uncertainty resulting from the recent COVID-19 pandemic;
- the ability of our officers and directors to generate a number of potential business combination opportunities;
- our public securities' potential liquidity and trading;
- the lack of a market for our securities;
- the use of proceeds not held in the trust account or available to us from interest income on the trust account balance;
- the trust account not being subject to claims of third parties; or
- our financial performance following this offering.

The forward-looking statements contained in this prospectus are based on our current expectations and beliefs concerning future developments and their potential effects on us. There can be no assurance that future developments affecting us will be those that we have anticipated. These forward-looking statements involve a number of risks, uncertainties (some of which are beyond our control) or other assumptions that may cause actual results or performance to be materially different from those expressed or implied by these forward-looking statements. These risks and uncertainties include, but are not limited to, those factors described under the heading "Risk Factors." Should one or more of these risks or uncertainties materialize, or should any of our assumptions prove incorrect, actual results may vary in material respects from those projected in these forward-looking statements. We undertake no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as may be required under applicable securities laws.

USE OF PROCEEDS

We are offering 27,500,000 units at an offering price of \$10.00 per unit. We estimate that the net proceeds of this offering together with the funds we will receive from the sale of the private placement units will be used as set forth in the following table.

	Without Option to Purchase Additional Units	Option to Purchase Additional Units Exercised in Full
<i>Gross proceeds</i>		
Gross proceeds from units offered to public ⁽¹⁾	\$ 275,000,000	\$ 316,250,000
Gross proceeds from private placement units offered in the private placement	<u>7,500,000</u>	<u>8,325,000</u>
Total gross proceeds	\$ 282,500,000	\$ 324,575,000
<i>Estimated offering expenses⁽²⁾</i>		
Underwriting commissions ⁽³⁾	\$ 5,500,000	\$ 6,325,000
Legal fees and expenses	300,000	300,000
Printing and engraving expenses	30,000	30,000
Accounting fees and expenses	49,000	49,000
SEC/FINRA Expenses	82,441	82,441
Travel and road show	5,000	5,000
Directors and officers insurance premiums	550,000	550,000
Nasdaq listing and filing fees	75,000	75,000
Miscellaneous expenses ⁽⁴⁾	<u>8,559</u>	<u>8,559</u>
Total estimated offering expenses (other than underwriting commissions)	<u>1,100,000</u>	<u>1,100,000</u>
Proceeds after estimated offering expenses	\$ 275,900,000	\$ 317,150,000
Held in trust account ⁽³⁾	\$ 275,000,000	\$ 316,250,000
% of public offering size	100%	100%
Not held in trust account	\$ 900,000	\$ 900,000

The following table shows the use of the approximately \$900,000 of estimated net proceeds not held in the trust account. ⁽⁵⁾

	<u>Amount</u>	<u>% of Total</u>
Legal, accounting, due diligence, travel and other expenses in connection with any business combination ⁽⁶⁾	\$400,000	44.4%
Legal and accounting fees related to regulatory reporting obligations	100,000	11.1
Payment for office space, administrative and support services	240,000	26.7
Nasdaq continued listing fees	75,000	8.3
Working capital to cover miscellaneous expenses (including franchise taxes net of anticipated interest income)	<u>85,000</u>	<u>9.4</u>
Total	<u>\$900,000</u>	<u>100.0%</u>

(1) Includes amounts payable to public stockholders who properly redeem their shares in connection with our successful completion of our initial business combination.

(2) A portion of the offering expenses will be paid from the proceeds of loans from our sponsors of \$300,000 as described in this prospectus. These loans will be repaid upon completion of this offering out of the \$1,100,000 of offering proceeds that has been allocated for the payment of

Table of Contents

offering expenses (other than underwriting commissions) not held in the trust account. These expenses are estimated only. In the event that offering expenses are less than as set forth in this table, any such amounts will be used for post-closing working capital expenses. In the event that the offering expenses are more than as set forth in this table, we may fund such excess with funds not held in the trust account.

- (3) On the completion of our initial business combination, all amounts held in the trust account will be disbursed directly by the trustee or released to us to pay amounts due to any public stockholders who properly exercise their redemption rights to pay all or a portion of the consideration payable to the target or owners of the target of our initial business combination and to pay other expenses associated with our initial business combination, including the Marketing Fee of \$9,625,000 (or \$11,068,750 if the underwriters' over-allotment option is exercised in full).
- (4) Includes organizational and administrative expenses and may include amounts related to above-listed expenses in the event actual amounts exceed estimates.
- (5) These expenses are estimates only. Our actual expenditures for some or all of these items may differ from the estimates set forth herein. For example, we may incur greater legal and accounting expenses than our current estimates in connection with negotiating and structuring a business combination based upon the level of complexity of such business combination. In the event we identify a business combination target in a specific industry subject to specific regulations, we may incur additional expenses associated with legal due diligence and the engagement of special legal counsel. In addition, our staffing needs may vary and as a result, we may engage a number of consultants to assist with legal and financial due diligence. We do not anticipate any change in our intended use of proceeds, other than fluctuations among the current categories of allocated expenses, which fluctuations, to the extent they exceed current estimates for any specific category of expenses, would not be available for our expenses. The amount in the table above does not include interest available to us from the trust account. Based on current interest rates, we would expect approximately \$825,000 to be available to us annually from interest earned on the funds held in the trust account; however, we can provide no assurances regarding this amount. This estimate assumes an interest rate of 0.3% per annum based upon current yields of securities in which the trust account may be invested. In addition, in order to fund working capital deficiencies or finance transaction costs in connection with an intended initial business combination, our sponsors, an affiliate of our sponsors or our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we may repay such loaned amounts out of the proceeds of the trust account released to us. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used to repay such loaned amounts. Up to \$1,500,000 of such loans may be convertible into units at a price of \$10.00 per unit at the option of the lender. The units would be identical to the private placement units issued to our sponsors. The terms of such loans, if any, have not been determined and no written agreements exist with respect to such loans. Prior to the completion of our business combination, we do not expect to seek loans from parties other than our sponsors, an affiliate of our sponsors or our officers and directors, if any, as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.
- (6) Includes estimated amounts that may also be used in connection with our initial business combination to fund a "no shop" provision and commitment fees for financing.

The rules of Nasdaq provide that at least 90% of the gross proceeds from this offering and the sale of the private placement units be deposited in a trust account. Of the net proceeds of this offering and the sale of the private placement units, \$275,000,000 (or \$316,250,000 if the underwriters' over-allotment option is exercised in full) will, upon the consummation of this offering, be placed in a U.S. based trust account at J.P. Morgan Chase Bank, N.A., with Continental Stock Transfer & Trust

Table of Contents

Company acting as trustee. The funds in the trust account will be invested only in U.S. government treasury bills with a maturity of 185 days or less or in money market funds investing solely in U.S. Treasuries and meeting certain conditions under Rule 2a-7 under the Investment Company Act. Based on current interest rates, we estimate that the interest earned on the trust account will be approximately \$825,000 per year, assuming an interest rate of 0.3% per year. We will not be permitted to withdraw any of the principal or interest held in the trust account, except with respect to interest earned on the funds held in the trust account that may be released to us to pay our taxes, if any, the funds held in the trust account will not be released from the trust account until the earliest of: (1) the completion of our initial business combination; (2) the redemption of any public shares properly submitted in connection with a stockholder vote to amend our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to allow redemptions in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity; and (3) the redemption of all of our public shares if we have not completed our initial business combination within 24 months from the closing of this offering, subject to applicable law. Based on current interest rates, we expect that interest earned on the trust account will be sufficient to pay taxes.

The net proceeds held in the trust account may be used as consideration to pay the sellers of a target business with which we ultimately complete our initial business combination. If our initial business combination is paid for using equity or debt or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial business combination or used for redemption of our public shares, we may apply the balance of the cash released to us from the trust account for general corporate purposes, including for maintenance or expansion of operations of post-transaction businesses, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other businesses or for working capital. There is no limitation on our ability to raise funds privately or through loans in connection with our initial business combination.

We believe that amounts not held in trust will be sufficient to pay the costs and expenses to which such proceeds are allocated. This belief is based on the fact that while we may begin preliminary due diligence of a target business in connection with an indication of interest, we intend to undertake in-depth due diligence, depending on the circumstances of the relevant prospective acquisition, only after we have negotiated and signed a letter of intent or other preliminary agreement that addresses the terms of a business combination. However, if our estimate of the costs of undertaking in-depth due diligence and negotiating a business combination is less than the actual amount necessary to do so, we may be required to raise additional capital, the amount, availability and cost of which is currently unascertainable. If we are required to seek additional capital, we could seek such additional capital through loans or additional investments from our sponsor, members of our management team or any of their respective affiliates, but such persons are not under any obligation or other duty to loan funds to, or invest in, us.

We will enter into an Administrative Services Agreement pursuant to which we will pay our sponsor a total of \$10,000 per month for office space, administrative and support services. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees.

Prior to the commencement of this offering, our sponsors agreed to loan us up to \$300,000 to be used for a portion of the expenses of this offering. As of October 31, 2020, we have borrowed \$275,000 under such promissory notes. The loan is non-interest bearing, unsecured and is due at the earlier of March 31, 2021 and the closing of this offering. The loan will be repaid upon completion of this offering out of the \$1,100,000 of offering proceeds that has been allocated for the payment of offering expenses (other than underwriting commissions) not held in the trust account.

Table of Contents

In addition, in order to fund working capital deficiencies or finance transaction costs in connection with an intended initial business combination, our sponsors, an affiliate of our sponsors or our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we may repay such loaned amounts out of the proceeds of the trust account released to us. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used to repay such loaned amounts. Up to \$1,500,000 of such loans may be convertible into units at a price of \$10.00 per unit at the option of the lender. The units would be identical to the private placement units issued to our sponsors. The terms of such loans by our sponsors, an affiliate of our sponsors or our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans. Prior to the completion of our business combination, we do not expect to seek loans from parties other than our sponsors, an affiliate of our sponsors or our officers and directors, if any, as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our sponsors, directors, officers, advisors or any of their respective affiliates may also purchase shares in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. Please see “Proposed Business—Permitted purchases and other transactions with respect to our securities” for a description of how such persons will determine from which stockholders to seek to acquire shares. The price per share paid in any such transaction may be different than the amount per share a public stockholder would receive if it elected to redeem its shares in connection with our initial business combination. However, such persons have no current commitments, plans or intentions to engage in such transactions and have not formulated any terms or conditions for any such transactions. If such persons engage in such transactions, they will be subject to restrictions in making any such purchases when they are in possession of any material non-public information or if such purchases are prohibited by Regulation M under the Exchange Act. We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will be required to comply with such rules.

We may not redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 following such redemptions and the agreement for our initial business combination may require as a closing condition that we have a minimum net worth or a certain amount of cash. If too many public stockholders exercise their redemption rights so that we cannot satisfy the net tangible asset requirement or any net worth or cash requirements, we would not proceed with the redemption of our public shares or the business combination, and instead may search for an alternate business combination (including, potentially, with the same target).

A public stockholder will be entitled to receive funds from the trust account only upon the earliest to occur of: (1) the completion of our initial business combination and then, only in connection with those public shares that such stockholder has properly elected to redeem, subject to the limitations described in this prospectus; (2) the redemption of any public shares properly submitted in connection with a stockholder vote to amend our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to allow redemptions in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to stockholders’ rights or pre-initial business combination activity; and (3) the redemption of all of our public shares if we have not completed our initial business combination within 24 months from the closing of this offering, subject to applicable law. In no other circumstances will a public stockholder

Table of Contents

have any right or interest of any kind to or in the trust account. Holders of warrants will not have any rights of proceeds held in the trust account with respect to the warrants.

Our initial stockholders, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to waive (1) their redemption rights with respect to any founder shares, private placement shares and any public shares held by them in connection with the completion of our initial business combination and (2) their redemption rights with respect to any founder shares, private placement shares and public shares held by them in connection with a stockholder vote to approve an amendment to our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to allow redemptions in connection with our initial business combination or to redeem 100% of our public shares if we have not consummated our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity. In addition, our initial stockholders, officers and directors have agreed to waive their rights to liquidating distributions from the trust account with respect to any founder shares and private placement shares held by them if we fail to complete our initial business combination within the prescribed time frame. However, if our sponsors or any of our officers, directors or any of their respective affiliates then hold any public shares, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the allotted time frame to complete our initial business combination.

DIVIDEND POLICY

We have not paid any cash dividends on our common stock to date and do not intend to pay cash dividends prior to the completion of our initial business combination. The payment of cash dividends in the future will be dependent upon our revenues and earnings, if any, capital requirements and general financial condition subsequent to completion of our initial business combination. The payment of any cash dividends subsequent to our initial business combination will be within the discretion of our board of directors at such time. In addition, our board of directors is not currently contemplating and does not anticipate declaring any stock dividends in the foreseeable future, except if we increase the size of this offering, in which case we will effect a stock dividend or other appropriate mechanism immediately prior to the consummation of this offering in an amount as to maintain the number of founder shares at 20% of our issued and outstanding shares of common stock upon the consummation of this offering (not including the shares of Class A common stock underlying the private placement units). Further, if we incur any indebtedness in connection with our initial business combination, our ability to declare dividends may be limited by restrictive covenants we may agree to in connection therewith.

DILUTION

The difference between the public offering price per share of Class A common stock, assuming no value is attributed to the warrants included in the units we are offering pursuant to this prospectus or the private placement units, and the pro forma net tangible book value per share of our Class A common stock after this offering constitutes the dilution to investors in this offering. Such calculation does not reflect any dilution associated with the sale and exercise of warrants, including the private placement warrants, which would cause the actual dilution to the public stockholders to be higher, particularly where a cashless exercise is utilized. Net tangible book value per share is determined by dividing our net tangible book value, which is our total tangible assets less total liabilities (including the value of Class A common stock which may be redeemed for cash), by the number of outstanding shares of our Class A common stock.

At October 31, 2020, our net tangible book value deficit was \$5,479, or approximately \$(0.00) per share of Class B common stock. After giving effect to the sale of 27,500,000 shares of Class A common stock included in the units we are offering by this prospectus, the sale of the private placement units and the deduction of underwriting commissions and estimated expenses of this offering, our pro forma net tangible book value at October 31, 2020 would have been \$5,000,001 or \$0.62 per share, representing an immediate increase in net tangible book value (as decreased by the value of the approximately 27,092,452 shares of Class A common stock that may be redeemed for cash in connection with our initial business combination and assuming no exercise of the underwriters' over-allotment option) of \$0.62 per share to our initial stockholders as of the date of this prospectus and an immediate dilution of \$9.38 per share or 93.8% to our public stockholders not exercising their redemption rights. The dilution to new investors if the underwriters exercise their over-allotment option in full would be an immediate dilution of \$9.45 per share or 94.5%.

The following table illustrates the dilution to the public stockholders on a per share basis, assuming no value is attributed to the warrants included in the units or the private placement units:

	Without Over- Allotment	With Over- Allotment
Public offering price	\$ 10.00	\$ 10.00
Net tangible book value before this offering	\$ (0.00)	(0.00)
Increase attributable to public stockholders	<u>0.62</u>	<u>0.55</u>
Pro forma net tangible book value after this offering and the sale of the private placement units	0.62	0.55
Dilution to public stockholders	<u>\$ 9.38</u>	<u>9.45</u>
Percentage of dilution to new investors	93.8%	94.5%

For purposes of presentation, we have reduced our pro forma net tangible book value after this offering (assuming no exercise of the underwriters' over-allotment option) by \$270,924,520 because holders of up to approximately 98.5% of our public shares may redeem their shares for a pro rata share of the aggregate amount then on deposit in the trust account at a per-share redemption price equal to the amount in the trust account, calculated as of two business days prior to the consummation of our initial business combination, including interest (which interest shall be net of taxes payable) divided by the number of shares of Class A common stock sold in this offering.

Table of Contents

The following table sets forth information with respect to our initial stockholders and the public stockholders:

	Shares Purchased		Total Consideration		Average Price per Share
	Number	Percentage	Amount	Percentage	
Initial Stockholders ⁽¹⁾⁽²⁾	6,875,000	19.57%	\$ 25,000	0.01%	\$ 0.004
Private Placement Stockholders	750,000	2.14%	7,500,000	2.65%	\$ 10.00
Public Stockholders	27,500,000	78.29%	275,000,000	97.34%	\$ 10.00
	<u>35,125,000</u>	<u>100.0%</u>	<u>\$282,525,000</u>	<u>100.0%</u>	

- (1) Assumes the full forfeiture of 1,031,250 shares that are subject to forfeiture by our sponsors depending on the extent to which the underwriters' over-allotment option is exercised.
- (2) Assumes conversion of Class B common stock into Class A common stock on a one-for-one basis. The dilution to public stockholders would increase to the extent that the anti-dilution provisions of the Class B common stock result in the issuance of shares of Class A common stock on a greater than one-to-one basis upon such conversion.

The pro forma net tangible book value per share as of October 31, 2020 giving effect to the offering is calculated as follows:

Numerator:	
Net tangible book value before this offering	\$ (5,479)
Proceeds from this offering and sale of the private placement units, net of expenses	275,900,000
Offering costs accrued for and paid in advance, excluded from net tangible book value before this offering	30,000
Less: amount of Class A common stock subject to redemption to maintain net tangible assets of at least \$5,000,001	<u>(270,924,520)</u>
	<u>\$ 5,000,001</u>
Denominator:	
Shares of Class B common stock outstanding prior to this offering	7,906,250
Shares forfeited if over-allotment option is not exercised	(1,031,250)
Shares of Class A common stock included in the units offered	27,500,000
Shares of Class A common stock included in the private placement	750,000
Less: shares subject to redemption to maintain net tangible assets of \$5,000,001	<u>(27,092,452)</u>
	<u>8,032,548</u>

CAPITALIZATION

The following table sets forth our capitalization at October 31, 2020 and as adjusted to give effect to the filing of our amended and restated certificate of incorporation, the sale of our 27,500,000 units in this offering for \$275,000,000 (or \$10.00 per unit) and the sale of 750,000 private placement units for \$7,500,000 (or \$10.00 per unit) and the application of the estimated net proceeds derived from the sale of such securities:

	October 31, 2020	
	Actual(1)	As Adjusted(2)
Promissory notes—related parties	\$ 275,000	\$ —
Class A common stock, \$0.0001 par value, -0- and 27,092,452 shares are subject to redemption (3)	—	270,924,520
Stockholders' equity (deficit):		
Preferred stock, \$0.0001 par value, 1,000,000 shares authorized (actual and as adjusted); no shares issued or outstanding (actual and as adjusted)	—	—
Common Stock		
Class A common stock, \$0.0001 par value, 200,000,000 shares authorized (actual and as adjusted); no shares issued or outstanding (actual); 1,157,548 shares issued and outstanding (excluding 27,092,452 shares subject to redemption) (as adjusted)	—	116
Class B common stock, \$0.0001 par value, 20,000,000 shares authorized (actual and as adjusted); 7,906,250(4) shares issued and outstanding (actual); 6,875,000 shares issued and outstanding (as adjusted)	791	688
Additional paid-in capital(5)	24,209	4,999,676
Accumulated deficit	(479)	(479)
Total stockholders' equity	<u>24,521</u>	<u>5,000,001</u>
Total capitalization	<u>\$ 299,521</u>	<u>\$ 275,924,521</u>

- 1) Our sponsors have agreed to loan us \$300,000 under unsecured promissory notes to be used for a portion of the expenses of this offering, which loans are due at the earlier of March 31, 2021 and the closing of this offering. As of October 31, 2020, we borrowed \$275,000 under the promissory notes.
- 2) Assumes the full forfeiture of 1,031,250 shares that are subject to forfeiture by our sponsors depending on the extent to which the underwriters' over-allotment option is exercised.
- 3) Upon the completion of our initial business combination, we will provide our public stockholders with the opportunity to redeem their public shares for cash equal to their pro rata share of the aggregate amount then on deposit in the trust account, calculated as of two business days prior to the consummation of the initial business combination, including interest (which interest shall be net of taxes payable), subject to the limitations described herein whereby our net tangible assets will be maintained at a minimum of \$5,000,001 and any limitations (including, but not limited to, cash requirements) created by the terms of the proposed business combination.
- 4) Actual share amount is prior to any forfeiture of founder shares by our sponsors and the "as adjusted" share amount assumes no exercise of the underwriters' over-allotment option.
- 5) The "as adjusted" additional paid-in capital calculation is equal to the "as adjusted" total stockholders' equity of \$5,000,001, less common stock (par value) of \$804, plus the accumulated deficit of \$479.

**MANAGEMENT'S DISCUSSION AND ANALYSIS
OF FINANCIAL CONDITION AND RESULTS OF OPERATIONS**

Overview

We are a blank check company incorporated as a Delaware corporation and formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses. We have not selected any business combination target and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any business combination target. We intend to effectuate our initial business combination using cash from the proceeds of this offering and the sale of the private placement units, our capital stock, debt or a combination of cash, stock and debt.

The issuance of additional shares of our stock in a business combination:

- may significantly dilute the equity interest of investors in this offering, which dilution would increase if the anti-dilution provisions in the Class B common stock resulted in the issuance of Class A shares on a greater than one-to-one basis upon conversion of the Class B common stock;
- may subordinate the rights of holders of common stock if preferred stock is issued with rights senior to those afforded our common stock;
- could cause a change of control if a substantial number of shares of our common stock is issued, which may affect, among other things, our ability to use our net operating loss carry forwards, if any, and could result in the resignation or removal of our present officers and directors;
- may have the effect of delaying or preventing a change of control of us by diluting the stock ownership or voting rights of a person seeking to obtain control of us;
- may adversely affect prevailing market prices for our units, Class A common stock and/or warrants; and
- may not result in adjustment to the exercise price of our warrants.

Similarly, if we issue debt securities or otherwise incur significant indebtedness, it could result in:

- default and foreclosure on our assets if our operating revenues after an initial business combination are insufficient to repay our debt obligations;
- acceleration of our obligations to repay the indebtedness even if we make all principal and interest payments when due if we breach certain covenants that require the maintenance of certain financial ratios or reserves without a waiver or renegotiation of that covenant;
- our immediate payment of all principal and accrued interest, if any, if the debt is payable on demand;
- our inability to obtain necessary additional financing if the debt contains covenants restricting our ability to obtain such financing while the debt is outstanding;
- our inability to pay dividends on our common stock;
- using a substantial portion of our cash flow to pay principal and interest on our debt, which will reduce the funds available for dividends on our common stock if declared, expenses, capital expenditures, acquisitions and other general corporate purposes;
- limitations on our flexibility in planning for and reacting to changes in our business and in the industry in which we operate;
- increased vulnerability to adverse changes in general economic, industry and competitive conditions and adverse changes in government regulation; and

Table of Contents

- limitations on our ability to borrow additional amounts for expenses, capital expenditures, acquisitions, debt service requirements, execution of our strategy and other purposes and other disadvantages compared to our competitors who have less debt.

As indicated in the accompanying financial statements, as of October 31, 2020, we had \$295,000 in cash and a working capital deficit of \$5,479. Further, we expect to continue to incur significant costs in the pursuit of our acquisition plans. We cannot assure you that our plans to raise capital or to complete our initial business combination will be successful. These factors, among others, raise substantial doubt about our ability to continue as a going concern.

Results of Operations and Known Trends or Future Events

We have neither engaged in any operations nor generated any revenues to date. Our only activities since inception have been organizational activities and those necessary to prepare for this offering. Following this offering, we will not generate any operating revenues until after completion of our initial business combination. We will generate non-operating income in the form of interest income on cash and cash equivalents in the form of specified U.S. government treasury bills or specified money market funds after this offering. There has been no significant change in our financial or trading position and no material adverse change has occurred since the date of our audited financial statements. After this offering, we expect to incur increased expenses as a result of being a public company (for legal, financial reporting, accounting and auditing compliance), as well as for due diligence expenses. We expect our expenses to increase substantially after the closing of this offering.

Liquidity and Capital Resources

Our liquidity needs have been satisfied prior to the completion of this offering through receipt of a \$25,000 capital contribution from our sponsors in exchange for the issuance of the founder shares and up to \$300,000 in loans from our sponsors under unsecured promissory notes. We estimate that the net proceeds from: (1) the sale of the units in this offering, after deducting offering expenses of approximately \$1,100,000 and underwriting commissions of \$5,500,000 (\$6,325,000 if the underwriters' over-allotment option is exercised in full); and (2) the sale of the private placement units for a purchase price of \$7,500,000 (or \$8,325,000 if the underwriters' over-allotment option is exercised in full), will be \$275,900,000 (or \$317,150,000 if the underwriters' over-allotment option is exercised in full). Of this amount, \$275,000,000 (or \$316,250,000 if the underwriters' over-allotment option is exercised in full) will be deposited into the trust account. The funds in the trust account will be invested only in U.S. government treasury bills with a maturity of 185 days or less or in money market funds investing solely in U.S. Treasuries. The remaining \$900,000 will not be held in the trust account. In the event that our offering expenses exceed our estimate of \$1,100,000, we may fund such excess with funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses are less than our estimate of \$1,100,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount.

We intend to use substantially all of the funds held in the trust account, including any amounts representing interest earned on the trust account (which interest shall be net of taxes payable) to complete our initial business combination. We may withdraw interest to pay taxes. Delaware franchise tax is based on our authorized shares or on our assumed par and non-par capital, whichever yields a lower result. Under the authorized shares method, each share is taxed at a graduated rate based on the number of authorized shares with a maximum aggregate tax of \$200,000 per year. Under the assumed par value capital method, Delaware taxes each \$1,000,000 of assumed par value capital at the rate of \$350; where assumed par value would be (1) our total gross assets following this offering, divided by (2) our total issued shares of common stock following this offering, multiplied by (3) the number of our authorized shares following this offering. Based on the number of shares of our common

Table of Contents

stock authorized and outstanding and our estimated total gross proceeds after the completion of this offering, our annual franchise tax obligation is expected to be capped at the maximum amount of annual franchise taxes payable by us as a Delaware corporation of \$200,000. Our annual income tax obligations will depend on the amount of interest and other income earned on the amounts held in the trust account. We expect the only taxes payable by us out of the funds in the trust account will be income and franchise taxes. We expect the interest earned on the amount in the trust account will be sufficient to pay our taxes. To the extent that our capital stock or debt is used, in whole or in part, as consideration to complete our initial business combination, the remaining proceeds held in the trust account will be used as working capital to finance the operations of the target business or businesses, make other acquisitions and pursue our growth strategies.

Prior to the completion of our initial business combination, we will have available to us an estimated \$900,000 of proceeds held outside the trust account. We will use these funds primarily to identify and evaluate target businesses, perform business due diligence on prospective target businesses, travel to and from the offices or similar locations of prospective target businesses or their representatives or owners, review corporate documents and material agreements of prospective target businesses, structure, negotiate and complete a business combination, and to pay taxes to the extent the interest earned on the trust account is not sufficient to pay our taxes.

In order to fund working capital deficiencies or finance transaction costs in connection with an intended initial business combination, our sponsors, an affiliate of our sponsors or our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we may repay such loaned amounts out of the proceeds of the trust account released to us. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. Up to \$1,500,000 of such loans may be convertible into units at a price of \$10.00 per unit at the option of the lender. The units would be identical to the private placement units issued to our sponsors. The terms of such loans by our sponsors, an affiliate of our sponsors or our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans. Prior to the completion of our business combination, we do not expect to seek loans from parties other than our sponsors, an affiliate of our sponsors or our officers and directors, if any, as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

We expect our primary liquidity requirements during that period to include approximately \$400,000 for legal, accounting, due diligence, travel and other expenses in connection with any business combinations; \$100,000 for legal and accounting fees related to regulatory reporting requirements; \$75,000 for Nasdaq continued listing fees; \$240,000 for office space, administrative and support services; and approximately \$85,000 for working capital to cover miscellaneous expenses (including franchise taxes net of anticipated interest income).

These amounts are estimates and may differ materially from our actual expenses. In addition, we could use a portion of the funds not being placed in trust to pay commitment fees for financing, fees to consultants to assist us with our search for a target business or as a down payment or to fund a "no-shop" provision (a provision in letters of intent or merger agreements designed to keep target businesses from "shopping" around for transactions with other companies or investors on terms more favorable to such target businesses) with respect to a particular proposed business combination, although we do not have any current intention to do so. If we entered into an agreement where we paid for the right to receive exclusivity from a target business, the amount that would be used as a down payment or to fund a "no-shop" provision would be determined based on the terms of the specific business combination and the amount of our available funds at the time. Our forfeiture of such funds (whether as a result of our breach or otherwise) could result in our not having sufficient funds to continue searching for, or conducting due diligence with respect to, prospective target businesses.

We do not believe we will need to raise additional funds following this offering in order to meet the expenditures required for operating our business. However, if our estimates of the costs of identifying a target business, undertaking in-depth due diligence and negotiating an initial business combination are less than the actual amount necessary to do so, we may have insufficient funds available to operate our business prior to our initial business combination. Moreover, we may need to obtain additional financing either to complete our initial business combination or because we become obligated to redeem a significant number of our public shares upon completion of our initial business combination, in which case we may issue additional securities or incur debt in connection with such business combination.

Controls and Procedures

We are not currently required to maintain an effective system of internal controls as defined by Section 404 of the Sarbanes-Oxley Act. We will be required to comply with the internal control reporting requirements of the Sarbanes-Oxley Act for the fiscal year ending December 31, 2021. Only in the event that we are deemed to be a large accelerated filer or an accelerated filer, and no longer qualify as an emerging growth company, will we be required to comply with the independent registered public accounting firm attestation requirement on our internal control over financial reporting. Further, for as long as we remain an emerging growth company, we intend to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirement.

Prior to the closing of this offering, we have not completed an assessment, nor has our independent registered public accounting firm tested our systems of internal controls. We expect to assess the internal controls of our target business or businesses prior to the completion of our initial business combination and we may work with the target to implement and test additional controls as we may determine are necessary in order to state that we maintain an effective system of internal controls. A target business may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding the adequacy of internal controls. Many small and mid-sized target businesses we may consider for our initial business combination may have internal controls that need improvement in areas such as:

- staffing for financial, accounting and external reporting areas, including segregation of duties;
- reconciliation of accounts;
- proper recording of expenses and liabilities in the period to which they relate;
- evidence of internal review and approval of accounting transactions;
- documentation of processes, assumptions and conclusions underlying significant estimates; and
- documentation of accounting policies and procedures.

Because it will take time, management involvement and perhaps outside resources to determine what internal control improvements are necessary for us to meet regulatory requirements and market expectations for our operation of a target business, we may incur significant expenses in meeting our public reporting responsibilities, particularly in the areas of designing, enhancing, or remediating internal and disclosure controls. Doing so effectively may also take longer than we expect, thus increasing our exposure to financial fraud or erroneous financing reporting.

Once our management's report on internal controls is complete, we will retain an independent auditor to audit and render an opinion on such report when required by Section 404 of the Sarbanes-Oxley Act. The independent auditors may identify additional issues concerning a target business's internal controls while performing their audit of internal control over financial reporting.

Quantitative and Qualitative Disclosures about Market Risk

The net proceeds of this offering and the sale of the private placement units held in the trust account will be invested in U.S. government treasury bills with a maturity of 185 days or less or in money market funds investing solely in U.S. Treasuries and meeting certain conditions under Rule 2a-7 under the Investment Company Act. Due to the short-term nature of these investments, we believe there will be no associated material exposure to interest rate risk.

Off-Balance Sheet Arrangements; Commitments and Contractual Obligations; Quarterly Review

As of October 31, 2020, we did not have any off-balance sheet arrangements as defined in Item 303(a)(4)(ii) of Regulation S-K and did not have any commitments or contractual obligations. No unaudited quarterly operating data is included in this prospectus as we have not conducted any operations to date.

Related Party Transactions

In October 2020, our sponsors purchased an aggregate of 7,906,250 founder shares for a capital contribution of \$25,000. In January 2021, our sponsor transferred 25,000 founder shares to each of our initial director nominees. The number of founder shares issued was determined based on the expectation that the founder shares would represent 20% of the outstanding shares of common stock upon the completion of this offering (not including the shares of Class A common stock underlying the private placement units). The per-share purchase price of the founder shares was determined by dividing the amount of cash contributed to us by the number of founder shares issued. If we increase or decrease the size of this offering, we will effect a stock dividend or a share contribution back to capital or other appropriate mechanism, as applicable, with respect to our Class B common stock immediately prior to the consummation of this offering in such amount as to maintain the number of founder shares at 20% of our issued and outstanding shares of our common stock upon the consummation of this offering (not including the shares of Class A common stock underlying the private placement units). Up to 1,031,250 founder shares are subject to forfeiture by our sponsors depending on the extent to which the underwriters' over-allotment option is exercised. Our sponsors do not intend to purchase any units in this offering.

We will enter into an Administrative Services Agreement pursuant to which we will also pay our sponsor a total of \$10,000 per month for office space, administrative and support services. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees.

Our sponsors, officers and directors or any of their respective affiliates will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our audit committee will review on a quarterly basis all payments that were made by us to our sponsor, officers, directors or our or any of their respective affiliates and will determine which expenses and the amount of expenses that will be reimbursed. There is no cap or ceiling on the reimbursement of out-of-pocket expenses incurred by such persons in connection with activities on our behalf.

Prior to the commencement of this offering, our sponsors agreed to loan us up to \$300,000 to be used for a portion of the expenses of this offering. As of October 31, 2020, we borrowed \$275,000 under such promissory notes. The loan is non-interest bearing, unsecured and is due at the earlier of March 31, 2021 and the closing of this offering. The loan will be repaid upon completion of this offering out of the \$1,100,000 of offering proceeds that has been allocated for the payment of offering expenses (other than underwriting commissions) not held in the trust account.

In addition, in order to fund working capital deficiencies or finance transaction costs in connection with an intended initial business combination, our sponsors, an affiliate of our sponsors or our officers

Table of Contents

and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we may repay such loaned amounts out of the proceeds of the trust account released to us. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. Up to \$1,500,000 of such loans may be convertible into units at a price of \$10.00 per unit at the option of the lender. The units would be identical to the private placement units issued to our sponsors. The terms of such loans by our sponsors, an affiliate of our sponsors or our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans. Prior to the completion of our business combination, we do not expect to seek loans from parties other than our sponsors, an affiliate of our sponsors or our officers and directors, if any, as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

Our sponsors have committed to purchase an aggregate of 750,000 (or 832,500 if the underwriters' over-allotment option is exercised in full) private placement units at a price of \$10.00 per unit (\$7,500,000 in the aggregate or \$8,325,000 in the aggregate if the underwriters' over-allotment option is exercised in full) in a private placement that will occur simultaneously with the closing of this offering. Among the private placement units, 614,865 units (or 682,500 units if the over-allotment option is exercised in full) will be purchased by our sponsor and/or its designees and 135,135 units (or 150,000 units if the over-allotment option is exercised in full) will be purchased by FA Co-Investment and/or its designees. Each private placement unit consists of one share of our Class A common stock and one-third of one warrant. Each warrant entitles the holder thereof to purchase one share of our Class A common stock at a price of \$11.50 per share, subject to adjustment as provided herein. The private placement units are identical to the units sold in this offering except that, so long as they are held by our sponsors or their permitted transferees, the private placement units (including the underlying securities) are subject to certain transfer restrictions (as described in more detail under "Principal Stockholders—Transfers of Founder Shares and Private Placement Units") and the holders thereof are entitled to certain registration rights (as described in more detail under "Principal Stockholders—Registration Rights"), and the underlying warrants: (1) will not be redeemable by us; (2) may be exercised by the holders on a cashless basis; and (3) with respect to private placement warrants held by FA Co-Investment, will not be exercisable more than five years from the commencement of sales in this offering in accordance with FINRA Rule 5110(g)(8).

Pursuant to a registration rights agreement that we will enter into with our initial stockholders on or prior to the closing of this offering, we may be required to register certain securities for sale under the Securities Act. Our initial stockholders, and holders of warrants issued upon conversion of working capital loans, if any, are entitled under the registration rights agreement to make up to three demands that we register certain of our securities held by them for sale under the Securities Act and to have the securities covered thereby registered for resale pursuant to Rule 415 under the Securities Act. In addition, these holders have the right to include their securities in other registration statements filed by us. Notwithstanding the foregoing, FA Co-Investment may not exercise its demand and "piggyback" registration rights after five and seven years, respectively, after the effective date of the registration statement. We will bear the costs and expenses of filing any such registration statements of which this prospectus forms a part and may not exercise its demand rights on more than one occasion. Please see "Certain Relationships and Related Party Transactions."

We will also pay to the underwriters, including Cowen and Company, LLC, an affiliate of one of our sponsors, an underwriting discount of \$0.20 per unit purchased by them in this offering. We have also engaged Cowen and Company, LLC and William Blair & Company, L.L.C., as advisors in connection with our business combination, pursuant to the Business Combination Marketing Agreement described under "Underwriting (Conflicts of Interest)—Business Combination Marketing Agreement." We will pay these advisors the Marketing Fee for such services upon the consummation

[Table of Contents](#)

of our initial business combination in an amount equal to, in the aggregate, 3.5% of the gross proceeds of this offering, including any proceeds from the full or partial exercise of the underwriters' over-allotment option. As a result, these advisors will not be entitled to such fee unless we consummate our initial business combination.

JOBS Act

On April 5, 2012, the JOBS Act was signed into law. The JOBS Act contains provisions that, among other things, relax certain reporting requirements for qualifying public companies. We will qualify as an "emerging growth company" and under the JOBS Act will be allowed to comply with new or revised accounting pronouncements based on the effective date for private (not publicly traded) companies. We are electing to delay the adoption of new or revised accounting standards, and as a result, we may not comply with new or revised accounting standards on the relevant dates on which adoption of such standards is required for non-emerging growth companies. As a result, our financial statements may not be comparable to companies that comply with new or revised accounting pronouncements as of public company effective dates.

Additionally, we are in the process of evaluating the benefits of relying on the other reduced reporting requirements provided by the JOBS Act. Subject to certain conditions set forth in the JOBS Act, if, as an "emerging growth company", we choose to rely on such exemptions we may not be required to, among other things: (1) provide an auditor's attestation report on our system of internal controls over financial reporting pursuant to Section 404 of the Sarbanes-Oxley Act; (2) provide all of the compensation disclosure that may be required of non-emerging growth public companies under the Dodd-Frank Wall Street Reform and Consumer Protection Act; (3) comply with any requirement that may be adopted by the PCAOB regarding mandatory audit firm rotation or a supplement to the auditor's report providing additional information about the audit and the financial statements (auditor discussion and analysis); and (4) disclose certain executive compensation-related items such as the correlation between executive compensation and performance and comparisons of the CEO's compensation to median employee compensation. These exemptions will apply for a period of five years following the completion of this offering or until we are no longer an "emerging growth company," whichever is earlier.

PROPOSED BUSINESS

We are a newly organized, blank check company incorporated as a Delaware corporation and formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses or entities. We have not selected any specific target business and we have not, nor has anyone on our behalf, initiated any substantive discussions, directly or indirectly, with any target business regarding a business combination with our company.

While we may pursue an initial business combination with a business in any industry, sector or stage of its corporate evolution, we initially intend to capitalize on the track record and experience of our management team and sponsor and focus our search in the technology-enabled consumer and consumer healthcare industries. We believe our team is uniquely positioned and will have proprietary deal flow in these sectors given our collective successful track record as operators, investors and entrepreneurs, and our principals' track record of success initiating transformative mergers and acquisitions, operational acumen and strong network in these sectors.

We intend to identify and acquire a business that could benefit from a hands-on owner with extensive operational experience and the public company expertise our management team possesses, and/or that relies on the target's executive and operational expertise but presents potential for an attractive risk-adjusted return profile under our stewardship.

Our team is led by Greg Wasson, former CEO and President of Walgreens Boots Alliance (NASDAQ: WBA), the first global pharmacy-led, health, well-being, and beauty enterprise. Mr. Wasson is recognized throughout the drugstore and healthcare industry for transformational leadership, innovation, bold business decisions and executing on strategic long-term visions. Since retirement from WBA, Mr. Wasson formed his own family office, Wasson Enterprise. In this capacity, Mr. Wasson has invested in and nurtured a portfolio of investments in which he actively adds value through his ability to catalyze relationships for businesses, primarily in the capacity of customers, channel partners, key hires and strategic investors. The ability to create enterprise value has been demonstrated through co-founding, recapitalizing and making growth investments into numerous high-growth entrepreneurial businesses.

We believe that our management team is well positioned to identify attractive risk-adjusted returns in the marketplace and will leverage our collective network and transaction sources, including industry executives, private owners, private equity funds, and investment bankers, to execute our initial business combination where we drive long-term value as partners.

Our Sponsor

Foresight was formed as a partnership among and will be led by Greg Wasson, our Chairman and former CEO and President of Walgreens Boots Alliance, and two former Co-Portfolio Managers of William Blair's Small Cap Growth Investment Funds, Mike Balkin, our Chief Executive Officer, and Karl Brewer. Foresight will leverage Mr. Wasson's family office, Wasson Enterprise, through the process of identifying and evaluating targets. Over the course of the last five years, Mr. Wasson has built a strong infrastructure consisting of resources dedicated to investment identification and diligence, finance, human resources, marketing and operations. With this support, Mr. Wasson has helped to co-found high-growth businesses, catalyze mature businesses and deploy capital as a strategic investor in other private companies in the retail, consumer and healthcare sectors.

In addition to the founders, Messrs. Wasson, Balkin and Brewer, we've built a world-class founding sponsor team, consisting of successful former public company C-suite executives and private equity

industry leaders. Our sponsor team will provide us with valuable strategic, operational, product management, analytical, financial, transactional, communications, legal, and other expertise and networks that we will leverage to identify and execute a business combination and drive future value for the combined business. We believe our team's high level of operating experience and business building; far, wide and deep networks; and ability to tap into that experience and network will provide valuable access to the highest quality consumer growth companies. Once our team has identified a potential opportunity for an initial business combination, we believe we will have the operational expertise to drive efficiencies across the target business while also helping to make strategic customer and partner introductions to drive revenues. Our team will look to identify companies built on sustainable business models, customer-obsessed company cultures, strong unit economics, and differentiated product offerings. Through our management team's network and operational expertise, we expect to increase the value of the enterprise, improve the company's financial positioning and ultimately generate strong stockholder returns.

Our Team

We are led by an experienced team of C-level operators, managers and investors. Our team's vast network and synergistic experience in large company leadership roles, industry-changing mergers & acquisitions and institutional public markets investing provide us with unique positioning as it relates to finding a target and adding value post-close. Our board will also consist of key individuals who have served in roles at the most senior levels of public corporations and private equity firms. We believe our decades of partnership and experience, together with our collective network, will uniquely position us to identify and successfully merge with an attractive target company.

Greg Wasson serves as Chairman of the Board. Mr. Wasson currently serves as President and Founder of his own family office, Wasson Enterprise. Wasson Enterprise's focus is to partner with entrepreneurs and operators to build sustainable, high-growth businesses that do well by doing good. As the former CEO of Walgreens, Mr. Wasson has extensive global operational and management experience, as well as extensive knowledge of the retail and healthcare industries. Mr. Wasson attended Purdue University's School of Pharmacy, receiving his pharmacy degree in 1981. Before his senior year, he was invited to become one of the first pharmacy services interns in Walgreens' corporate offices—an opportunity that led to his being hired by Walgreens upon graduation and that changed the course of his future career. Mentored by many company leaders through the years, together with his outstanding performance in positions of increasing responsibility, Mr. Wasson served Walgreens for 34 years. As Walgreens CEO, Mr. Wasson led the Fortune 35 company to record fiscal 2014 sales of \$76.4 billion. He is credited with creating significant financial and shareholder value, initiating and completing transformative mergers and investments, leading complex organizational and structural change, assembling a diverse and high-performance senior leadership team, and establishing Walgreens' position as an industry leader. Before retiring from Walgreens, Mr. Wasson had transformed an iconic 114-year-old domestic company into the first global pharmacy-led, health, well-being and beauty enterprise via the successful merger with European-based Alliance Boots to create Walgreens Boots Alliance. Mr. Wasson currently serves on the Board of Directors of OptimizeRx Corp. (NASDAQ: OPRX).

Michael Balkin serves as our Chief Executive Officer and Director. Mr. Balkin has over 30 years of experience in working with public companies in the small cap space. Mr. Balkin was a partner and formerly the co-Manager of the William Blair Small Institutional portfolio and the William Blair Small Cap Growth Fund, which he and his partners, Karl Brewer and Mark Fuller, started in 1999. He and his team managed nearly \$1.8 billion dollars in total assets and have been named among the top small cap funds multiple times by publications such as Barrons, Morningstar, Lipper and Institutional Investor Magazine. From 2005 to 2008, Mr. Balkin was a partner at Magnetar Capital, LLC, a multi-strategy hedge fund located in Evanston, Illinois. While at Magnetar, Mr. Balkin was the Portfolio Manager in charge of the small cap long-short strategy and was also the Chief Investment Officer of Magnetar Investment Management, a wholly owned asset management subsidiary of Magnetar Capital. He

Table of Contents

rejoined William Blair & Company in 2008. He originally joined William Blair in 1990, working in the sell-side institutional research sales group, specializing in small cap growth companies. Prior to joining William Blair, he was the co-founder of Cityview Associates, Inc., a real estate firm specializing in "value-added" real estate transactions. Prior to starting Cityview Associates, Mr. Balkin had various roles at First Chicago and Bankers Trust. In addition to his work with William Blair, Mr. Balkin has helped dozens of small companies grow as an angel investor, mentor and board member. He is currently the Chairman of the Board of Performance Health Systems, LLC and is a member of the board of managers of the Innventure Fund, an Intellectual Property-based development fund started by Greg Wasson. Mr. Balkin is also active in many charities and is on the board of the Friends of the Israeli Defense Forces, Good Sports and is a major advocate and fund raiser for Cystic Fibrosis and the Illinois Holocaust Museum. Mr. Balkin graduated with a Bachelor's degree in Economics from Northwestern University, where he was also a two year Captain of the tennis team.

Gerald Muizelaar serves as our Chief Financial Officer. Mr. Muizelaar brings over 15 years of financial leadership in private equity, manufacturing, retail and customer service. Mr. Muizelaar has served as Vice President of Finance for Wasson Enterprise, the family office of Greg Wasson, since 2017. Mr. Muizelaar's strong focus implementing robust financial processes and systems, ensuring regulatory compliance, and bolstered financial visibility have been a key factor in Wasson Enterprise's success. As a former North American Finance Manager for Amazon, Mr. Muizelaar led all U.S., Canadian and Latin American customer service finance teams. He and his team provided financial insights and analysis for a customer service network that encompassed over 10,000 employees and an annual P&L in excess of \$250 million. Mr. Muizelaar's leadership and deep understanding of operations were influential in optimizing costs for Amazon's North American Customer Service team, while simultaneously growing its operations by 30% annually and consistently driving quality improvements to keep Amazon ranked #1 in the World for Customer Service. Mr. Muizelaar holds a Bachelor of Business Administration from Acadia University and a MBA from Dalhousie University.

Karl Brewer is one of our founders and advisors. Mr. Brewer is a private investor focused on small public and private growth companies. Until December 2017, he was Portfolio Manager of the Small Cap Growth and Small-Mid Cap Growth Funds at William Blair, having joined the Small Cap Growth team in 1999 and the Small-Mid Cap Growth team in 2002. He joined William Blair in 1996, serving as a research analyst for three years. Before that, he was in the mergers & acquisitions and corporate finance departments at Lehman Brothers Inc. for six years. Mr. Brewer graduated from Washington and Lee University with a BA in Economics and earned an MBA from Northwestern University's Kellogg Graduate School of Management.

Brian Gamache has agreed to serve on the Board of Directors. Mr. Gamache was the former Chairman and CEO of WMS Industries Inc., a designer, manufacturer and marketer of games for the casino and on-line gaming industries. Prior to rejoining WMS, he served as President of Wyndham International's Luxury and Resort Division. Before Wyndham, he served as President and Chief Operating Officer of WHG Resorts and Casinos, Inc., a subsidiary of WMS Industries. He previously held various executive positions with Marriott Hotel Corporation and Hyatt Hotels Corporation. Mr. Gamache is on the Board of Directors at Welbilt, Inc. and currently serves as an advisor to several private equity firms and corporations. He is a guest lecturer at Northwestern University's Kellogg School of Management. Mr. Gamache graduated from the University of Florida with a degree in Business Administration, where he currently serves as a member of the Dean's Council to the Warrington School of Business.

Robert Zimmerman has agreed to serve on the Board of Directors. Mr. Zimmerman is an independent consultant since retiring from Walgreens in 2014, focusing on healthcare, specifically retail pharmacy services and pharmacy benefit management. His primary consulting work has been with knowledge transfer companies (GLG and Guidepoint) with significant short-term assignments with

Table of Contents

end business clients as well as hedge funds and consulting firms. He has also consulted directly with private equity and hedge funds. Until April 2014, Mr. Zimmerman served as Chief Strategy Officer and SVP of Corporate Development at Walgreens. In these roles, he worked directly with the CEO and Executive Committee on strategic plans helping transform Walgreens from a drug store chain to an international integrated health care provider. He also led the development and execution of Walgreens M&A strategy, including the largest transaction in Walgreens' history, the acquisition of Alliance Boots. Prior to his tenure as CSO, he served as CFO and EVP of WHP Health Initiatives, Walgreens' managed care division. He held responsibility for the division's finance, strategy, new business and product development initiatives, acquisitions, pharmaceutical trade relations, and Customer Care Center operations. Mr. Zimmerman currently also serves as a Board Member on the State of Illinois Board of Pharmacy (since 2016), where he was appointed by the Governor of Illinois. Mr. Zimmerman graduated from Eastern Illinois University in 1973 with a Bachelor of Finance, and from Northern Illinois University in 1984 with an MBA.

John Svoboda has agreed to serve on the Board of Directors. Mr. Svoboda co-founded SC in January 1998 with Michelle Collins. Mr. Svoboda serves on the boards of SC portfolio companies BPI/Incite, One North Interactive, Sonoma Creamery and SWC Technology Partners. Prior to co-founding SC, Mr. Svoboda worked in the Corporate Finance Department of William Blair & Company LLC (1983 to 1997), where he managed Business Development and became a Partner in 1988. Mr. Svoboda serves as a trustee of the University of Chicago Medical Center. Mr. Svoboda also serves as a trustee for the Otho S. A. Sprague Memorial Institute, the Auditorium Theatre where he was Chairman of the Board, as an honorary trustee of Marwen and as a life trustee of the Francis W. Parker School. He served on the Advisory Council of Stanford's Graduate School of Business and served on the Steering Committee for the Stanford Campaign. Mr. Svoboda has also served on several alumni and fundraising committees for both Williams College and the Stanford Business School, as well as capital campaigns for the Greater Chicago Food Depository and the University of Chicago Comer Children's Hospital. Mr. Svoboda is also active as a mentor and selection committee member for the Pat Tillman Foundation and is a member of the Commercial Club of Chicago. Mr. Svoboda graduated from Williams College with a BA in 1979 and received his MBA from the Stanford Graduate School of Business in 1983.

We will be further supported by a team of advisors which is comprised of current and former executives with significant investment and operating experience across a wide range of sub-sectors. These advisors and executives will provide us with access to their expertise and extensive networks from which we intend to source and evaluate potential targets as well as assist in the future value creation plans of any business that we acquire. Our team of advisors are described below.

Mark Thierer is one of the most successful executives in the healthcare services industry. A lifelong leader in the healthcare space, he is known for his ability to bring companies to new levels of financial and operational success. In what has been called a "rags-to-riches" business tale, Mr. Thierer transformed a small pharmacy benefit management company (PBM) called SXC Health Solutions into one of America's biggest and fastest growing players—and then facilitated a \$12.8 billion sale to Optum. In the five-year period after Mr. Thierer joined the company he achieved a 3,400% increase in revenues and a 10-fold jump in profits. Following a merger with Catalyst Health Solutions, SXC moved its headquarters to Chicago. Under a new name, Catamaran (NASDAQ: CTRX), the company continued its ascent to the top of the pharmacy benefits technology space. When UnitedHealth Group, Inc. acquired Catamaran in 2015 to create OptumRx, Mr. Thierer stayed with OptumRx to continue to lead the business as CEO. After OptumRx, Mr. Thierer served as interim CEO at dental equipment giant Dentsply Sirona (NYSE: XRAY). He also formed the local investment firm, Assetblue Investment Group, where he serves as Managing Partner. Mr. Thierer serves on multiple public company boards and is active in private equity investing. Mr. Thierer holds a BS in Finance with distinction from the

[Table of Contents](#)

University of Minnesota, and an MBA from Nova Southeastern. He also holds a Certified Employee Benefit Specialist (CEBS) designation from the Wharton School.

Kermit Crawford is a pharmacy, health and wellness expert who has led transformational change and cost-saving programs in highly competitive consumer-focused businesses. He most recently served as President and Chief Operating Officer for Rite Aid Pharmacy (NYSE: RAD), a Fortune 500 company with more than 2500 retail locations. He began his over 30-year corporate career at Walgreens (NASDAQ: WBA), the world's largest drug store chain, where he rose from pharmacist/store manager to Executive Vice President and President of Pharmacy, Health & Wellness, the corporation's largest business unit. Mr. Crawford's private equity experience includes serving as operating partner, adviser, and consultant for Sycamore Partners, a New York-based firm specializing in retail and consumer investments. Mr. Crawford is an Independent Director and Chair of the Audit Committee for Allstate Corporation (NYSE: ALL) and he also serves as a Director and member of the Audit and Compliance and Technology, Privacy, & Cybersecurity Committee for TransUnion (NYSE: TRU). Mr. Crawford has received many notable honors for his expertise and contributions. Chain Drug Review honored him with the "Lifetime Achievement Award" in 2014 and Drug Store News presented him with its 2014 "Pharmacy Innovator Award." Savoy Magazine named Crawford one of the "Top 100 Most Influential Blacks in Corporate America" in 2018, and Black Enterprise Magazine named Crawford to its prestigious list of "America's Most Powerful Black Directors" in 2018. Mr. Crawford received his BS in Pharmacy from The College of Pharmacy and Health Sciences at Texas Southern University.

Matt Shattock served as non-executive chairman of the board of Beam Suntory Inc., the world's third-largest premium spirits company, from April 2019 until December 2020. He previously served as chairman and CEO of Beam Suntory for ten years, having joined Beam in March 2009 as president and CEO. He led the company's successful growth strategy transformation and subsequent transition to become a standalone public company in 2011. Subsequently, he led the integration of the Beam and Suntory spirits businesses following Suntory's \$16 billion acquisition of Beam in 2014. Prior to joining Beam, he spent six years at Cadbury plc, an international confectionery manufacturer, where he led its businesses first in the Americas and then in the Europe, Middle East and Africa region. Prior to Cadbury, he spent 16 years at Unilever, an international manufacturer of food, home care and personal care products, in various leadership positions, culminating in his role as chief operating officer of Unilever Best Foods North America. Mr. Shattock brings significant experience in the consumer-packaged goods industry. He has a strong track record of driving organic growth through innovation, brand communication and operational excellence, together with significant M&A and integration experience. Mr. Shattock's public company experience also includes his membership of the VF Corporation and Clorox boards in the US and Domino's Pizza Group PLC in the UK, where he chairs the board.

Theodore Koenig is the President, CEO and Founder of Monroe Capital and has over 30 years of experience in structuring and investing in debt and equity transactions. Mr. Koenig also serves as the Chairman, President and CEO of Monroe Capital Corporation (NASDAQ: MRCC), a publicly traded business development company (BDC). Prior to founding Monroe Capital in 2004, Mr. Koenig was President and CEO of Hilco Capital LP, a junior secured/mezzanine debt fund established in 2000. Prior to that, Mr. Koenig spent 13 years at the Chicago-based law firm of Holleb & Coff as partner and co-chair of the firm's Corporate Law, Mergers & Acquisitions and Business Finance groups, where he supervised and was responsible for structuring, negotiating and documenting acquisitions and sales of middle-market companies as well as representing the firm's bank, financial institution and commercial finance clients in financing transactions for buyout, growth, recapitalization and restructuring transactions. Mr. Koenig is a graduate of the Kelley School of Business at Indiana University with a BS in accounting with high honors and Chicago-Kent College of Law with a JD with honors.

[Table of Contents](#)

Craig Zummer, founder and Managing Director of Insight Advisory Partners, a merchant banking and strategy consulting firm. Prior to co-founding the firm, Mr. Zummer spent 15 years as a strategy and business development professional in the food and consumer products industries, most recently as Vice President of Corporate Strategy with the McDonald's Corporation. Mr. Zummer has deep expertise in helping companies improve their core business strategy, launch new ventures, develop partnerships, facilitate acquisitions and divestitures, and raise capital. In addition to his experience at McDonald's, he previously advised numerous consumer products companies while with the Boston Consulting Group and as an independent consultant. He also worked in both the Risk and New Venture groups at Capital One Financial. After college, Mr. Zummer served as a Marine Corps officer including service in Operation Desert Storm. He holds an MBA from the University of Chicago and a BA in Economics from Northwestern University.

Past performance by our management team and their respective affiliates is not a guarantee either (i) that we will be able to locate a suitable candidate for our initial business combination or (ii) of success with respect to any business combination we may consummate. Our officers and directors have not had management experience with special purpose acquisition corporations in the past. You should not rely on the historical performance of our management team and their respective affiliates as an indication of the future performance of an investment in our company or the returns we will, or are likely to, generate going forward.

Our Core Operating Principles

Foresight has a unique and differentiated set of capabilities that we believe position us well to find an attractive company where we will be able to drive stockholder value upon effectuating a business combination. These core operating principles, collectively, have helped craft our approach to partnering with founders and management teams where we can specifically add value.

- **Long Term Approach.** Partner with management teams to help cultivate long-term, sustainable stockholder value by leveraging our experience as operators and investors to companies of all stages across a variety of industries.
- **Hands-on Mentality.** The Management and Sponsor teams have long track records of being superior operators at the highest levels of public corporations. All these experiences touched the end consumer including retail, healthcare, food & beverage, and hospitality.
- **Investing Experience.** Our team has decades of experience in both public and private investing across all stages and have created significant stockholder value.
- **Strategic Vision.** Through our collective networks, we plan to drive additional value by pursuing inorganic growth opportunities with our partners. Our management has significant experience in acquiring target businesses which is demonstrated by completing successful large transactions over the last 30 years.
- **Financial Acumen.** Our team's deep experience in both private and public markets, across the entirety of the capital structure of a company will help to guide the management team to balance sheet stability and sustainability.
- **Deep Network.** Our team has deep relationships that span across the Fortune 1000, financial institutions, asset managers, private equity, venture capital, debt capital, and governments globally.

Our Industry Focus

Our business strategy is to identify and complete an initial business combination with a target business within the technology-enabled consumer or consumer healthcare industries. Changes in purchasing behavior and the evolution of health continue to create significant disruption – as a result, these industries are poised for strong, sustained, long-term growth. We will seek target businesses in

these industries that are positioned to unlock these disruptive forces. We believe our team brings unparalleled experience and capabilities across the consumer and consumer health industries and that we are uniquely suited to identify and capture the potential of target businesses within these industries. We expect the target business to have an enterprise valuation greater than \$1 billion. We may look to deploy additional capital through strategic M&A in order for any target business to expand its offerings and become a platform business.

We will seek to effectively employ our management team's investment acumen, operational skills and experience, as well as their extensive networks to add value to a target business. We believe that the experience of our management team can guide a target business through a number of growth and efficiency initiatives, including attracting and retaining customers, strategically spending capital on research and development, focusing sales and marketing initiatives, and inorganically rounding out product suites, among others. We will seek to generate capital appreciation for our stockholders by focusing on sustainable growth while ensuring healthy profitability.

Investment Criteria

We will employ the below criteria and guidelines that we believe are important in evaluating prospective target businesses. We will use these criteria and guidelines in evaluating initial business combination opportunities, but we may decide to enter into our initial business combination with a target business that does not meet these criteria and guidelines.

- **Opportunity Size.** We intend to focus on target businesses with an enterprise value greater than \$1 billion;
- **Financial Profile.** We will seek to partner with a business that has a long-term growth outlook, sustainable profit margin or path to profitability, with potential to further enhance margin and an ability to generate strong returns over time;
- **Healthy Balance Sheet.** We intend to partner with a business where financial leverage is used conservatively and strategically, with leverage used to help drive equity returns;
- **Defensive Competitive Positioning.** We will focus on businesses that have a defensible market position, customers who love the product offering and where there exists opportunity to increase market share or build entirely new markets with no existing incumbents;
- **Strong Management Team.** We will want to partner with a proven, humble and eager management team who look forward to creating value together;
- **Our Ability to Add Value.** We will seek to partner with a business where the collective capabilities of our sponsor team can drastically improve business fundamentals, drive top line growth and ultimately increase stockholder value.

Sources of Target Businesses

Our sponsor team's significant operating and transaction experience and relationships will provide us with a substantial number of potential business combination targets. Over the course of their careers, our team has developed a broad network of contacts and corporate relationships around the world and across multiple industries. We believe this network provides our management team with a robust and consistent flow of acquisition opportunities which we believe are proprietary. In addition, we anticipate that target business candidates will be brought to our attention from various sources, including private equity and venture capital fund managers, family office principals and corporations seeking to divest non-core assets or operating segments.

We are not prohibited from pursuing an initial business combination with a company that is affiliated with our sponsor, directors or officers, or making the acquisition through a joint venture or other form of shared ownership with our sponsor, directors or officers. In the event we seek to

Table of Contents

complete an initial business combination with a target that is affiliated with our sponsor, directors or officers, we, or a committee of independent and disinterested directors, would obtain an opinion from an independent investment banking firm or another valuation or appraisal firm that regularly renders fairness opinions on the type of target business we are seeking to acquire that such an initial business combination is fair to our company from a financial point of view. We are not required to obtain such an opinion in any other context.

Our Acquisition Process

We believe that conducting comprehensive due diligence on a prospective business combination is particularly important. We expect to utilize the diligence, rigor, and expertise of our management team to evaluate potential targets' strengths, weaknesses, and opportunities to identify the relative risk and return profile of any potential target for our initial business combination.

In evaluating a prospective target business, we expect to conduct a due diligence review which may encompass, among other things: meetings with incumbent management and employees, document reviews, interviews of customers and suppliers, inspections of facilities, as well as reviewing financial and other information which will be made available to us. We may also seek to utilize consultants or experts once we identify a particular target of interest.

We are not prohibited from pursuing an initial business combination with a business that is affiliated with our initial stockholders, officers, directors, or any of their respective affiliates. In the event we seek to complete our initial business combination with a business that is affiliated with our initial stockholders, officers or directors, or any of their affiliates, we, or a committee of independent directors, will obtain an opinion from an independent investment banking firm or another independent entity that commonly renders valuation opinions that our initial business combination is fair to us from a financial point of view.

Each of our officers and directors presently has, and any of them in the future may have additional fiduciary or contractual obligations to other entities pursuant to which such officer or director is or will be required to present a business combination opportunity to such entities. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity which is suitable for an entity to which he or she has then-current fiduciary or contractual obligations, he or she will honor his or her fiduciary or contractual obligations to present such opportunity to such entity. In addition, we may, at our option, pursue an affiliated joint acquisition with an entity to which an officer or director has a fiduciary or contractual obligation. Any such parties may co-invest with us in the target business at the time of our initial business combination, or we could raise additional proceeds to complete the acquisition by undertaking a specified future issuance to such parties. We do not believe, however, that the fiduciary duties or contractual obligations of our officers or directors will materially affect our ability to complete our business combination. Our certificate of incorporation will provide that we renounce our interest in any corporate opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of our company and such opportunity is one we are legally and contractually permitted to undertake and would otherwise be reasonable for us to pursue.

Initial Business Combination

Pursuant to Nasdaq listing rules, our initial business combination must occur with one or more target businesses that together have an aggregate fair market value of at least 80% of the assets held in the trust account (excluding the deferred underwriting commissions and taxes payable on the income earned on the trust account) at the time of the agreement to enter into the initial business combination. If our board is not able to independently determine the fair market value of the target business or businesses, we will obtain an opinion from an independent investment banking firm or

Table of Contents

another independent entity that commonly renders valuation opinions with respect to the satisfaction of such criteria. Additionally, pursuant to Nasdaq rules, any initial business combination must be approved by a majority of our independent directors. Notwithstanding the foregoing, if we are not then listed on Nasdaq, these rules will not be applicable to us.

We anticipate structuring our initial business combination so that the post-transaction company in which our public stockholders own or acquire shares will own or acquire 100% of the equity interests or assets of the target business or businesses. We may, however, structure our initial business combination such that the post-transaction company owns or acquires less than 100% of such interests or assets of the target business in order to meet certain objectives of the target management team or stockholders or for other reasons, including an affiliated joint acquisition as described above. However, we will only complete such business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target business sufficient for the post-transaction company not to be required to register as an investment company under the Investment Company Act. Even if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target, our stockholders prior to the business combination may collectively own a minority interest in the post-business combination company, depending on valuations ascribed to the target and us in the business combination transaction. For example, we could pursue a transaction in which we issue a substantial number of new shares in exchange for all of the outstanding capital stock of a target. In this case, we would acquire a 100% controlling interest in the target. However, as a result of the issuance of a substantial number of new shares, our stockholders immediately prior to our initial business combination could own less than a majority of our outstanding shares subsequent to our initial business combination. If less than 100% of the outstanding equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired by us is what will be valued for purposes of the 80% fair market value test. If the business combination involves more than one target business, the 80% fair market value test will be based on the aggregate value of all of the target businesses and we will treat the target businesses together as the initial business combination for purposes of a tender offer or for seeking stockholder approval, as applicable.

We may, at our option, pursue an affiliated joint acquisition. Any members of our management team or their affiliates may co-invest with us in the target business at the time of our initial business combination, or we could raise additional proceeds to complete the acquisition by undertaking a specified future issuance to such parties.

Members of our management team will directly or indirectly own founder shares and/or private placement warrants following this offering and, accordingly, may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination. Further, each of our officers and directors may have a conflict of interest with respect to evaluating a particular business combination if the retention or resignation of any such officers and directors is included by a target business as a condition to our initial business combination.

Status as a Public Company

We believe our structure will make us an attractive business combination partner to target businesses. As an existing public company, we offer target businesses an alternative to the traditional initial public offering through a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination. In this situation, the owners of the target business would exchange their equity securities, shares or shares of stock in the target business for our shares or for a combination of our shares and cash, allowing us to tailor the consideration to the specific needs of the sellers. Although there are various costs and obligations associated with being a public

Table of Contents

company, we believe target businesses will find this method a more certain and cost effective method to becoming a public company than the typical initial public offering. In a typical initial public offering, there are additional expenses incurred in marketing, road show and public reporting efforts that may not be present to the same extent in connection with a business combination with us.

Furthermore, once a proposed business combination is completed, the target business will have effectively become public, whereas an initial public offering is always subject to the underwriters' ability to complete the offering, as well as general market conditions, which could delay or prevent the offering from occurring. Once public, we believe the target business would then have greater access to capital and an additional means of providing management incentives consistent with stockholders' interests. It can offer further benefits by augmenting a company's profile among potential new customers and vendors and aid in attracting talented employees.

We will remain an emerging growth company until the earlier of: (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which we have total annual gross revenue of at least \$1.07 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our common stock that is held by non-affiliates exceeds \$700 million as of the end of that year's second fiscal quarter; and (2) the date on which we have issued more than \$1.00 billion in non-convertible debt securities during the prior three-year period.

Additionally, we will remain a smaller reporting company until the last day of the fiscal year in which (1) the market value of our common stock held by non-affiliates exceeds \$250 million as of the end of that year's second fiscal quarter, or (2) our annual revenues exceeded \$100 million during such completed fiscal year and the market value of our common stock held by non-affiliates exceeds \$700 million as of the end of that year's second fiscal quarter.

Financial Position

With funds available for a business combination initially in the amount of \$265,375,000 assuming no redemptions (or \$305,181,250 assuming no redemptions if the underwriters' over-allotment option is exercised in full), after payment of the Marketing Fee of \$9,625,000 (or \$11,068,750 if the underwriters' over-allotment option is exercised in full), in each case, after estimated offering expenses of \$1,100,000 (and prior to any post-IPO working capital expenses), we offer a target business a variety of options such as creating a liquidity event for its owners, providing capital for the potential growth and expansion of its operations or strengthening its balance sheet by reducing its debt ratio. Because we are able to complete our initial business combination using our cash, debt or equity securities, or a combination of the foregoing, we have the flexibility to use the most efficient combination that will allow us to tailor the consideration to be paid to the target business to fit its needs and desires. However, we have not taken any steps to secure third-party financing and there can be no assurance it will be available to us.

Effecting our Initial Business Combination

We are not presently engaged in, and we will not engage in, any operations for an indefinite period of time following this offering. We intend to effectuate our initial business combination using cash from the proceeds of this offering and the sale of the private placement units, our capital stock, debt or a combination of these as the consideration to be paid in our initial business combination. We may seek to complete our initial business combination with a company or business that may be financially unstable or in its early stages of development or growth, which would subject us to the numerous risks inherent in such companies and businesses.

If our initial business combination is paid for using equity or debt or not all of the funds released from the trust account are used for payment of the consideration in connection with our initial business

combination or used for redemption of our public shares, we may apply the balance of the cash released to us from the trust account for general corporate purposes, including for maintenance or expansion of operations of post-transaction businesses, the payment of principal or interest due on indebtedness incurred in completing our initial business combination, to fund the purchase of other businesses or for working capital.

Our officers and directors are from time to time made aware of potential business opportunities, one or more of which we may desire to pursue, for a business combination, but we have not (nor has anyone on our behalf) contacted any prospective target business or had any substantive discussions, formal or otherwise, with respect to a business combination transaction with us.

We may seek to raise additional funds in connection with the completion of our initial business combination through a private offering of equity securities or debt securities or loans, and we may effectuate our initial business combination using the proceeds of such offerings or loans rather than using the amounts held in the trust account.

In the case of an initial business combination funded with assets other than the trust account assets, our tender offer documents or proxy materials disclosing the business combination would disclose the terms of the financing and, only if required by applicable law or we decide to do so for business or other reasons, we would seek stockholder approval of such financing. There are no prohibitions on our ability to raise funds privately or through loans in connection with our initial business combination. At this time, we are not a party to any arrangement or understanding with any third party with respect to raising any additional funds through the sale of securities or otherwise.

Selection of a target business and structuring of our initial business combination

Nasdaq rules require that an initial business combination must be with one or more operating businesses or assets with a fair market value equal to at least 80% of the net assets held in the trust account (net of amounts disbursed to management for working capital purposes, if permitted, and excluding the amount of any deferred underwriting discount). The fair market value of the target or targets will be determined by our board of directors based upon one or more standards generally accepted by the financial community, such as discounted cash flow valuation or value of comparable businesses. If our board of directors is not able to independently determine the fair market value of the target business or businesses, we will obtain an opinion from an independent investment banking firm or another independent entity that commonly renders valuation opinions, with respect to the satisfaction of such criteria. We do not currently intend to purchase multiple businesses in unrelated industries in conjunction with our initial business combination, although there is no assurance that will be the case. Subject to this requirement, our management will have virtually unrestricted flexibility in identifying and selecting one or more prospective target businesses, although we will not be permitted to effectuate our initial business combination solely with another blank check company or a similar company with nominal operations.

In any case, we will only complete an initial business combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target business sufficient for it not to be required to register as an investment company under the Investment Company Act. If less than 100% of the outstanding equity interests or assets of a target business or businesses are owned or acquired by the post-transaction company, the portion of such business or businesses that is owned or acquired by us is what will be valued for purposes of the 80% of net assets test. There is no basis for investors in this offering to evaluate the possible merits or risks of any target business with which we may ultimately complete our initial business combination.

To the extent we effect our initial business combination with a company or business that may be financially unstable or in its early stages of development or growth, we may be affected by numerous

risks inherent in such company or business. Although our management will endeavor to evaluate the risks inherent in a particular target business, we cannot assure you that we will properly ascertain or assess all of the significant risk factors.

In evaluating a prospective target business, we expect to conduct a thorough due diligence review which may encompass, among other things, meetings with incumbent management and employees, document reviews, inspection of facilities, as well as a review of financial, operational, legal and other information that will be made available to us.

The time required to select and evaluate a target business and to structure and complete our initial business combination, and the costs associated with this process, are not currently ascertainable with any degree of certainty. Any costs incurred with respect to the identification and evaluation of a prospective target business with which our initial business combination is not ultimately completed will result in our incurring losses and will reduce the funds we can use to complete another business combination.

Lack of business diversification

For an indefinite period of time after the completion of our initial business combination, the prospects for our success may depend entirely on the future performance of a single business.

By completing our initial business combination with only a single entity our lack of diversification may subject us to numerous economic, competitive and regulatory risks. Further, we would not be able to diversify our operations or benefit from the possible spreading of risks or offsetting of losses, unlike other entities which may have the resources to complete several business combinations in different industries or different areas of a single industry. Accordingly, the prospects for our success may be:

- solely dependent upon the performance of a single business, property or asset; or
- dependent upon the development or market acceptance of a single or limited number of products, processes or services.

This lack of diversification may subject us to numerous economic, competitive and regulatory risks, any or all of which may have a substantial adverse impact upon the particular industry in which we may operate subsequent to our initial business combination.

Limited ability to evaluate the target's management team

Although we intend to closely scrutinize the management of a prospective target business when evaluating the desirability of effecting our initial business combination with that business, our assessment of the target business's management may not prove to be correct. In addition, the future management may not have the necessary skills, qualifications or abilities to manage a public company. Furthermore, the future role of members of our management team, if any, in the target business cannot presently be stated with any certainty. While it is possible that one or more of our directors will remain associated in some capacity with us following our initial business combination, it is highly unlikely that any of them will devote their full efforts to our affairs subsequent to our initial business combination. Moreover, we cannot assure you that members of our management team will have significant experience or knowledge relating to the operations of the particular target business.

We cannot assure you that any of our key personnel will remain in senior management or advisory positions with the post-business combination company. The determination as to whether any of our key personnel will remain with the combined company will be made at the time of our initial business combination.

[Table of Contents](#)

Following our initial business combination, we may seek to recruit additional managers to supplement the incumbent management of the target business. We cannot assure you that we will have the ability to recruit additional managers, or that additional managers will have the requisite skills, knowledge or experience necessary to enhance the incumbent management.

Stockholders may not have the ability to approve our initial business combination

We may conduct redemptions without a stockholder vote pursuant to the tender offer rules of the SEC. However, we will seek stockholder approval if it is required by applicable law or stock exchange rule, or we may decide to seek stockholder approval for business or other reasons. Presented in the table below is a graphic explanation of the types of initial business combinations we may consider and whether stockholder approval is currently required under Delaware law for each such transaction.

Type of Transaction	Whether Stockholder Approval is Required
Purchase of assets	No
Purchase of stock of target not involving a merger with the company	No
Merger of target into a subsidiary of the company	No
Merger of the company with a target	Yes

Under Nasdaq's listing rules, stockholder approval would typically be required for our initial business combination if, for example:

- we issue (other than in a public offering for cash) shares of common stock that will either (a) be equal to or in excess of 20% of the number of shares of common stock then outstanding or (b) have voting power equal to or in excess of 20% of the voting power then outstanding;
- any of our directors, officers or substantial security holders (as defined by Nasdaq rules) has a 5% or greater interest, directly or indirectly, in the target business or assets to be acquired and if the number of shares of common stock to be issued, or if the number of shares of common stock into which the securities may be convertible or exercisable, exceeds either (a) 1% of the number of shares of common stock or 1% of the voting power outstanding before the issuance in the case of any of our directors and officers or (b) 5% of the number of shares of common stock or 5% of the voting power outstanding before the issuance in the case of any substantial security holders; or
- the issuance or potential issuance will result in our undergoing a change of control.

The decision as to whether we will seek stockholder approval of a proposed business combination in those instances in which stockholder approval is not required by applicable law or stock exchange rule will be made by us, solely in our discretion, and will be based on business and other reasons, which include a variety of factors, including, but not limited to:

- the timing of the transaction, including in the event we determine stockholder approval would require additional time and there is either not enough time to seek stockholder approval or doing so would place the company at a disadvantage in the transaction or result in other additional burdens on the company;
- the expected cost of holding a stockholder vote;
- the risk that the stockholders would fail to approve the proposed business combination;
- other time and budget constraints of the company; and
- additional legal complexities of a proposed business combination that would be time-consuming and burdensome to present to stockholders.

Permitted purchases and other transactions with respect to our securities

In the event we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our sponsors, directors, officers, advisors or any of their respective affiliates may purchase public shares or warrants in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. There is no limit on the number of securities such persons may purchase. Additionally, at any time at or prior to our initial business combination, subject to applicable securities laws (including with respect to material nonpublic information), our sponsors, directors, officers, advisors or any of their respective affiliates may enter into transactions with investors and others to provide them with incentives to acquire public shares, vote their public shares in favor of our initial business combination or not redeem their public shares. However, they have no current commitments, plans or intentions to engage in such purchases or other transactions and have not formulated any terms or conditions for any such purchases or other transactions. None of the funds held in the trust account will be used to purchase public shares or warrants in such transactions. Such persons will be subject to restrictions in making any such purchases when they are in possession of any material non-public information or if such purchases are prohibited by Regulation M under the Exchange Act. Such a purchase may include a contractual acknowledgement that such stockholder, although still the record holder of our shares, is no longer the beneficial owner thereof and therefore agrees not to exercise its redemption rights. We will adopt an insider trading policy which will require insiders to (1) refrain from purchasing securities during certain blackout periods and when they are in possession of any material non-public information and (2) clear all trades with our legal counsel prior to execution. We cannot currently determine whether our insiders will make such purchases pursuant to a Rule 10b5-1 plan, as it will be dependent upon several factors, including but not limited to, the timing and size of such purchases. Depending on such circumstances, our insiders may either make such purchases pursuant to a Rule 10b5-1 plan or determine that such a plan is not necessary.

In the event that our sponsors, directors, officers, advisors or any of their respective affiliates purchase public shares in privately negotiated transactions from public stockholders who have already elected to exercise their redemption rights or submitted a proxy to vote against our initial business combination, such selling stockholders would be required to revoke their prior elections to redeem their shares and any proxy to vote against our initial business combination. We do not currently anticipate that such purchases, if any, would constitute a tender offer subject to the tender offer rules under the Exchange Act or a going-private transaction subject to the going-private rules under the Exchange Act; however, if the purchasers determine at the time of any such purchases that the purchases are subject to such rules, the purchasers will be required to comply with such rules.

The purpose of any such transaction could be to (1) vote such shares in favor of the initial business combination and thereby increase the likelihood of obtaining stockholder approval of the initial business combination, (2) reduce the number of public warrants outstanding or to vote such warrants on any matters submitted to the warrant holders for approval in connection with our initial business combination or (3) satisfy a closing condition in an agreement with a target that requires us to have a minimum net worth or a certain amount of cash at the closing of our initial business combination, where it appears that such requirement would otherwise not be met. Any such transactions may result in the completion of our initial business combination that may not otherwise have been possible.

In addition, if such purchases are made, the public "float" of our shares of Class A common stock or warrants may be reduced and the number of beneficial holders of our securities may be reduced, which may make it difficult to maintain or obtain the quotation, listing or trading of our securities on a national securities exchange.

Our sponsors, officers, directors, advisors and/or any of their respective affiliates anticipate that they may identify the stockholders with whom our sponsors, officers, directors, advisors or any of their respective affiliates may pursue privately negotiated transactions by either the stockholders contacting us directly or by our receipt of redemption requests submitted by stockholders (in the case of public shares) following our mailing of proxy materials in connection with our initial business combination. To the extent that our sponsors, officers, directors, advisors or any of their respective affiliates enter into a private transaction, they would identify and contact only potential selling or redeeming stockholders who have expressed their election to redeem their shares for a pro rata share of the trust account or vote against our initial business combination. Such persons would select the stockholders from whom to acquire shares based on the number of shares available, the negotiated price per share and such other factors as any such person may deem relevant at the time of purchase. The price per share paid in any such transaction may be different than the amount per share a public stockholder would receive if it elected to redeem its shares in connection with our initial business combination. Our sponsors, officers, directors, advisors or any of their respective affiliates will be restricted from purchasing shares if such purchases do not comply with Regulation M under the Exchange Act and the other federal securities laws.

Any purchases by our sponsors, officers, directors and/or any of their respective affiliates who are affiliated purchasers under Rule 10b-18 under the Exchange Act will be restricted unless such purchases are made in compliance with Rule 10b-18, which is a safe harbor from liability for manipulation under Section 9(a)(2) and Rule 10b-5 of the Exchange Act. Rule 10b-18 has certain technical requirements that must be complied with in order for the safe harbor to be available to the purchaser. Our sponsors, officers, directors and/or any of their respective affiliates will be restricted from making purchases of common stock if such purchases would violate Section 9(a)(2) or Rule 10b-5 of the Exchange Act.

Redemption rights for public stockholders upon completion of our initial business combination

We will provide our public stockholders with the opportunity to redeem all or a portion of their shares of common stock upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, calculated as of two business days prior to the consummation of the initial business combination, including interest (which interest shall be net of taxes payable), divided by the number of then outstanding public shares, subject to the limitations described herein. At completion of the business combination, we will be required to purchase any public shares properly delivered for redemption and not withdrawn. The amount in the trust account is initially anticipated to be \$10.00 per public share. The redemption rights will include the requirement that a beneficial holder must identify itself in order to validly redeem its shares. There will be no redemption rights upon the completion of our initial business combination with respect to our warrants. Our initial stockholders, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to any founder shares, private placement shares and any public shares held by them in connection with the completion of our initial business combination.

Manner of conducting redemptions

We will provide our public stockholders with the opportunity to redeem all or a portion of their shares of Class A common stock upon the completion of our initial business combination either: (1) in connection with a stockholder meeting called to approve the business combination; or (2) by means of a tender offer. Except as required by applicable law or stock exchange rules, the decision as to whether we will seek stockholder approval of a proposed business combination or conduct a tender offer will be made by us, solely in our discretion, and will be based on a variety of factors such as the timing of the transaction. Asset acquisitions and stock purchases would not typically require stockholder approval while direct mergers with our company where we do not survive and any

Table of Contents

transactions where we issue more than 20% of our outstanding common stock or seek to amend our amended and restated certificate of incorporation would typically require stockholder approval. If we structure a business combination transaction with a target company in a manner that requires stockholder approval, we will not have discretion as to whether to seek a stockholder vote to approve the proposed business combination. We intend to conduct redemptions without a stockholder vote pursuant to the tender offer rules of the SEC unless stockholder approval is required by applicable law or stock exchange listing requirement or we choose to seek stockholder approval for business or other reasons.

If a stockholder vote is not required and we do not decide to hold a stockholder vote for business or other reasons, we will, pursuant to our amended and restated certificate of incorporation:

- conduct the redemptions pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, which regulate issuer tender offers; and
- file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act, which regulates the solicitation of proxies.

Upon the public announcement of our initial business combination, we and our sponsor will terminate any plan established in accordance with Rule 10b5-1 to purchase shares of our Class A common stock in the open market if we elect to redeem our public shares through a tender offer, to comply with Rule 14e-5 under the Exchange Act.

In the event we conduct redemptions pursuant to the tender offer rules, our offer to redeem will remain open for at least 20 business days, in accordance with Rule 14e-1(a) under the Exchange Act, and we will not be permitted to complete our initial business combination until the expiration of the tender offer period. In addition, the tender offer will be conditioned on public stockholders not tendering more than a specified number of public shares, which number will be based on the requirement that we may not redeem public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 following such redemptions or any greater net tangible asset or cash requirement which may be contained in the agreement relating to our initial business combination. If public stockholders tender more shares than we have offered to purchase, we will withdraw the tender offer and not complete such initial business combination, and we instead may search for an alternate business combination (including, potentially, with the same target).

If, however, stockholder approval of the transaction is required by applicable law or stock exchange listing requirement, or we decide to obtain stockholder approval for business or other reasons, we will, pursuant to our amended and restated certificate of incorporation:

- conduct the redemptions in conjunction with a proxy solicitation pursuant to Regulation 14A of the Exchange Act, which regulates the solicitation of proxies, and not pursuant to the tender offer rules; and
- file proxy materials with the SEC.

We expect that a final proxy statement would be mailed to public stockholders at least 10 days prior to the stockholder vote. However, we expect that a draft proxy statement would be made available to such stockholders well in advance of such time, providing additional notice of redemption if we conduct redemptions in conjunction with a proxy solicitation. Although we are not required to do so, we currently intend to comply with the substantive and procedural requirements of Regulation 14A in connection with any stockholder vote even if we are not able to maintain our Nasdaq listing or Exchange Act registration.

Table of Contents

In the event that we seek stockholder approval of our initial business combination, we will distribute proxy materials and, in connection therewith, provide our public stockholders with the redemption rights described above upon completion of the initial business combination.

If we seek stockholder approval, we will complete our initial business combination only if a majority of the outstanding shares of our common stock voted are voted in favor of the business combination. A quorum for such meeting will consist of the holders present in person or by proxy of shares of outstanding capital stock of the company representing a majority of the voting power of all outstanding shares of capital stock of the company entitled to vote at such meeting. Our initial stockholders, officers and directors will count towards this quorum and have agreed to vote any founder shares, private placement shares and any public shares held by them in favor of our initial business combination. These quorum and voting thresholds and agreements, may make it more likely that we will consummate our initial business combination. Each public stockholder may elect to redeem its public shares without voting, and if they do vote, irrespective of whether they vote for or against the proposed transaction. In addition, our initial stockholders have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to any founder shares, private placement shares and any public shares held by them in connection with the completion of a business combination.

Our amended and restated certificate of incorporation will provide that in no event will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 following such redemptions. Redemptions of our public shares may also be subject to a higher net tangible asset test or cash requirement pursuant to an agreement relating to our initial business combination. For example, the proposed business combination may require: (1) cash consideration to be paid to the target or its owners; (2) cash to be transferred to the target for working capital or other general corporate purposes; or (3) the retention of cash to satisfy other conditions in accordance with the terms of the proposed business combination. In the event the aggregate cash consideration we would be required to pay for all shares of Class A common stock that are validly submitted for redemption plus any amount required to satisfy cash conditions pursuant to the terms of the proposed business combination exceed the aggregate amount of cash available to us, we will not complete the business combination or redeem any shares, all shares of common stock submitted for redemption will be returned to the holders thereof, and we instead may search for an alternate business combination (including, potentially, with the same target).

Limitation on redemption upon completion of our initial business combination if we seek stockholder approval

Notwithstanding the foregoing redemption rights, if we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation will provide that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a "group" (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the shares sold in this offering, which we refer to as the "Excess Shares," without our prior consent. We believe the restriction described above will discourage stockholders from accumulating large blocks of shares and subsequent attempts by such holders to use their ability to redeem their shares as a means to force us or our sponsors or their affiliates to purchase their shares at a significant premium to the then-current market price or on other undesirable terms. Absent this provision, a public stockholder holding more than an aggregate of 15% of the shares sold in this offering could threaten to exercise its redemption rights against a business combination if such holder's shares are not purchased by us or our sponsors or their affiliates at a premium to the then-current market price or on other undesirable terms. By limiting our stockholders' ability to redeem to no more than 15% of the shares sold in this offering, we believe we will limit the ability of a small group of

stockholders to unreasonably attempt to block our ability to complete our initial business combination, particularly in connection with a business combination with a target that requires as a closing condition that we have a minimum net worth or a certain amount of cash. However, we would not be restricting our stockholders' ability to vote all of their shares (including Excess Shares) for or against our initial business combination.

Tendering stock certificates in connection with a tender offer or redemption rights

We may require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in "street name," to either tender their certificates to our transfer agent prior to the date set forth in the tender offer documents or proxy materials mailed to such holders, or up to two business days prior to the vote on the proposal to approve the business combination in the event we distribute proxy materials or to deliver their shares to the transfer agent electronically using The Depository Trust Company's DWAC (Deposit/Withdrawal At Custodian) System, rather than simply voting against the initial business combination at the holder's option. The tender offer or proxy materials, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will indicate whether we are requiring public stockholders to satisfy such delivery requirements, which will include the requirement that a beneficial holder must identify itself in order to validly redeem its shares. Accordingly, a public stockholder would have from the time we send out our tender offer materials until the close of the tender offer period, or up to two business days prior to the scheduled vote on the business combination if we distribute proxy materials, as applicable, to tender its shares if it wishes to seek to exercise its redemption rights. Pursuant to the tender offer rules, the tender offer period will be not less than 20 business days and, in the case of a stockholder vote, a final proxy statement would be mailed to public stockholders at least 10 days prior to the stockholder vote. However, we expect that a draft proxy statement would be made available to such stockholders well in advance of such time, providing additional notice of redemption if we conduct redemptions in conjunction with a proxy solicitation. Given the relatively short exercise period, it is advisable for stockholders to use electronic delivery of their public shares.

There is a nominal cost associated with the above-referenced tendering process and the act of certificating the shares or delivering them through The Depository Trust Company's DWAC (Deposit/Withdrawal At Custodian) System. The transfer agent will typically charge the tendering broker a fee of approximately \$80 and it would be up to the broker whether or not to pass this cost on to the redeeming holder. However, this fee would be incurred regardless of whether or not we require holders seeking to exercise redemption rights to tender their shares. The need to deliver shares is a requirement of exercising redemption rights regardless of the timing of when such delivery must be effectuated.

The foregoing is different from the procedures used by many blank check companies. In order to perfect redemption rights in connection with their business combinations, many blank check companies would distribute proxy materials for the stockholders' vote on an initial business combination, and a holder could simply vote against a proposed business combination and check a box on the proxy card indicating such holder was seeking to exercise his or her redemption rights. After the business combination was approved, the company would contact such stockholder to arrange for him or her to deliver his or her certificate to verify ownership. As a result, the stockholder then had an "option window" after the completion of the business combination during which he or she could monitor the price of the company's stock in the market. If the price rose above the redemption price, he or she could sell his or her shares in the open market before actually delivering his or her shares to the company for cancellation. As a result, the redemption rights, to which stockholders were aware they needed to commit before the stockholder meeting, would become "option" rights surviving past the completion of the business combination until the redeeming holder delivered its certificate. The requirement for physical or electronic delivery prior to the meeting ensures that a redeeming holder's election to redeem is irrevocable once the business combination is approved.

Any request to redeem such shares, once made, may be withdrawn at any time up to the date set forth in the tender offer materials or two business days prior to the scheduled date of the stockholder meeting set forth in our proxy materials, as applicable (unless we elect to allow additional withdrawal rights). Furthermore, if a holder of a public share delivered its certificate in connection with an election of redemption rights and subsequently decides prior to the applicable date not to elect to exercise such rights, such holder may simply request that the transfer agent return the certificate (physically or electronically). It is anticipated that the funds to be distributed to holders of our public shares electing to redeem their shares will be distributed promptly after the completion of our initial business combination.

If our initial business combination is not approved or completed for any reason, then our public stockholders who elected to exercise their redemption rights would not be entitled to redeem their shares for the applicable pro rata share of the trust account. In such case, we will promptly return any certificates delivered by public holders who elected to redeem their shares.

If our initial proposed business combination is not completed, we may continue to try to complete a business combination until 24 months from the closing of this offering or during any Extension Period.

Redemption of public shares and liquidation if no initial business combination

Our amended and restated certificate of incorporation provides that we will have only 24 months from the closing of this offering to complete our initial business combination. If we have not completed our initial business combination within such period or during any Extension Period, we will: (1) cease all operations except for the purpose of winding up; (2) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable, and less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any); and (3) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to our warrants, which will expire worthless if we fail to complete our initial business combination within the prescribed time period.

Our initial stockholders, officers and directors have entered into a letter agreement with us, pursuant to which they have waived their rights to liquidating distributions from the trust account with respect to any founder shares and private placement shares held by them if we fail to complete our initial business combination within the prescribed time period. However, if our sponsors or any of our officers, directors or any of their respective affiliates then hold any public shares, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the allotted time frame to complete our initial business combination.

Our sponsors, officers and directors have agreed, pursuant to a written agreement with us, that they will not propose any amendment to our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to allow redemptions in connection with our initial business combination or to redeem 100% of our public shares if we have not consummated our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity, unless we provide our public stockholders with the opportunity to redeem their shares of Class A common stock upon approval of any such amendment at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable),

Table of Contents

divided by the number of then outstanding public shares. However, we may not redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 following such redemptions.

We expect that all costs and expenses associated with implementing our plan of dissolution, as well as payments to any creditors, will be funded from amounts remaining out of the estimated \$900,000 of proceeds held outside the trust account, although we cannot assure you that there will be sufficient funds for such purpose. However, if those funds are not sufficient to cover the costs and expenses associated with implementing our plan of dissolution, to the extent that there is any interest accrued in the trust account not required to pay taxes, we may request the trustee to release to us an additional amount of up to \$100,000 of such accrued interest to pay those costs and expenses.

If we were to expend all of the net proceeds of this offering and the sale of the private placement units, other than the proceeds deposited in the trust account, and without taking into account interest, if any, earned on the trust account and any tax payments or expenses for the dissolution of the trust, the per-share redemption amount received by stockholders upon our dissolution would be \$10.00. The proceeds deposited in the trust account could, however, become subject to the claims of our creditors which would have higher priority than the claims of our public stockholders. We cannot assure you that the actual per-share redemption amount received by stockholders will not be substantially less than \$10.00. Please see "Risk Factors—If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share" and other risk factors described above. Under Section 281(b) of the DGCL, our plan of dissolution must provide for all claims against us to be paid in full or make provision for payments to be made in full, as applicable, if there are sufficient assets. These claims must be paid or provided for before we make any distribution of our remaining assets to our stockholders. While we intend to pay such amounts, if any, we cannot assure you that we will have funds sufficient to pay or provide for all creditors' claims.

Although we will seek to have all vendors, service providers (other than our independent registered public accounting firm), prospective target businesses and other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account for the benefit of our public stockholders, there is no guarantee that they will execute such agreements or even if they execute such agreements that they would be prevented from bringing claims against the trust account including but not limited to fraudulent inducement, breach of fiduciary responsibility or other similar claims, as well as claims challenging the enforceability of the waiver, in each case in order to gain an advantage with respect to a claim against our assets, including the funds held in the trust account. If any third party refuses to execute an agreement waiving such claims to the monies held in the trust account, our management will perform an analysis of the alternatives available to it and will only enter into an agreement with a third party that has not executed a waiver if management believes that such third party's engagement would be significantly more beneficial to us than any alternative. Examples of possible instances where we may engage a third party that refuses to execute a waiver include the engagement of a third-party consultant whose particular expertise or skills are believed by management to be significantly superior to those of other consultants that would agree to execute a waiver or in cases where we are unable to find a service provider willing to execute a waiver. In addition, there is no guarantee that such entities will agree to waive any claims they may have in the future as a result of, or arising out of, any negotiations, contracts or agreements with us and will not seek recourse against the trust account for any reason. In order to protect the amounts held in the trust account, our sponsor has agreed that it will be liable to us if and to the extent any claims by a third party for services rendered or products sold to us, or a prospective target business with which we have discussed entering into a transaction agreement, reduce the amount of funds in the trust account to below (1) \$10.00 per public share; or (2) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account

Table of Contents

due to reductions in the value of the trust assets, in each case net of the amount of interest which may be withdrawn to pay taxes, except as to any claims by a third party who executed a waiver of any and all rights to seek access to the trust account and except as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, our sponsor will not be responsible to the extent of any liability for such third-party claims. We have not independently verified whether our sponsor, which is a newly formed entity, has sufficient funds to satisfy its indemnity obligations and believe that our sponsor's only assets are securities of our company and, therefore, our sponsor may not be able to satisfy those obligations. We have not asked our sponsor to reserve for such obligations. Therefore, we cannot assure you that our sponsor would be able to satisfy those obligations. As a result, if any such claims were successfully made against the trust account, the funds available for our initial business combination and redemptions could be reduced to less than \$10.00 per public share. In such event, we may not be able to complete our initial business combination, and you would receive such lesser amount per share in connection with any redemption of your public shares. None of our officers or directors will indemnify us for claims by third parties including, without limitation, claims by vendors and prospective target businesses.

In the event that the proceeds in the trust account are reduced below: (1) \$10.00 per public share; or (2) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account due to reductions in the value of the trust assets, in each case net of the amount of interest which may be withdrawn to pay taxes, and our sponsor asserts that it is unable to satisfy its indemnification obligations or that it has no indemnification obligations related to a particular claim, our independent directors would determine whether to take legal action against our sponsor to enforce its indemnification obligations. While we currently expect that our independent directors would take legal action on our behalf against our sponsor to enforce its indemnification obligations to us, it is possible that our independent directors in exercising their business judgment may choose not to do so in certain instances. For example, the cost of such legal action may be deemed by the independent directors to be too high relative to the amount recoverable or the independent directors may determine that a favorable outcome is not likely. Accordingly, we cannot assure you that due to claims of creditors the actual value of the per-share redemption price will not be substantially less than \$10.00 per public share. Please see "Risk Factors—If third parties bring claims against us, the proceeds held in the trust account could be reduced and the per-share redemption amount received by stockholders may be less than \$10.00 per share" and other risk factors described above.

We will seek to reduce the possibility that our sponsor will have to indemnify the trust account due to claims of creditors by endeavoring to have all vendors, service providers (other than our independent registered public accounting firm), prospective target businesses and other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to monies held in the trust account. Our sponsor will also not be liable as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. We will have access to up to an estimated \$900,000 from the proceeds of this offering and the sale of the private placement units with which to pay any such potential claims (including costs and expenses incurred in connection with our liquidation, currently estimated to be no more than approximately \$100,000). In the event that we liquidate and it is subsequently determined that the reserve for claims and liabilities is insufficient, stockholders who received funds from our trust account could be liable for claims made by creditors. In the event that our offering expenses exceed our estimate of \$1,100,000, we may fund such excess with funds from the funds not to be held in the trust account. In such case, the amount of funds we intend to be held outside the trust account would decrease by a corresponding amount. Conversely, in the event that the offering expenses are less than our estimate of \$1,100,000, the amount of funds we intend to be held outside the trust account would increase by a corresponding amount.

Table of Contents

Under the DGCL, stockholders may be held liable for claims by third parties against a corporation to the extent of distributions received by them in a dissolution. The pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our initial business combination within the required time period may be considered a liquidating distribution under Delaware law. If the corporation complies with certain procedures set forth in Section 280 of the DGCL intended to ensure that it makes reasonable provision for all claims against it, including a 60-day notice period during which any third-party claims can be brought against the corporation, a 90-day period during which the corporation may reject any claims brought, and an additional 150-day waiting period before any liquidating distributions are made to stockholders, any liability of stockholders with respect to a liquidating distribution is limited to the lesser of such stockholder's pro rata share of the claim or the amount distributed to the stockholder, and any liability of the stockholder would be barred after the third anniversary of the dissolution.

Furthermore, if the pro rata portion of our trust account distributed to our public stockholders upon the redemption of our public shares in the event we do not complete our initial business combination within the required time period, is not considered a liquidating distribution under Delaware law and such redemption distribution is deemed to be unlawful, then pursuant to Section 174 of the DGCL, the statute of limitations for claims of creditors could then be six years after the unlawful redemption distribution, instead of three years, as in the case of a liquidating distribution. If we have not completed our initial business combination within 24 months from the closing of this offering or during any Extension Period, we will: (1) cease all operations except for the purpose of winding up; (2) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable, and less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any); and (3) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. Accordingly, it is our intention to redeem our public shares as soon as reasonably possible following the end of our acquisition period and, therefore, we do not intend to comply with those procedures. As such, our stockholders could potentially be liable for any claims to the extent of distributions received by them (but no more) and any liability of our stockholders may extend well beyond the third anniversary of such date.

Because we will not be complying with Section 280, Section 281(b) of the DGCL requires us to adopt a plan, based on facts known to us at such time that will provide for our payment of all existing and pending claims or claims that may be potentially brought against us within the subsequent ten years. However, because we are a blank check company, rather than an operating company, and our operations will be limited to searching for prospective target businesses to acquire, the only likely claims to arise would be from our vendors (such as lawyers, investment bankers, etc.) or prospective target businesses. As described above, pursuant to the obligation contained in our underwriting agreement, we will seek to have all vendors, service providers (other than our independent registered public accounting firm), prospective target businesses and other entities with which we do business execute agreements with us waiving any right, title, interest or claim of any kind in or to any monies held in the trust account.

As a result of this obligation, the claims that could be made against us are significantly limited and the likelihood that any claim that would result in any liability extending to the trust account is remote. Further, our sponsor may be liable only to the extent necessary to ensure that the amounts in the trust account are not reduced below: (1) \$10.00 per public share; or (2) such lesser amount per public share held in the trust account as of the date of the liquidation of the trust account due to reductions in the

value of the trust assets, in each case net of the amount of interest which may be withdrawn to pay taxes, except as to any claims by a third party who executed a waiver of any and all rights to seek access to the trust account and except as to any claims under our indemnity of the underwriters of this offering against certain liabilities, including liabilities under the Securities Act. In the event that an executed waiver is deemed to be unenforceable against a third party, our sponsor will not be responsible to the extent of any liability for such third-party claims.

If we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, the proceeds held in the trust account could be subject to applicable bankruptcy law, and may be included in our bankruptcy estate and subject to the claims of third parties with priority over the claims of our stockholders. To the extent any bankruptcy claims deplete the trust account, we cannot assure you we will be able to return \$10.00 per share to our public stockholders. Additionally, if we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, any distributions received by stockholders could be viewed under applicable debtor/creditor and/or bankruptcy laws as either a "preferential transfer" or a "fraudulent conveyance." As a result, a bankruptcy court could seek to recover some or all amounts received by our stockholders. Furthermore, our board of directors may be viewed as having breached its fiduciary duty to our creditors and/or may have acted in bad faith, and thereby exposing itself and our company to claims of punitive damages, by paying public stockholders from the trust account prior to addressing the claims of creditors. We cannot assure you that claims will not be brought against us for these reasons. Please see "Risk Factors—If, after we distribute the proceeds in the trust account to our public stockholders, we file a bankruptcy petition or an involuntary bankruptcy petition is filed against us that is not dismissed, a bankruptcy court may seek to recover such proceeds, and the members of our board of directors may be viewed as having breached their fiduciary duties to our creditors, thereby exposing the members of our board of directors and us to claims of punitive damages."

A public stockholder will be entitled to receive funds from the trust account only upon the earliest to occur of: (1) the completion of our initial business combination and then, only in connection with those public shares that such stockholder has properly elected to redeem, subject to the limitations described in this prospectus; (2) the redemption of any public shares properly submitted in connection with a stockholder vote to amend our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to allow redemptions in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity; and (3) the redemption of all of our public shares if we have not completed our initial business combination within 24 months from the closing of this offering, subject to applicable law. In no other circumstances will a public stockholder have any right or interest of any kind to or in the trust account. In the event we seek stockholder approval in connection with our initial business combination, a stockholder's voting in connection with our initial business combination alone will not result in a stockholder's redeeming its shares to us for an applicable pro rata share of the trust account. Such stockholder must have also exercised its redemption rights described above. Holders of warrants will not have any rights of proceeds held in the trust account with respect to the warrants.

Amended and Restated Certificate of Incorporation

Our amended and restated certificate of incorporation will contain certain requirements and restrictions relating to this offering that will apply to us until the consummation of our initial business combination. If we seek to amend any provisions of our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to allow redemptions in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity, we will

Table of Contents

provide public stockholders with the opportunity to redeem their public shares in connection with any such vote. Our initial stockholders, officers and directors have agreed to waive any redemption rights with respect to any founder shares, private placement shares and any public shares held by them in connection with any such amendment. Specifically, our amended and restated certificate of incorporation will provide, among other things, that:

- prior to the consummation of our initial business combination, we shall either: (1) seek stockholder approval of our initial business combination at a meeting called for such purpose, in connection with which, stockholders may seek to redeem their shares without voting, and if they do vote, irrespective of whether they vote for or against the proposed transaction, into their pro rata share of the aggregate amount then on deposit in the trust account, calculated as of two business days prior to the completion of our initial business combination, including interest (which interest shall be net of taxes payable); or (2) provide our public stockholders with the opportunity to tender their shares to us by means of a tender offer (and thereby avoid the need for a stockholder vote) for an amount equal to their pro rata share of the aggregate amount then on deposit in the trust account, calculated as of two business days prior to the completion of our initial business combination, including interest (which interest shall be net of taxes payable), in each case subject to the limitations described herein;
- we will consummate our initial business combination only if we have net tangible assets of at least \$5,000,001 upon such consummation and, solely if we seek stockholder approval, a majority of the outstanding shares of our common stock voted are voted in favor of the business combination at a duly held stockholders meeting;
- if we have not completed our initial business combination within 24 months from the closing of this offering, we will: (1) cease all operations except for the purpose of winding up; (2) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable, and less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any); and (3) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law; and
- prior to our initial business combination, we may not issue additional shares of capital stock that would entitle the holders thereof to (1) receive funds from the trust account or (2) vote pursuant to our amended and restated certificate of incorporation on any initial business combination or any amendments to our amended and restated certificate of incorporation.

These provisions cannot be amended without the approval of holders of at least a majority of our outstanding common stock.

Additionally, our amended and restated certificate of incorporation will provide that, prior to our initial business combination, only holders of our Class B common stock will have the right to vote on the election of directors and that holders of a majority of the outstanding shares of our Class B common stock may remove a member of the board of directors for any reason. These provisions of our amended and restated certificate of incorporation may only be amended if approved by holders of a majority of at least 90% of the outstanding shares of our common stock voting at a stockholder meeting.

Unless specified in our amended and restated certificate of incorporation or bylaws, or as required by applicable law or stock exchange rules, the affirmative vote of holders of a majority of the

outstanding shares of our common stock that are voted is required to approve any such matter voted on by our stockholders.

Comparison of Redemption or Purchase Prices in Connection With Our Initial Business Combination and if We Fail to Complete Our Initial Business Combination

The following table compares the redemptions and other permitted purchases of public shares that may take place in connection with the completion of our initial business combination and if we have not completed our initial business combination within 24 months from the closing of this offering or during any Extension Period.

	Redemptions in Connection with our Initial Business Combination	Other Permitted Purchases of Public Shares by our Affiliates	Redemptions if we fail to Complete an Initial Business Combination
Calculation of redemption price	Redemptions at the time of our initial business combination may be made pursuant to a tender offer or in connection with a stockholder vote. The redemption price will be the same whether we conduct redemptions pursuant to a tender offer or in connection with a stockholder vote. In either case, our public stockholders may redeem their public shares for cash equal to the aggregate amount then on deposit in the trust account, calculated as of two business days prior to the consummation of the initial business combination (which is initially anticipated to be \$10.00 per public share), including interest (which interest shall be net of taxes payable), divided by the number of then outstanding public shares, subject to the limitation that no redemptions will take	If we seek stockholder approval of our initial business combination, our sponsors, directors, officers, advisors or any of their respective affiliates may purchase shares in privately negotiated transactions or in the open market either prior to or following the completion of our initial business combination. Such purchases will be restricted except to the extent such purchases are able to be made in compliance with Rule 10b-18, which is a safe harbor from liability for manipulation under Section 9(a)(2) and Rule 10b-5 of the Exchange Act. None of the funds in the trust account will be used to purchase shares in such transactions.	If we have not completed our initial business combination within 24 months from the closing of this offering or during any Extension Period, we will redeem all public shares at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account (which is initially anticipated to be \$10.00 per public share), including interest (which interest shall be net of taxes payable, and less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares.

	Redemptions in Connection with our Initial Business Combination	Other Permitted Purchases of Public Shares by our Affiliates	Redemptions if we fail to Complete an Initial Business Combination
	<p>place if all of the redemptions would cause our net tangible assets to be less than \$5,000,001 following such redemptions, and any limitations (including but not limited to cash requirements) agreed to in connection with the negotiation of terms of a proposed business combination.</p>		
Impact to remaining stockholders	<p>The redemptions in connection with our initial business combination will reduce the book value per share for our remaining stockholders, who will bear the burden of the Marketing Fee and interest withdrawn in order to pay our taxes (to the extent not paid from amounts accrued as interest on the funds held in the trust account).</p>	<p>If the permitted purchases described above are made, there will be no impact to our remaining stockholders because the purchase price would not be paid by us.</p>	<p>The redemption of our public shares if we fail to complete our initial business combination will reduce the book value per share for the shares held by our initial stockholders, who will be our only remaining stockholders after such redemptions.</p>

Comparison of This Offering to Those of Blank Check Companies Subject to Rule 419

The following table compares the terms of this offering to the terms of an offering by a blank check company subject to the provisions of Rule 419. This comparison assumes that the gross proceeds, underwriting commissions and underwriting expenses of our offering would be identical to those of an offering undertaken by a company subject to Rule 419, and that the underwriters will not exercise their over-allotment option. None of the provisions of Rule 419 apply to our offering.

	<u>Terms of Our Offering</u>	<u>Terms Under a Rule 419 Offering</u>
Escrow of offering proceeds	<p>The rules of Nasdaq provide that at least 90% of the gross proceeds from this offering and the sale of the private placement units be deposited in a trust account.</p> <p>\$275,000,000 of the net proceeds of this offering and the sale of the private placement units will be deposited into a U.S.-based trust account at J.P. Morgan Chase Bank, N.A., with Continental Stock Transfer & Trust Company acting as trustee.</p>	<p>Approximately \$242,550,000 of the offering proceeds, representing the gross proceeds of this offering less allowable underwriting commissions, expenses and company deductions under Rule 419, would be required to be deposited into either an escrow account with an insured depository institution or in a separate bank account established by a broker-dealer in which the broker-dealer acts as trustee for persons having the beneficial interests in the account.</p>
Investment of net proceeds	<p>\$275,000,000 of the net offering proceeds and the sale of the private placement units held in trust will be invested only in U.S. government treasury bills with a maturity of 185 days or less or in money market funds investing solely in U.S. Treasuries and meeting certain conditions under Rule 2a-7 under the Investment Company Act.</p>	<p>Proceeds could be invested only in specified securities such as a money market fund meeting conditions of the Investment Company Act or in securities that are direct obligations of, or obligations guaranteed as to principal or interest by, the United States.</p>
Receipt of interest on escrowed funds	<p>Interest on proceeds from the trust account to be paid to stockholders is reduced by: (1) any taxes paid or payable; and (2) in the event of our liquidation for failure to complete our initial business combination within the allotted time, up to \$100,000 of net interest that may be released to us should we have no or insufficient working capital to fund the costs and expenses of our dissolution and liquidation.</p>	<p>Interest on funds in escrow account would be held for the sole benefit of investors, unless and only after the funds held in escrow were released to us in connection with our completion of a business combination.</p>
Limitation on fair value or net assets of target business	<p>Nasdaq rules require that an initial business combination must be with one or more operating businesses or assets with a fair market value equal</p>	<p>The fair value or net assets of a target business must represent at least 80% of the maximum offering proceeds.</p>

	<u>Terms of Our Offering</u>	<u>Terms Under a Rule 419 Offering</u>
	to at least 80% of the net assets held in the trust account (net of amounts disbursed to management for working capital purposes, if permitted, and excluding the amount of any deferred underwriting discount).	
Trading of securities issued	The units will begin trading on or promptly after the date of this prospectus. The Class A common stock and warrants constituting the units will begin separate trading on the 52 nd day following the date of this prospectus (or, if such date is not a business day, the following business day) unless Cowen and Company, LLC informs us of its decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. We will file the Current Report on Form 8-K promptly after the closing of this offering. If the underwriters' over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, a second or amended Current Report on Form 8-K will be filed to provide updated financial information to reflect the exercise of the underwriters' over-allotment option.	No trading of the units or the underlying common stock and warrants would be permitted until the completion of a business combination. During this period, the securities would be held in the escrow or trust account.
Exercise of the warrants	The warrants cannot be exercised until the later of 30 days after the completion of our initial business combination and 12 months from the closing of this offering.	The warrants could be exercised prior to the completion of a business combination, but securities received and cash paid in connection with the exercise would be deposited in the escrow or trust account.
Election to remain an investor	We will provide our public stockholders with the opportunity to redeem their public shares for cash equal to their pro rata share of the aggregate amount then on deposit in the trust account, calculated as of two business days prior to the consummation of our initial business	A prospectus containing information pertaining to the business combination required by the SEC would be sent to each investor. Each investor would be given the opportunity to notify the company in writing, within a period of no less than 20 business days and no more

Terms of Our Offering

combination, including interest, which interest shall be net of taxes payable, upon the completion of our initial business combination, subject to the limitations described herein. We may not be required by applicable law or stock exchange rules to hold a stockholder vote. If we are not required by applicable law or stock exchange rules and do not otherwise decide to hold a stockholder vote, we will, pursuant to our amended and restated certificate of incorporation, conduct the redemptions pursuant to the tender offer rules of the SEC and file tender offer documents with the SEC which will contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under the SEC's proxy rules. If, however, we hold a stockholder vote, we will, like many blank check companies, offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. Pursuant to the tender offer rules, the tender offer period will be not less than 20 business days and, in the case of a stockholder vote, a final proxy statement would be mailed to public stockholders at least 10 days prior to the stockholder vote. However, we expect that a draft proxy statement would be made available to such stockholders well in advance of such time, providing additional notice of redemption if we conduct redemptions in conjunction with a proxy solicitation. If we seek stockholder approval, we will complete our initial business combination only if a majority of the outstanding shares of our common stock voted are voted in favor of the business combination. A quorum for such meeting will consist of the holders present in person or by proxy

Terms Under a Rule 419 Offering

than 45 business days from the effective date of a post-effective amendment to the company's registration statement, to decide if he, she or it elects to remain a stockholder of the company or require the return of his, her or its investment. If the company has not received the notification by the end of the 45th business day, funds and interest or dividends, if any, held in the trust or escrow account are automatically returned to the stockholder. Unless a sufficient number of investors elect to remain investors, all funds on deposit in the escrow account must be returned to all of the investors and none of the securities are issued.

	Terms of Our Offering	Terms Under a Rule 419 Offering
Business combination deadline	<p>of shares of outstanding capital stock of the company representing a majority of the voting power of all outstanding shares of capital stock of the company entitled to vote at such meeting. Additionally, each public stockholder may elect to redeem its public shares without voting and, if they do vote, irrespective of whether they vote for or against the proposed transaction.</p> <p>If we have not completed an initial business combination within 24 months from the closing of this offering or during any Extension Period, we will: (1) cease all operations except for the purpose of winding up; (2) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable, and less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any); and (3) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law.</p>	<p>If an acquisition has not been completed within 18 months after the effective date of the company's registration statement, funds held in the trust or escrow account are returned to investors.</p>
Release of funds	<p>Except with respect to interest earned on the funds held in the trust account that may be released to us to pay our taxes, if any, the funds held in the trust account will not be released from the trust account until</p>	<p>The proceeds held in the escrow account are not released until the earlier of the completion of a business combination and the failure to effect a business combination within the allotted time.</p>

Terms of Our Offering

the earliest of: (1) the completion of our initial business combination; (2) the redemption of any public shares properly submitted in connection with a stockholder vote to amend our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to allow redemptions in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity; and (3) the redemption of all of our public shares if we have not completed our initial business combination within 24 months from the closing of this offering, subject to applicable law.

Terms Under a Rule 419 Offering

Limitation on redemption rights of stockholders holding more than 15% of the shares sold in this offering if we hold a stockholder vote

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation will provide that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a "group" (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to Excess Shares (more than an aggregate of 15% of the shares sold in this offering), without our prior consent. Our public stockholders' inability to redeem Excess Shares will reduce their influence over our ability to complete our initial business combination and they could suffer a material loss on their investment in us if they sell Excess Shares in open market transactions.

Most blank check companies provide no restrictions on the ability of stockholders to redeem shares based on the number of shares held by such stockholders in connection with an initial business combination.

	<u>Terms of Our Offering</u>	<u>Terms Under a Rule 419 Offering</u>
Tendering stock certificates in connection with a tender offer or redemption rights	<p>We may require our public stockholders seeking to exercise their redemption rights, whether they are record holders or hold their shares in “street name,” to either tender their certificates to our transfer agent prior to the date set forth in the tender offer documents or proxy materials mailed to such holders or up to two business days prior to the scheduled vote on the proposal to approve the business combination in the event we distribute proxy materials, or to deliver their shares to the transfer agent electronically using The Depository Trust Company’s DWAC (Deposit/Withdrawal At Custodian) System, at the holder’s option. The tender offer or proxy materials, as applicable, that we will furnish to holders of our public shares in connection with our initial business combination will indicate whether we are requiring public stockholders to satisfy such delivery requirements. Accordingly, a public stockholder would have from the time we send out our tender offer materials until the close of the tender offer period, or up to two business days prior to the scheduled vote on the business combination if we distribute proxy materials, as applicable, to tender its shares if it wishes to seek to exercise its redemption rights.</p>	<p>In order to perfect redemption rights in connection with their business combinations, holders could vote against a proposed business combination and check a box on the proxy card indicating such holders were seeking to exercise their redemption rights. After the business combination was approved, the company would contact such stockholders to arrange for them to deliver their certificate to verify ownership.</p>

Competition

We expect to encounter intense competition from other entities having a business objective similar to ours, including private investors (which may be individuals or investment partnerships), other blank check companies and other entities, domestic and international, competing for the types of businesses we intend to acquire.

Many of these individuals and entities are well-established and have extensive experience in identifying and effecting, directly or indirectly, acquisitions of companies operating in or providing services to various industries. Many of these competitors possess greater technical, human and other resources or more local industry knowledge than we do and our financial resources will be relatively limited when contrasted with those of many of these competitors. While we believe there will be numerous target businesses we could potentially acquire with the net proceeds of this offering and the sale of the private placement units, our ability to compete with respect to the acquisition of certain target businesses that are sizable will be limited by our available financial resources. Our sponsors or

[Table of Contents](#)

any of its affiliates may make additional investments in us, although our sponsors have no obligation or other duty to do so. This inherent competitive limitation gives others an advantage in pursuing the acquisition of certain target businesses. Furthermore, our obligation to pay cash in connection with our public stockholders who exercise their redemption rights may reduce the resources available to us for our initial business combination and our outstanding warrants, and the future dilution they potentially represent, may not be viewed favorably by target businesses. Any of these factors may place us at a competitive disadvantage in successfully negotiating and completing an initial business combination.

Facilities

We currently maintain our executive offices at 233 N. Michigan Avenue, Suite 1410, Chicago, Illinois 60601. The cost for this space is included in the \$10,000 per month fee that we will pay our sponsor for office space, administrative and support services. We consider our current office space adequate for our current operations.

Employees

We currently have two officers and do not intend to have any full-time employees prior to the completion of our initial business combination. Members of our management team are not obligated to devote any specific number of hours to our matters but they intend to devote as much of their time as they deem necessary to our affairs until we have completed our initial business combination. The amount of time that any such person will devote in any time period to our company will vary based on whether a target business has been selected for our initial business combination and the current stage of the business combination process.

Periodic Reporting and Financial Information

We will register our units, Class A common stock and warrants under the Exchange Act and have reporting obligations, including the requirement that we file annual, quarterly and current reports with the SEC. In accordance with the requirements of the Exchange Act, our annual reports will contain financial statements audited and reported on by our independent registered public accounting firm.

We will provide stockholders with audited financial statements of the prospective target business as part of the tender offer materials or proxy solicitation materials sent to stockholders to assist them in assessing the target business. These financial statements may be required to be prepared in accordance with, or be reconciled to, GAAP or IFRS, depending on the circumstances and the historical financial statements may be required to be audited in accordance with PCAOB standards. These financial statement requirements may limit the pool of potential target businesses we may acquire because some targets may be unable to provide such financial statements in time for us to disclose such financial statements in accordance with federal proxy rules and complete our initial business combination within the prescribed time frame. While this may limit the pool of potential business combination candidates, we do not believe that this limitation will be material.

We will be required to evaluate our internal control procedures for the fiscal year ending December 31, 2021 as required by the Sarbanes-Oxley Act. Only in the event we are deemed to be a large accelerated filer or an accelerated filer, and no longer qualify as an emerging growth company, will we be required to comply with the independent registered public accounting firm attestation requirements on our internal control over financial reporting. A target business may not be in compliance with the provisions of the Sarbanes-Oxley Act regarding adequacy of their internal controls. The development of the internal controls of any such entity to achieve compliance with the Sarbanes-Oxley Act may increase the time and costs necessary to complete any such acquisition.

Prior to the effectiveness of the registration statement of which this prospectus forms a part, we will file a Registration Statement on Form 8-A with the SEC to voluntarily register our securities under

Table of Contents

Section 12 of the Exchange Act. As a result, we will be subject to the rules and regulations promulgated under the Exchange Act. We have no current intention of filing a Form 15 to suspend our reporting or other obligations under the Exchange Act prior or subsequent to the consummation of our initial business combination.

We are an “emerging growth company,” as defined in Section 2(a) of the Securities Act, as modified by the JOBS Act. As such, we are eligible to take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not “emerging growth companies” including, but not limited to, not being required to comply with the auditor attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in our periodic reports and proxy statements, and exemptions from the requirements of holding a non-binding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved. If some investors find our securities less attractive as a result, there may be a less active trading market for our securities and the prices of our securities may be more volatile.

In addition, Section 107 of the JOBS Act also provides that an “emerging growth company” can take advantage of the extended transition period provided in Section 7(a)(2)(B) of the Securities Act for complying with new or revised accounting standards. In other words, an “emerging growth company” can delay the adoption of certain accounting standards until those standards would otherwise apply to private companies. We intend to take advantage of the benefits of this extended transition period.

We will remain an emerging growth company until the earlier of: (1) the last day of the fiscal year (a) following the fifth anniversary of the completion of this offering, (b) in which we have total annual gross revenue of at least \$1.07 billion, or (c) in which we are deemed to be a large accelerated filer, which means the market value of our common stock that is held by non-affiliates exceeds \$700 million as of the end of that year's second fiscal quarter; and (2) the date on which we have issued more than \$1.00 billion in non-convertible debt securities during the prior three-year period. References herein to “emerging growth company” shall have the meaning associated with it in the JOBS Act.

Additionally, we are a “smaller reporting company” as defined in Item 10(f)(1) of Regulation S-K. Smaller reporting companies may take advantage of certain reduced disclosure obligations, including, among other things, providing only two years of audited financial statements. We will remain a smaller reporting company until the last day of the fiscal year in which (1) the market value of our common stock held by non-affiliates exceeds \$250 million as of the end of that year's second fiscal quarter, or (2) our annual revenues exceeded \$100 million during such completed fiscal year and the market value of our common stock held by non-affiliates exceeds \$700 million as of the end of that year's second fiscal quarter.

Legal Proceedings

There is no material litigation, arbitration or governmental proceeding currently pending against us or any members of our management team in their capacity as such, and we and the members of our management team have not been subject to any such proceeding in the 12 months preceding the date of this prospectus.

MANAGEMENT

Directors, Director Nominees and Executive Officers

Our directors, director nominees and officers are as follows:

<u>Name</u>	<u>Age</u>	<u>Title</u>
Greg Wasson	62	Chairman
Michael Balkin	61	Chief Executive Officer and Director
Gerald Muizelaar	46	Chief Financial Officer
Brian Gamache	62	Director Nominee
Robert Zimmerman	69	Director Nominee
John Svoboda	63	Director Nominee

Greg Wasson serves as Chairman of the Board. Mr. Wasson currently serves as President and Founder of his own family office, Wasson Enterprise. Wasson Enterprise's focus is to partner with entrepreneurs and operators to build sustainable, high-growth businesses that do well by doing good. As the former CEO of Walgreens, Mr. Wasson has extensive global operational and management experience, as well as extensive knowledge of the retail and healthcare industries. Mr. Wasson attended Purdue University's School of Pharmacy, receiving his pharmacy degree in 1981. Before his senior year, he was invited to become one of the first pharmacy services interns in Walgreens' corporate offices—an opportunity that led to his being hired by Walgreens upon graduation and that changed the course of his future career. Mentored by many company leaders through the years, together with his outstanding performance in positions of increasing responsibility, Mr. Wasson served Walgreens for 34 years. As Walgreens CEO, Mr. Wasson led the Fortune 35 company to record fiscal 2014 sales of \$76.4 billion. He is credited with creating significant financial and shareholder value, initiating and completing transformative mergers and investments, leading complex organizational and structural change, assembling a diverse and high-performance senior leadership team, and establishing Walgreens' position as an industry leader. Before retiring from Walgreens, Mr. Wasson had transformed an iconic 114-year-old domestic company into the first global pharmacy-led, health, well-being and beauty enterprise via the successful merger with European-based Alliance Boots to create Walgreens Boots Alliance. Mr. Wasson currently serves on the Board of Directors of OptimizeRx Corp. (NASDAQ: OPRX).

Michael Balkin serves as our Chief Executive Officer and Director. Mr. Balkin has over 30 years of experience in working with public companies in the small cap space. Mr. Balkin was a partner and formerly the co-Manager of the William Blair Small Institutional portfolio and the William Blair Small Cap Growth Fund, which he and his partners, Karl Brewer and Mark Fuller started, in 1999. He and his team managed nearly \$1.8 billion dollars in total assets and have been named among the top small cap funds multiple times by publications such as Barrons, Morningstar, Lipper and Institutional Investor Magazine. From 2005 to 2008, Mr. Balkin was a partner at Magnetar Capital, LLC, a multi-strategy hedge fund located in Evanston, Illinois. While at Magnetar, Mr. Balkin was the Portfolio Manager in charge of the small cap long-short strategy and was also the Chief Investment Officer of Magnetar Investment Management, a wholly owned asset management subsidiary of Magnetar Capital. He rejoined William Blair & Company in 2008. He originally joined William Blair in 1990, working in the sell-side institutional research sales group, specializing in small cap growth companies. Prior to joining William Blair, he was the co-founder of Cityview Associates, Inc., a real estate firm specializing in "value-added" real estate transactions. Prior to starting Cityview Associates, Mr. Balkin had various roles at First Chicago and Bankers Trust. In addition to his work with William Blair, Mr. Balkin has helped dozens of small companies grow as an angel investor, mentor and board member. He is currently the Chairman of the Board of Performance Health Systems, LLC and is a member of the board of managers of the Innventure Fund, an Intellectual Property-based development fund started by Greg Wasson. Mr. Balkin is also active in many charities and is on the board of the Friends of the

Table of Contents

Israeli Defense Forces, Good Sports and is a major advocate and fund raiser for Cystic Fibrosis and the Illinois Holocaust Museum. Mr. Balkin graduated with a Bachelor's degree in Economics from Northwestern University, where he was also a two year Captain of the tennis team.

Gerald Muizelaar serves as our Chief Financial Officer. Mr. Muizelaar brings over 15 years of financial leadership in private equity, manufacturing, retail and customer service. Mr. Muizelaar has served as Vice President of Finance for Wasson Enterprise, the family office of Greg Wasson, since 2017. Mr. Muizelaar's strong focus implementing robust financial processes and systems, ensuring regulatory compliance, and bolstered financial visibility have been a key factor in Wasson Enterprise's success. As a former North American Finance Manager for Amazon, Mr. Muizelaar led all U.S., Canadian and Latin American customer service finance teams. He and his team provided financial insights and analysis for a customer service network that encompassed over 10,000 employees and an annual P&L in excess of \$250 million. Mr. Muizelaar's leadership and deep understanding of operations were influential in optimizing costs for Amazon's North American Customer Service team, while simultaneously growing its operations by 30% annually and consistently driving quality improvements to keep Amazon ranked #1 in the World for Customer Service. Mr. Muizelaar holds a Bachelor of Business Administration from Acadia University and a MBA from Dalhousie University.

Brian Gamache has agreed to serve on the Board of Directors. Mr. Gamache was the former Chairman and CEO of WMS Industries Inc., a designer, manufacturer and marketer of games for the casino and on-line gaming industries. Prior to rejoining WMS, he served as President of Wyndham International's Luxury and Resort Division. Before Wyndham, he served as President and Chief Operating Officer of WHG Resorts and Casinos, Inc., a subsidiary of WMS Industries. He previously held various executive positions with Marriott Hotel Corporation and Hyatt Hotels Corporation. Mr. Gamache is on the Board of Directors at Welbilt, Inc. and currently serves as an advisor to several private equity firms and corporations. He is a guest lecturer at Northwestern University's Kellogg School of Management. Mr. Gamache graduated from the University of Florida with a degree in Business Administration, where he currently serves as a member of the Dean's Council to the Warrington School of Business. We believe that Mr. Gamache is well-qualified to serve as a director due to his extensive executive experience and his experience as a public company director.

Robert Zimmerman has agreed to serve on the Board of Directors. Mr. Zimmerman is an independent consultant since retiring from Walgreens in 2014, focusing on healthcare, specifically retail pharmacy services and pharmacy benefit management. His primary consulting work has been with knowledge transfer companies (GLG and Guidepoint) with significant short-term assignments with end business clients as well as hedge funds and consulting firms. He has also consulted directly with private equity and hedge funds. Until April 2014, Mr. Zimmerman served as Chief Strategy Officer and SVP of Corporate Development at Walgreens. In these roles, he worked directly with the CEO and Executive Committee on strategic plans helping transform Walgreens from a drug store chain to an international integrated health care provider. He also led the development and execution of Walgreens M&A strategy, including the largest transaction in Walgreens' history, the acquisition of Alliance Boots. Prior to his tenure as CSO, he served as CFO and EVP of WHP Health Initiatives, Walgreens' managed care division. He held responsibility for the division's finance, strategy, new business and product development initiatives, acquisitions, pharmaceutical trade relations, and Customer Care Center operations. Mr. Zimmerman currently also serves as a Board Member on the State of Illinois Board of Pharmacy (since 2016), where he was appointed by the Governor of Illinois. Mr. Zimmerman graduated from Eastern Illinois University in 1973 with a Bachelor of Finance, and from Northern Illinois University in 1984 with an MBA. We believe that Mr. Zimmerman is well-qualified to serve as a director due to his extensive M&A and strategy experience at a large publicly traded company.

John Svoboda has agreed to serve on the Board of Directors. Mr. Svoboda co-founded SC in January 1998 with Michelle Collins. Mr. Svoboda serves on the boards of SC portfolio companies BPI/

Table of Contents

Incite, One North Interactive, Sonoma Creamery and SWC Technology Partners. Prior to co-founding SC, Mr. Svoboda worked in the Corporate Finance Department of William Blair & Company LLC (1983 to 1997), where he managed Business Development and became a Partner in 1988. Mr. Svoboda serves as a trustee of the University of Chicago Medical Center. Mr. Svoboda also serves as a trustee for the Otho S. A. Sprague Memorial Institute, the Auditorium Theatre where he was Chairman of the Board, as an honorary trustee of Marwen and as a life trustee of the Francis W. Parker School. He served on the Advisory Council of Stanford's Graduate School of Business and served on the Steering Committee for the Stanford Campaign. Mr. Svoboda has also served on several alumni and fundraising committees for both Williams College and the Stanford Business School, as well as capital campaigns for the Greater Chicago Food Depository and the University of Chicago Comer Children's Hospital. Mr. Svoboda is also active as a mentor and selection committee member for the Pat Tillman Foundation and is a member of the Commercial Club of Chicago. Mr. Svoboda graduated from Williams College with a BA in 1979 and received his MBA from the Stanford Graduate School of Business in 1983. We believe that Mr. Svoboda is well-qualified to serve as a director due to his extensive experience as a private equity investor and board member.

In September 2018, Mr. Wasson reached an agreement with the SEC to fully resolve an investigation into forward-looking financial goals and related disclosures made by Walgreen Co. prior to its merger with Alliance Boots and the establishment of Walgreens Boots Alliance on December 31, 2014. In agreeing to the settlement, Mr. Wasson did not admit or deny the SEC's allegations that Walgreens Boots Alliance, Mr. Wasson and another former executive of Walgreen Co. acted negligently in connection with statements made in earnings calls, by failing to adequately disclose the increased risk to achieving certain of Walgreens' previously stated financial goals. Pursuant to the agreement with the SEC, Walgreens Boots Alliance, Mr. Wasson and the other former executive consented to the SEC's issuance of an administrative order, and each paid a penalty to the SEC.

Number and Terms of Office of Officers and Directors

Upon the effectiveness of the registration statement of which this prospectus forms a part, we expect that our board of directors will consist of six members. Our board of directors is divided into three classes, with only one class of directors being elected in each year, and with each class (except for those directors appointed prior to our first annual meeting of stockholders) serving a three-year term. The term of office of the first class of directors, consisting of John Svoboda, will expire at our first annual meeting of stockholders. The term of office of the second class of directors, consisting of Brian Gamache and Robert Zimmerman, will expire at our second annual meeting of stockholders. The term of office of the third class of directors, consisting of Michael Balkin and Greg Wasson, will expire at our third annual meeting of stockholders.

Prior to consummation of our initial business combination, holders of our Class B common stock will have the right to elect all of our directors and remove members of our board of directors for any reason. Holders of our public shares will not have the right to vote on the election of directors during such time. These provisions of our amended and restated certificate of incorporation may only be amended if approved by holders of a majority of at least 90% of the outstanding shares of our common stock voting at a stockholder meeting. Approval of our initial business combination will require the affirmative vote of a majority of our board directors, which must include a majority of our independent directors. Subject to any other special rights applicable to the stockholders, prior to our initial business combination, any vacancies on our board of directors may be filled by the affirmative vote of a majority of the directors present and voting at the meeting of our board of directors that includes any directors representing our sponsor then on our board of directors, or by holders of a majority of the outstanding shares of our Class B common stock.

Our officers are appointed by the board of directors and serve at the discretion of the board of directors, rather than for specific terms of office. Our board of directors is authorized to appoint persons to the offices set forth in our bylaws as it deems appropriate. Our bylaws will provide that our

Table of Contents

officers may consist of a Chairman of the Board, a Chief Executive Officer, a Chief Financial Officer, a Secretary and such other officers (including without limitation, a President, Vice Presidents, Assistant Secretaries, and a Treasurer) as our board of directors from time to time may determine.

Director Independence

The rules of Nasdaq require that a majority of our board of directors be independent within one year of our initial public offering. An "independent director" is defined generally as a person that, in the opinion of the company's board of directors, has no material relationship with the listed company (either directly or as a partner, stockholder or officer of an organization that has a relationship with the company). Upon the effectiveness of the registration statement of which this prospectus forms a part, we expect to have four "independent directors" as defined in Nasdaq rules and applicable SEC rules prior to completion of this offering. Our board of directors has determined that each of Brian Gamache, Robert Zimmerman and John Svoboda is an independent director under applicable SEC and Nasdaq rules. Our independent directors will have regularly scheduled meetings at which only independent directors are present.

Executive Officer and Director Compensation

None of our officers or directors have received any compensation for services rendered to us. Our sponsors, officers, directors and their respective affiliates will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our audit committee will review on a quarterly basis all payments that were made by us to our sponsor, officers, directors or our or any of their respective affiliates.

After the completion of our initial business combination, directors or members of our management team who remain with us may be paid consulting, management or other compensation from the combined company. All compensation will be fully disclosed to stockholders, to the extent then known, in the tender offer materials or proxy solicitation materials furnished to our stockholders in connection with a proposed business combination. It is unlikely the amount of such compensation will be known at the time such materials are distributed, because the directors of the post-combination business will be responsible for determining executive officer and director compensation. Any compensation to be paid to our officers after the completion of our initial business combination will be determined by a compensation committee constituted solely by independent directors.

We are not party to any agreements with our officers and directors that provide for benefits upon termination of employment. The existence or terms of any such employment or consulting arrangements may influence our management's motivation in identifying or selecting a target business, and we do not believe that the ability of our management to remain with us after the consummation of our initial business combination should be a determining factor in our decision to proceed with any potential business combination.

Committees of the Board of Directors

Upon the effective date of the registration statement of which this prospectus forms a part, our board of directors will have three standing committees: an audit committee, a compensation committee and a nominating and corporate governance committee, each of which will be composed solely of independent directors. Subject to phase-in rules, the rules of Nasdaq and Rule 10A-3 of the Exchange Act require that the audit committee of a listed company be comprised solely of independent directors, and the rules of Nasdaq require that the compensation committee and the nominating and corporate governance committee of a listed company be comprised solely of independent directors. Each committee will operate under a charter that will be approved by our board of directors and will have the composition and responsibilities described below. The charter of each committee will be available on our website following the closing of this offering.

Audit Committee

Upon the effectiveness of the registration statement of which this prospectus forms a part, we will establish an audit committee of the board of directors. The members of our audit committee will be Brian Gamache, Robert Zimmerman and John Svoboda. Mr. Zimmerman will serve as chairman of the audit committee.

Each member of the audit committee is financially literate and our board of directors has determined that qualifies as an “audit committee financial expert” as defined in applicable SEC rules and has accounting or related financial management expertise.

We will adopt an audit committee charter, which will detail the purpose and principal functions of the audit committee, including:

- assisting board oversight of (1) the integrity of our financial statements, (2) our compliance with legal and regulatory requirements, (3) our independent auditor’s qualifications and independence, and (4) the performance of our internal audit function and independent auditors;
- the appointment, compensation, retention, replacement, and oversight of the work of the independent auditors and any other independent registered public accounting firm engaged by us;
- pre-approving all audit and non-audit services to be provided by the independent auditors or any other registered public accounting firm engaged by us, and establishing pre-approval policies and procedures;
- reviewing and discussing with the independent auditors all relationships the auditors have with us in order to evaluate their continued independence;
- setting clear hiring policies for employees or former employees of the independent auditors;
- setting clear policies for audit partner rotation in compliance with applicable laws and regulations;
- obtaining and reviewing a report, at least annually, from the independent auditors describing (1) the independent auditor’s internal quality-control procedures and (2) any material issues raised by the most recent internal quality-control review, or peer review, of the audit firm, or by any inquiry or investigation by governmental or professional authorities, within the preceding five years respecting one or more independent audits carried out by the firm and any steps taken to deal with such issues;
- meeting to review and discuss our annual audited financial statements and quarterly financial statements with management and the independent auditor, including reviewing our specific disclosures under “Management’s Discussion and Analysis of Financial Condition and Results of Operations”;
- reviewing and approving any related party transaction required to be disclosed pursuant to Item 404 of Regulation S-K promulgated by the SEC prior to us entering into such transaction; and
- reviewing with management, the independent auditors, and our legal advisors, as appropriate, any legal, regulatory or compliance matters, including any correspondence with regulators or government agencies and any employee complaints or published reports that raise material issues regarding our financial statements or accounting policies and any significant changes in accounting standards or rules promulgated by the Financial Accounting Standards Board, the SEC or other regulatory authorities.

Compensation Committee

Upon the effectiveness of the registration statement of which this prospectus forms a part, we will establish a compensation committee of the board of directors. The members of our compensation committee will be Brian Gamache, Robert Zimmerman and John Svoboda. Mr. Zimmerman will serve as chairman of the compensation committee.

Table of Contents

We will adopt a compensation committee charter, which will detail the purpose and responsibilities of the compensation committee, including:

- reviewing and approving on an annual basis the corporate goals and objectives relevant to our Chief Executive Officer's compensation, evaluating our Chief Executive Officer's performance in light of such goals and objectives and determining and approving the remuneration (if any) of our Chief Executive Officer based on such evaluation;
- reviewing and making recommendations to our board of directors with respect to the compensation, and any incentive-compensation and equity-based plans that are subject to board approval of all of our other officers;
- reviewing our executive compensation policies and plans;
- implementing and administering our incentive compensation equity-based remuneration plans;
- assisting management in complying with our proxy statement and annual report disclosure requirements;
- approving all special perquisites, special cash payments and other special compensation and benefit arrangements for our officers and employees;
- producing a report on executive compensation to be included in our annual proxy statement; and
- reviewing, evaluating and recommending changes, if appropriate, to the remuneration for directors.

The charter will also provide that the compensation committee may, in its sole discretion, retain or obtain the advice of a compensation consultant, independent legal counsel or other adviser and will be directly responsible for the appointment, compensation and oversight of the work of any such adviser. However, before engaging or receiving advice from a compensation consultant, external legal counsel or any other adviser, the compensation committee will consider the independence of each such adviser, including the factors required by Nasdaq and the SEC.

Nominating and Corporate Governance Committee

Upon the effectiveness of the registration statement of which this prospectus forms a part, we will establish a nominating and corporate governance committee of the board of directors. The members of our nominating and corporate governance committee will be Brian Gamache, Robert Zimmerman and John Svoboda. Mr. Gamache will serve as chair of the nominating and corporate governance committee.

We will adopt a nominating and corporate governance committee charter, which will detail the purpose and responsibilities of the nominating and corporate governance committee, including:

- identifying, screening and reviewing individuals qualified to serve as directors, consistent with criteria approved by the board, and recommending to the board of directors candidates for nomination for election at the annual meeting of stockholders or to fill vacancies on the board of directors;
- developing and recommending to the board of directors and overseeing implementation of our corporate governance guidelines;
- coordinating and overseeing the annual self-evaluation of the board of directors, its committees, individual directors and management in the governance of the company; and
- reviewing on a regular basis our overall corporate governance and recommending improvements as and when necessary.

The charter will also provide that the nominating and corporate governance committee may, in its sole discretion, retain or obtain the advice of, and terminate, any search firm to be used to identify director candidates, and will be directly responsible for approving the search firm's fees and other retention terms.

Table of Contents

We have not formally established any specific, minimum qualifications that must be met or skills that are necessary for directors to possess. In general, in identifying and evaluating nominees for director, the board of directors considers educational background, diversity of professional experience, knowledge of our business, integrity, professional reputation, independence, wisdom, and the ability to represent the best interests of our stockholders. Prior to our initial business combination, holders of our public shares will not have the right to recommend director candidates for nomination to our board of directors.

Code of Ethics

Prior to the closing of this offering, we will adopt a code of ethics and business conduct (our “Code of Ethics”) applicable to our directors, officers and employees. We have filed a copy of our form of our Code of Ethics as an exhibit to the registration statement of which this prospectus forms a part. You will be able to review this document by accessing our public filings at the SEC’s website at www.sec.gov and on our website. In addition, a copy of our Code of Ethics will be provided without charge upon request from us. We intend to disclose any amendments to or waivers of certain provisions of our Code of Ethics in a Current Report on Form 8-K. Please see “Where You Can Find Additional Information.”

Conflicts of Interest

Each of our officers and directors presently has, and any of them in the future may have additional, fiduciary, contractual or other obligations or duties to one or more other entities pursuant to which such officer or director is or will be required to present a business combination opportunity to such entities. Accordingly, if any of our officers or directors becomes aware of a business combination opportunity which is suitable for one or more entities to which he or she has fiduciary, contractual or other obligations or duties, he or she will honor these obligations and duties to present such business combination opportunity to such entities first, and only present it to us if such entities reject the opportunity and he or she determines to present the opportunity to us. These conflicts may not be resolved in our favor and a potential target business may be presented to another entity prior to its presentation to us.

We do not believe, however, that the fiduciary, contractual or other obligations or duties of our officers or directors will materially affect our ability to complete our initial business combination. Our amended and restated certificate of incorporation will provide that we renounce our interest in any corporate opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of our company and such opportunity is one we are legally and contractually permitted to undertake and would otherwise be reasonable for us to pursue.

Our sponsors, officers and directors may become involved with subsequent special purpose acquisition companies similar to our company. Potential investors should also be aware of the following other potential conflicts of interest:

- None of our officers or directors is required to commit his or her full time to our affairs and, accordingly, may have conflicts of interest in allocating his or her time among various business activities.
- In the course of their other business activities, our officers and directors may become aware of investment and business opportunities which may be appropriate for presentation to us as well as the other entities with which they are affiliated. Our management may have conflicts of interest in determining to which entity a particular business opportunity should be presented. Please see “—Directors, Director Nominees and Executive Officers” for a description of our management’s other affiliations.

Table of Contents

- Our initial stockholders, officers and directors have agreed to waive their redemption rights with respect to any founder shares, private placement shares and any public shares held by them in connection with the consummation of our initial business combination. Additionally, our initial stockholders, officers and directors have agreed to waive their redemption rights with respect to any founder shares and private placement shares held by them if we fail to consummate our initial business combination within 24 months after the closing of this offering or during any Extension Period. However, if our initial stockholders or any of our officers, directors or affiliates acquire public shares in or after this offering, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to consummate our initial business combination within the prescribed time frame. If we do not complete our initial business combination within such applicable time period, the proceeds of the sale of the private placement units held in the trust account will be used to fund the redemption of our public shares, and the private placement units will expire worthless.
- With certain limited exceptions, the founder shares will not be transferable, assignable or salable by our initial stockholders until the earlier of: (1) one year after the completion of our initial business combination; and (2) subsequent to our initial business combination, (x) the date on which we consummate a liquidation, merger, stock exchange, reorganization or other similar transaction that results in all of our public stockholders having the right to exchange their shares of common stock for cash, securities or other property and (y) if the last reported sale price of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination. With certain limited exceptions, the private placement units (including the underlying private placement warrants, the private placement shares and the shares of Class A common stock issuable upon exercise of the private placement warrants) will not be transferable, assignable or salable until 30 days after the completion of our initial business combination. Since our sponsors, officers and directors may directly or indirectly own our securities following this offering, our officers and directors may have a conflict of interest in determining whether a particular target business is an appropriate business with which to effectuate our initial business combination.
- Our key personnel may negotiate employment or consulting agreements with a target business in connection with a particular business combination. These agreements may provide for them to receive compensation following our initial business combination and as a result, may cause them to have conflicts of interest in determining whether to proceed with a particular business combination.
- Our key personnel may have a conflict of interest with respect to evaluating a particular business combination if the retention or resignation of any such key personnel was included by a target business as a condition to any agreement with respect to our initial business combination.

The conflicts described above may not be resolved in our favor.

In general, officers and directors of a corporation incorporated under the laws of the State of Delaware are required to present business opportunities to a corporation if:

- the corporation could financially undertake the opportunity;
- the opportunity is within the corporation's line of business; and
- it would not be fair to the corporation and its stockholders for the opportunity not to be brought to the attention of the corporation.

Accordingly, as a result of multiple business affiliations, our officers and directors have similar legal obligations and duties relating to presenting business opportunities meeting the above-listed criteria to

Table of Contents

multiple entities. Furthermore, our amended and restated certificate of incorporation will provide that the doctrine of corporate opportunity will not apply with respect to any of our officers or directors in circumstances where the application of the doctrine would conflict with any fiduciary duties or contractual obligations they may have, and there will not be any expectancy that any of our directors or officers will offer any such corporate opportunity of which he or she may become aware to us. Below is a table summarizing the entities to which our officers, directors and director nominees currently have fiduciary duties or contractual obligations that may present a conflict of interest:

<u>Name of Individual</u>	<u>Entity Name</u>	<u>Entity's Business</u>	<u>Affiliation</u>
Greg Wasson	Wasson Enterprise	Family office	President and Founder
	OptimizeRx Corp.	Digital health	Director
Michael Balkin	—	—	—
Gerald Muizelaar	Wasson Enterprise	Family office	Vice President of Finance
Brian Ganache	Welbilt, Inc.	Commercial kitchen equipment	Director
John Svoboda	Svoboda Capital Partners	Private equity	Managing Director
	BPI/Incite	Campaign consulting	Director
	One North Interactive	Digital advertising	Director
	Sonoma Creamery	Artisanal snack foods	Director
	SWC Technology Partners	IT consulting	Director
Robert Zimmerman	—	—	—

Accordingly, if any of our officers or directors becomes aware of a business combination opportunity which is suitable for one or more entities to which he or she has fiduciary, contractual or other obligations or duties, he or she will honor these obligations and duties to present such business combination opportunity to such entities first, and only present it to us if such entities reject the opportunity and he or she determines to present the opportunity to us. These conflicts may not be resolved in our favor and a potential target business may be presented to another entity prior to its presentation to us.

We do not believe, however, that the fiduciary, contractual or other obligations or duties of our officers or directors will materially affect our ability to complete our initial business combination. Our amended and restated certificate of incorporation will provide that we renounce our interest in any corporate opportunity offered to any director or officer unless such opportunity is expressly offered to such person solely in his or her capacity as a director or officer of our company and such opportunity is one we are legally and contractually permitted to undertake and would otherwise be reasonable for us to pursue.

We are not prohibited from pursuing an initial business combination with a business that is affiliated with our sponsor, officers or directors. In the event we seek to complete our initial business combination with a business that is affiliated with our sponsor, officers or directors, we, or a committee of independent and disinterested directors, will obtain an opinion from an independent investment banking firm that is a member of FINRA or from an independent accounting firm, that such initial business combination is fair to our company from a financial point of view.

Table of Contents

In the event that we submit our initial business combination to our public stockholders for a vote, our initial stockholders, officers and directors have agreed to vote any founder shares, private placement shares and any public shares held by them in favor of our initial business combination, and our officers and directors have also agreed to vote public shares purchased by them (if any) during or after this offering in favor of our initial business combination.

Limitation on Liability and Indemnification of Officers and Directors

Our amended and restated certificate of incorporation will provide that our officers and directors will be indemnified by us to the fullest extent authorized by Delaware law, as it now exists or may in the future be amended. In addition, our amended and restated certificate of incorporation will provide that our directors will not be personally liable for monetary damages to us or our stockholders for breaches of their fiduciary duty as directors, except to the extent such exemption from liability or limitation thereof is not permitted by the DGCL.

We will enter into agreements with our officers and directors to provide contractual indemnification in addition to the indemnification provided for in our amended and restated certificate of incorporation. Our bylaws also permit us to maintain insurance on behalf of any officer, director or employee for any liability arising out of his or her actions, regardless of whether Delaware law would permit such indemnification. We will obtain a policy of directors' and officers' liability insurance that insures our officers and directors against the cost of defense, settlement or payment of a judgment in some circumstances and insures us against our obligations to indemnify our officers and directors.

A stockholder's investment may be adversely affected to the extent we pay the costs of settlement and damage awards against officers and directors pursuant to these indemnification provisions.

We believe that these provisions, the insurance and the indemnity agreements are necessary to attract and retain talented and experienced officers and directors.

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers or persons controlling us pursuant to the foregoing provisions, we have been informed that in the opinion of the SEC such indemnification is against public policy as expressed in the Securities Act and is therefore unenforceable.

PRINCIPAL STOCKHOLDERS

The following table sets forth information regarding the beneficial ownership of our common stock as of the date of this prospectus, and as adjusted to reflect the sale of our common stock included in the units offered by this prospectus, and assuming no purchase of units in this offering, by:

- each person known by us to be the beneficial owner of more than 5% of our outstanding shares of common stock;
- each of our executive officers, directors and director nominees; and
- all our executive officers, directors and director nominees as a group.

Unless otherwise indicated, we believe that all persons named in the table have sole voting and investment power with respect to all shares of common stock beneficially owned by them. The following table does not reflect record or beneficial ownership of the private placement warrants because these warrants are not exercisable within 60 days of the date of this prospectus.

The post-offering ownership percentage column below assumes that the underwriters do not exercise their over-allotment option, that our sponsors forfeit 1,031,250 founder shares and that there are 35,125,000 shares of our common stock issued and outstanding after this offering.

Name and Address of Beneficial Owner(1)	Prior to Offering Approximate		Post-Offering Approximate	
	Number of Shares Beneficially Owned	Percentage of Outstanding common stock	Number of Shares Beneficially Owned	Percentage of Outstanding common stock
Foresight Sponsor Group, LLC(7)	6,843,525(2)(3)	86.6%	6,557,207(3)(4)	18.7%
FA Co-Investment LLC(8)	987,725(2)(3)	12.5%	992,793(3)(5)	2.8%
Greg Wasson	—(6)	—	—(6)	—
Michael Balkin	—(6)	—	—(6)	—
Gerald Muizelaar	—(6)	—	—(6)	—
Brian Gamache	25,000	*	25,000	*
John Svoboda	25,000	*	25,000	*
Robert Zimmerman	25,000	*	25,000	*
All directors and executive officers as a group (6 individuals)	6,918,525(2)(3)	87.5%	6,632,207(2)(3)	18.9%

* Less than one percent.

- (1) Unless otherwise noted, the business address of each of the following entities or individuals is c/o Foresight Acquisition Corp., 233 North Michigan Avenue, Suite 1410, Chicago, Illinois 60601.
- (2) Interests shown consist solely of shares of Class B common stock.
- (3) Shares of Class B common stock will automatically convert into shares of Class A common stock at the time of our initial business combination, or earlier at the option of the holder, on a one-for-one basis, subject to adjustment, as described in the section entitled "Description of Securities."
- (4) Interests shown consist of 5,942,342 shares of Class B common stock and 614,865 shares of Class A common stock included in the private placement units.
- (5) Interests shown consist of 857,658 shares of Class B common stock and 135,135 shares of Class A common stock included in the private placement units.

Table of Contents

- (6) Does not include certain shares indirectly owned by this individual as a result of his direct or indirect membership interest in our sponsor.
- (7) Foresight Sponsor Group, LLC, our sponsor, is the record holder of the shares of Class B common stock reported herein. Our sponsor is governed by a board of managers consisting of three managers, including Greg Wasson and Michael Balkin. Each manager has one vote, and the approval of a majority of the managers is required to approve an action of our sponsor. Under the so-called "rule of three," if voting and dispositive decisions regarding an entity's securities are made by three or more individuals, and a voting or dispositive decision requires the approval of a majority of those individuals, then none of the individuals is deemed a beneficial owner of the entity's securities. Based upon the foregoing analysis, no manager of our sponsor exercises voting or dispositive control over any of the securities held by our sponsor, even those in which he or she directly holds a pecuniary interest. Accordingly, none of them will be deemed to have or share beneficial ownership of such shares.
- (8) FA Co-Investment LLC is the record holder of the securities reported herein. As the sole member of FA Co-Investment LLC, Cowen Investments II LLC may be deemed to beneficially own the securities directly by FA Co-Investment LLC. As the sole member of Cowen Investments II, LLC, RCG LV Pearl, LLC ("RCG") may be deemed to beneficially own the securities owned directly by FA Co-Investment LLC. As the sole member of RCG, Cowen Inc. may be deemed to beneficially own the securities owned by FA Co-Investment LLC. As Chief Executive Officer of Cowen Inc., Mr. Jeffrey Solomon may be deemed to beneficially own the securities owned directly by FA Co-Investment LLC. The business address of each of FA Co-Investment LLC, Cowen Investments II LLC, RCG and Mr. Solomon is 599 Lexington Avenue, 20th Floor, New York, NY 10022.

Upon the completion of this offering, our initial stockholders will beneficially own 21.7% of the then issued and outstanding shares of our common stock (assuming our initial stockholders do not purchase any units in this offering). As a result of holding substantially all of the founder shares, our sponsors, together, and our sponsor acting alone, will have the right, prior to our initial business combination, to elect all of our directors and remove any director for any reason. In addition, because of this ownership block, our initial stockholders may be able to effectively influence the outcome of all matters requiring approval by our stockholders, including amendments to our amended and restated certificate of incorporation and approval of significant corporate transactions. If we increase or decrease the size of this offering, we will effect a stock dividend or share contribution back to capital or other appropriate mechanism, as applicable, with respect to our Class B common stock immediately prior to the consummation of this offering in such amount as to maintain the number of founder shares at 20% of our issued and outstanding shares of our common stock upon the consummation of this offering (not including the shares of Class A common stock underlying the private placement units).

Our sponsors have committed to purchase an aggregate of 750,000 (or 832,500 if the underwriters' over-allotment option is exercised in full) private placement units at a price of \$10.00 per unit (\$7,500,000 in the aggregate or \$8,325,000 in the aggregate if the underwriters' over-allotment option is exercised in full) in a private placement that will occur simultaneously with the closing of this offering.

Our sponsor is deemed to be our "promoter" as such term is defined under the federal securities laws. Please see "Certain Relationships and Related Party Transactions" for additional information regarding our relationships with our promoters.

Transfers of Founder Shares and Private Placement Units

The founder shares and the private placement units (including the underlying private placement warrants, the private placement shares and the shares of Class A common stock issuable upon exercise of the private placement warrants) are each subject to transfer restrictions pursuant to lock-up

Table of Contents

provisions in the letter agreement with us to be entered into by our initial stockholders. Those lock-up provisions provide that such securities are not transferable or salable (1) in the case of the founder shares, until the earlier of (A) one year after the completion of our initial business combination and (B) subsequent to our initial business combination, (x) the date on which we complete a liquidation, merger, stock exchange, reorganization or other similar transaction that results in all of our public stockholders having the right to exchange their shares of Class A common stock for cash, securities or other property or (y) if the last reported sale price of the Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination, and (2) in the case of the private placement units (including the underlying private placement warrants, the private placement shares and the shares of Class A common stock issuable upon exercise of the private placement warrants), until 30 days after the completion of our initial business combination, except in each case (a) to our officers or directors, any affiliates or family members of any of our officers or directors, any members of our sponsors, or any affiliates of our sponsors, (b) in the case of an individual, by gift to a member of the individual's immediate family or to a trust, the beneficiary of which is a member of the individual's immediate family or an affiliate of such person, or to a charitable organization; (c) in the case of an individual, by virtue of laws of descent and distribution upon death of the individual; (d) in the case of an individual, pursuant to a qualified domestic relations order; (e) by private sales or transfers made in connection with the consummation of a business combination at prices no greater than the price at which the securities were originally purchased; (f) in the event of our liquidation prior to our completion of our initial business combination; (g) by virtue of the laws of Delaware or our sponsor's limited liability company agreement, as amended, upon dissolution of our sponsor; or (h) in the event of our completion of a liquidation, merger, stock exchange, reorganization or other similar transaction which results in all of our public stockholders having the right to exchange their shares of Class A common stock for cash, securities or other property subsequent to our completion of our initial business combination; provided, however, that in the case of clauses (a) through (e) these permitted transferees must enter into a written agreement agreeing to be bound by these transfer restrictions and the other applicable restrictions contained in the letter agreement.

Registration Rights

The holders of the founder shares, private placement units, the private placement shares, private placement warrants and units that may be issued upon conversion of working capital loans and the shares and warrants included therein (and any shares of common stock issuable upon the exercise of the private placement warrants or warrants included in the units issued upon conversion of working capital loans) will be entitled to registration rights pursuant to a registration rights agreement to be signed prior to or on the effective date of this offering requiring us to register such securities for resale (in the case of the founder shares, only after conversion to shares of Class A common stock). The holders of these securities will be entitled to make up to three demands, excluding short form registration demands, that we register such securities. In addition, the holders have certain "piggy-back" registration rights with respect to registration statements filed subsequent to our completion of our initial business combination and rights to require us to register for resale such securities pursuant to Rule 415 under the Securities Act. Notwithstanding the foregoing, FA Co-Investment may not exercise its demand or "piggyback" registration rights after five and seven years, respectively, after the effective date of the registration statement of which this prospectus forms a part and may not exercise its demand rights on more than one occasion. We will bear the expenses incurred in connection with the filing of any such registration statements.

CERTAIN RELATIONSHIPS AND RELATED PARTY TRANSACTIONS

In October 2020, our sponsors purchased an aggregate of 7,906,250 founder shares for a capital contribution of \$25,000. In January 2021, our sponsor transferred 25,000 founder shares to each of our initial director nominees. The number of founder shares issued was determined based on the expectation that the founder shares would represent 20% of the outstanding shares of common stock upon completion of this offering (not including the shares of Class A common stock underlying the private placement units). Up to 1,031,250 founder shares are subject to forfeiture by our sponsors depending on the extent to which the underwriters' over-allotment option is exercised.

Our sponsors have committed to purchase an aggregate of 750,000 (or 832,500 if the underwriters' over-allotment option is exercised in full) private placement units for a purchase price of \$10.00 per unit in a private placement that will occur simultaneously with the closing of this offering. As such, our sponsors' interest in this transaction is valued at between \$7,500,000 and \$8,325,000, depending on the number of private placement units purchased. Among the private placement units, 614,865 units (or 682,500 units if the over-allotment option is exercised in full) will be purchased by our sponsor and/or its designees and 135,135 units (or 150,000 units if the over-allotment option is exercised in full) will be purchased by FA Co-Investment and/or its designees.

As described in "Management—Conflicts of Interest," if any of our officers or directors becomes aware of a business combination opportunity which is suitable for one or more entities to which he or she has fiduciary, contractual or other obligations or duties, he or she will honor these obligations and duties to present such business combination opportunity to such entities first, and only present it to us if such entities reject the opportunity and he or she determines to present the opportunity to us. Our officers and directors currently have other relevant fiduciary, contractual or other obligations or duties that may take priority over their duties to us.

We will enter into an Administrative Services Agreement pursuant to which we will also pay our sponsor a total of \$10,000 per month for office space, administrative and support services. Upon completion of our initial business combination or our liquidation, we will cease paying these monthly fees. Accordingly, in the event the consummation of our initial business combination takes the maximum 24 months, an affiliate of our sponsor will be paid a total of \$240,000 (\$10,000 per month) for office space, administrative and support services and will be entitled to be reimbursed for any out-of-pocket expenses.

Our sponsors, officers and directors or any of their respective affiliates will be reimbursed for any out-of-pocket expenses incurred in connection with activities on our behalf such as identifying potential target businesses and performing due diligence on suitable business combinations. Our audit committee will review on a quarterly basis all payments that were made by us to our sponsor, officers, directors or our or any of their respective affiliates and will determine which expenses and the amount of expenses that will be reimbursed. There is no cap or ceiling on the reimbursement of out-of-pocket expenses incurred by such persons in connection with activities on our behalf.

Prior to the commencement of this offering, our sponsors agreed to loan us up to \$300,000 to be used for a portion of the expenses of this offering. As of October 31, 2020, we borrowed \$275,000 under such promissory notes. The loan is non-interest bearing, unsecured and is due at the earlier of March 31, 2021 and the closing of this offering. The loan will be repaid upon completion of this offering out of the \$1,100,000 of offering proceeds that has been allocated for the payment of offering expenses (other than underwriting commissions) not held in the trust account.

In addition, in order to fund working capital deficiencies or finance transaction costs in connection with an intended initial business combination, our sponsors, an affiliate of our sponsors or our officers

Table of Contents

and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we may repay such loaned amounts out of the proceeds of the trust account released to us. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used for such repayment. Up to \$1,500,000 of such loans may be convertible into units at a price of \$10.00 per unit at the option of the lender. The units would be identical to the private placement units issued to our sponsors. The terms of such loans by our sponsors, an affiliate of our sponsors or our officers and directors, if any, have not been determined and no written agreements exist with respect to such loans. Prior to the completion of our business combination, we do not expect to seek loans from parties other than our sponsors, an affiliate of our sponsors or our officers and directors, if any, as we do not believe third parties will be willing to loan such funds and provide a waiver against any and all rights to seek access to funds in our trust account.

After our initial business combination, members of our management team who remain with us, if any, may be paid consulting, management or other fees from the combined company with any and all amounts being fully disclosed to our stockholders, to the extent then known, in the tender offer or proxy solicitation materials, as applicable, furnished to our stockholders. It is unlikely the amount of such compensation will be known at the time of distribution of such tender offer materials or at the time of a stockholder meeting held to consider our initial business combination, as applicable, as it will be up to the directors of the post-combination business to determine executive officer and director compensation.

We have entered into a letter agreement with our initial stockholders, officers and directors pursuant to which (x) they have agreed to waive: (1) their redemption rights with respect to any founder shares, the private placement shares and public shares held by them, as applicable, in connection with the completion of our initial business combination; (2) their redemption rights with respect to any founder shares, the private placement shares and public shares held by them in connection with a stockholder vote to approve an amendment to our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to allow redemptions in connection with our initial business combination or to redeem 100% of our public shares if we have not consummated our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity; and (3) their rights to liquidating distributions from the trust account with respect to any founder shares and private placement shares they hold if we fail to complete our initial business combination within 24 months from the closing of this offering or during any Extension Period (although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our initial business combination within the prescribed time frame), and (y) the founder shares are subject to certain transfer restrictions, as described under "Description of Securities — Founder Shares"

We have entered into a registration rights agreement with respect to the founder shares, private placement units, the private placement shares, private placement warrants and units that may be issued upon conversion of working capital loans and the shares and warrants included therein (and any shares of common stock issuable upon the exercise of the private placement warrants or warrants included in the units issued upon conversion of working capital loans), which is described under the heading "Principal Stockholders—Registration Rights."

We will also pay to the underwriters, including Cowen and Company, LLC, an affiliate of one of our sponsors, an underwriting discount of \$0.20 per unit purchased by them in this offering. We have also engaged Cowen and Company, LLC, and William Blair & Company, L.L.C. as advisors in connection with our business combination, pursuant to the Business Combination Marketing Agreement described under "Underwriting (Conflicts of Interest)—Business Combination Marketing Agreement." We will pay

Table of Contents

these advisors the Marketing Fee for such services upon the consummation of our initial business combination in an amount equal to, in the aggregate, 3.5% of the gross proceeds of this offering, including any proceeds from the full or partial exercise of the underwriters' over-allotment option. As a result, these advisors will not be entitled to such fee unless we consummate our initial business combination.

Related Party Policy

We have not yet adopted a formal policy for the review, approval or ratification of related party transactions. Accordingly, the transactions discussed above were not reviewed, approved or ratified in accordance with any such policy.

Prior to the consummation of this offering, we will adopt our Code of Ethics requiring us to avoid, wherever possible, all conflicts of interests, except under guidelines or resolutions approved by our board of directors (or the appropriate committee of our board of directors) or as disclosed in our public filings with the SEC. Under our Code of Ethics, conflict of interest situations will include any financial transaction, arrangement or relationship (including any indebtedness or guarantee of indebtedness) involving the company. A form of the Code of Ethics that we plan to adopt prior to the consummation of this offering is filed as an exhibit to the registration statement of which this prospectus forms a part.

In addition, our audit committee, pursuant to a written charter that we will adopt prior to the consummation of this offering, will be responsible for reviewing and approving related party transactions to the extent that we enter into such transactions. An affirmative vote of a majority of the members of the audit committee present at a meeting at which a quorum is present will be required in order to approve a related party transaction. A majority of the members of the entire audit committee will constitute a quorum. Without a meeting, the unanimous written consent of all of the members of the audit committee will be required to approve a related party transaction. Our audit committee will review on a quarterly basis all payments that were made by us to our sponsor, officers or directors, or our or any of their affiliates.

These procedures are intended to determine whether any such related party transaction impairs the independence of a director or presents a conflict of interest on the part of a director, employee or officer.

To further minimize conflicts of interest, we have agreed not to consummate an initial business combination with an entity that is affiliated with any of our sponsor, officers or directors unless we, or a committee of independent and disinterested directors, have obtained an opinion from an independent investment banking firm which is a member of FINRA or an independent accounting firm that our initial business combination is fair to our company from a financial point of view. There will be no finder's fees, reimbursements or cash payments made by us to our sponsors, officers or directors or our or any of their respective affiliates, for services rendered to us prior to or in connection with the completion of our initial business combination, other than the following payments, none of which will be made from the proceeds of this offering and the sale of the private placement units held in the trust account prior to the completion of our initial business combination:

- repayment of an aggregate of up to \$300,000 in loans made to us by our sponsors to cover offering-related and organizational expenses;
- payment to our sponsor of a total of \$10,000 per month, for up to 24 months, for office space, administrative and support services;
- reimbursement for any out-of-pocket expenses related to identifying, investigating and completing an initial business combination;
- payment to Cowen and Company, LLC of its underwriting discount, Marketing Fee, fees for any financial advisory, placement agency or other similar investment banking services Cowen

[Table of Contents](#)

and Company, LLC may provide to our company in the future, and reimbursement of Cowen and Company, LLC for any out-of-pocket expenses incurred by it in connection with the performance of such services; and

- repayment of loans which may be made by our sponsors, an affiliate of our sponsors or our officers and directors to finance transaction costs in connection with an intended initial business combination, the terms of which have not been determined nor have any written agreements been executed with respect thereto. Up to \$1,500,000 of such loans may be convertible into units at a price of \$10.00 per unit at the option of the lender.

These payments may be funded using the net proceeds of this offering and the sale of the private placement units not held in the trust account or, upon completion of the initial business combination, from any amounts remaining from the proceeds of the trust account released to us in connection therewith.

DESCRIPTION OF SECURITIES

Pursuant to our amended and restated certificate of incorporation, our authorized capital stock will consist of 200,000,000 shares of Class A common stock, \$0.0001 par value, 20,000,000 shares of Class B common stock, \$0.0001 par value, and 1,000,000 shares of undesignated preferred stock, \$0.0001 par value. The following description summarizes the material terms of our capital stock. Because it is only a summary, it may not contain all the information that is important to you.

Units

Each unit offered in this offering has an offering price of \$10.00 and consists of one share of Class A common stock and one-third of one redeemable warrant. Each whole warrant entitles the holder thereof to purchase one share of our Class A common stock at a price of \$11.50 per share, subject to adjustment as described in this prospectus. Pursuant to the warrant agreement, a warrant holder may exercise its warrants only for a whole number of shares of the company's Class A common stock. This means only a whole warrant may be exercised at any given time by a warrant holder.

The Class A common stock and warrants constituting the units will begin separate trading on the 52nd day following the date of this prospectus (or, if such date is not a business day, the following business day) unless Cowen and Company, LLC informs us of its decision to allow earlier separate trading, subject to our having filed the Current Report on Form 8-K described below and having issued a press release announcing when such separate trading will begin. Once the shares of Class A common stock and warrants commence separate trading, holders will have the option to continue to hold units or separate their units into the component securities. Holders will need to have their brokers contact our transfer agent in order to separate the units into shares of Class A common stock and warrants. Additionally, the units will automatically separate into their component parts and will not be traded after completion of our initial business combination. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least three units, you will not be able to receive or trade a whole warrant.

In no event will the Class A common stock and warrants be traded separately until we have filed with the SEC a Current Report on Form 8-K which includes an audited balance sheet of our company reflecting our receipt of the gross proceeds at the closing of this offering. We will file the Current Report on Form 8-K that includes this audited balance sheet promptly after the closing of this offering. If the underwriters' over-allotment option is exercised following the initial filing of such Current Report on Form 8-K, a second or amended Current Report on Form 8-K will be filed to provide updated financial information to reflect the exercise of the underwriters' over-allotment option.

Common Stock

Upon the closing of this offering, 35,125,000 shares of our common stock will be outstanding (assuming no exercise of the underwriters' over-allotment option and the corresponding forfeiture of 1,031,250 founder shares by our sponsors), including:

- 27,500,000 shares of our Class A common stock underlying the units being offered in this offering;
- 750,000 shares of our Class A common stock underlying the private placement units; and
- 6,875,000 shares of Class B common stock held by our initial stockholders.

If we increase or decrease the size of this offering, we will effect a stock dividend or share contribution back to capital or other appropriate mechanism, as applicable, with respect to our Class B common stock immediately prior to the consummation of this offering in such amount as to maintain the number of founder shares at 20% of our issued and outstanding shares of our common stock upon

the consummation of this offering (not including the shares of Class A common stock underlying the private placement units).

Common stockholders of record are entitled to one vote for each share held on all matters to be voted on by stockholders; provided that, prior to our initial business combination, holders of our Class B common stock will have the right to elect all of our directors and remove members of our board of directors for any reason. These provisions of our amended and restated certificate of incorporation may only be amended if approved by holders of a majority of at least 90% of the outstanding shares of our common stock voting at a stockholder meeting. On any other matter submitted to a vote of our stockholders, holders of our Class B common stock and holders of our Class A common stock will vote together as a single class, except as required by applicable law or stock exchange rule.

Unless specified in our amended and restated certificate of incorporation or bylaws, or as required by applicable law or stock exchange rules, the affirmative vote of holders of a majority of the outstanding shares of our common stock that are voted is required to approve any such matter voted on by our stockholders, and, prior to our initial business combination, the affirmative vote of holders of a majority of the outstanding shares of our Class B common stock is required to approve the election or removal of directors. Our board of directors will be divided into three classes, each of which will generally serve for a term of three years with only one class of directors being elected in each year. There is no cumulative voting with respect to the election of directors, with the result that the holders of more than 50% of the Class B common stock voted for the election of directors can elect all of the directors. Our stockholders are entitled to receive ratable dividends when, as and if declared by the board of directors out of funds legally available therefor.

Because our amended and restated certificate of incorporation will authorize the issuance of up to 200,000,000 shares of Class A common stock, if we were to enter into a business combination, we may (depending on the terms of such a business combination) be required to increase the number of shares of Class A common stock which we are authorized to issue at the same time as our stockholders vote on the business combination to the extent we seek stockholder approval in connection with our initial business combination.

In accordance with Nasdaq corporate governance requirements, we are not required to hold an annual meeting until one year after our first fiscal year end following our listing on Nasdaq. Under Section 211(b) of the DGCL, we are, however, required to hold an annual meeting of stockholders for the purposes of electing directors in accordance with our bylaws unless such election is made by written consent in lieu of such a meeting. We may not hold an annual meeting of stockholders to elect new directors prior to the consummation of our initial business combination, and thus we may not be in compliance with Section 211(b) of the DGCL, which requires an annual meeting. Therefore, if our stockholders want us to hold an annual meeting prior to the consummation of our initial business combination, they may attempt to force us to hold one by submitting an application to the Delaware Court of Chancery in accordance with Section 211(c) of the DGCL.

We will provide our public stockholders with the opportunity to redeem all or a portion of their public shares upon the completion of our initial business combination at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, calculated as of two business days prior to the consummation of our initial business combination, including interest (which interest shall be net of taxes payable), divided by the number of then outstanding public shares, subject to the limitations described herein. The amount in the trust account is initially anticipated to be \$10.00 per public share. The redemption rights will include the requirement that a beneficial owner must identify itself in order to validly redeem its shares. Our initial stockholders, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to waive their redemption rights with respect to any founder shares, private placement shares and any public shares held by them in

Table of Contents

connection with the completion of our initial business combination or certain amendments to our amended and restated certificate of incorporation. Permitted transferees of our sponsors, officers or directors will be subject to the same obligations. Unlike many blank check companies that hold stockholder votes and conduct proxy solicitations in conjunction with their initial business combinations and provide for related redemptions of public shares for cash upon completion of such initial business combinations even when a vote is not required by applicable law or stock exchange listing requirements, if a stockholder vote is not required by applicable law or stock exchange listing requirements and we do not decide to hold a stockholder vote for business or other reasons, we will, pursuant to our amended and restated certificate of incorporation, conduct the redemptions pursuant to the tender offer rules of the SEC, and file tender offer documents with the SEC prior to completing our initial business combination. Our amended and restated certificate of incorporation will require these tender offer documents to contain substantially the same financial and other information about the initial business combination and the redemption rights as is required under the SEC's proxy rules. If, however, a stockholder approval of the transaction is required by applicable law or stock exchange rules, or we decide to obtain stockholder approval for business or other reasons, we will, like many blank check companies, offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If we seek stockholder approval, we will complete our initial business combination only if a majority of the outstanding shares of our common stock voted are voted in favor of the business combination. A quorum for such meeting will consist of the holders present in person or by proxy of shares of outstanding capital stock of the company representing a majority of the voting power of all outstanding shares of capital stock of the company entitled to vote at such meeting. However, the participation of our sponsors, officers, directors, advisors or any of their respective affiliates in privately-negotiated transactions (as described in this prospectus), if any, could result in the approval of our initial business combination even if a majority of our public stockholders vote, or indicate their intention to vote, against such business combination. For purposes of seeking approval of the majority of our outstanding shares of common stock, non-votes will have no effect on the approval of our initial business combination once a quorum is obtained. We intend to give not less than 10 days nor more than 60 days prior written notice of any such meeting, if required, at which a vote shall be taken to approve our initial business combination. These quorum and voting thresholds and agreements may make it more likely that we will consummate our initial business combination.

If we seek stockholder approval of our initial business combination and we do not conduct redemptions in connection with our initial business combination pursuant to the tender offer rules, our amended and restated certificate of incorporation will provide that a public stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a "group" (as defined under Section 13 of the Exchange Act), will be restricted from redeeming its shares with respect to Excess Shares (more than an aggregate of 15% of the shares sold in this offering), without our prior consent. However, we would not be restricting our stockholders' ability to vote all of their shares (including Excess Shares) for or against our initial business combination. Our public stockholders' inability to redeem Excess Shares will reduce their influence over our ability to complete our initial business combination and they could suffer a material loss on their investment in us if they sell Excess Shares in open market transactions. Additionally, such stockholders will not receive redemption distributions with respect to the Excess Shares if we complete the business combination. And, as a result, such stockholders will continue to hold that number of shares exceeding 15% and, in order to dispose such shares would be required to sell their stock in open market transactions, potentially at a loss.

If we seek stockholder approval in connection with our initial business combination, our initial stockholders, officers and directors have agreed (and their permitted transferees, as applicable, will agree) to vote any founder shares, private placement shares and any public shares held by them in favor of our initial business combination. As a result, in addition to our initial stockholders' founder

Table of Contents

shares and private placement shares, we would need 9,937,501, or 36.1% (assuming all issued and outstanding shares are voted and the over-allotment option is not exercised), or an additional 1,156,251, or 4.2% (assuming only the minimum number of shares representing a quorum are voted and the over-allotment option is not exercised), of the 27,500,000 public shares sold in this offering to be voted in favor of a transaction, in order to have such initial business combination approved. Additionally, each public stockholder may elect to redeem its public shares without voting, and if they do vote, irrespective of whether they vote for or against the proposed transaction.

Pursuant to our amended and restated certificate of incorporation, if we have not completed our initial business combination within 24 months from the closing of this offering, we will: (1) cease all operations except for the purpose of winding up; (2) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable, and less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any); and (3) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. Our initial stockholders, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to waive their rights to liquidating distributions from the trust account with respect to any founder shares and private placement shares held by them if we fail to complete our initial business combination within 24 months from the closing of this offering. However, if our sponsors or any of our officers, directors or any of their respective affiliates then hold any public shares, they will be entitled to liquidating distributions from the trust account with respect to such public shares if we fail to complete our initial business combination within the allotted time frame to complete our initial business combination.

In the event of a liquidation, dissolution or winding up of the company after a business combination, our stockholders at such time will be entitled to share ratably in all assets remaining available for distribution to them after payment of liabilities and after provision is made for each class of stock, if any, having preference over the common stock. Our stockholders have no preemptive or other subscription rights. There are no sinking fund provisions applicable to the common stock, except that we will provide our stockholders with the opportunity to redeem their public shares for cash equal to their pro rata share of the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable), upon the completion of our initial business combination, subject to the limitations described herein.

Founder Shares

The founder shares are identical to the shares of Class A common stock included in the units being sold in this offering, except that: (1) prior to our initial business combination, only holders of the Class B common stock have the right to vote on the election of directors and holders of a majority of the outstanding shares of our Class B common stock may remove members of our board of directors for any reason; (2) our initial stockholders, officers and directors have entered into a letter agreement with us, pursuant to which they have agreed to waive: (a) their redemption rights with respect to any founder shares, private placement shares and any public shares held by them in connection with the completion of our initial business combination, (b) their redemption rights with respect to any founder shares, private placement shares and public shares held by them in connection with a stockholder vote to approve an amendment to our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to allow redemptions in connection with our initial business combination or to redeem 100% of our public shares if we have not consummated our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision

Table of Contents

relating to stockholders' rights or pre-initial business combination activity; and (c) their rights to liquidating distributions from the trust account with respect to any founder shares and private placement shares held by them if we fail to complete our initial business combination within 24 months from the closing of this offering or during any Extension Period (although they will be entitled to liquidating distributions from the trust account with respect to any public shares they hold if we fail to complete our initial business combination within the prescribed time frame); (3) the founder shares are subject to certain transfer restrictions, as described in more detail below; (4) the founder shares are automatically convertible into shares of our Class A common stock at the time of our initial business combination, or earlier at the option of the holder, on a one-for-one basis, subject to adjustment pursuant to certain anti-dilution rights, as described herein; and (5) the holders of founder shares are entitled to registration rights. If we submit our initial business combination to our public stockholders for a vote, our initial stockholders, officers and directors have agreed (and their permitted transferees, as applicable, will agree) to vote any founder shares, private placement shares and any public shares held by them in favor of our initial business combination.

The shares of Class B common stock will automatically convert into shares of Class A common stock at the time of our initial business combination, or earlier at the option of the holder, on a one-for-one basis, subject to adjustment as provided herein. In the case that additional shares of Class A common stock, or equity-linked securities, are issued or deemed issued in excess of the amounts issued in this offering and related to the closing of our initial business combination, the ratio at which shares of Class B common stock shall convert into shares of Class A common stock will be adjusted (unless the holders of a majority of the outstanding shares of our Class B common stock agree to waive such anti-dilution adjustment with respect to any such issuance or deemed issuance) so that the number of shares of Class A common stock issuable upon conversion of all shares of Class B common stock will equal, in the aggregate, on an as-converted basis, 20% of the total number of all shares of common stock outstanding upon completion of this offering (not including the shares of Class A common stock underlying the private placement units) plus all shares of Class A common stock and equity-linked securities issued or deemed issued in connection with our initial business combination (net of the number of shares of Class A common stock redeemed in connection with our initial business combination), excluding any shares or equity-linked securities issued, or to be issued, to any seller in our initial business combination.

With certain limited exceptions, the founder shares are not transferable, assignable or salable (except to our officers and directors and other persons or entities affiliated with our sponsors, each of whom will be subject to the same transfer restrictions) until the earlier of (A) one year after the completion of our initial business combination, (B) subsequent to our initial business combination, (x) the date on which we complete a liquidation, merger, stock exchange, reorganization or other similar transaction that results in all of our public stockholders having the right to exchange their shares of common stock for cash, securities or other property or (y) if the last reported sale price of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination.

Preferred Stock

Our amended and restated certificate of incorporation will authorize 1,000,000 shares of preferred stock and will provide that shares of preferred stock may be issued from time to time in one or more series. Our board of directors will be authorized to fix the voting rights, if any, designations, powers, preferences, the relative, participating, optional or other special rights and any qualifications, limitations and restrictions thereof, applicable to the shares of each series. Our board of directors will be able to, without stockholder approval, issue preferred stock with voting and other rights that could adversely affect the voting power and other rights of the holders of the common stock and could have anti-takeover effects. The ability of our board of directors to issue preferred stock without stockholder

approval could have the effect of delaying, deferring or preventing a change of control of us or the removal of existing management. We have no preferred stock outstanding at the date hereof. Although we do not currently intend to issue any shares of preferred stock, we cannot assure you that we will not do so in the future. No shares of preferred stock are being issued or registered in this offering.

Warrants

Public Stockholders' Warrants

Each whole warrant entitles the registered holder to purchase one share of our Class A common stock at a price of \$11.50 per share, subject to adjustment as discussed below, at any time commencing on the later of 12 months from the closing of this offering and 30 days after the completion of our initial business combination, except as described below. Pursuant to the warrant agreement, a warrant holder may exercise its warrants only for a whole number of shares of Class A common stock. This means only a whole warrant may be exercised at a given time by a warrant holder. No fractional warrants will be issued upon separation of the units and only whole warrants will trade. Accordingly, unless you purchase at least three units, you will not be able to receive or trade a whole warrant. The warrants will expire five years after the completion of our initial business combination, at 5:00 p.m., New York City time, or earlier upon redemption or liquidation; provided, however, that the private placement warrants issued to FA Co-Investment will not be exercisable more than five years from the commencement of sales in this offering in accordance with FINRA Rule 5110(g)(8).

We will not be obligated to deliver any shares of Class A common stock pursuant to the exercise of a warrant and will have no obligation to settle such warrant exercise unless a registration statement under the Securities Act covering the issuance of the shares of Class A common stock issuable upon exercise of the warrants is then effective and a current prospectus relating to those shares of Class A common stock is available, subject to our satisfying our obligations described below with respect to registration. No warrant will be exercisable for cash or on a cashless basis, and we will not be obligated to issue any shares to holders seeking to exercise their warrants, unless the issuance of the shares upon such exercise is registered or qualified under the securities laws of the state of the exercising holder, or an exemption from registration is available. In the event that the conditions in the two immediately preceding sentences are not satisfied with respect to a warrant, the holder of such warrant will not be entitled to exercise such warrant and such warrant may have no value and expire worthless. In no event will we be required to net cash settle any warrant. In the event that a registration statement is not effective for the exercised warrants, the purchaser of a unit containing such warrant will have paid the full purchase price for the unit solely for the share of Class A common stock underlying such unit.

We are not registering the shares of Class A common stock issuable upon exercise of the warrants at this time. However, we have agreed that as soon as practicable, but in no event later than 20 business days after the closing of our initial business combination, we will use our commercially reasonable efforts to file with the SEC, and within 60 business days following our initial business combination to have declared effective, a registration statement covering the issuance of the shares of Class A common stock issuable upon exercise of the warrants and to maintain a current prospectus relating to those shares of Class A common stock until the warrants expire or are redeemed. Notwithstanding the above, if our Class A common stock is at the time of any exercise of a warrant not listed on a national securities exchange such that it satisfies the definition of a "covered security" under Section 18(b)(1) of the Securities Act, we may, at our option, require holders of public warrants who exercise their warrants to do so on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act and, in the event we so elect, we will not be required to file or maintain in effect a registration statement, but will use our commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available. In such event, each holder

Table of Contents

would pay the exercise price by surrendering the warrants for that number of shares of Class A common stock equal to the lesser of (A) the quotient obtained by dividing (x) the product of the number of shares of Class A common stock underlying the warrants, multiplied by the excess of the "fair market value" (defined below) less the exercise price of the warrants by (y) the fair market value and (B) 0.361. The "fair market value" shall mean the volume weighted average price of the Class A common stock for the 10 trading days ending on the trading day prior to the date on which the notice of exercise is received by the warrant agent.

Redemption of warrants when the price per share of Class A common stock equals or exceeds \$18.00. Once the warrants become exercisable, we may redeem the outstanding warrants (except as described herein with respect to the private placement warrants):

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days' prior written notice of redemption, or the 30-day redemption period, to each warrant holder; and
- if, and only if, the last reported sale price of our Class A common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which we send the notice of redemption to the warrant holders.

If and when the warrants become redeemable by us, we may exercise our redemption right even if we are unable to register or qualify the underlying securities for sale under all applicable state securities laws. As a result, we may redeem warrants even if the holders are otherwise unable to exercise their warrants.

We have established the \$18.00 per share (as adjusted) redemption criteria discussed above to prevent a redemption call unless there is at the time of the call a significant premium to the warrant exercise price. If the foregoing conditions are satisfied and we issue a notice of redemption of the warrants, each warrant holder will be entitled to exercise its warrant prior to the scheduled redemption date. However, the price of the Class A common stock may fall below the \$18.00 redemption trigger price (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) as well as the \$11.50 warrant exercise price after the redemption notice is issued.

Redemption of warrants when the price per share of Class A common stock equals or exceeds \$10.00. Commencing ninety days after the warrants become exercisable, we may redeem the outstanding warrants (except as described herein with respect to the private placement units):

- in whole and not in part;
- at a price of \$0.10 per warrant provided that holders will be able to exercise their warrants prior to redemption and receive that number of shares of Class A common stock determined by reference to the table below, based on the redemption date and the "fair market value" of our Class A common stock (as defined below) except as otherwise described below;
- upon a minimum of 30 days' prior written notice of redemption;
- if, and only if, the last reported sale price of our Class A common stock equals or exceeds \$10.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) on the trading day prior to the date on which we send the notice of redemption to the warrant holders; and
- if, and only if, there is an effective registration statement covering the issuance of the shares of Class A common stock issuable upon exercise of the warrants and a current prospectus

[Table of Contents](#)

relating thereto available throughout the 30-day period after written notice of redemption is given.

The numbers in the table below represent the number of shares of Class A common stock that a warrant holder will receive upon cashless exercise in connection with a redemption by us pursuant to this redemption feature, based on the “fair market value” of our Class A common stock on the corresponding redemption date (assuming holders elect to exercise their warrants and such warrants are not redeemed for \$0.10 per warrant), determined based on the average of the last reported sales price for the 10 trading days ending on the third trading day prior to the date on which the notice of redemption is sent to the holders of warrants, and the number of months that the corresponding redemption date precedes the expiration date of the warrants, each as set forth in the table below.

Pursuant to the warrant agreement, references above to Class A common stock shall include a security other than Class A common stock into which the Class A common stock has been converted or exchanged for in the event we are not the surviving company in our initial business combination. The numbers in the tables below will not be adjusted solely as a result of us not being the surviving entity following our initial business combination.

The stock prices set forth in the column headings of the table below will be adjusted as of any date on which the number of shares issuable upon exercise of a warrant is adjusted as set forth in the first three paragraphs under the heading “— Anti-dilution Adjustments” below. The adjusted stock prices in the column headings will equal the stock prices immediately prior to such adjustment, multiplied by a fraction, the numerator of which is the number of shares deliverable upon exercise of a warrant immediately prior to such adjustment and the denominator of which is the number of shares deliverable upon exercise of a warrant as so adjusted. The number of shares in the table below shall be adjusted in the same manner and at the same time as the number of shares issuable upon exercise of a warrant.

Redemption Date (period to expiration of warrants)	Fair Market Value of Class A Common Stock								
	³ \$10.00	³ \$11.00	³ \$12.00	³ \$13.00	³ \$14.00	³ \$15.00	³ \$16.00	³ \$17.00	³ \$18.00

Table of Contents

The exact fair market value and redemption date may not be set forth in the table above, in which case, if the fair market value is between two values in the table or the redemption date is between two redemption dates in the table, the number of shares of Class A common stock to be issued for each warrant exercised will be determined by a straight-line interpolation between the number of shares set forth for the higher and lower fair market values and the earlier and later redemption dates, as applicable, based on a 365 or 366-day year, as applicable. For example, if the average last reported sale price of our Class A common stock for the 10 trading days ending on the third trading date prior to the date on which the notice of redemption is sent to the holders of the warrants is \$11 per share, and at such time there are 57 months until the expiration of the warrants, holders may choose to, in connection with this redemption feature, exercise their warrants for 0.277 shares of Class A common stock for each whole warrant. For an example where the exact fair market value and redemption date are not as set forth in the table above, if the average last reported sale price of our Class A common stock for the 10 trading days ending on the third trading date prior to the date on which the notice of redemption is sent to the holders of the warrants is \$13.50 per share, and at such time there are 38 months until the expiration of the warrants, holders may choose to, in connection with this redemption feature, exercise their warrants for 0.298 shares of Class A common stock for each whole warrant. In no event will the warrants be exercisable in connection with this redemption feature for more than 0.361 shares of Class A common stock per warrant (subject to adjustment). Finally, as reflected in the table above, if the warrants are out of the money and about to expire, they cannot be exercised on a cashless basis in connection with a redemption by us pursuant to this redemption feature, since they will not be exercisable for any shares of Class A common stock.

Any public warrants held by our officers or directors will be subject to this redemption feature, except that such officers and directors shall only receive “fair market value” for such public warrants if they exercise their public warrants in connection with such redemption (“fair market value” for such public warrants held by our officers or directors being defined as the last reported sale price of the public warrants on such redemption date).

This redemption feature differs from the typical warrant redemption features used in many other blank check offerings, which typically only provide for a redemption of warrants for cash (other than the private placement warrants) when the trading price for the Class A common stock exceeds \$18.00 per share for a specified period of time. This redemption feature is structured to allow for all of the outstanding warrants (other than the private placement warrant) to be redeemed when the Class A common stock is trading at or above \$10.00 per share, which may be at a time when the trading price of our Class A common stock is below the exercise price of the warrants. We have established this redemption feature to provide us with the flexibility to redeem the warrants without the warrants having to reach the \$18.00 per share threshold set forth above under “— Redemption of warrants when the price per share of Class A common stock equals or exceeds \$18.00.” Holders choosing to exercise their warrants in connection with a redemption pursuant to this feature will, in effect, receive a number of shares for their warrants based on an option pricing model with a fixed volatility input as of the date of this prospectus. This redemption right provides us an additional mechanism by which to redeem all of the outstanding warrants, and therefore have certainty as to our capital structure as the warrants would no longer be outstanding and would have been exercised or redeemed, and we will effectively be required to pay the redemption price to warrant holders if we choose to exercise this redemption right and it will allow us to quickly proceed with a redemption of the warrants if we determine it is in our best interest to do so. As such, we would redeem the warrants in this manner when we believe it is in our best interest to update our capital structure to remove the warrants and pay the redemption price to the warrant holders.

As stated above, we can redeem the warrants when the Class A common stock is trading at a price starting at \$10.00, which is below the exercise price of \$11.50, because it will provide certainty with respect to our capital structure and cash position while providing warrant holders with the

Table of Contents

opportunity to exercise their warrants on a cashless basis for the applicable number of shares of Class A common stock. If we choose to redeem the warrants when the Class A common stock is trading at a price below the exercise price of the warrants, this could result in the warrant holders receiving fewer shares of Class A common stock than they would have received if they had chosen to wait to exercise their warrants for shares of Class A common stock if and when shares of Class A common stock were trading at a price higher than the exercise price of \$11.50 per share.

No fractional shares of Class A common stock will be issued upon exercise. If, upon exercise, a holder would be entitled to receive a fractional interest in a share, we will round down to the nearest whole number of the number of shares of Class A common stock to be issued to the holder. If, at the time of redemption, the warrants are exercisable for a security other than the shares of Class A common stock pursuant to the warrant agreement (for instance, if we are not the surviving company in our initial business combination), the warrants may be exercised for such security.

Redemption Procedures and Cashless Exercise. If we call the warrants for redemption as described above under “— Redemption of warrants when the price per share of Class A common stock equals or exceeds \$18.00,” our management will have the option to require all holders that wish to exercise warrants to do so on a “cashless basis” (such option, the “Cashless Exercise Option”). In determining whether to require all holders to exercise their warrants on a “cashless basis,” our management will consider, among other factors, our cash position, the number of warrants that are outstanding and the dilutive effect on our stockholders of issuing the maximum number of shares of Class A common stock issuable upon the exercise of our warrants. In such event, each holder would pay the exercise price by surrendering the warrants for that number of shares of Class A common stock equal to the lesser of (A) the quotient obtained by dividing (x) the product of the number of shares of Class A common stock underlying the warrants, multiplied by the excess of the “fair market value” (defined below) over the exercise price of the warrants by (y) the fair market value and (B) 0.361. The “fair market value” shall mean the average last reported sale price of the Class A common stock for the 10 trading days ending on the third trading day prior to the date on which the notice of exercise is sent to the warrant agent. If our management takes advantage of this Cashless Exercise Option, the notice of redemption will contain the information necessary to calculate the number of shares of Class A common stock to be received upon exercise of the warrants, including the “fair market value” in such case. Requiring a cashless exercise in this manner will reduce the number of shares to be issued and thereby lessen the dilutive effect of a warrant redemption. We believe this Cashless Exercise Option feature is an attractive option to us if we do not need the cash from the exercise of the warrants after our initial business combination. If we call our warrants for redemption and our management does not take advantage of this Cashless Exercise Option, our sponsors and their permitted transferees would still be entitled to exercise their private placement units for cash or on a cashless basis using the same formula described above that other warrant holders would have been required to use had management taken advantage of this Cashless Exercise Option, as described in more detail below.

A holder of a warrant may notify us in writing in the event it elects to be subject to a requirement that such holder will not have the right to exercise such warrant, to the extent that after giving effect to such exercise, such person (together with such person’s affiliates), would beneficially own in excess of 9.8% (or such other amount as a holder may specify) of the shares of Class A common stock outstanding immediately after giving effect to such exercise.

Anti-Dilution Adjustments. If the number of outstanding shares of Class A common stock is increased by a stock dividend payable in shares of Class A common stock, or by a split-up of shares of Class A common stock or other similar event, then, on the effective date of such stock dividend, split-up or similar event, the number of shares of Class A common stock issuable on exercise of each warrant will be increased in proportion to such increase in the outstanding shares of Class A common

Table of Contents

stock. A rights offering to holders of Class A common stock entitling holders to purchase shares of Class A common stock at a price less than the fair market value will be deemed a stock dividend of a number of shares of Class A common stock equal to the product of (1) the number of shares of Class A common stock actually sold in such rights offering (or issuable under any other equity securities sold in such rights offering that are convertible into or exercisable for Class A common stock) multiplied by (2) one minus the quotient of (x) the price per share of Class A common stock paid in such rights offering divided by (y) the fair market value. For these purposes (1) if the rights offering is for securities convertible into or exercisable for Class A common stock, in determining the price payable for Class A common stock, there will be taken into account any consideration received for such rights, as well as any additional amount payable upon exercise or conversion and (2) fair market value means the volume weighted average price of Class A common stock as reported during the ten trading day period ending on the trading day prior to the first date on which the shares of Class A common stock trade on the applicable exchange or in the applicable market, regular way, without the right to receive such rights.

In addition, if we, at any time while the warrants are outstanding and unexpired, pay a dividend or make a distribution in cash, securities or other assets to the holders of Class A common stock on account of such shares of Class A common stock (or other shares of our capital stock into which the warrants are convertible), other than (a) as described above, (b) certain ordinary cash dividends, (c) to satisfy the redemption rights of the holders of Class A common stock in connection with a proposed initial business combination, (d) to satisfy the redemption rights of the holders of Class A common stock in connection with a stockholder vote to amend our amended and restated certificate of incorporation (I) to modify the substance or timing of our obligation to allow redemptions in connection with our initial business combination or to redeem 100% of our Class A common stock if we do not complete our initial business combination within 24 months from the closing of this offering or (II) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity, or (e) in connection with the redemption of our public shares upon our failure to complete our initial business combination, then the warrant exercise price will be decreased, effective immediately after the effective date of such event, by the amount of cash and/or the fair market value of any securities or other assets paid on each share of Class A common stock in respect of such event.

If the number of outstanding shares of our Class A common stock is decreased by a consolidation, combination, reverse stock split or reclassification of shares of Class A common stock or other similar event, then, on the effective date of such consolidation, combination, reverse stock split, reclassification or similar event, the number of shares of Class A common stock issuable on exercise of each warrant will be decreased in proportion to such decrease in outstanding shares of Class A common stock.

Whenever the number of shares of Class A common stock purchasable upon the exercise of the warrants is adjusted, as described above, the warrant exercise price will be adjusted by multiplying the warrant exercise price immediately prior to such adjustment by a fraction (x) the numerator of which will be the number of shares of Class A common stock purchasable upon the exercise of the warrants immediately prior to such adjustment, and (y) the denominator of which will be the number of shares of Class A common stock so purchasable immediately thereafter.

In addition, if (x) we issue additional shares of Class A common stock or equity-linked securities for capital raising purposes in connection with the closing of our initial business combination at a newly issued price of less than \$9.20 per share of Class A common stock, (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of our initial business combination on the date of the completion of our initial business combination (net of redemptions), and (z) the Market Value of our Class A common stock is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be

Table of Contents

equal to 115% of the higher of the Market Value and the newly issued price, and the \$18.00 per share redemption trigger price described above under “— Redemption of warrants when the price per share of Class A common stock equals or exceeds \$18.00” will be adjusted (to the nearest cent) to be equal to 180% of the higher of the Market Value and the newly issued price.

In case of any reclassification or reorganization of the outstanding shares of Class A common stock (other than those described above or that solely affects the par value of such shares of Class A common stock), or in the case of any merger or consolidation of us with or into another corporation (other than a merger or consolidation in which we are the continuing corporation and that does not result in any reclassification or reorganization of our outstanding shares of Class A common stock), or in the case of any sale or conveyance to another corporation or entity of the assets or other property of us as an entirety or substantially as an entirety in connection with which we are dissolved, the holders of the warrants will thereafter have the right to purchase and receive, upon the basis and upon the terms and conditions specified in the warrants and in lieu of the shares of our Class A common stock immediately theretofore purchasable and receivable upon the exercise of the rights represented thereby, the kind and amount of shares of stock or other securities or property (including cash) receivable upon such reclassification, reorganization, merger or consolidation, or upon a dissolution following any such sale or transfer, that the holder of the warrants would have received if such holder had exercised their warrants immediately prior to such event. However, if such holders were entitled to exercise a right of election as to the kind or amount of securities, cash or other assets receivable upon such merger or consolidation, then the kind and amount of securities, cash or other assets for which each warrant will become exercisable will be deemed to be the weighted average of the kind and amount received per share by such holders in such merger or consolidation that affirmatively make such election, and if a tender, exchange or redemption offer has been made to and accepted by such holders (other than a tender, exchange or redemption offer made by the company in connection with redemption rights held by stockholders of the company as provided for in the company’s amended and restated certificate of incorporation or as a result of the redemption of shares of Class A common stock by the company if a proposed initial business combination is presented to the stockholders of the company for approval) under circumstances in which, upon completion of such tender or exchange offer, the maker thereof, together with members of any group (within the meaning of Rule 13d-5(b)(1) under the Exchange Act) of which such maker is a part, and together with any affiliate or associate of such maker (within the meaning of Rule 12b-2 under the Exchange Act) and any members of any such group of which any such affiliate or associate is a part, own beneficially (within the meaning of Rule 13d-3 under the Exchange Act) more than 50% of the outstanding shares of Class A common stock, the holder of a warrant will be entitled to receive the highest amount of cash, securities or other property to which such holder would actually have been entitled as a stockholder if such warrant holder had exercised the warrant prior to the expiration of such tender or exchange offer, accepted such offer and all of the Class A common stock held by such holder had been purchased pursuant to such tender or exchange offer, subject to adjustments (from and after the consummation of such tender or exchange offer) as nearly equivalent as possible to the adjustments provided for in the warrant agreement. Additionally, if less than 70% of the consideration receivable by the holders of Class A common stock in such a transaction is payable in the form of Class A common stock in the successor entity that is listed for trading on a national securities exchange or is quoted in an established over-the-counter market, or is to be so listed for trading or quoted immediately following such event, and if the registered holder of the warrant properly exercises the warrant within thirty days following public disclosure of such transaction, the warrant exercise price will be reduced as specified in the warrant agreement based on the per share consideration minus Black-Scholes Warrant Value (as defined in the warrant agreement) of the warrant.

The warrants will be issued in registered form under a warrant agreement between Continental Stock Transfer & Trust Company, as warrant agent, and us. You should review a copy of the warrant agreement, which will be filed as an exhibit to the registration statement of which this prospectus is a

Table of Contents

part, for a description of the terms and conditions applicable to the warrants. The warrant agreement provides that the terms of the warrants may be amended without the consent of any holder to cure any ambiguity or correct any defective provision, but requires the approval by the holders of at least 50% of the then outstanding public warrants to make any change that adversely affects the interests of the registered holders of public warrants.

The warrant holders do not have the rights or privileges of holders of Class A common stock and any voting rights until they exercise their warrants and receive shares of Class A common stock. After the issuance of shares of Class A common stock upon exercise of the warrants, each holder will be entitled to one vote for each share held of record on all matters to be voted on by stockholders.

No fractional warrants will be issued upon separation of the units and only whole warrants will trade.

We have agreed that, subject to applicable law, any action, proceeding or claim against us arising out of or relating in any way to the warrant agreement will be brought and enforced in the courts of the State of New York or the United States District Court for the Southern District of New York, and we irrevocably submit to such jurisdiction, which jurisdiction will be the exclusive forum for any such action, proceeding or claim. See "Risk Factors — *Our warrant agreement will designate the courts of the State of New York or the United States District Court for the Southern District of New York as the sole and exclusive forum for certain types of actions and proceedings that may be initiated by holders of our warrants, which could limit the ability of warrant holders to obtain a favorable judicial forum for disputes with our company.*" This exclusive forum provision shall not apply to suits brought to enforce a duty or liability created by the Exchange Act, any other claim for which the federal courts have exclusive jurisdiction or any complaint asserting a cause of action arising under the Securities Act against us or any of our directors, officers, other employees or agents. Section 27 of the Exchange Act creates exclusive federal jurisdiction over all suits brought to enforce any duty or liability created by the Exchange Act or the rules and regulations thereunder.

Private Placement Units

The private placement units are identical to the units sold in this offering except that, so long as they are held by our sponsors or their permitted transferees, the private placement units (including the underlying securities) are subject to certain transfer restrictions (as described in more detail under "Principal Stockholders—Transfers of Founder Shares and Private Placement Units") and the holders thereof are entitled to certain registration rights (as described in more detail under "Principal Stockholders—Registration Rights"), and the underlying warrants: (1) will not be redeemable by us; (2) may be exercised by the holders on a cashless basis; and (3) with respect to private placement warrants held by FA Co-Investment, will not be exercisable more than five years from the commencement of sales in this offering in accordance with FINRA Rule 5110(g)(8). If the private placement units are held by holders other than our sponsors or their respective permitted transferees, the warrants underlying the private placement units will be redeemable by us in all redemption scenarios and exercisable by the holders on the same basis as the warrants included in the units being sold in this offering.

If holders of the private placement warrants elect to exercise the underlying warrants on a cashless basis, they would pay the exercise price by surrendering warrants for that number of shares of Class A common stock equal to the quotient obtained by dividing (x) the product of the number of shares of Class A common stock underlying the warrants, multiplied by the excess of the "sponsor fair market value" (defined below) over the exercise price of the warrants by (y) the sponsor fair market value. The "sponsor fair market value" shall mean the average last reported sale price of the Class A common stock for the 10 trading days ending on the third trading day prior to the date on which the notice of exercise is sent to the warrant agent. The reason that we have agreed that these warrants will be exercisable on a cashless basis so long as they are held by our sponsors and their permitted

[Table of Contents](#)

transferees is because it is not known at this time whether they will be affiliated with us following a business combination. If they remain affiliated with us, their ability to sell our securities in the open market will be significantly limited. We expect to have policies in place that prohibit insiders from selling our securities except during specific periods of time. Even during such periods of time when insiders will be permitted to sell our securities, an insider cannot trade in our securities if he or she is in possession of material non-public information. Accordingly, unlike public stockholders who could exercise their warrants and sell the shares of Class A common stock received upon such exercise freely in the open market in order to recoup the cost of such exercise, the insiders could be significantly restricted from selling such securities. As a result, we believe that allowing the holders to exercise such warrants on a cashless basis is appropriate.

In order to fund working capital deficiencies or finance transaction costs in connection with an intended initial business combination, our sponsors, an affiliate of our sponsors or our officers and directors may, but are not obligated to, loan us funds as may be required. If we complete our initial business combination, we may repay such loaned amounts out of the proceeds of the trust account released to us. In the event that our initial business combination does not close, we may use a portion of the working capital held outside the trust account to repay such loaned amounts but no proceeds from our trust account would be used to repay such loaned amounts. Up to \$1,500,000 of such loans may be convertible into units at a price of \$10.00 per unit at the option of the lender. The units would be identical to the private placement units issued to our sponsors.

Dividends

We have not paid any cash dividends on our common stock to date and do not intend to pay cash dividends prior to the completion of our initial business combination. The payment of cash dividends in the future will be dependent upon our revenues and earnings, if any, capital requirements and general financial condition subsequent to completion of our initial business combination. The payment of any cash dividends subsequent to a business combination will be within the discretion of our board of directors at such time. In addition, our board of directors is not currently contemplating and does not anticipate declaring any stock dividends in the foreseeable future, except if we increase the size of this offering, in which case we will effect a stock dividend with respect to our Class B common stock immediately prior to the consummation of this offering in such amount as to maintain the number of founder shares at 20% of our issued and outstanding shares of our common stock upon the consummation of this offering (not including the shares of Class A common stock underlying the private placement units). Further, if we incur any indebtedness, our ability to declare dividends may be limited by restrictive covenants we may agree to in connection therewith.

Our Transfer Agent and Warrant Agent

The transfer agent for our common stock and warrant agent for our warrants is Continental Stock Transfer & Trust Company. We have agreed to indemnify Continental Stock Transfer & Trust Company in its roles as transfer agent and warrant agent, its agents and each of its stockholders, directors, officers and employees against all liabilities, including judgments, costs and reasonable counsel fees that may arise out of acts performed or omitted for its activities in that capacity, except for any liability due to any gross negligence, willful misconduct or bad faith of the indemnified person or entity.

Our Amended and Restated Certificate of Incorporation

Our amended and restated certificate of incorporation will contain certain requirements and restrictions relating to this offering that will apply to us until the completion of our initial business combination. These provisions (other than amendments relating to the appointment or removal of directors prior to our initial business combination, which require the approval of holders of a majority of at least 90% of the outstanding shares of our common stock voting in a stockholder meeting) cannot be amended without the approval of the holders of at least a majority of our outstanding common

Table of Contents

stock. Our initial stockholders, who collectively will beneficially own 21.7% of our common stock upon the closing of this offering (assuming our initial stockholders do not purchase any units in this offering), may participate in any vote to amend our amended and restated certificate of incorporation and will have the discretion to vote in any manner they choose. Unless specified in our amended and restated certificate of incorporation or bylaws, or as required by applicable law or stock exchange rules, the affirmative vote of a majority of the outstanding shares of our common stock that are voted is required to approve any such matter voted on by our stockholders, and, prior to our initial business combination, the affirmative vote of holders of a majority of the outstanding shares of our Class B common stock is required to approve the election or removal of directors. Specifically, our amended and restated certificate of incorporation will provide, among other things, that:

- if we have not completed our initial business combination within 24 months from the closing of this offering, we will: (1) cease all operations except for the purpose of winding up; (2) as promptly as reasonably possible but not more than ten business days thereafter, redeem the public shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account, including interest (which interest shall be net of taxes payable, and less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding public shares, which redemption will completely extinguish public stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any); and (3) as promptly as reasonably possible following such redemption, subject to the approval of our remaining stockholders and our board of directors, dissolve and liquidate, subject in each case to our obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law;
- prior to our initial business combination, we may not issue additional shares of capital stock that would entitle the holders thereof to: (1) receive funds from the trust account; or (2) vote pursuant to our amended and restated certificate of incorporation on any initial business combination;
- in the event we seek to complete our initial business combination with a company that is affiliated with our sponsor, officers or directors, we, or a committee of independent and disinterested directors, will obtain an opinion from an independent investment banking firm that is a member of FINRA or from an independent accounting firm that such a business combination is fair to our company from a financial point of view;
- if a stockholder vote on our initial business combination is not required by applicable law or stock exchange rules and we do not decide to hold a stockholder vote for business or other reasons, we will offer to redeem our public shares pursuant to Rule 13e-4 and Regulation 14E of the Exchange Act, and will file tender offer documents with the SEC prior to completing our initial business combination which contain substantially the same financial and other information about our initial business combination and the redemption rights as is required under Regulation 14A of the Exchange Act;
- our initial business combination must be with one or more operating businesses or assets with a fair market value equal to at least 80% of the net assets held in the trust account (excluding the amount of any deferred underwriting discount);
- if our stockholders approve an amendment to our amended and restated certificate of incorporation (A) to modify the substance or timing of our obligation to allow redemptions in connection with our initial business combination or to redeem 100% of our public shares if we do not complete our initial business combination within 24 months from the closing of this offering or (B) with respect to any other provision relating to stockholders' rights or pre-initial business combination activity, we will provide our public stockholders with the opportunity to redeem all or a portion of their shares of common stock upon such approval at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the trust account,

Table of Contents

- including interest (which interest shall be net of taxes payable), divided by the number of then outstanding public shares; and
- we will not effectuate our initial business combination solely with another blank check company or a similar company with nominal operations.

In addition, our amended and restated certificate of incorporation will provide that under no circumstances will we redeem our public shares in an amount that would cause our net tangible assets to be less than \$5,000,001 following such redemptions.

Certain Anti-Takeover Provisions of Delaware Law and our Amended and Restated Certificate of Incorporation and Bylaws

We will be subject to the provisions of Section 203 of the DGCL regulating corporate takeovers upon completion of this offering. This statute prevents certain Delaware corporations, under certain circumstances, from engaging in a “business combination” with:

- a stockholder who owns 15% or more of our outstanding voting stock (otherwise known as an “interested stockholder”);
- an affiliate of an interested stockholder; or
- an associate of an interested stockholder, for three years following the date that the stockholder became an interested stockholder.

A “business combination” includes a merger or sale of more than 10% of our assets. However, the above provisions of Section 203 do not apply if:

- our board of directors approves the transaction that made the stockholder an “interested stockholder,” prior to the date of the transaction;
- after the completion of the transaction that resulted in the stockholder becoming an interested stockholder, that stockholder owned at least 85% of our voting stock outstanding at the time the transaction commenced, other than statutorily excluded shares of common stock; or
- on or subsequent to the date of the transaction, the business combination is approved by our board of directors and authorized at a meeting of our stockholders, and not by written consent, by an affirmative vote of at least two-thirds of the outstanding voting stock not owned by the interested stockholder.

Our authorized but unissued common stock and preferred stock are available for future issuances without stockholder approval and could be utilized for a variety of corporate purposes, including future offerings to raise additional capital, acquisitions and employee benefit plans. The existence of authorized but unissued and unreserved common stock and preferred stock could render more difficult or discourage an attempt to obtain control of us by means of a proxy contest, tender offer, merger or otherwise.

Our amended and restated certificate of incorporation will provide that prior to our initial business combination, holders of our Class B common stock will have the right to elect all of our directors and may remove members of our board of directors for any reason. In addition, it will provide that our board of directors will be classified into three classes of directors. As a result, in most circumstances, a person can gain control of our board only by successfully engaging in a proxy contest at two or more annual stockholder meetings.

Exclusive Forum For Certain Lawsuits

Our amended and restated certificate of incorporation will provide that, unless we consent in writing to the selection of an alternative forum, the Court of Chancery of the State of Delaware shall, to

the fullest extent permitted by law, be the sole and exclusive forum for any (1) derivative action or proceeding brought on behalf of our company, (2) action asserting a claim of breach of a fiduciary duty owed by any director, officer, employee or agent of our company to our company or our stockholders, or any claim for aiding and abetting any such alleged breach, (3) action asserting a claim against our company or any director, officer or employee of our company arising pursuant to any provision of the DGCL or our amended and restated certificate of incorporation or our bylaws, or (4) action asserting a claim against us or any director, officer or employee of our company governed by the internal affairs doctrine except for, as to each of (1) through (4) above, any claim (A) as to which the Court of Chancery determines that there is an indispensable party not subject to the jurisdiction of the Court of Chancery (and the indispensable party does not consent to the personal jurisdiction of the Court of Chancery within ten days following such determination) or (B) which is vested in the exclusive jurisdiction of a court or forum other than the Court of Chancery. Notwithstanding the foregoing, the provisions of this paragraph will not apply to suits brought to enforce any liability or duty created by the Securities, the Exchange Act, or any other claim for which the federal district courts of the United States of America have exclusive jurisdiction. Although we believe this provision benefits us by providing increased consistency in the application of Delaware law in the types of lawsuits to which it applies, the provision may have the effect of discouraging lawsuits against our directors, officers, other employees or stockholders. Furthermore, the enforceability of choice of forum provisions in other companies' certificates of incorporation has been challenged in legal proceedings, and it is possible that a court could find these types of provisions to be inapplicable or unenforceable.

Special Meeting of Stockholders

Our bylaws provide that special meetings of our stockholders may be called only by a majority vote of our board of directors, by our chief executive officer or by our chairman, if any.

Advance Notice Requirements for Stockholder Proposals and Director Nominations

Our bylaws will provide for advance notice procedures with respect to stockholder proposals and the nomination of candidates for election as directors, other than nominations made by or at the direction of our board of directors or a committee of our board of directors. In order for any matter to be "properly brought" before a meeting, a stockholder will have to comply with advance notice requirements and provide us with certain information. Generally, to be timely, a stockholder's notice must be received at our principal executive offices not less than 90 days nor more than 120 days prior to the first anniversary date of the immediately preceding annual meeting of stockholders. Pursuant to Rule 14a-8 of the Exchange Act, proposals seeking inclusion in our annual proxy statement must comply with the notice periods contained therein. Our bylaws will also specify requirements as to the form and content of a stockholder's notice. Our bylaws will allow the chairman of the meeting at a meeting of the stockholders to adopt rules and regulations for the conduct of meetings which may have the effect of precluding the conduct of certain business at a meeting if the rules and regulations are not followed. These provisions may also defer, delay or discourage a potential acquirer from conducting a solicitation of proxies to elect the acquirer's own slate of directors or otherwise attempting to influence or obtain control of us.

Securities Eligible for Future Sale

Immediately after this offering we will have 35,125,000 (or 40,363,750 if the underwriters' over-allotment option is exercised in full) shares of Class A common stock outstanding. Of these shares, the 27,500,000 shares (or 31,625,000 shares if the underwriters' over-allotment option is exercised in full) sold in this offering will be freely tradable without restriction or further registration under the Securities Act, except for any shares purchased by one of our affiliates within the meaning of Rule 144 under the Securities Act. All of the 6,875,000 (or 7,906,250 if the underwriters' over-allotment option is exercised in full) founder shares and all 750,000 (or 832,500 if the underwriters' over-allotment option is exercised in full) private placement units are restricted securities under Rule 144, in that they were

issued in private transactions not involving a public offering, and are subject to transfer restrictions as set forth elsewhere in this prospectus.

Rule 144

Pursuant to Rule 144, a person who has beneficially owned restricted shares of our common stock or warrants for at least six months would be entitled to sell their securities provided that: (1) such person is not deemed to have been one of our affiliates at the time of, or at any time during the three months preceding, a sale; and (2) we are subject to the Exchange Act periodic reporting requirements for at least three months before the sale and have filed all required reports under Section 13 or 15(d) of the Exchange Act during the 12 months (or such shorter period as we were required to file reports) preceding the sale.

Persons who have beneficially owned restricted shares of our common stock or warrants for at least six months but who are our affiliates at the time of, or at any time during the three months preceding, a sale, would be subject to additional restrictions, by which such person would be entitled to sell within any three-month period only a number of securities that does not exceed the greater of:

- 1% of the total number of shares of common stock then outstanding, which will equal 351,250 shares immediately after this offering (or 403,637 if the underwriters exercise their over-allotment option in full); or
- the average weekly reported trading volume of the common stock during the four calendar weeks preceding the filing of a notice on Form 144 with respect to the sale.

Sales by our affiliates under Rule 144 are also limited by manner of sale provisions and notice requirements and to the availability of current public information about us.

Restrictions on the Use of Rule 144 by Shell Companies or Former Shell Companies

Rule 144 is not available for the resale of securities initially issued by shell companies (other than a business combination related shell companies) or issuers that have been at any time previously a shell company. However, Rule 144 also includes an important exception to this prohibition if the following conditions are met:

- the issuer of the securities that was formerly a shell company has ceased to be a shell company;
- the issuer of the securities is subject to the reporting requirements of Section 13 or 15(d) of the Exchange Act;
- the issuer of the securities has filed all Exchange Act reports and material required to be filed, as applicable, during the preceding 12 months (or such shorter period that the issuer was required to file such reports and materials), other than Current Reports on Form 8-K; and
- at least one year has elapsed from the time that the issuer filed current Form 10 type information with the SEC reflecting its status as an entity that is not a shell company.

As a result, our initial stockholders will be able to sell their founder shares and our sponsors will be able to sell their private placement units, private placement shares or private placement warrants, as applicable, pursuant to Rule 144 without registration one year after we have completed our initial business combination.

Registration Rights

The holders of the founder shares, private placement units, the private placement shares, private placement warrants and units that may be issued upon conversion of working capital loans and the shares and warrants included therein (and any shares of common stock issuable upon the exercise of

[Table of Contents](#)

the private placement warrants or warrants included in the units issued upon conversion of working capital loans) will be entitled to registration rights pursuant to a registration rights agreement to be signed prior to or on the effective date of this offering requiring us to register such securities for resale (in the case of the founder shares, only after conversion to shares of Class A common stock). The holders of these securities will be entitled to make up to three demands, excluding short form registration demands, that we register such securities. In addition, the holders have certain "piggy-back" registration rights with respect to registration statements filed subsequent to our completion of our initial business combination and rights to require us to register for resale such securities pursuant to Rule 415 under the Securities Act. Notwithstanding the foregoing, FA Co-Investment may not exercise its demand or "piggyback" registration rights after five and seven years, respectively, after the effective date of the registration statement of which this prospectus forms a part and may not exercise its demand rights on more than one occasion. We will bear the expenses incurred in connection with the filing of any such registration statements.

Listing of Securities

We have applied to list our units, Class A common stock and warrants on Nasdaq under the symbols "FOREU" "FORE" and "FOREWS," respectively. We expect that our units will be listed on Nasdaq on or promptly after the effective date of the registration statement of which this prospectus forms a part. Following the date the shares of our Class A common stock and warrants are eligible to trade separately, we anticipate that the shares of our common stock and warrants will be listed separately and as a unit on Nasdaq. We cannot guarantee that our securities will be approved for listing on Nasdaq.

UNITED STATES FEDERAL INCOME TAX CONSIDERATIONS

The following discussion is a summary of the U.S. federal income tax considerations generally applicable to the ownership and disposition of our units, Class A common stock and warrants, which we refer to collectively as our securities. This summary is based upon U.S. federal income tax law as of the date of this prospectus, which is subject to change or differing interpretations, possibly with retroactive effect. This summary does not discuss all aspects of U.S. federal income taxation that may be important to particular investors in light of their individual circumstances, including investors subject to special tax rules (e.g., financial institutions, insurance companies, broker-dealers, tax-exempt organizations (including private foundations), taxpayers that have elected mark-to-market accounting, S corporations, regulated investment companies, real estate investment trusts, investors that will hold Class A common stock or warrants as part of a straddle, hedge, conversion, or other integrated transaction for U.S. federal income tax purposes, or investors that have a functional currency other than the U.S. dollar), all of whom may be subject to tax rules that differ materially from those summarized below. In addition, this summary does not discuss other U.S. federal tax consequences (e.g., estate or gift tax), any state, local, or non-U.S. tax considerations or the Medicare tax or alternative minimum tax. In addition, this summary is limited to investors that will hold our securities as “capital assets” (generally, property held for investment) under the Internal Revenue Code of 1986, as amended, (the “Code”), and that acquired the securities pursuant to this offering (or, in the case of Class A common stock, upon exercise of warrants so acquired). No ruling from the Internal Revenue Service, (the “IRS”) has been or will be sought regarding any matter discussed herein. No assurance can be given that the IRS would not assert, or that a court would not sustain a position contrary to any of the tax aspects set forth below.

For purposes of this summary, a “U.S. Holder” is a beneficial holder of securities who or that, for U.S. federal income tax purposes is:

- an individual who is a United States citizen or resident of the United States;
- a corporation or other entity treated as a corporation for United States federal income tax purposes created in, or organized under the law of, the United States or any state or political subdivision thereof;
- an estate the income of which is includible in gross income for United States federal income tax purposes regardless of its source; or
- a trust (A) the administration of which is subject to the primary supervision of a United States court and which has one or more United States persons (within the meaning of the Code) who have the authority to control all substantial decisions of the trust or (B) that has in effect a valid election under applicable Treasury regulations to be treated as a United States person.

A “non-U.S. Holder” is a beneficial holder of shares who or that is neither a U.S. Holder nor a partnership for U.S. federal income tax purposes.

If a partnership (including an entity or arrangement treated as a partnership for U.S. federal income tax purposes) holds our securities, the tax treatment of a partner, member or other beneficial owner in such partnership will generally depend upon the status of the partner, member or other beneficial owner, the activities of the partnership and certain determinations made at the partner, member or other beneficial owner level. If you are a partner, member or other beneficial owner of a partnership holding our securities, you are urged to consult your tax advisor regarding the tax consequences of the ownership and disposition of our securities.

THIS DISCUSSION OF U.S. FEDERAL INCOME TAX CONSIDERATIONS IS FOR GENERAL INFORMATION PURPOSES ONLY AND IS NOT TAX ADVICE. WE URGE PROSPECTIVE

HOLDERS TO CONSULT THEIR TAX ADVISORS CONCERNING THE U.S. FEDERAL INCOME TAX CONSEQUENCES TO THEM OF OWNING AND DISPOSING OF OUR SECURITIES, AS WELL AS THE APPLICATION OF ANY, STATE, LOCAL AND NON-U.S. INCOME, ESTATE AND OTHER TAX CONSIDERATIONS.

Personal Holding Company Status

We would be subject to a second level of U.S. federal income tax on a portion of our income if we are determined to be a personal holding company, or PHC, for U.S. federal income tax purposes. A U.S. corporation will generally be classified as a PHC for U.S. federal income tax purposes in a given taxable year if (1) at any time during the last half of such taxable year, five or fewer individuals (without regard to their citizenship or residency and including as individuals for this purpose certain entities such as certain tax-exempt organizations, pension funds, and charitable trusts) own or are deemed to own (pursuant to certain constructive ownership rules) more than 50% of the stock of the corporation by value and (2) at least 60% of the corporation's adjusted ordinary gross income, as determined for U.S. federal income tax purposes, for such taxable year consists of PHC income (which includes, among other things, dividends, interest, certain royalties, annuities and, under certain circumstances, rents).

Depending on the date and size of our initial business combination, it is possible that at least 60% of our adjusted ordinary gross income may consist of PHC income as discussed above. In addition, depending on the concentration of our stock in the hands of individuals, including the members of our sponsor and certain tax-exempt organizations, pension funds, and charitable trusts, it is possible that more than 50% of our stock will be owned or deemed owned (pursuant to the constructive ownership rules) by five or fewer such persons during the last half of a taxable year. Thus, no assurance can be given that we will not become a PHC following this offering or in the future. If we are or were to become a PHC in a given taxable year, we would be subject to an additional PHC tax, currently 20%, on our undistributed PHC income, which generally includes our taxable income, subject to certain adjustments.

General Treatment of Units

There is no authority directly addressing the treatment, for U.S. federal income tax purposes, of instruments with terms substantially the same as the units and, therefore, their treatment is not entirely clear. The acquisition of a unit should be treated for U.S. federal income tax purposes as the acquisition of one share of our Class A common stock and one-third of one redeemable warrant to acquire one share of our Class A common stock. We intend to treat the acquisition of a unit in this manner and, by purchasing a unit, you agree to adopt such treatment for tax purposes. Each holder of a unit must allocate the purchase price paid by such holder for such unit between the share of Class A common stock and the warrant based on their respective relative fair market values. A holder's initial tax basis in the Class A common stock and the warrant included in each unit should equal the portion of the purchase price of the unit allocated thereto. The separation of the Class A common stock and warrant constituting a unit should not be a taxable event for U.S. federal income tax purposes.

The foregoing treatment of the units and a holder's purchase price allocation are not binding on the IRS or the courts. Because there is no authority that directly addresses instruments that are similar to the units, no assurance can be given that the IRS or the courts will agree with the characterization described above or the discussion below. Each prospective investor is urged to consult its tax advisors regarding the U.S. federal, state, local and any foreign tax consequences of an investment in a unit (including alternative characterizations of a unit and its components). The following discussion is based on the assumption that the characterization of the Class A common stock and warrants and the allocation described above are respected for U.S. federal income tax purposes.

U.S. Holders

Taxation of Distributions

If we pay distributions in cash or other property (other than certain distributions of our stock or rights to acquire our stock) to U.S. Holders of shares of our Class A common stock, such distributions will constitute dividends for U.S. federal income tax purposes to the extent paid from our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. Distributions in excess of current and accumulated earnings and profits will constitute a return of capital that will be applied against and reduce (but not below zero) the U.S. Holder's adjusted tax basis in our Class A common stock. Any remaining excess will be treated as gain realized on the sale or other disposition of the Class A common stock and will be treated as described under "— U.S. Holders — Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock" below.

Dividends we pay to a U.S. Holder that is a taxable corporation generally will qualify for the dividends received deduction if the requisite holding period is satisfied. With certain exceptions (including dividends treated as investment income for purposes of investment interest deduction limitations), and provided certain holding period requirements are met, dividends we pay to a non-corporate U.S. Holder will generally constitute "qualified dividends" that will be subject to tax at the maximum tax rate accorded to long-term capital gains. It is unclear whether the redemption rights with respect to the Class A common stock described in this prospectus may prevent a U.S. Holder from satisfying the applicable holding period requirements with respect to the dividends received deduction or the preferential tax rate on qualified dividend income, as the case may be.

Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock

A U.S. Holder will recognize gain or loss on the sale, taxable exchange or other taxable disposition (which would include a dissolution and liquidation in the event we do not complete an initial business combination within 24 months from the closing of this offering) of our Class A common stock. Any such gain or loss will be capital gain or loss, and will be long-term capital gain or loss if the U.S. Holder's holding period for the Class A common stock so disposed of exceeds one year. It is unclear, however, whether the redemption rights with respect to the Class A common stock described in this prospectus may suspend the running of the applicable holding period for this purpose. The amount of gain or loss recognized will generally be equal to the difference between (1) the sum of the amount of cash and the fair market value of any property received in such disposition (or, if the Class A common stock is held as part of a unit at the time of the disposition, the portion of the amount realized on such disposition that is allocated to the Class A common stock based upon the then fair market values of the Class A common stock and the warrant included in the unit) and (2) the U.S. Holder's adjusted tax basis in its Class A common stock so disposed of. A U.S. Holder's adjusted tax basis in its Class A common stock will generally equal the U.S. Holder's acquisition cost (that is, as discussed above, the portion of the purchase price of a unit allocated to a share of Class A common stock or, as discussed below, the U.S. Holder's initial basis for Class A common stock received upon exercise of a warrant) less any prior distributions treated as a return of capital. The deductibility of capital losses is subject to limitations.

Redemption of Class A Common Stock

In the event that a U.S. Holder's Class A common stock is redeemed pursuant to the redemption provisions described in this prospectus under "Description of Securities — Common Stock" or if we purchase a U.S. Holder's Class A common stock in an open market transaction (each of which we refer to as a "redemption"), the treatment of the transaction for U.S. federal income tax purposes will depend on whether the redemption qualifies as sale of the Class A common stock under Section 302 of the Code. If the redemption qualifies as a sale of Class A common stock under the tests described

below, the tax consequences to the U.S. Holder will be the same as described under “— U.S. Holders—Gain or Loss on Sale, Taxable Exchange or Other Taxable Disposition of Class A Common Stock” above. If the redemption does not qualify as a sale of Class A common stock, the U.S. Holder will be treated as receiving a corporate distribution, the tax consequences of which are described above under “— U.S. Holders—Taxation of Distributions”. Whether the redemption qualifies for sale treatment will depend primarily on the total number of shares of our stock treated as held by the U.S. Holder (including any stock constructively owned by the U.S. Holder as a result of owning warrants) both before and after the redemption. The redemption of Class A common stock will generally be treated as a sale of the Class A common stock (rather than as a corporate distribution) if the redemption (1) is “substantially disproportionate” with respect to the U.S. Holder, (2) results in a “complete termination” of the U.S. Holder’s interest in us or (3) is “not essentially equivalent to a dividend” with respect to the U.S. Holder. These tests are explained more fully below.

In determining whether any of the foregoing tests are satisfied, a U.S. Holder takes into account not only stock actually owned by the U.S. Holder, but also shares of our stock that are constructively owned by it. A U.S. Holder may constructively own, in addition to stock owned directly, stock owned by certain related individuals and entities in which the U.S. Holder has an interest or that have an interest in such U.S. Holder, as well as any stock the U.S. Holder has a right to acquire by exercise of an option, which would generally include common stock which could be acquired pursuant to the exercise of the warrants. A redemption of a U.S. Holder’s stock will be substantially disproportionate with respect to the U.S. Holder if the percentage of our outstanding voting stock actually and constructively owned by the U.S. Holder immediately following the redemption of common stock is, among other requirements, less than 80% of the percentage of our outstanding voting stock actually and constructively owned by the U.S. Holder immediately before the redemption. Prior to our initial business combination, the Class A common stock may not be treated as voting stock for this purpose and, consequently, this substantially disproportionate test may not be applicable. There will be a complete termination of a U.S. Holder’s interest if either (1) all of the shares of our stock actually and constructively owned by the U.S. Holder are redeemed or (2) all of the shares of our stock actually owned by the U.S. Holder are redeemed and the U.S. Holder is eligible to waive, and effectively waives in accordance with specific rules, the attribution of stock owned by certain family members and the U.S. Holder does not constructively own any other stock (including any stock constructively owned by the U.S. Holder as a result of owning warrants). The redemption of the Class A common stock will not be essentially equivalent to a dividend if the redemption results in a “meaningful reduction” of the U.S. Holder’s proportionate interest in us. Whether the redemption will result in a meaningful reduction in a U.S. Holder’s proportionate interest in us will depend on the particular facts and circumstances. The IRS has indicated in a published ruling that even a small reduction in the proportionate interest of a small minority stockholder in a publicly held corporation who exercises no control over corporate affairs may constitute such a “meaningful reduction.” A U.S. Holder is urged to consult its tax advisors as to the tax consequences of a redemption, including the application of the constructive ownership rules described above.

If none of the foregoing tests is satisfied, the redemption will be treated as a corporate distribution, the tax consequences of which are described under “— U.S. Holders—Taxation of Distributions,” above. After the application of those rules, any remaining tax basis of the U.S. Holder in the redeemed Class A common stock should be added to the U.S. Holder’s adjusted tax basis in its remaining stock, or, if it has none, to the U.S. Holder’s adjusted tax basis in its warrants or possibly in other stock constructively owned by it.

Exercise of a Warrant

Except as discussed below with respect to the cashless exercise of a warrant, a U.S. Holder will not recognize gain or loss upon the exercise of a warrant. The U.S. Holder’s tax basis in the share of our Class A common stock received upon exercise of the warrant will generally be an amount equal to

the sum of the U.S. Holder's initial investment in the warrant (i.e., the portion of the U.S. Holder's purchase price for a unit that is allocated to the warrant, as described above under "— General Treatment of Units") and the exercise price of such warrant. It is unclear whether a U.S. Holder's holding period for the Class A common stock received upon exercise of the warrant would commence on the date of exercise of the warrant or the day following the date of exercise of the warrant; however, in either case the holding period will not include the period during which the U.S. Holder held the warrants.

The tax consequences of a cashless exercise of a warrant are not clear under current tax law. A cashless exercise may be nontaxable, either because the exercise is not a realization event or because the exercise is treated as a recapitalization for U.S. federal income tax purposes. In either situation, a U.S. Holder's tax basis in the Class A common stock received would generally equal the holder's tax basis in the warrant. If the cashless exercise were treated as not being a realization event, it is unclear whether a U.S. Holder's holding period for the Class A common stock would commence on the date of exercise of the warrant or the day following the date of exercise of the warrant. If, however, the cashless exercise were treated as a recapitalization, the holding period of the Class A common stock would include the holding period of the warrant.

It is also possible that a cashless exercise could be treated in whole or in part as a taxable exchange in which gain or loss is recognized. In such event, a U.S. Holder would be deemed to have surrendered a number of warrants having a value equal to the exercise price. The U.S. Holder would recognize capital gain or loss in an amount equal to the difference between the fair market value of the Class A common stock represented by the warrants deemed surrendered and the U.S. Holder's tax basis in the warrants deemed surrendered. In this case, a U.S. Holder's tax basis in the Class A common stock received would equal the sum of the U.S. Holder's initial investment in the warrants exercised (i.e., the portion of the U.S. Holder's purchase price for the units that is allocated to the warrant, as described above under "— General Treatment of Units") and the exercise price of such warrants. It is unclear whether a U.S. Holder's holding period for the Class A common stock would commence on the date of exercise of the warrant or the day following the date of exercise of the warrant.

Due to the absence of authority on the U.S. federal income tax treatment of a cashless exercise, including when a U.S. Holder's holding period would commence with respect to the Class A common stock received, there can be no assurance which, if any, of the alternative tax consequences and holding periods described above would be adopted by the IRS or a court of law. Accordingly, U.S. Holders are urged to consult their tax advisors regarding the tax consequences of a cashless exercise.

Sale, Exchange, Redemption or Expiration of a Warrant

Upon a sale, exchange (other than by exercise), redemption (other than a redemption for Class A common stock), or expiration of a warrant, a U.S. Holder will recognize taxable gain or loss in an amount equal to the difference between (1) the amount realized upon such disposition or expiration (or, if the warrant is held as part of a unit at the time of the disposition of the unit, the portion of the amount realized on such disposition that is allocated to the warrant based on the then fair market values of the warrant and the Class A common stock constituting such unit) and (2) the U.S. Holder's tax basis in the warrant (that is, the portion of the U.S. Holder's purchase price for a unit that is allocated to the warrant, as described above under "— General Treatment of Units"). Such gain or loss will generally be treated as long-term capital gain or loss if the warrant is held by the U.S. Holder for more than one year at the time of such disposition or expiration. If a warrant is allowed to lapse unexercised, a U.S. Holder generally will recognize a capital loss equal to such holder's tax basis in the warrant. The deductibility of capital losses is subject to certain limitations.

If we give notice of an intention to redeem warrants for \$0.10 as described in the section of this prospectus entitled "Description of Securities—Warrants—Public Stockholders' Warrants," and a

Table of Contents

U.S. Holder exercises its warrant on a cashless basis and receives the amount of Class A common stock as determined by reference to the table set forth thereunder, we intend to treat such exercise as a redemption of warrants for Class A common stock for U.S. federal income tax purposes. Such redemption should be treated as a "recapitalization" within the meaning of Section 368(a)(1)(E) of the Code. Accordingly, a U.S. Holder should not recognize any gain or loss on the redemption of warrants for shares of our Class A common stock. A U.S. Holder's aggregate tax basis in the shares of Class A common stock received in the redemption generally should equal the U.S. Holder's aggregate tax basis in the warrants redeemed and the holding period for the shares of Class A common stock received in redemption of the warrants should include the U.S. Holder's holding period for the surrendered warrants. However, there is some uncertainty regarding this tax treatment and it is possible such a redemption could be treated in part as a taxable exchange in which gain or loss would be recognized in a manner similar to that discussed above for a cashless exercise of warrants or otherwise characterized. Accordingly, a U.S. Holder is urged to consult its tax advisor regarding the tax consequences of a redemption of warrants for shares of Class A common stock.

Possible Constructive Distributions

The terms of each warrant provide for an adjustment to the number of shares of Class A common stock for which the warrant may be exercised or to the exercise price of the warrant in certain events, as discussed in the section of this prospectus captioned "Description of Securities — Warrants — Public Stockholders' Warrants." An adjustment which has the effect of preventing dilution is generally not a taxable event. Nevertheless, a U.S. Holder of warrants would be treated as receiving a constructive distribution from us if, for example, the adjustment increases the holder's proportionate interest in our assets or earnings and profits (e.g., through an increase in the number of shares of Class A common stock that would be obtained upon exercise) as a result of a distribution of cash to the holders of shares of our Class A common stock which is taxable to such U.S. Holders as described under "— U.S. Holders — Taxation of Distributions" above. Such constructive distribution would be subject to tax as described under that section in the same manner as if such U.S. Holder received a cash distribution from us equal to the fair market value of such increased interest.

Non-U.S. Holders

Taxation of Distributions

In general, any distributions (including constructive distributions) we make to a non-U.S. Holder of shares of our Class A common stock, to the extent paid out of our current or accumulated earnings and profits (as determined under U.S. federal income tax principles), will constitute dividends for U.S. federal income tax purposes and, provided such dividends are not effectively connected with the non-U.S. Holder's conduct of a trade or business within the United States, we will be required to withhold tax from the gross amount of the dividend at a rate of 30%, unless such non-U.S. Holder is eligible for a reduced rate of withholding tax under an applicable income tax treaty and provides proper certification of its eligibility for such reduced rate (usually on an IRS Form W-8BEN or W-8BEN-E, as applicable). In the case of any constructive dividend, it is possible that this tax would be withheld from any amount owed to a non-U.S. Holder by the applicable withholding agent, including cash distributions on other property or sale proceeds from warrants or other property subsequently paid or credited to such holder. Any distribution not constituting a dividend will be treated first as reducing (but not below zero) the non-U.S. Holder's adjusted tax basis in its shares of our Class A common stock and, to the extent such distribution exceeds the non-U.S. Holder's adjusted tax basis, as gain realized from the sale or other disposition of the Class A common stock, which will be treated as described under "— Non-U.S. Holders — Gain on Sale, Exchange or Other Taxable Disposition of Class A Common Stock and Warrants" below. In addition, if we determine that we are classified as a "United States real property holding corporation" (see "— Non-U.S. Holders — Gain on Sale, Exchange or Other Taxable Disposition of Class A Common Stock and Warrants" below), we will withhold 15% of any distribution that exceeds our current and accumulated earnings and profits.

Dividends we pay to a non-U.S. Holder that are effectively connected with such non-U.S. Holder's conduct of a trade or business within the United States (or if a tax treaty applies are attributable to a U.S. permanent establishment or fixed base maintained by the non-U.S. Holder) will generally not be subject to U.S. withholding tax, provided such non-U.S. Holder complies with certain certification and disclosure requirements (usually by providing an IRS Form W-8ECI). Instead, such dividends will generally be subject to U.S. federal income tax, net of certain deductions, at the same graduated individual or corporate rates applicable to U.S. Holders. If the non-U.S. Holder is a corporation, dividends that are effectively connected income may also be subject to a "branch profits tax" at a rate of 30% (or such lower rate as may be specified by an applicable income tax treaty).

Exercise or Lapse of a Warrant

The U.S. federal income tax treatment of a non-U.S. Holder's exercise of a warrant or the lapse of a warrant held by a non-U.S. Holder generally will correspond to the U.S. federal income tax treatment of the exercise or lapse of a warrant by a U.S. Holder, as described under "— U.S. Holders — Exercise of a Warrant" or "U.S. Holders — Sale, Exchange, Redemption or Expiration of a Warrant" above, as applicable, although to the extent a cashless exercise results in a taxable exchange, the tax consequences to the non-U.S. Holder would be the same as those described below in "— Non-U.S. Holders — Gain on Sale, Exchange or Other Taxable Disposition of Class A Common Stock and Warrants."

Redemption of Warrants for Class A Common Stock

A redemption of warrants for Class A common stock described in this prospectus under "Description of Securities — Warrants — Public Stockholders' Warrants" should be treated as a "recapitalization" within the meaning of Section 368(a)(1)(E) of the Code. Accordingly, you should not recognize any gain or loss on the redemption of warrants for shares of our Class A common stock. Your aggregate tax basis in the shares of Class A common stock received in the redemption should equal your aggregate tax basis in your warrants redeemed and your holding period for the shares of Class A common stock received in redemption of your warrants should include your holding period for your surrendered warrants.

Gain on Sale, Exchange or Other Taxable Disposition of Class A Common Stock and Warrants

A non-U.S. Holder will generally not be subject to U.S. federal income or withholding tax in respect of gain recognized on a sale, taxable exchange or other taxable disposition of our Class A common stock, which would include a dissolution and liquidation in the event we do not complete an initial business combination within 24 months from the closing of this offering, or warrants (including an expiration or redemption of our warrants), in each case without regard to whether those securities were held as part of a unit, unless:

- the gain is effectively connected with the conduct of a trade or business by the non-U.S. Holder within the United States (and, if an applicable tax treaty so requires, is attributable to a U.S. permanent establishment or fixed base maintained by the non-U.S. Holder);
- the non-U.S. Holder is an individual who is present in the United States for 183 days or more in the taxable year of disposition and certain other conditions are met; or
- we are or have been a "United States real property holding corporation" for U.S. federal income tax purposes at any time during the shorter of the five-year period ending on the date of disposition or the period that the non-U.S. Holder held our Class A common stock, and, in the case where shares of our Class A common stock are regularly traded on an established securities market, the non-U.S. Holder has owned, directly or constructively, more than 5% of our Class A common stock at any time within the shorter of the five-year period preceding the disposition or such non-U.S. Holder's holding period for the shares of our Class A common

stock. There can be no assurance that our Class A common stock will be treated as regularly traded on an established securities market for this purpose.

Gain described in the first bullet point above will be subject to tax at generally applicable U.S. federal income tax rates. Any gains described in the first bullet point above of a non-U.S. Holder that is a foreign corporation may also be subject to an additional "branch profits tax" at a 30% rate (or lower applicable treaty rate). Gain described in the second bullet point above will generally be subject to a flat 30% U.S. federal income tax. Non-U.S. Holders are urged to consult their tax advisors regarding possible eligibility for benefits under income tax treaties.

If the third bullet point above applies to a non-U.S. Holder, gain recognized by such holder on the sale, exchange or other disposition of our Class A common stock or warrants will be subject to tax at generally applicable U.S. federal income tax rates. In addition, a buyer of our Class A common stock or warrants from such holder may be required to withhold U.S. income tax at a rate of 15% of the amount realized upon such disposition. We cannot determine whether we will be a United States real property holding corporation in the future until we complete an initial business combination. We will be classified as a United States real property holding corporation if the fair market value of our "United States real property interests" equals or exceeds 50% of the sum of the fair market value of our worldwide real property interests plus our other assets used or held for use in a trade or business, as determined for U.S. federal income tax purposes. If we are or have been a "United States real property holding corporation" you are urged to consult your own tax advisors regarding the application of these rules.

Possible Constructive Distributions

The terms of each warrant provide for an adjustment to the number of shares of Class A common stock for which the warrant may be exercised or to the exercise price of the warrant in certain events, as discussed in the section of this prospectus captioned "Description of Securities — Warrants — Public Stockholders' Warrants." An adjustment which has the effect of preventing dilution is generally not a taxable event. Nevertheless, a non-U.S. Holder of warrants would be treated as receiving a constructive distribution from us if, for example, the adjustment increases the holder's proportionate interest in our assets or earnings and profits (e.g., through an increase in the number of shares of Class A common stock that would be obtained upon exercise) as a result of a distribution of cash to the holders of shares of our Class A common stock which is taxable to such non-U.S. Holders as described under "— Non-U.S. Holders — Taxation of Distributions" above. A non-U.S. Holder would be subject to U.S. federal income tax withholding under that section in the same manner as if such non-U.S. Holder received a cash distribution from us equal to the fair market value of such increased interest without any corresponding receipt of cash.

Redemption of Class A Common Stock

The characterization for U.S. federal income tax purposes of the redemption of a non-U.S. Holder's Class A common stock pursuant to the redemption provisions described in this prospectus under "Description of Securities — Common Stock" will generally correspond to the U.S. federal income tax characterization of such a redemption of a U.S. Holder's Class A common stock, as described under "— U.S. Holders — Redemption of Class A Common Stock" above, and the consequences of the redemption to the non-U.S. Holder will be as described above under "— Non-U.S. Holders — Taxation of Distributions" and "— Non-U.S. Holders — Gain on Sale, Exchange or Other Taxable Disposition of Class A Common Stock and Warrants," as applicable.

Information Reporting and Backup Withholding

In general, information returns will be filed with the IRS in connection with payments of dividends and the proceeds from a sale or other disposition of our units, shares of common stock and warrants. A non-U.S. holder may have to comply with certification procedures to establish that it is not a United

[Table of Contents](#)

States person in order to avoid information reporting and backup withholding requirements. The certification procedures required to claim a reduced rate of withholding under a treaty will generally satisfy the certification requirements necessary to avoid the backup withholding as well. Backup withholding is not an additional tax. The amount of any backup withholding from a payment to a Non-U.S. holder will be allowed as a credit against such holder's U.S. federal income tax liability and may entitle such holder to a refund, provided that the required information is timely furnished to the IRS.

All non-U.S. holders should consult their tax advisors regarding the application of information reporting and backup withholding rules to them.

Foreign Account Tax Compliance Act

Sections 1471 through 1474 of the Code and the Treasury Regulations and administrative guidance promulgated thereunder (commonly referred as the "Foreign Account Tax Compliance Act" or "FATCA") generally impose withholding at a rate of 30% in certain circumstances on dividends in respect of, and, after December 31, 2018, gross proceeds from the sale or other disposition of, our securities which are held by or through certain foreign financial institutions (including investment funds), unless any such institution (1) enters into, and complies with, an agreement with the IRS to report, on an annual basis, information with respect to interests in, and accounts maintained by, the institution that are owned by certain U.S. persons and by certain non-U.S. entities that are wholly or partially owned by U.S. persons and to withhold on certain payments, or (2) if required under an intergovernmental agreement between the United States and an applicable foreign country, reports such information to its local tax authority, which will exchange such information with the U.S. authorities. An intergovernmental agreement between the United States and an applicable foreign country may modify these requirements. Accordingly, the entity through which our securities are held will affect the determination of whether such withholding is required. Similarly, dividends in respect of, and, after December 31, 2018, gross proceeds from the sale or other disposition of, our securities held by an investor that is a non-financial non-U.S. entity that does not qualify under certain exceptions will generally be subject to withholding at a rate of 30%, unless such entity either (1) certifies to us or the applicable withholding agent that such entity does not have any "substantial United States owners" or (2) provides certain information regarding the entity's "substantial United States owners," which will in turn be provided to the U.S. Department of Treasury. Prospective investors should consult their tax advisors regarding the possible implications of FATCA on their investment in our securities.

UNDERWRITING (CONFLICTS OF INTEREST)

We are offering the units described in this prospectus through the underwriters named below. Cowen and Company, LLC is the representative for the underwriters and is acting as joint book-running manager of the offering. We have entered into an underwriting agreement with the representative. Subject to the terms and conditions of the underwriting agreement, each underwriter has severally agreed to purchase from us, on a firm commitment basis, and we have agreed to sell to such underwriter, the number of units listed next to its name in the following table:

<u>Underwriters</u>	<u>Number of Units</u>
Cowen and Company, LLC	
Total	<u>27,500,000</u>

The underwriting agreement provides that the obligations of the underwriters are subject to certain conditions precedent and that the underwriters have agreed, severally and not jointly, to purchase all of the units sold under the underwriting agreement if any of these units are purchased, other than those units covered by the option described below. If an underwriter defaults, the underwriting agreement provides that the purchase commitments of the non-defaulting underwriters may be increased or the underwriting agreement may be terminated.

We have agreed to indemnify the underwriters against specified liabilities, including liabilities under the Securities Act of 1933, and to contribute to payments the underwriters may be required to make in respect thereof.

The underwriters are offering the units, subject to prior sale, when, as and if issued to and accepted by them, subject to approval of legal matters by their counsel and other conditions specified in the underwriting agreement. The underwriters reserve the right to withdraw, cancel or modify offers to the public and to reject orders in whole or in part.

We have granted to the underwriters an option to purchase up to 4,125,000 additional units at the public offering price, less the underwriting discounts and commissions. This option is exercisable for a period of 45 days. To the extent that the underwriters exercise this option, the underwriters will purchase additional units from us in approximately the same proportion as shown in the table above.

The following table shows the public offering price, underwriting discounts and commissions and proceeds, before expenses to us. These amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase additional units.

	<u>Per Unit</u>		<u>Total⁽¹⁾</u>	
	<u>Without Over-allotment</u>	<u>With Over-allotment</u>	<u>Without Over-allotment</u>	<u>With Over-allotment</u>
Underwriting Discounts and Commissions paid by us	\$ 0.20	\$ 0.20	\$ 5,500,000	\$ 6,325,000

(1) Needham & Company, LLC will receive a fee of \$100,000 from the total underwriting discount in consideration for its services and expenses incurred as a "qualified independent underwriter."

The underwriters propose to offer the units to the public at the public offering price set forth on the cover of this prospectus. The underwriters may offer the units to securities dealers at the public offering price less a concession not in excess of \$ per unit. If all of the units are not sold at the public offering price, the underwriters may change the offering price and other selling terms.

We estimate that the total expenses of the offering, excluding underwriting discounts and commissions, will be approximately \$1,100,000 and are payable by us. We also have agreed to reimburse the underwriters for up to \$25,000 for their FINRA counsel fee. In accordance with FINRA Rule 5110, this reimbursed fee is deemed underwriting compensation for this offering.

Table of Contents

The underwriters do not intend to confirm sales of the units to any accounts over which they have discretionary authority.

In connection with this offering, the underwriters may engage in stabilizing transactions, syndicate covering transactions, penalty bids and purchases to cover positions created by short sales.

- Stabilizing transactions permit bids to purchase units so long as the stabilizing bids do not exceed a specified maximum, and are engaged in for the purpose of preventing or retarding a decline in the market price of the units while the offering is in progress.
- Stabilizing transactions may involve sales by the underwriters of units in excess of the number of units the underwriters are obligated to purchase. This creates a syndicate short position which may be either a covered short position or a naked short position. In a covered short position, the number of units stabilized by the underwriters is not greater than the number of units that they may purchase in the option. In a naked short position, the number of units involved is greater than the number of units in the option. The underwriters may close out any short position by exercising their option and/or purchasing units in the open market.
- Syndicate covering transactions involve purchases of units in the open market after the distribution has been completed in order to cover syndicate short positions. In determining the source of units to close out the short position, the underwriters will consider, among other things, the price of units available for purchase in the open market as compared with the price at which they may purchase units through exercise of the option. If the underwriters sell more units than could be covered by exercise of the option and, therefore, have a naked short position, the position can be closed out only by buying units in the open market. A naked short position is more likely to be created if the underwriters are concerned that after pricing there could be downward pressure on the price of the units in the open market that could adversely affect investors who purchase in the offering.
- Penalty bids permit the representative to reclaim a selling concession from a syndicate member when the units originally sold by that syndicate member are purchased in stabilizing or syndicate covering transactions to cover syndicate short positions.

These stabilizing transactions, syndicate covering transactions and penalty bids may have the effect of raising or maintaining the market price of our units or preventing or retarding a decline in the market price of our units. As a result, the price of our units in the open market may be higher than it would otherwise be in the absence of these transactions. Neither we nor the underwriters make any representation or prediction as to the effect that the transactions described above may have on the price of our units. These transactions may be effected on Nasdaq, in the over-the-counter market or otherwise and, if commenced, may be discontinued at any time.

We, our sponsors and our officers and directors have agreed that we and they will not offer, sell, contract to sell, pledge or grant any option to purchase or otherwise dispose of, directly or indirectly, without the prior written consent of Cowen and Company, LLC for a period of 180 days after the date of this prospectus, any units, warrants, shares of common stock or any other securities convertible into, or exercisable, or exchangeable for, shares of common stock or enter into any swap or other arrangement that transfers to another, in whole or in part, any of the economic consequences of ownership of any units, shares of common stock, warrants or any securities convertible into, or exercisable, or exchangeable for, shares of common stock owned, whether any such transaction is to be settled by delivery of such securities, in cash or otherwise; provided, however, that we may (1) issue and sell the private placement units; (2) issue and sell the additional units to cover our underwriters' over-allotment option (if any); (3) register with the SEC pursuant to an agreement to be entered into concurrently with the issuance and sale of the securities in this offering, the resale of the founder shares, private placement units, the private placement shares, private placement warrants and units that may be issued upon conversion of working capital loans and the shares and warrants

Table of Contents

included therein (and any shares of common stock issuable upon the exercise of the private placement warrants or warrants included in the units issued upon conversion of working capital loans); and (4) issue securities in connection with our initial business combination. However, the foregoing shall not apply to the forfeiture of any founder shares pursuant to their terms or any transfer of founder shares to any current or future independent director of the company (as long as such current or future independent director is subject to the terms of the letter agreement, filed herewith, at the time of such transfer; and as long as, to the extent any Section 16 reporting obligation is triggered as a result of such transfer, any related Section 16 filing includes a practical explanation as to the nature of the transfer). Cowen and Company, LLC in its sole discretion may release any of the securities subject to these lock-up agreements at any time without notice.

Our initial stockholders have agreed not to transfer, assign or sell any of their founder shares until the earlier to occur of: (A) one year after the completion of our initial business combination and (B) subsequent to our initial business combination, (x) the date on which we complete a liquidation, merger, stock exchange, reorganization or other similar transaction that results in all of our public stockholders having the right to exchange their shares of common stock for cash, securities or other property or (y) if the last reported sale price of our Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period commencing at least 150 days after our initial business combination (except as described herein under "Principal Stockholders — Transfers of Founder Shares and Private Placement Units"). Any permitted transferees would be subject to the same restrictions and other agreements of our initial stockholders with respect to any founder shares.

The private placement units (including the underlying private placement warrants, the private placement shares and the shares of Class A common stock issuable upon exercise of the private placement warrants) will not be transferable, assignable or salable until 30 days after the completion of our initial business combination (except with respect to permitted transferees as described in this prospectus under "Principal Stockholders — Transfers of Founder Shares and Private Placement Units").

We expect our units to be listed on Nasdaq under the symbol "FORE" and, once the Class A common stock and warrants begin separate trading, to have our Class A common stock and warrants listed on Nasdaq under the symbols "FORE" and "FOREWS," respectively.

Prior to this offering, there has been no public market for our securities.

The determination of our per unit offering price was more arbitrary than would typically be the case if we were an operating company. Among the factors considered in determining the initial public offering price were the history and prospects of companies whose principal business is the acquisition of other companies, prior offerings of those companies, our management, our capital structure, and currently prevailing general conditions in equity securities markets, including current market valuations of publicly traded companies considered comparable to our company. We cannot assure you, however, that the price at which the units, Class A common stock or warrants will sell in the public market after this offering will not be lower than the initial public offering price or that an active trading market in our units, Class A common stock or warrants will develop and continue after this offering.

Except as described under "— Business Combination Marketing Agreement," we are not under any contractual obligation to engage the underwriters to provide any services for us after this offering, and have no present intent to do so. However, the underwriters may introduce us to potential target businesses or assist us in raising additional capital in the future. If any of the underwriters provide services to us after this offering, we may pay such underwriter fair and reasonable fees that would be determined at that time in an arm's length negotiation; provided that no agreement will be entered into with the underwriters and no fees for such services will be paid to the underwriters prior to the date that

Table of Contents

is 90 days from the date of this prospectus, unless FINRA determines that such payment would not be deemed underwriters' compensation in connection with this offering and we may pay the underwriters of this offering or any entity with which they are affiliated a finder's fee or other compensation for services rendered to us in connection with the completion of a business combination.

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include sales and trading, commercial and investment banking, advisory, investment management, investment research, principal investment, hedging, market making, brokerage and other financial and non-financial activities and services. The underwriters and their affiliates have engaged in, and may in the future engage in, investment banking and other commercial dealings in the ordinary course of business with us or our affiliates. They have received, or may in the future receive, customary fees and commissions for these transactions.

In addition, in the ordinary course of their business activities, the underwriters and their respective affiliates, officers, directors and employees may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of ours or our affiliates. The underwriters and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments.

A prospectus in electronic format may be made available on the web sites maintained by the underwriters, or selling group members, if any, participating in this offering and the underwriters participating in this offering may distribute prospectuses electronically. The representative may agree to allocate a number of units to underwriters and selling group members for sale to their online brokerage account holders. Internet distributions will be allocated by the underwriters and selling group members that will make internet distributions on the same basis as other allocations.

The units are offered for sale in those jurisdictions in the United States, Europe, Asia and elsewhere where it is lawful to make such offers.

The underwriters have represented and agreed that it has not offered, sold or delivered and will not offer, sell or deliver any of the units directly or indirectly, or distribute this prospectus or any other offering material relating to the units, in or from any jurisdiction except under circumstances that will result in compliance with the applicable laws and regulations thereof and that will not impose any obligations or other duties on us except as set forth in the underwriting agreement.

Business Combination Marketing Agreement

We have engaged Cowen & Company, LLC and William Blair & Company, L.L.C. as advisors in connection with our business combination to assist us in holding meetings with our stockholders to discuss the potential business combination and the target business's attributes, introduce us to potential investors that are interested in purchasing our securities in connection with the potential business combination, assist us in obtaining stockholder approval for the business combination and assist us with our press releases and public filings in connection with the business combination. We will pay these advisors the Marketing Fee for such services upon the consummation of our initial business combination in an amount equal to, in the aggregate, 3.5% of the gross proceeds of this offering, including any proceeds from the full or partial exercise of the over-allotment option.

Founder Shares and Private Placement Units

In October 2020, FA Co-Investment purchased 987,725 founder shares. If the over-allotment option is not fully sold, FA Co-Investment will forfeit up to 130,067 founder shares, such that FA Co-Investment will hold 857,658 founder shares if the over-allotment option is not exercised. FA

Table of Contents

Co-Investment (and/or its designee) has also committed to purchase from us 135,135 private placement units (or 150,000 private placement units if the underwriters' over-allotment option is exercised in full) at \$10.00 per unit for an aggregate purchase price of \$1,351,350 (or \$1,500,000 if the over-allotment option is exercised). The private placement units have terms and provisions that are identical to the units sold in this offering except as described under "Description of Securities — Private placement units," including that, subject to certain exceptions, the private placement units will not be transferable, assignable or salable until after the completion of our initial business combination and that, the warrants underlying the private placement units held by FA Co-Investment will not be exercisable more than five years from the commencement of sales in this offering in accordance with FINRA Rule 5110(g)(8). The purchase of the private placement units will take place on a private placement basis simultaneously with the consummation of this offering. Such private placement units and founder shares will be considered underwriting compensation in connection with this offering. Such private placement units and founder shares will be subject to lock-up restrictions, as required by FINRA Rule 5110(e)(1) and may not be sold during the offering, or sold, transferred, assigned, pledged, or hypothecated, or be the subject of any hedging, short sale, derivative, put, or call transaction that would result in the effective economic disposition of such securities by any person for a period of 180 days immediately following the date of effectiveness of the registration statement of which this prospectus forms a part or commencement of sales of the offering, except as provided in FINRA Rule 5110(e)(2).

Affiliations

The underwriters and their respective affiliates are full service financial institutions engaged in various activities, which may include securities trading, commercial and investment banking, financial advisory, investment management, investment research, principal investment, hedging, financing and brokerage activities. The underwriters and their affiliates may from time to time in the future engage with us and perform services for us or in the ordinary course of their business for which they will receive customary fees and expenses. In the ordinary course of their various business activities, the underwriters and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers, and such investment and securities activities may involve securities and/or instruments of us. The underwriters and their respective affiliates may also make investment recommendations and/or publish or express independent research views in respect of these securities or instruments and may at any time hold, or recommend to clients that they acquire, long and/or short positions in these securities and instruments.

Except as described under "— Business Combination Marketing Agreement," we are not under any contractual obligation to engage any of the underwriters to provide any services for us after this offering, and have no present intent to do so. However, any of the underwriters may introduce us to potential target businesses or assist us in raising additional capital in the future. If any of the underwriters provide services to us after this offering, we may pay such underwriter fair and reasonable fees that would be determined at that time in an arm's length negotiation; provided that no agreement will be entered into with any of the underwriters and no fees for such services will be paid to any of the underwriters prior to the date that is 60 days from the date of this prospectus, unless FINRA determines that such payment would not be deemed underwriter's compensation in connection with this offering and we may pay the underwriters of this offering or any entity with which they are affiliated a finder's fee or other compensation for services rendered to us in connection with the completion of a business combination.

Conflicts of Interest

Because FA Co-Investment beneficially owns more than 10% of our outstanding common stock prior to the consummation of this offering, and it is an affiliate of Cowen and Company, LLC, an underwriter in this offering, Cowen and Company, LLC is deemed to have a "conflict of interest" within

the meaning of Rule 5121 of the Financial Industry Regulatory Authority. Accordingly, this offering is being made in compliance with the applicable provisions of FINRA Rule 5121. FINRA Rule 5121 prohibits Cowen and Company, LLC from making sales to discretionary accounts without the prior written approval of the account holder and requires that a “qualified independent underwriter,” as defined in FINRA Rule 5121, participate in the preparation of the registration statement and exercise its usual standards of due diligence with respect thereto. Needham & Company LLC is acting as a “qualified independent underwriter” for this offering and is undertaking the legal responsibilities and liabilities of an underwriter under the Securities Act, which specifically include those inherent in Section 11 thereunder. Needham & Company LLC will receive a fee of \$100,000 for serving as “qualified independent underwriter” in connection with this offering. We have agreed to indemnify Needham & Company, LLC against certain liabilities incurred in connection with acting as a “qualified independent underwriter,” including liabilities under the Securities Act.

Notice to Prospective Investors in Canada

The units may be sold in Canada only to purchasers purchasing, or deemed to be purchasing, as principal that are accredited investors, as defined in National Instrument 45-106—Prospectus Exemptions or subsection 73.3(1) of the Securities Act (Ontario), and are permitted clients, as defined in National Instrument 31-103—Registration Requirements, Exemptions and Ongoing Registrant Obligations. Any resale of the units must be made in accordance with an exemption from, or in a transaction not subject to, the prospectus requirements of applicable securities laws.

Securities legislation in certain provinces or territories of Canada may provide a purchaser with remedies for rescission or damages if this prospectus (including any amendment thereto) contains a misrepresentation, provided that the remedies for rescission or damages are exercised by the purchaser within the time limit prescribed by the securities legislation of the purchaser’s province or territory. The purchaser should refer to any applicable provisions of the securities legislation of the purchaser’s province or territory for particulars of these rights or consult with a legal advisor.

Pursuant to section 3A.3 of National Instrument 33-105—Underwriting Conflicts (NI 33-105), the underwriters are not required to comply with the disclosure requirements of NI 33-105 regarding underwriter conflicts of interest in connection with this offering.

Notice to Prospective Investors in the European Economic Area

In relation to each Member State of the European Economic Area (each, a “Member State”) no units have been offered or will be offered pursuant to the offering to the public in that Member State prior to the publication of a prospectus in relation to the units which has been approved by the competent authority in that Member State or, where appropriate, approved in another Member State and notified to the competent authority in that Member State, all in accordance with the Prospectus Regulation, except that offers of units may be made to the public in that Member State at any time under the following exemptions under the Prospectus Regulation:

- (a) to any legal entity which is a qualified investor as defined in the Prospectus Regulation;
- (b) to fewer than 150 natural or legal persons (other than qualified investors as defined in the Prospectus Regulation), subject to obtaining the prior consent of the representative for any such offer; or
- (c) in any other circumstances falling within Article 1(4) of the Prospectus Regulation.

For the purposes of this provision, the expression an “offer to the public” in relation to any units in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and any units to be offered so as to enable an investor to decide to purchase or subscribe for any units, and the expression “Prospectus Regulation” means Regulation (EU) 2017/1129.

This European Economic Area selling restriction is in addition to any other selling restrictions set out below.

Notice to Prospective Investors in Hong Kong

The units may not be offered or sold in Hong Kong by means of any document other than (i) in circumstances which do not constitute an offer to the public within the meaning of the Companies Ordinance (Cap. 32, Laws of Hong Kong), or (ii) to “professional investors” within the meaning of the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) and any rules made thereunder, or (iii) in other circumstances which do not result in the document being a “prospectus” within the meaning of the Companies Ordinance (Cap. 32, Laws of Hong Kong) and no advertisement, invitation or document relating to the units may be issued or may be in the possession of any person for the purpose of issue (in each case whether in Hong Kong or elsewhere), which is directed at, or the contents of which are likely to be accessed or read by, the public in Hong Kong (except if permitted to do so under the laws of Hong Kong) other than with respect to units which are or are intended to be disposed of only to persons outside Hong Kong or only to “professional investors” within the meaning of the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) and any rules made thereunder.

Notice to Prospective Investors in Israel

This document does not constitute a prospectus under the Israeli Securities Law, 5728-1968 (the “Israel Securities Law”), and has not been filed with or approved by the Israel Securities Authority. In Israel, this prospectus is being distributed only to, and is directed only at, and any offer of the units is directed only at, (i) a limited number of persons in accordance with the Israeli Securities Law and (ii) investors listed in the first addendum (the “Addendum”), to the Israeli Securities Law, consisting primarily of joint investment in trust funds, provident funds, insurance companies, banks, portfolio managers, investment advisors, members of the Tel Aviv Stock Exchange, underwriters, venture capital funds, entities with equity in excess of NIS 50 million and “qualified individuals,” each as defined in the Addendum (as it may be amended from time to time), collectively referred to as qualified investors (in each case, purchasing for their own account or, where permitted under the Addendum, for the accounts of their clients who are investors listed in the Addendum). Qualified investors are required to submit written confirmation that they fall within the scope of the Addendum, are aware of the meaning of same and agree to it.

Notice to Prospective Investors in Japan

The units have not been and will not be registered under the Financial Instruments and Exchange Law of Japan (Law No. 25 of 1948, as amended) and, accordingly, will not be offered or sold, directly or indirectly, in Japan, or for the benefit of any Japanese Person or to others for re-offering or resale, directly or indirectly, in Japan or to any Japanese Person, except in compliance with all applicable laws, regulations and ministerial guidelines promulgated by relevant Japanese governmental or regulatory authorities in effect at the relevant time. For the purposes of this paragraph, “Japanese Person” shall mean any person resident in Japan, including any corporation or other entity organized under the laws of Japan.

Notice to Prospective Investors in Singapore

This prospectus has not been registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this prospectus and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of the units may not be circulated or distributed, nor may the units be offered or sold, or be made the subject of an invitation for subscription or purchase, whether directly or indirectly, to persons in Singapore other than (i) to an institutional investor under Section 274 of the Securities and Futures Act, Chapter 289 of Singapore (the “SFA”), (ii) to a relevant person pursuant to Section 275(1), or any person pursuant to Section 275(1A), and in

Table of Contents

accordance with the conditions specified in Section 275 of the SFA or (iii) otherwise pursuant to, and in accordance with the conditions of, any other applicable provision of the SFA, in each case subject to compliance with conditions set forth in the SFA.

Where the units are subscribed or purchased under Section 275 of the SFA by a relevant person which is (a) a corporation (which is not an accredited investor) the sole business of which is to hold investments and the entire share capital of which is owned by one or more individuals, each of whom is an accredited investor; or (b) a trust (where the trustee is not an accredited investor) whose sole purpose is to hold investments and each beneficiary is an accredited investor, shares, debentures and units of shares and debentures of that corporation or the beneficiaries' rights and interest (howsoever described) in that trust shall not be transferred within six months after that corporation or that trust has acquired the shares pursuant to an offer made under Section 275 of the SFA except:

- to an institutional investor (for corporations, under Section 274 of the SFA) or to a relevant person defined in Section 275(2) of the SFA, or to any person pursuant to an offer that is made on terms that such shares, debentures and units of shares and debentures of that corporation or such rights and interest in that trust are acquired at a consideration of not less than S\$200,000 (or its equivalent in a foreign currency) for each transaction, whether such amount is to be paid for in cash or by exchange of securities or other assets, and further for corporations, in accordance with the conditions specified in Section 275 of the SFA;
- where no consideration is or will be given for the transfer;
- where the transfer is by operation of law; or
- as specified in Section 276(7) of the SFA.

Solely for the purposes of its obligations pursuant to sections 309(B)(1)(c) of the SFA, we have determined, and hereby notify all relevant persons (as defined in Section 309A of the SFA) that the units are "prescribed capital markets products" (as defined in the Securities and Futures (Capital Markets Products) Regulations 2018) and Excluded Investment Products (as defined in MAS Notice SFA 04-N12: Notice on the Sale of Investment Products and MAS Notice FAA-N16: Notice of Recommendations on Investment Products).

Notice to Prospective Investors in the United Kingdom

The underwriters have represented and agreed that:

- (a) they have only communicated or caused to be communicated and will only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of Section 21 of the Financial Services and Markets Act 2000 (FSMA)) received by it in connection with the issue or sale of the units in circumstances in which Section 21(1) of the FSMA does not apply to the company; and
- (b) they have complied and will comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the units in, from or otherwise involving the United Kingdom.

LEGAL MATTERS

Greenberg Traurig, LLP, McLean, Virginia, has passed upon the validity of the securities offered in this prospectus on behalf of us. Nelson Mullins Riley & Scarborough LLP, Washington, DC, advised the underwriters in connection with the offering of the securities.

EXPERTS

The financial statements of Foresight Acquisition Corp. as of October 31, 2020 and for the period from August 20, 2020 (inception) through October 31, 2020 appearing in this prospectus have been audited by Marcum LLP, independent registered public accounting firm, as set forth in their report thereon (which contains an explanatory paragraph relating to substantial doubt about the ability of Foresight Acquisition Corp. to continue as a going concern as described in Note 1 to the financial statements), appearing elsewhere in this prospectus, and are included in reliance on the report of such firm given upon their authority as experts in auditing and accounting.

WHERE YOU CAN FIND ADDITIONAL INFORMATION

We have filed with the SEC a registration statement on Form S-1 under the Securities Act with respect to the securities we are offering by this prospectus. This prospectus does not contain all of the information included in the registration statement. For further information about us and our securities, you should refer to the registration statement and the exhibits and schedules filed with the registration statement. Whenever we make reference in this prospectus to any of our contracts, agreements or other documents, the references are materially complete but may not include a description of all aspects of such contracts, agreements or other documents, and you should refer to the exhibits attached to the registration statement for copies of the actual contract, agreement or other document.

Upon completion of this offering, we will be subject to the information requirements of the Exchange Act and will file annual, quarterly and current event reports, proxy statements and other information with the SEC. You can read our SEC filings, including the registration statement, over the Internet at the SEC's website at www.sec.gov.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Stockholders and the Board of Directors of
Foresight Acquisition Corp.

Opinion on the Financial Statements

We have audited the accompanying balance sheet of Foresight Acquisition Corp. (the "Company") as of October 31, 2020, and the related statements of operations, changes in stockholders' equity and cash flows for the period from August 20, 2020 (inception) through October 31, 2020, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company as of October 31, 2020, and the results of its operations and its cash flows for the period from August 20, 2020 (inception) through October 31, 2020, in conformity with accounting principles generally accepted in the United States of America.

Explanatory Paragraph — Going Concern

The accompanying financial statements have been prepared assuming that the Company will continue as a going concern. As more fully described in Note 1 to the financial statements, the Company's ability to execute its business plan is dependent upon its completion of the proposed initial public offering described in Note 3 to the financial statements. The Company has a working capital deficiency as of October 31, 2020 and lacks the financial resources it needs to sustain operations for a reasonable period of time, which is considered to be one year from the issuance date of the financial statements. These conditions raise substantial doubt about the Company's ability to continue as a going concern. Management's plans with regard to these matters are also described in Notes 1 and 3. The financial statements do not include any adjustments that might become necessary should the Company be unable to continue as a going concern.

Basis for Opinion

These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on the Company's financial statements based on our audit. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) (the "PCAOB") and are required to be independent with respect to the Company in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audit in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Company is not required to have, nor were we engaged to perform, an audit of its internal control over financial reporting. As part of our audit, we are required to obtain an understanding of internal control over financial reporting but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control over financial reporting. Accordingly, we express no such opinion.

Our audit included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our audit also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audit provides a reasonable basis for our opinion.

**FORESIGHT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

NOTE 1 — DESCRIPTION OF ORGANIZATION AND BUSINESS OPERATIONS

Foresight Acquisition Corp. (the “Company”) was incorporated in Delaware on August 20, 2020. The Company was formed for the purpose of effecting a merger, capital stock exchange, asset acquisition, stock purchase, reorganization or similar business combination with one or more businesses (the “Business Combination”). The Company is not limited to a particular industry or sector for purposes of consummating a Business Combination. The Company is an early stage and emerging growth company and, as such, the Company is subject to all of the risks associated with early stage and emerging growth companies.

As of October 31, 2020, the Company had not commenced any operations. All activity for the period from August 20, 2020 (inception) through October 31, 2020 relates to the Company’s formation and the proposed initial public offering (“Proposed Public Offering”), which is described below. The Company will not generate any operating revenues until after the completion of its initial Business Combination, at the earliest. The Company will generate non-operating income in the form of interest income from the proceeds derived from the Proposed Public Offering. The Company has selected December 31 as its fiscal year end.

The Company’s ability to commence operations is contingent upon obtaining adequate financial resources through the Proposed Public Offering of 27,500,000 units (the “Units” and, with respect to the shares of Class A common stock included in the Units being offered, the “Public Shares”) at \$10.00 per Unit (or 31,625,000 Units if the underwriters’ over-allotment option is exercised in full), which is discussed in Note 3, and the sale of an aggregate of 750,000 units (or 832,500 units if the underwriters’ over-allotment option is exercised on full) (each, a “Private Placement Unit” and collectively, the “Private Placement Units”) at a price of \$10.00 per Private Placement Unit in a private placement to Foresight Sponsor Group, LLC (the “Sponsor”) and FA Co-Investment LLC (an affiliate of one of the underwriters of the Proposed Public Offering) (“FA Co-Investment” and, together with the Sponsor, the “Sponsors”), that will close simultaneously with the Proposed Public Offering.

The Company’s management has broad discretion with respect to the specific application of the net proceeds of the Proposed Public Offering and the sale of Private Placement Units, although substantially all of the net proceeds are intended to be applied generally toward consummating a Business Combination. There is no assurance that the Company will be able to complete a Business Combination successfully. The Company must complete one or more initial Business Combinations with one or more operating businesses or assets with a fair market value equal to at least 80% of the net assets held in the Trust Account (as defined below) (excluding taxes payable on the interest earned on the Trust Account). The Company will only complete a Business Combination if the post-transaction company owns or acquires 50% or more of the outstanding voting securities of the target or otherwise acquires a controlling interest in the target business sufficient for it not to be required to register as an investment company under the Investment Company Act of 1940, as amended (the “Investment Company Act”). Upon the closing of the Proposed Public Offering, management has agreed that an amount equal to at least \$10.00 per Unit sold in the Proposed Public Offering, including a portion of the proceeds of the sale of the Private Placement Units, will be held in a trust account (“Trust Account”), located in the United States and invested only in U.S. government securities, within the meaning set forth in Section 2(a)(16) of the Investment Company Act, with a maturity of 185 days or less or in any open-ended investment company that holds itself out as a money market fund selected by the Company meeting certain conditions of Rule 2a-7 of the Investment Company Act, as determined by the Company, until the earlier of: (i) the completion of a Business Combination and (ii) the distribution of the funds held in the Trust Account, as described below.

**FORESIGHT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

The Company will provide the holders of the outstanding Public Shares (the “Public Stockholders”) with the opportunity to redeem all or a portion of their Public Shares upon the completion of a Business Combination either (i) in connection with a stockholder meeting called to approve the Business Combination or (ii) by means of a tender offer. The decision as to whether the Company will seek stockholder approval of a Business Combination or conduct a tender offer will be made by the Company. The Public Stockholders will be entitled to redeem their Public Shares for a pro rata portion of the amount then in the Trust Account (initially anticipated to be \$10.00 per Public Share, plus any pro rata interest then in the Trust Account, net of taxes payable). There will be no redemption rights upon the completion of a Business Combination with respect to the Company’s warrants. The Public Shares subject to redemption will be recorded at a redemption value and classified as temporary equity upon the completion of the Proposed Public Offering in accordance with the Accounting Standards Codification (“ASC”) Topic 480 “Distinguishing Liabilities from Equity.”

The Company will only proceed with a Business Combination if the Company has net tangible assets of at least \$5,000,001 following any related redemptions and, if the Company seeks stockholder approval, a majority of the shares voted are voted in favor of the Business Combination. If a stockholder vote is not required by applicable law or stock exchange listing requirements and the Company does not decide to hold a stockholder vote for business or other reasons, the Company will, pursuant to its Amended and Restated Certificate of Incorporation (the “Certificate of Incorporation”), conduct the redemptions pursuant to the tender offer rules of the U.S. Securities and Exchange Commission (“SEC”) and file tender offer documents with the SEC prior to completing a Business Combination. If, however, stockholder approval of the transaction is required by applicable law or stock exchange listing requirements, or the Company decides to obtain stockholder approval for business or other reasons, the Company will offer to redeem shares in conjunction with a proxy solicitation pursuant to the proxy rules and not pursuant to the tender offer rules. If the Company seeks stockholder approval in connection with a Business Combination, the Sponsors have agreed to vote their Founder Shares (as defined in Note 5), Private Placement Shares (as defined in Note 4) and any Public Shares purchased during or after the Proposed Public Offering in favor of approving a Business Combination. Additionally, each Public Stockholder may elect to redeem their Public Shares without voting, and if they do vote, irrespective of whether they vote for or against the proposed transaction.

If the Company seeks stockholder approval of a Business Combination and it does not conduct redemptions pursuant to the tender offer rules, the Certificate of Incorporation will provide that a Public Stockholder, together with any affiliate of such stockholder or any other person with whom such stockholder is acting in concert or as a “group” (as defined under Section 13 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”)), will be restricted from redeeming its shares with respect to more than an aggregate of 15% of the Public Shares, without the prior consent of the Company.

The Sponsors have agreed (a) to waive their redemption rights with respect to the Founder Shares, Private Placement Shares and Public Shares held by them in connection with the completion of a Business Combination, (b) to waive their liquidation rights with respect to the Founder Shares and Private Placement Shares if the Company fails to complete a Business Combination within 24 months from the closing of the Proposed Public Offering (as such period may be extended, the “Combination Period”) and (b) not to propose an amendment to the Certificate of Incorporation (i) to modify the substance or timing of the Company’s obligation to allow redemptions in connection with a Business Combination or to redeem 100% of its Public Shares if the Company does not complete a Business Combination within the Combination Period or (ii) with respect to any other provision relating to stockholders’ rights or pre-business combination activity, unless the Company provides the Public

**FORESIGHT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

Stockholders with the opportunity to redeem their Public Shares in conjunction with any such amendment. However, if the Sponsors acquire Public Shares in or after the Proposed Public Offering, such Public Shares will be entitled to liquidating distributions from the Trust Account if the Company fails to complete a Business Combination within the Combination Period.

If the Company has not completed a Business Combination within the Combination Period, the Company will (i) cease all operations except for the purpose of winding up, (ii) as promptly as reasonably possible but not more than ten business days thereafter, redeem the Public Shares, at a per-share price, payable in cash, equal to the aggregate amount then on deposit in the Trust Account, including interest (net of permitted withdrawals and less up to \$100,000 of interest to pay dissolution expenses), divided by the number of then outstanding Public Shares, which redemption will completely extinguish Public Stockholders' rights as stockholders (including the right to receive further liquidating distributions, if any), and (iii) as promptly as reasonably possible following such redemption, subject to the approval of the Company's remaining stockholders and the Company's board of directors, dissolve and liquidate, subject in each case to the Company's obligations under Delaware law to provide for claims of creditors and the requirements of other applicable law. There will be no redemption rights or liquidating distributions with respect to the Company's warrants, which will expire worthless if the Company fails to complete a Business Combination within the Combination Period.

In order to protect the amounts held in the Trust Account, the Sponsor has agreed to be liable to the Company if and to the extent any claims by a third party for services rendered or products sold to the Company, or a prospective target business with which the Company has discussed entering into a transaction agreement, reduce the amount of funds in the Trust Account to below the lesser of (i) \$10.00 per Public Share and (ii) the actual amount per Public Share held in the Trust Account as of the date of the liquidation of the Trust Account, if less than \$10.00 per public Share due to reductions in the value of the trust assets, less taxes payable, provided that such liability will not apply to any claims by a third party or prospective target business who executed a waiver of any and all rights to monies held in the Trust Account nor will it apply to any claims under the Company's indemnity of the underwriters of the Proposed Public Offering against certain liabilities, including liabilities under the Securities Act of 1933, as amended (the "Securities Act"). Moreover, in the event that an executed waiver is deemed to be unenforceable against a third party, the Sponsor will not be responsible to the extent of any liability for such third-party claims. The Company will seek to reduce the possibility that the Sponsor will have to indemnify the Trust Account due to claims of creditors by endeavoring to have all vendors, service providers (except for the Company's independent registered accounting firm), prospective target businesses and other entities with which the Company does business, execute agreements with the Company waiving any right, title, interest or claim of any kind in or to monies held in the Trust Account.

Going Concern Consideration

At October 31, 2020, the Company had \$295,000 in cash and a working capital deficit of \$5,479. The Company has incurred and expects to continue to incur significant costs in pursuit of its financing and acquisition plans. These conditions raise substantial doubt about the Company's ability to continue as a going concern within one year after the date that the financial statements are issued. Management plans to address this uncertainty through a Proposed Public Offering as discussed in Note 3. There is no assurance that the Company's plans to raise capital or to consummate a Business Combination will be successful within the Combination Period. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

**FORESIGHT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

Note 2 — Summary of Significant Accounting Policies

Basis of Presentation

The accompanying audited financial statements are presented in conformity with accounting principles generally accepted in the United States of America (“GAAP”) and pursuant to the rules and regulations of the SEC.

The Company does not have sufficient liquidity to meet its anticipated obligations over the next year from the date of issuance of these financial statements. In connection with the Company’s assessment of going concern considerations in accordance with Accounting Standards Update (“ASU”) 2014-15, “Disclosures of Uncertainties about an Entity’s Ability to Continue as a Going Concern,” management has determined that the Company has access to funds from the Sponsor that are sufficient to fund the working capital needs of the Company until the earlier of the consummation of the Proposed Public Offering or one year from the date of issuance of these financial statements.

Emerging Growth Company

The Company is an “emerging growth company,” as defined in Section 2(a) of the Securities Act of 1933, as amended (the “Securities Act”), as modified by the Jumpstart Our Business Startups Act of 2012 (the “JOBS Act”), and it may take advantage of certain exemptions from various reporting requirements that are applicable to other public companies that are not emerging growth companies including, but not limited to, not being required to comply with the independent registered public accounting firm attestation requirements of Section 404 of the Sarbanes-Oxley Act, reduced disclosure obligations regarding executive compensation in its periodic reports and proxy statements, and exemptions from the requirements of holding a nonbinding advisory vote on executive compensation and stockholder approval of any golden parachute payments not previously approved.

Further, Section 102(b)(1) of the JOBS Act exempts emerging growth companies from being required to comply with new or revised financial accounting standards until private companies (that is, those that have not had a Securities Act registration statement declared effective or do not have a class of securities registered under the Exchange Act) are required to comply with the new or revised financial accounting standards. The JOBS Act provides that a company can elect to opt out of the extended transition period and comply with the requirements that apply to non-emerging growth companies but any such election to opt out is irrevocable. The Company has elected not to opt out of such extended transition period which means that when a standard is issued or revised and it has different application dates for public or private companies, the Company, as an emerging growth company, can adopt the new or revised standard at the time private companies adopt the new or revised standard. This may make comparison of the Company’s financial statements with another public company which is neither an emerging growth company nor an emerging growth company which has opted out of using the extended transition period difficult or impossible because of the potential differences in accounting standards used.

Use of Estimates

The preparation of financial statements in conformity with GAAP requires the Company’s management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of expenses during the reporting period.

Making estimates requires management to exercise significant judgment. It is at least reasonably possible that the estimate of the effect of a condition, situation or set of circumstances that existed at

**FORESIGHT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

the date of the financial statements, which management considered in formulating its estimate, could change in the near term due to one or more future confirming events. Accordingly, the actual results could differ significantly from those estimates.

Deferred Offering Costs

Deferred offering costs consist of legal, accounting and other costs incurred through the balance sheet date that are directly related to the Proposed Public Offering and that will be charged to stockholders' equity upon the completion of the Proposed Public Offering. Should the Proposed Public Offering prove to be unsuccessful, these deferred costs, as well as additional expenses to be incurred, will be charged to operations.

Income Taxes

The Company follows the asset and liability method of accounting for income taxes under ASC 740, "Income Taxes." Deferred tax assets and liabilities are recognized for the estimated future tax consequences attributable to differences between the financial statements carrying amounts of existing assets and liabilities and their respective tax bases. Deferred tax assets and liabilities are measured using enacted tax rates expected to apply to taxable income in the years in which those temporary differences are expected to be recovered or settled. The effect on deferred tax assets and liabilities of a change in tax rates is recognized in income in the period that included the enactment date. Valuation allowances are established, when necessary, to reduce deferred tax assets to the amount expected to be realized. The Company's deferred tax assets were deemed to be de minimis as of October 31, 2020.

ASC 740 prescribes a recognition threshold and a measurement attribute for the financial statement recognition and measurement of tax positions taken or expected to be taken in a tax return. For those benefits to be recognized, a tax position must be more likely than not to be sustained upon examination by taxing authorities. The Company recognizes accrued interest and penalties related to unrecognized tax benefits as income tax expense. There were no unrecognized tax benefits and no amounts accrued for interest and penalties as of October 31, 2020. The Company is currently not aware of any issues under review that could result in significant payments, accruals or material deviation from its position. The Company is subject to income tax examinations by major taxing authorities since inception.

The provision for income taxes was deemed to be de minimis for the period from August 20, 2020 (inception) through October 31, 2020.

Net Loss per Common Share

Net loss per share is computed by dividing net loss by the weighted average number of shares of common stock outstanding during the period, excluding shares of common stock subject to forfeiture by the Sponsors. Weighted average shares were reduced for the effect of an aggregate of 1,031,250 shares of Class B common stock that are subject to forfeiture if the over-allotment option is not exercised by the underwriters (see Note 5). At October 31, 2020, the Company did not have any dilutive securities and other contracts that could, potentially, be exercised or converted into shares of common stock and then share in the earnings of the Company. As a result, diluted loss per share is the same as basic loss per share for the period presented.

**FORESIGHT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

Concentration of Credit Risk

Financial instruments that potentially subject the Company to concentrations of credit risk consist of a cash account in a financial institution, which, at times, may exceed the Federal Depository Insurance Coverage of \$250,000. The Company has not experienced losses on this account.

Fair Value of Financial Instruments

The fair value of the Company's assets and liabilities, which qualify as financial instruments under ASC 820, "Fair Value Measurement," approximates the carrying amounts represented in the balance sheet, primarily due to their short-term nature.

Recent Accounting Standards

Management does not believe that any recently issued, but not yet effective, accounting standards, if currently adopted, would have a material effect on the Company's financial statements.

Note 3 — Proposed Public Offering

Pursuant to the Proposed Public Offering, the Company intends to offer for sale 27,500,000 Units (or 31,625,000 Units if the underwriters' over-allotment option is exercised in full) at a price of \$10.00 per Unit. Each Unit will consist of one share of Class A common stock and one-third of one redeemable warrant ("Public Warrant"). Each whole Public Warrant will entitle the holder to purchase one share of Class A common stock at a price of \$11.50 per share, subject to adjustment (see Note 7).

Note 4 — Private Placement

The Sponsors have agreed to purchase an aggregate of 750,000 Private Placement Units (or 832,500 Private Placement Units if the over-allotment option is exercised in full) at a price of \$10.00 per Private Placement Unit, for an aggregate purchase price of \$7,500,000 (or \$8,325,000 if the over-allotment option is exercised in full), in a private placement that will occur simultaneously with the closing of the Proposed Public Offering. Each Private Placement Unit will consist of one share of Class A common stock ("Private Placement Share" or, collectively, "Private Placement Shares") and one-third of one warrant (each, a "Private Placement Warrant"). Each whole Private Placement Warrant is exercisable to purchase one share of Class A common stock at a price of \$11.50 per share, subject to adjustment. A portion of the proceeds from the sale of the Private Placement Units will be added to the proceeds from the Proposed Public Offering to be held in the Trust Account.

Note 5 — Related Party Transactions

Founder Shares

In October 2020, the Sponsors purchased an aggregate of 7,906,250 shares (the "Founder Shares") of the Company's Class B common stock for an aggregate price of \$25,000. The Founder Shares include an aggregate of up to 1,031,250 shares subject to forfeiture to the extent that the underwriters' over-allotment option is not exercised in full or in part, so that the number of Founder Shares will equal 20% of the Company's issued and outstanding shares after the Proposed Public Offering (not including the Private Placement Shares).

The Sponsors have agreed, subject to limited exceptions, not to transfer, assign or sell any of the Founder Shares until the earlier to occur of: (A) one year after the completion of a Business Combination and (B) subsequent to a Business Combination, (x) if the last sale price of the Class A common stock equals or exceeds \$12.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within any 30-trading day period

**FORESIGHT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

commencing at least 150 days after a Business Combination, or (y) the date on which the Company completes a liquidation, merger, capital stock exchange or other similar transaction that results in all of the Public Stockholders having the right to exchange their shares of common stock for cash, securities or other property.

Promissory Notes — Related Parties

On October 22, 2020 and October 27, 2020, the Sponsors issued unsecured promissory notes to the Company (the “Promissory Notes”), pursuant to which the Company may borrow up to an aggregate principal amount of \$300,000. The Promissory Notes are non-interest bearing and payable on the earlier of (i) March 31, 2021 or (ii) the consummation of the Proposed Public Offering. As of October 31, 2020, there were \$275,000 outstanding under the Promissory Notes.

Related Party Loans

In addition, in order to fund working capital deficiencies or finance transaction costs in connection with a Business Combination, the Sponsor or an affiliate of the Sponsor, or certain of the Company’s officers and directors may, but are not obligated to, loan the Company funds as may be required (“Working Capital Loans”). If the Company completes a Business Combination, the Company may repay the Working Capital Loans out of the proceeds of the Trust Account released to the Company. Otherwise, the Working Capital Loans may be repaid only out of funds held outside the Trust Account. In the event that a Business Combination does not close, the Company may use a portion of proceeds held outside the Trust Account to repay the Working Capital Loans but no proceeds held in the Trust Account would be used to repay the Working Capital Loans. The Working Capital Loans would either be repaid upon consummation of a Business Combination, without interest, or, at the lender’s discretion, up to \$1,500,000 of such Working Capital Loans may be convertible into units upon consummation of the Business Combination at a price of \$10.00 per unit. The units would be identical to the Private Placement Units. Except for the foregoing, the terms of such Working Capital Loans, if any, have not been determined and no written agreements exist with respect to such loans. As of October 31, 2020, there were no amounts outstanding under the Working Capital Loans.

Administrative Support Agreement

The Company will enter into an agreement, commencing on the effective date of the Proposed Public Offering through the earlier of the Company’s consummation of a Business Combination and its liquidation, to pay the Sponsor a total of up to \$10,000 per month for office space, administrative and support services.

Note 6 — Commitments and Contingencies

Risks and Uncertainties

Management is currently evaluating the impact of the COVID-19 pandemic and has concluded that while it is reasonably possible that the virus could have a negative effect on the Company’s financial position, results of its operations, close of the Proposed Public Offering and/or search for a target company, the specific impact is not readily determinable as of the date of these financial statements. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

Registration Rights

The holders of the Founder Shares, Private Placement Units (including securities contained therein) and units (including securities contained therein) that may be issued upon conversion of Working

**FORESIGHT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

Capital Loans, and any shares of Class A common stock issuable upon the exercise of the Private Placement Warrants or upon the exercise of any warrants included within units issued upon conversion of Working Capital Loans will be entitled to registration rights pursuant to a registration rights agreement to be signed prior to or on the effective date of the Proposed Public Offering requiring the Company to register such securities for resale (in the case of the Founder Shares, only after conversion to shares of Class A common stock). The holders of these securities will be entitled to make up to three demands, excluding short form registration demands, that the Company register such securities. In addition, the holders have certain "piggy-back" registration rights with respect to registration statements filed subsequent to the completion of a Business Combination and rights to require the Company to register for resale such securities pursuant to Rule 415 under the Securities Act. Notwithstanding the foregoing, FA Co-Investment may not exercise its demand or "piggyback" registration rights after five and seven years, respectively, after the effective date of the registration statement of which this prospectus forms a part and may not exercise its demand rights on more than one occasion. The registration rights agreement does not contain liquidated damages or other cash settlement provisions resulting from delays in registering the Company's securities. The Company will bear the expenses incurred in connection with the filing of any such registration statements.

Underwriting Agreement

The Company will grant the underwriters a 45-day option from the date of Proposed Public Offering to purchase up to 4,125,000 additional Units to cover over-allotments, if any, at the Proposed Public Offering price less the underwriting discounts and commissions.

The underwriters will be entitled to a cash underwriting discount of \$0.20 per Unit, or \$5,500,000 in the aggregate (or \$6,325,000 if the underwriters' over-allotment option is exercised in full), payable upon the closing of the Proposed Public Offering.

Business Combination Marketing Agreement

The Company intends to engage the underwriters to act as advisors in connection with its Business Combination to assist the Company in holding meetings with its stockholders to discuss the potential Business Combination and the target business's attributes, introduce the Company to potential investors that are interested in purchasing the Company's securities in connection with the potential Business Combination, assist in obtaining stockholder approval for the Business Combination and assist with the Company's press releases and public filings in connection with the Business Combination. The Company will pay the underwriters a fee for such services upon the consummation of its Business Combination in an amount equal to, in the aggregate, 3.5% of the gross proceeds of the Proposed Public Offering, including any proceeds from the full or partial exercise of the over-allotment option.

Note 7 — Stockholders' Equity

Preferred Stock — The Company is authorized to issue 1,000,000 shares of preferred stock with a par value of \$0.0001 per share with such designations, voting and other rights and preferences as may be determined from time to time by the Company's board of directors. At October 31, 2020, there were no shares of preferred stock issued or outstanding.

Class A Common Stock — The Company is authorized to issue 200,000,000 shares of Class A common stock with a par value of \$0.0001 per share. Holders of Class A common stock are entitled to one vote for each share. At October 31, 2020, there were no shares of Class A common stock issued or outstanding.

**FORESIGHT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

Class B Common Stock — The Company is authorized to issue 20,000,000 shares of Class B common stock with a par value of \$0.0001 per share. Holders of Class B common stock are entitled to one vote for each share. At October 31, 2020, there were 7,906,250 shares of Class B common stock issued and outstanding, of which an aggregate of up to 1,031,250 shares are subject to forfeiture to the extent that the underwriters' over-allotment option is not exercised in full or in part, so that the number of shares of Class B common stock will equal 20% of the Company's issued and outstanding common stock after the Proposed Public Offering (not including the Private Placement Shares).

Prior to the Company's initial Business Combination, holders of Class B common stock will have the right to elect all of the Company's directors and may remove members of the Company's board of directors for any reason. On any other matter submitted to a vote of the Company's stockholders, holders of Class A common stock and holders of Class B common stock will vote together as a single class, except as otherwise required by law.

The shares of Class B common stock will automatically convert into Class A common stock at the time of a Business Combination, or earlier at the option of the holder, on a one-for-one basis, subject to adjustment. In the case that additional shares of Class A common stock, or equity-linked securities, are issued or deemed issued in excess of the amounts issued in the Proposed Public Offering and related to the closing of a Business Combination, the ratio at which shares of Class B common stock shall convert into shares of Class A common stock will be adjusted (unless the holders of a majority of the outstanding shares of the Class B common stock agree to waive such anti-dilution adjustment with respect to any such issuance or deemed issuance) so that the number of shares of Class A common stock issuable upon conversion of all shares of Class B common stock will equal, in the aggregate, on an as-converted basis, 20% of the total number of all shares of common stock outstanding upon completion of the Proposed Public Offering (not including the shares of Class A common stock underlying the Private Placement Units) plus all shares of Class A common stock and equity-linked securities issued or deemed issued in connection with a Business Combination (net of the number of shares of Class A common stock redeemed in connection with a Business Combination), excluding any shares or equity-linked securities issued, or to be issued, to any seller in a Business Combination.

Warrants — Public Warrants may only be exercised for a whole number of shares. No fractional warrants will be issued upon separation of the Units and only whole warrants will trade. The Public Warrants will become exercisable on the later of (a) 30 days after the completion of a Business Combination and (b) 12 months from the closing of the Proposed Public Offering. The Public Warrants will expire five years after the completion of a Business Combination or earlier upon redemption or liquidation.

The Company will not be obligated to deliver any shares of Class A common stock pursuant to the exercise of a warrant and will have no obligation to settle such warrant exercise unless a registration statement under the Securities Act with respect to the Class A common stock underlying the warrants is then effective and a current prospectus relating thereto is current, subject to the Company satisfying its obligations with respect to registration. No warrant will be exercisable and the Company will not be obligated to issue shares of Class A common stock upon exercise of a warrant unless the shares of Class A common stock issuable upon such warrant exercise has been registered, qualified or deemed to be exempt under the securities laws of the state of residence of the registered holder of the warrants.

The Company has agreed that as soon as practicable, but in no event later than 20 business days after the closing a Business Combination, the Company will use its commercially reasonable efforts to file

**FORESIGHT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

with the SEC, and within 60 business days following a Business Combination to have declared effective, a registration statement covering the issuance of the shares of Class A common stock issuable upon exercise of the warrants and to maintain a current prospectus relating to those shares of Class A common stock until the warrants expire or are redeemed. Notwithstanding the above, if the Class A common stock is at the time of any exercise of a warrant not listed on a national securities exchange such that it satisfies the definition of a "covered security" under Section 18(b)(1) of the Securities Act, the Company may, at its option, require holders of Public Warrants who exercise their warrants to do so on a "cashless basis" in accordance with Section 3(a)(9) of the Securities Act and, in the event the Company so elect, the Company will not be required to file or maintain in effect a registration statement, but will use its commercially reasonable efforts to register or qualify the shares under applicable blue sky laws to the extent an exemption is not available.

Redemption of warrants when the price per Class A ordinary share equals or exceeds \$18.00. Once the warrants become exercisable, the Company may redeem the outstanding warrants (except as described herein with respect to the Private Placement Warrants):

- in whole and not in part;
- at a price of \$0.01 per warrant;
- upon a minimum of 30 days' prior written notice of redemption (the "30-day redemption period") to each warrant holder; and
- if, and only if, the last reported sale price of the Class A common stock equals or exceeds \$18.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) for any 20 trading days within a 30-trading day period ending on the third trading day prior to the date on which the Company sends the notice of redemption to the warrant holders.

If and when the warrants become redeemable by the Company, the Company may exercise its redemption right even if it is unable to register or qualify the underlying securities for sale under all applicable state securities laws.

Redemption of warrants when the price per Class A ordinary share equals or exceeds \$10.00. Commencing ninety days after the warrants become exercisable, the Company may redeem the outstanding warrants (except as described herein with respect to the Private Placement Units):

- in whole and not in part;
- at a price of \$0.10 per warrant provided that holders will be able to exercise their warrants prior to redemption and receive that number of shares of Class A common stock determined based on the redemption date and the fair market value of the Class A common stock;
- upon a minimum of 30 days' prior written notice of redemption;
- if, and only if, the last reported sale price of our Class A common stock equals or exceeds \$10.00 per share (as adjusted for stock splits, stock dividends, reorganizations, recapitalizations and the like) on the trading day prior to the date on which the Company sends the notice of redemption to the warrant holders; and
- if, and only if, there is an effective registration statement covering the issuance of the shares of Class A common stock issuable upon exercise of the warrants and a current prospectus relating thereto available throughout the 30-day period after written notice of redemption is given.

**FORESIGHT ACQUISITION CORP.
NOTES TO FINANCIAL STATEMENTS**

If the Company calls the Public Warrants for redemption, as described above, its management will have the option to require any holder that wishes to exercise the Public Warrants to do so on a "cashless basis," as described in the warrant agreement. The exercise price and number of ordinary shares issuable upon exercise of the Public Warrants may be adjusted in certain circumstances including in the event of a share dividend, extraordinary dividend or recapitalization, reorganization, merger or consolidation. However, except as described below, the Public Warrants will not be adjusted for issuances of ordinary shares at a price below its exercise price. Additionally, in no event will the Company be required to net cash settle the Public Warrants. If the Company is unable to complete a Business Combination within the Combination Period and the Company liquidates the funds held in the Trust Account, holders of Public Warrants will not receive any of such funds with respect to their Public Warrants, nor will they receive any distribution from the Company's assets held outside of the Trust Account with respect to such Public Warrants. Accordingly, the Public Warrants may expire worthless.

In addition, if (x) the Company issues additional shares of Class A common stock or equity-linked securities for capital raising purposes in connection with the closing of a Business Combination at an issue price or effective issue price of less than \$9.20 per share of Class A common stock (with such issue price or effective issue price to be determined in good faith by the Company's board of directors, and, in the case of any such issuance to the Sponsor or its affiliates, without taking into account any Founder Shares held by the Sponsor or its affiliates, as applicable, prior to such issuance) (the "Newly Issued Price"), (y) the aggregate gross proceeds from such issuances represent more than 60% of the total equity proceeds, and interest thereon, available for the funding of a Business Combination on the date of the completion of a Business Combination (net of redemptions), and (z) the volume weighted average trading price of the Company's Class A common stock during the 20 trading day period starting on the trading day after the day on which the Company completes a Business Combination (such price, the "Market Value") is below \$9.20 per share, the exercise price of the warrants will be adjusted (to the nearest cent) to be equal to 115% of the greater of the Market Value and the Newly Issued Price, and the \$18.00 per share redemption trigger price will be adjusted (to the nearest cent) to be equal to 180% of the greater of the Market Value and the Newly Issued Price.

The Private Placement Warrants will be identical to the Public Warrants underlying the Units being sold in the Proposed Public Offering, except that the Private Placement Warrants and the Class A ordinary shares issuable upon the exercise of the Private Placement Warrants will not be transferable, assignable or saleable after the completion of a Business Combination, subject to certain limited exceptions. Additionally, the Private Placement Warrants will be exercisable on a cashless basis and be non-redeemable, so long as they are held by the initial purchasers or their permitted transferees. If the Private Placement Warrants are held by someone other than the initial purchasers or their permitted transferees, the Private Placement Warrants will be redeemable by the Company and exercisable by such holders on the same basis as the Public Warrants.

Note 8 — Subsequent Events

The Company evaluated subsequent events and transactions that occurred after the balance sheet date up to November 19, 2020, the date that the financial statements were issued. Based upon this review, the Company did not identify any subsequent events that would have required adjustment or disclosure in the financial statements.

PRELIMINARY PROSPECTUS

Book-Running Manager

Cowen

, 2021

Until _____, 2021, all dealers that effect transactions in these securities, whether or not participating in this offering, may be required to deliver a prospectus. This is in addition to the dealer's obligation to deliver a prospectus when acting as an underwriter and with respect to unsold allotments or subscriptions.

PART II

INFORMATION NOT REQUIRED IN PROSPECTUS

Item 13. Other Expenses of Issuance and Distribution.

The estimated expenses payable by us in connection with the offering described in this registration statement (other than the underwriting discount and commissions) will be as follows:

SEC expenses	\$ 34,503
FINRA expenses	47,938
Accounting fees and expenses	49,000
Printing and engraving expenses	30,000
Travel and road show expenses	5,000
Directors and officers insurance premiums ⁽¹⁾	550,000
Legal fees and expenses	300,000
NASDAQ listing and filing fees	75,000
Miscellaneous	8,559
Total	<u>\$ 1,100,000</u>

- (1) This amount represents the approximate amount of annual director and officer liability insurance premiums the registrant anticipates paying following the completion of its initial public offering and until it completes a business combination.

Item 14. Indemnification of Directors and Officers.

Our amended and restated certificate of incorporation will provide that all of our directors, officers, employees and agents shall be entitled to be indemnified by us to the fullest extent permitted by Section 145 of the Delaware General Corporation Law, or the DGCL. Section 145 of the DGCL concerning indemnification of officers, directors, employees and agents is set forth below.

Section 145. Indemnification of officers, directors, employees and agents; insurance.

(a) A corporation shall have power to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (other than an action by or in the right of the corporation) by reason of the fact that the person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, against expenses (including attorneys' fees), judgments, fines and amounts paid in settlement actually and reasonably incurred by the person in connection with such action, suit or proceeding if the person acted in good faith and in a manner the person reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had no reasonable cause to believe the person's conduct was unlawful. The termination of any action, suit or proceeding by judgment, order, settlement, conviction, or upon a plea of nolo contendere or its equivalent, shall not, of itself, create a presumption that the person did not act in good faith and in a manner which the person reasonably believed to be in or not opposed to the best interests of the corporation, and, with respect to any criminal action or proceeding, had reasonable cause to believe that the person's conduct was unlawful.

(b) A corporation shall have power to indemnify any person who was or is a party or is threatened to be made a party to any threatened, pending or completed action or suit by or in the right of the

Table of Contents

corporation to procure a judgment in its favor by reason of the fact that the person is or was a director, officer, employee or agent of the corporation, or is or was serving at the request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against expenses (including attorneys' fees) actually and reasonably incurred by the person in connection with the defense or settlement of such action or suit if the person acted in good faith and in a manner the person reasonably believed to be in or not opposed to the best interests of the corporation and except that no indemnification shall be made in respect of any claim, issue or matter as to which such person shall have been adjudged to be liable to the corporation unless and only to the extent that the Court of Chancery or the court in which such action or suit was brought shall determine upon application that, despite the adjudication of liability but in view of all the circumstances of the case, such person is fairly and reasonably entitled to indemnity for such expenses which the Court of Chancery or such other court shall deem proper.

(c) To the extent that a present or former director or officer of a corporation has been successful on the merits or otherwise in defense of any action, suit or proceeding referred to in subsections (a) and (b) of this section, or in defense of any claim, issue or matter therein, such person shall be indemnified against expenses (including attorneys' fees) actually and reasonably incurred by such person in connection therewith.

(d) Any indemnification under subsections (a) and (b) of this section (unless ordered by a court) shall be made by the corporation only as authorized in the specific case upon a determination that indemnification of the present or former director, officer, employee or agent is proper in the circumstances because the person has met the applicable standard of conduct set forth in subsections (a) and (b) of this section. Such determination shall be made, with respect to a person who is a director or officer at the time of such determination, (1) by a majority vote of the directors who are not parties to such action, suit or proceeding, even though less than a quorum, or (2) by a committee of such directors designated by majority vote of such directors, even though less than a quorum, or (3) if there are no such directors, or if such directors so direct, by independent legal counsel in a written opinion, or (4) by the stockholders.

(e) Expenses (including attorneys' fees) incurred by an officer or director in defending any civil, criminal, administrative or investigative action, suit or proceeding may be paid by the corporation in advance of the final disposition of such action, suit or proceeding upon receipt of an undertaking by or on behalf of such director or officer to repay such amount if it shall ultimately be determined that such person is not entitled to be indemnified by the corporation as authorized in this section. Such expenses (including attorneys' fees) incurred by former officers and directors or other employees and agents may be so paid upon such terms and conditions, if any, as the corporation deems appropriate.

(f) The indemnification and advancement of expenses provided by, or granted pursuant to, the other subsections of this section shall not be deemed exclusive of any other rights to which those seeking indemnification or advancement of expenses may be entitled under any bylaw, agreement, vote of stockholders or disinterested directors or otherwise, both as to action in such person's official capacity and as to action in another capacity while holding such office. A right to indemnification or to advancement of expenses arising under a provision of the certificate of incorporation or a bylaw shall not be eliminated or impaired by an amendment to such provision after the occurrence of the act or omission that is the subject of the civil, criminal, administrative or investigative action, suit or proceeding for which indemnification or advancement of expenses is sought, unless the provision in effect at the time of such act or omission explicitly authorizes such elimination or impairment after such action or omission has occurred.

(g) A corporation shall have power to purchase and maintain insurance on behalf of any person who is or was a director, officer, employee or agent of the corporation, or is or was serving at the

Table of Contents

request of the corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise against any liability asserted against such person and incurred by such person in any such capacity, or arising out of such person's status as such, whether or not the corporation would have the power to indemnify such person against such liability under this section.

(h) For purposes of this section, references to "the corporation" shall include, in addition to the resulting corporation, any constituent corporation (including any constituent of a constituent) absorbed in a merger or consolidation which, if its separate existence had continued, would have had power and authority to indemnify its directors, officers, and employees or agents, so that any person who is or was a director, officer, employee or agent of such constituent corporation, or is or was serving at the request of such constituent corporation as a director, officer, employee or agent of another corporation, partnership, joint venture, trust or other enterprise, shall stand in the same position under this section with respect to the resulting or surviving corporation as such person would have with respect to such constituent corporation if its separate existence had continued.

(i) For purposes of this section, references to "other enterprises" shall include employee benefit plans; references to "fines" shall include any excise taxes assessed on a person with respect to any employee benefit plan; and references to "serving at the request of the corporation" shall include any service as a director, officer, employee or agent of the corporation which imposes duties on, or involves services by, such director, officer, employee or agent with respect to an employee benefit plan, its participants or beneficiaries; and a person who acted in good faith and in a manner such person reasonably believed to be in the interest of the participants and beneficiaries of an employee benefit plan shall be deemed to have acted in a manner "not opposed to the best interests of the corporation" as referred to in this section.

(j) The indemnification and advancement of expenses provided by, or granted pursuant to, this section shall, unless otherwise provided when authorized or ratified, continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of the heirs, executors and administrators of such a person.

(k) The Court of Chancery is hereby vested with exclusive jurisdiction to hear and determine all actions for advancement of expenses or indemnification brought under this section or under any by law, agreement, vote of stockholders or disinterested directors, or otherwise. The Court of Chancery may summarily determine a corporation's obligation to advance expenses (including attorneys' fees).

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to our directors, officers, and controlling persons pursuant to the foregoing provisions, or otherwise, we have been advised that, in the opinion of the SEC, such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment of expenses incurred or paid by a director, officer or controlling person in a successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, we will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to the court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

In accordance with Section 102(b)(7) of the DGCL, our amended and restated certificate of incorporation, will provide that no director shall be personally liable to us or any of our stockholders for monetary damages resulting from breaches of their fiduciary duty as directors, except to the extent such limitation on or exemption from liability is not permitted under the DGCL. The effect of this provision of our amended and restated certificate of incorporation is to eliminate our rights and those of our stockholders (through stockholders' derivative suits on our behalf) to recover monetary damages

Table of Contents

against a director for breach of the fiduciary duty of care as a director, including breaches resulting from negligent or grossly negligent behavior, except, as restricted by Section 102(b)(7) of the DGCL. However, this provision does not limit or eliminate our rights or the rights of any stockholder to seek non-monetary relief, such as an injunction or rescission, in the event of a breach of a director's duty of care.

If the DGCL is amended to authorize corporate action further eliminating or limiting the liability of directors, then, in accordance with our amended and restated certificate of incorporation, the liability of our directors to us or our stockholders will be eliminated or limited to the fullest extent authorized by the DGCL, as so amended. Any repeal or amendment of provisions of our amended and restated certificate of incorporation limiting or eliminating the liability of directors, whether by our stockholders or by changes in law, or the adoption of any other provisions inconsistent therewith, will (unless otherwise required by applicable law) be prospective only, except to the extent such amendment or change in law permits us to further limit or eliminate the liability of directors on a retroactive basis.

Our amended and restated certificate of incorporation will also provide that we will, to the fullest extent authorized or permitted by applicable law, indemnify our current and former officers and directors, as well as those persons who, while directors or officers of our corporation, are or were serving as directors, officers, employees or agents of another entity, trust or other enterprise, including service with respect to an employee benefit plan, in connection with any threatened, pending or completed proceeding, whether civil, criminal, administrative or investigative, against all expense, liability and loss (including, without limitation, attorney's fees, judgments, fines, ERISA excise taxes and penalties and amounts paid in settlement) reasonably incurred or suffered by any such person in connection with any such proceeding. Notwithstanding the foregoing, a person eligible for indemnification pursuant to our amended and restated certificate of incorporation will be indemnified by us in connection with a proceeding initiated by such person only if such proceeding was authorized by our board of directors, except for proceedings to enforce rights to indemnification.

The right to indemnification which will be conferred by our amended and restated certificate of incorporation is a contract right that includes the right to be paid by us the expenses incurred in defending or otherwise participating in any proceeding referenced above in advance of its final disposition, provided, however, that if the DGCL requires, an advancement of expenses incurred by our officer or director (solely in the capacity as an officer or director of our corporation) will be made only upon delivery to us of an undertaking, by or on behalf of such officer or director, to repay all amounts so advanced if it is ultimately determined that such person is not entitled to be indemnified for such expenses under our amended and restated certificate of incorporation or otherwise.

The rights to indemnification and advancement of expenses will not be deemed exclusive of any other rights which any person covered by our amended and restated certificate of incorporation may have or hereafter acquire under law, our amended and restated certificate of incorporation, our bylaws, an agreement, vote of stockholders or disinterested directors, or otherwise.

Any repeal or amendment of provisions of our amended and restated certificate of incorporation affecting indemnification rights, whether by our stockholders or by changes in law, or the adoption of any other provisions inconsistent therewith, will (unless otherwise required by applicable law) be prospective only, except to the extent such amendment or change in law permits us to provide broader indemnification rights on a retroactive basis, and will not in any way diminish or adversely affect any right or protection existing at the time of such repeal or amendment or adoption of such inconsistent provision with respect to any act or omission occurring prior to such repeal or amendment or adoption of such inconsistent provision. Our amended and restated certificate of incorporation will also permit us, to the extent and in the manner authorized or permitted by law, to indemnify and to advance expenses to persons other than those specifically covered by our amended and restated certificate of incorporation.

Table of Contents

Our bylaws, which we intend to adopt immediately prior to the closing of this offering, include the provisions relating to advancement of expenses and indemnification rights consistent with those which will be set forth in our amended and restated certificate of incorporation. In addition, our bylaws provide for a right of indemnity to bring a suit in the event a claim for indemnification or advancement of expenses is not paid in full by us within a specified period of time. Our bylaws also permit us to purchase and maintain insurance, at our expense, to protect us and/or any director, officer, employee or agent of our corporation or another entity, trust or other enterprise against any expense, liability or loss, whether or not we would have the power to indemnify such person against such expense, liability or loss under the DGCL.

Any repeal or amendment of provisions of our bylaws affecting indemnification rights, whether by our board of directors, stockholders or by changes in applicable law, or the adoption of any other provisions inconsistent therewith, will (unless otherwise required by applicable law) be prospective only, except to the extent such amendment or change in law permits us to provide broader indemnification rights on a retroactive basis, and will not in any way diminish or adversely affect any right or protection existing thereunder with respect to any act or omission occurring prior to such repeal or amendment or adoption of such inconsistent provision.

We will enter into indemnification agreements with each of our officers and directors a form of which is to be filed as an exhibit to this Registration Statement. These agreements will require us to indemnify these individuals to the fullest extent permitted under Delaware law against liabilities that may arise by reason of their service to us, and to advance expenses incurred as a result of any proceeding against them as to which they could be indemnified.

Pursuant to the Underwriting Agreement to be filed as Exhibit 1.1 to this Registration Statement, we have agreed to indemnify the underwriters and the underwriters have agreed to indemnify us against certain civil liabilities that may be incurred in connection with this offering, including certain liabilities under the Securities Act.

Item 15. Recent Sales of Unregistered Securities.

In October 2020, our sponsors purchased an aggregate of 7,906,250 founder shares in exchange for a capital contribution of \$25,000. Our sponsor and FA Co-Investment purchased 6,918,525 and 987,725 of the founder shares, respectively. In January 2021, our sponsor transferred 25,000 founder shares to each of our initial director nominees. The number of founder shares issued was determined based on the expectation that the founder shares would represent 20% of the outstanding shares of common stock upon completion of this offering (not including the shares of Class A common stock underlying the private placement units). Such securities were issued in connection with our organization pursuant to the exemption from registration contained in Section 4(a)(2) of the Securities Act. Each of our sponsors is an accredited investor for purposes of Rule 501 of Regulation D.

In addition, our sponsors have committed to purchase from us an aggregate of 750,000 (or 832,500 if the underwriters' over-allotment option is exercised in full) private placement units at \$10.00 per unit (for an aggregate purchase price of \$7,500,000 or \$8,325,000 if the underwriters' over-allotment option is exercised in full). This purchase will take place on a private placement basis simultaneously with the completion of our initial public offering. Any such issuances will be made pursuant to the exemption from registration contained in Section 4(a)(2) of the Securities Act.

No underwriting discounts or commissions were paid with respect to such sales.

Item 17. Undertakings.

(a) The undersigned registrant hereby undertakes to provide to the underwriter at the closing specified in the underwriting agreements, certificates in such denominations and registered in such names as required by the underwriter to permit prompt delivery to each purchaser.

(b) Insofar as indemnification for liabilities arising under the Securities Act of 1933, as amended, or the Securities Act, may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the Securities and Exchange Commission such indemnification is against public policy as expressed in the Securities Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

(c) The undersigned registrant hereby undertakes that:

(1) For purposes of determining any liability under the Securities Act, the information omitted from the form of prospectus filed as part of this registration statement in reliance upon Rule 430A and contained in a form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of this registration statement as of the time it was declared effective.

(2) For the purpose of determining any liability under the Securities Act, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

SIGNATURES

Pursuant to the requirements of the Securities Act of 1933 the registrant has duly caused this registration statement to be signed on its behalf by the undersigned, thereunto duly authorized, in the city of Chicago, State of Illinois on the 5th day of February, 2021.
